SESSION OF 1941

REASONS FOR PARDONS GRANTED BY GOVERNOR

Commonwealth of Pennsylvania,
Governor's Office, Harrisburg, January 7, 1941.

To the Honorable, the House of Representatives of the Commonwealth of Pennsylvania:

I have the honor to present herewith the reasons for pardons granted by me from May 6, 1940 to date.

ARTHUR H. JAMES.

BOARD OF PARDONS

In re application of Joseph Matthews, C-7636, No. 2224, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Matthews, convicted of robbery, being armed with an offensive weapon, in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on January 7, 1932, be commuted from 10 years, to 8 years, 4 months, expiring on May 7, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Philadelphia County to imprisonment in the Eastern State Penitentiary for from 10 to 20 years on January 7, 1932.

The Board of Trustees of the Eastern State Penitentiary reports that applicant has maintained a good conduct record and has a constructive attitude. The trial judge, the Honorable Harry S. McDevitt states: ". . . He is a steady worker in the refrigeration plant, and before that assignment was in the shoe shop. His institutional record is good, he associates with very few of the inmates, and keeps mostly to himself. I think he is deserving of consideration, and I am inclined to think he has learned his lesson." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board of Pardons and stated that the applicant has a criminal record. That many stores were held up, and that a gun was used, however, if the Board feels that the applicant has reformed and will live an honest life, the district attorneys' office has no objection to the granting of clemency. The investigation of the Board of Pardons indicates that the applicant together with an James Eddis and one William White engaged in a series of robberies in the City of Philadelphia. His accomplices were committed to the Pennsylvania Industrial School, Huntingdon, and are now at liberty. The applicant has served approximately 8 years and 4 months of his minimum sentence. The Board has been assured that employment will be offered to the applicant upon his release. Mr. Daniel Duffy has agreed to employ the petitioner if and when he is released from the Eastern State Penitentiary. Mr. Duffy has also agreed to act as his sponsor. The Board of Pardons is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until January 7, 1952.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Henry Sload, C-9488, No. 3210, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Henry Sload, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Chester County on January 30, 1934 be commuted from 7½ years to 6 years, 3 months, expiring on April 30, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Chester County to imprisonment in the Eastern State Penitentiary for from 7½ to 15 years on the 30th day of January, 1934.

The Board of Trustees of the Eastern State Penitentiary reports that applicant has maintained a good conduct record and he has not demonstrated any bad habits. The trial judge, the Honorable W. Butler Windle, in a communication to the Board of Pardons has stated: " . . . I have no suggestion to make believing that this is a matter in regard to which the board of Pardons should assume full responsibility." The district attorney, Thomas C. Gawthrop, Esquire, appeared before the Board and stated that Sload was the ring-leader of the gang, which was the reason for the severity of the sentence. Two accomplices were involved in this crime one Harry Davis and one Theodore Griffiths. They were both sentenced to imprisonment of from 2 to 4 years in the Eastern State Penitentiary and were paroled therefrom during the year 1935. The district attorney further stated that he was not in a position to express any recommendation and he would leave the matter to the discretion of the Board of Pardons. The investigation of the Board of Pardons indicates that the applicant was unquestionably guilty of the crimes for which he was sentenced. The offense in this case was hold-up and robbery of a gas station attendant in the Borough of Phoenixville. The accomplices were immediately arrested and their state-

ments incriminated the applicant. A warrant was issued for his arrest on February 6, 1933, but it was almost a year before applicant was apprehended. The applicant has served approximately 6 years and 3 months of his minimum sentence and he has demonstrated to forsake criminal ways and become a law-abiding citizen. He will be under the sponsorship of Mr. Joseph Quinn, 1106 East Haines Street, Philadelphia, who will also provide him employment. Mr. Quinn has been engaged in business for a period of 25 years and is well able to take care of the applicant in the future by providing him definite employment.

The Board is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a useful citizen. The applicant will be under the supervision of the Board of Pardons until January 30, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Plank, C-7527, No. 3367, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of George Plank, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on November 23, 1931; and the sentence of entering to steal in the Court of Oyer and Terminer and quarter Sessions of Philadelphia County on January 9, 1936, be commuted on Bill No. 1141 November 1931, from a maximum of 10 years to a minimum of 5 years, 11 months, expiring on May 9, 1940, and a maximum of 8 years, 5 months, expiring on June 9, 1944; and on Bill No. 649 February 1935, from a minimum of 1 year to a minimum of 1 day, expiring on May 10, 1940, and a maximum of 3 years, expiring on May 10, 1943.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Philadelphia County to imprisonment in the Eastern State Penitentiary for from 1½ to 10 years on November 23, 1931. On June 24, 1933 the applicant was released from the Eastern State Penitentiary on parole. On January 9, 1936 the applicant was again sentenced by the Oyer and Terminer and Quarter Sessions Court of Philadelphia County to imprisonment in the Eastern State Penitentiary for from 1½ to 3 years for the crime of entering to steal. This sentence to begin upon the expiration of the unexpired parole period.

The Board of Trustees of the Eastern State Penitentiary reports that applicant has maintained a good conduct record and a satisfactory attitude. That the applicant has been employed in the Maintenance Department of the Penitentiary and is considered to be a willing and industrious worker. The trial judge, the Honorable Harry S. McDevitt states: " . . . Since his transfer to the Graterford Prison, his conduct record has been satisfactory, and such as he associates with are the better type inmates. He is employed as a mechanic in the garage repair shop and a steady worker. He has learned welding during his confinement, and did some of the work on the front gate of the Philadelphia institution. He may have learned his lesson, but whether he goes straight or otherwise after he leaves the institution will depend upon his environment, for I am inclined to think he is easily led and is short on moral stamina." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that if the petitioner should not go back to crime, the district attorney's office would have no objection to the extension of clemency. The investigation of the Board of Pardons indicates that the applicant was unquestionably guilty of the crimes for which he was sentenced. The offense in this case was entering an apartment occupied by Edward and Walter Warshaw, located in the Milner Hotel, 3310 Chestnut Street, Philadelphia, and stole $33.00 from the pocket of Walter Warshaw. The applicant has served five years and 11 months of the sentence imposed November 23, 1931. The Board has been assured that employment will be offered to applicant upon his release. He will be under the sponsorship of Mr. Thomas Merryweather of the Crime Prevention Bureau of Philadelphia.

The Board is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until June 9, 1944.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Leo Patrick Nicholl, D-4632, No. 3537, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Leo Patrick Nicholl, convicted of riotous destruction of buildings in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on October 3, 1934, to be computed from January 15, 1940 be commuted from 2½ years to 3 months expiring on April 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of riotous destruction of buildings and was sentenced by the Oyer and Terminer and Quarter Sessions Courts of Montgomery County to imprisonment in the Eastern State Penitentiary for from 2½ to 5 years on October 3, 1934. Sentence to be computed from the expiration of the original sentence imposed in Philadelphia County on July 22, 1929. Expiration of original sentence was January 15, 1940.

The Board of Trustees of the Eastern State Penitentiary reports that applicant has maintained a good conduct record and has maintained a constructive attitude. The trial judge, the Honorable George C. Corson stated in part as follows: " . . . However, from the record, he appears to have served quite a long period of time as a result of his conviction and if you feel that he is ready

to be paroled I have no objection to such action." The trial district attorney did not appear before the Board and he did not voice any objection in this matter. The investigation of the Board of Pardons indicates that this applicant was in the Graterford Prison riots during which property damage was done to State owned buildings. The applicant was one of about 150 prisoners who were held for questioning in connection with the riot. He and 29 others were punished with additional sentences. The applicant has demonstrated his determination to forsake criminal ways and become a useful citizen. At the time of the commission the applicant was serving a sentence imposed upon him in the County of Philadelphia on July 22, 1929, which was for a period of 7½ to 15 years. He was paroled on this sentence on January 15, 1940, in order that he might commence service on his present sentence.

The Board has been assured that employment will be offered to him upon his release. He will be under the sponsorship of Mr. Joseph Potts, who conducts the Potts Ice Cream Company. Mr. Potts will also furnish applicant with employment.

The Board is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until January 15, 1945.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re Application of Frank Richiy, C-7386, No. 3607, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of Frank Richiy, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on September 30, 1931, be commuted from life imprisonment to 8 years, 7 months, expiring on April 30, 1940, for deportation to Italy, and a maximum of life imprisonment.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of murder in the first degree and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Luzerne County to life imprisonment in the Eastern State Penitentiary.

The Board of Trustees of the Eastern State Penitentiary report that the applicant maintains a good conduct and has not demonstrated any bad habits. The trial judge, the Honorable W. A. Valentine, states: " . . . I beg to state that if he had not accompanied his petition for clemency with the proviso that he be deported I would have objected to the same. However, under the circumstances I have no objection if the Board members think his request should be granted." The assistant district attorney, J. C. Flannery, Esquire, appeared before the Board and stated that the district attorney's office was not opposed to the granting of this petition if the applicant could be definitely deported. If he is not to be deported, the office then opposes the granting of clemency. There is on file at the Eastern State Penitentiary a warrant issued by the United States Immigration Bureau for the deportation of the applicant to his native land—Italy. The investigation of the Board of Pardons reveals that the applicant slashed the throat of his former wife with a razor, cutting the jugular vein, which caused her death. An attack was made on one Adolph Benson a paramour of the applicant's former wife who was present in the room at the time the crime was committed.

The applicant has served 8 years and 7 months of his sentence. The Board of Pardons feels no further good can be accomplished by keeping him in prison. The Board is of the opinion that this applicant is ready for release, provided he returns to his native land, and therefore, recommends that the applicant's sentence be commuted for the purpose of deportation.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Leonard Grickiewicz, B-2343, No. 3789, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Leonard Grickiewicz, convicted of robbery in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on November 24, 1930, be computed from a minimum of 10 years on Bill No. 23 to a minimum of 9 years, 5 months expiring on April 24, 1940, and a maximum of 20 years, on Bill No. 26 from a minimum of 10 years to a minimum of 1 day, expiring on April 25, 1940, and in Bill No. 28 from a minimum of 10 years to a minimum of 1 day, expiring on April 26, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Allegheny County to imprisonment in the Western State Penitentiary for from 30 to 60 years on November 24, 1930.

The Board of Trustees of the Western State Penitentiary reports a satisfactory institutional record. The applicant has been employed for several years as a clerk in the parole department in the Western State Penitentiary and has never violated the trust that has been placed in him. The trial judge, the Honorable George V. Moore did not make a reply to our communication addressed to him. The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board and voiced no objection by the district attorney's office. The investigation of the Board of Pardons indicates that the applicant together with one Joe Skorki, one Jack McLaughlin, one John Eglar and one Joseph Skarupa engaged in a series of robberies and larcenies in and around Allegheny County. The applicant together with his accomplices were sentenced to the Western State Penitentiary. All of his accomplices have been released on parole. The applicant has demonstrated his determination to forsake criminal ways and become a useful citizen. He has served 9 years and 5 months of his first minimum sentence. The Board has been assured that employment will be offered to this applicant upon his release. He will be under the sponsorship of Mr. William

B. Rodgers, a former member of the Board of Trustees of the Western State Penitentiary, who will also provide applicant with employment.

The Board of Pardons is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen.

The Board, therefore, recommends that his sentence of imprisonment be commuted. He will be under the supervision of the Board of Pardons until April 26, 1960.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Clarence Foster, C-6943, No. 4205, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Clarence Foster, convicted of robbery in the Court of Oyer and Terminer and Quarter Session of Lackawanna County on March 17, 1931, be computed from 10 years to 9 years, 1 month, expiring on April 17, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Lackawanna County to imprisonment in the Eastern State Penitentiary for from 10 to 20 years on the 17th day of March, 1931.

The Board of Trustees of the Eastern State Penitentiary reports that the applicant has a good conduct record and his habits are good. The trial judge, the Honorable E. C. Newcomb, is deceased. The president judge, the Honorable Will C. Leach, in communication to the Board of Pardons stated that he knew none of the facts in the case. The district attorney, M. J. Eagen, Esquire, has advised the Board of Pardons that his office has no objection to the granting of this petition. The investigation of the Board of Pardons indicates that this applicant was unquestionably guilty for the crimes for which he was sentenced. He and his accomplice Everett Horne, were engaged in a series of crimes which extended into Delaware and Lehigh Counties. Indictments were found against the applicant and his accomplice, which resulted in his receiving a suspended sentence in the Courts of Delaware County in July 1932, and he received a sentence of from 3 to 6 years in Lehigh County to run concurrently with the original sentence imposed in Lackawanna County on March 17, 1931. Everett Horne, the accomplice in this case received a commutation of his sentence during the month of November, 1938 and is now on parole. The applicant had no prior criminal history at the time of the commission of the crimes for which he seeks release. The applicant has served 9 years and 1 month of his minimum sentence, and he has demonstrated his determination to forsake criminal ways and become a useful citizen. He will be under the sponsorship of Mr. Glenn Wager, 47 Duane Street, Niagara Falls, New York, who will also furnish him with employment.

The Board is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until March 17, 1951.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES.
Governor.

BOARD OF PARDONS

In re application of Earl Lindenmuth, D-1171, No. 4323, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Earl Lindenmuth, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 9, 1936 be commuted from 5 years to 4 years, 2 months, expiring on May 9, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Philadelphia County to imprisonment in the Eastern State Penitentiary for from 5 to 10 years on March 9, 1936.

The Board of Trustees of the Eastern State Penitentiary reports that the applicant has maintained a good conduct record and has a satisfactory attitude. The applicant has been employed as an instructor in the institution school for a period of 3 years. He has attempted to improve himself by a course of studies in mechanical drawing. He has completed the Mechanical Drawing course and has received his International Correspondence School diploma. He has also taken a course in Architectural Drafting and made good progress. The trial judge, the Honorable Harry S. McDevitt, stated in a communication to the Board of Pardons as follows "...He has studied mechanical drawing in the prison and is now instructing some of his fellow inmates on the subject. I would say his outlook is fair, even though he did seem to be a steady worker before his difficulties." The assistant district attorney, James W. Tracey, Jr., Esquire, stated that the district attorney's office did not object to the application in any way. That the applicant has maintained a satisfactory institutional record and has served a period in excess of 4 years of his minimum sentence. The investigation of the Board of Pardons indicates that the applicant is unquestionably guilty of the offenses as charged. The offense in this case was entering with intent to steal. The applicant and two co-defendants went into a delicatessen store owned by one Abe Shuman, where they stole $50.00 from the cash register. The applicant has demonstrated his determination to forsake criminal ways, and become a useful citizen. He has served 4 years of his minimum term of 5 years.

The Board has been assured that employment will be offered to this applicant upon his release by the W. H. Sink Iron Works, located at 1809 Harlan Street, Philadelphia. Mr. C. J. Rinker, 5301 Bayton Street, Philadelphia, has agreed to act as his sponsor if released.

The Board of Pardons is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until March 9, 1946.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Francis Callaghan, B-6822, No. 4575, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Francis Callaghan, convicted of robbery, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Allegheny County on April 27, 1939, to be commuted from March 11, 1939 from 2½ years to 1 year, 2 months expiring on May 11, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of robbery, receiving stolen goods and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Allegheny County to imprisonment in the Western State Penitentiary for from 2½ to 5 years on April 27, 1939. Sentence to be computed from March 11, 1939.

The Board of Trustees of the Western State Penitentiary reports a satisfactory institutional record. The trial judge, the Honorable E. E. Creps in reply to the communication addressed to him by the Board of Pardons states in part: ". . . I am satisfied that Callaghan was properly convicted, that he merited the sentence imposed, and that a pardon ought not to be granted him, nor is he entitled to any clemency." The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board of Pardons and filed an affidavit in which was indicated that a member of the jury was prejudiced against the defendant and that he voiced his prejudice to the citizens of his community. Mr. Bell advises that there was a question in the mind of the district attorney as to whether the applicant was properly convicted, and therefore, offers no objection to the granting of clemency. The investigation of the Board of Pardons indicates that there is doubt as to the applicant's guilt. The applicant together with one Mike Carrigg and one Walter Powers were arrested for the crime of robbery. Carrigg was sentenced to the Western State Penitentiary and Powers to the Allegheny County Workhouse. Both of the co-defendants testified under oath that the petitioner was not present during the commission of the crime and he did not participate in any way. The defense offers an alibi. The applicant has a criminal history extending back to 1921, however, he has not been arrested or charged with any serious offenses. He has now served 1 year and 2 months of his minimum sentence, and because of doubt expressed by the district attorney's office as to the validity of his conviction and because he has demonstrated to forsake criminal ways and become a useful citizen, the Board, recommends that his minimum term be commuted to 1 year and 2 months, expiring on May 11, 1940.

The Board has been assured that employment will be offered upon his release. He will be under the sponsor ship of Mr. Patrick Callaghan, 511 Mercer Street, Turtle Creek, Pennsylvania.

The Board of Pardons is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until March 11, 1944.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Hawrylak, No. 4809, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Hawrylak convicted of larceny of an automobile in the Court of Quarter Sessions of Allegheny County, on June 13, 1934 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of larceny of an automobile in the Court of Quarter Sessions of Allegheny County on June 13, 1934. Sentence was suspended by the court and applicant was placed on probation for a period of 1 year and ordered to pay costs of prosecution.

The trial judge, the Honorable William H. McNaugher did not reply to our letter of inquiry. Ralph T. Bell, Assistant District Attorney of Allegheny County appeared before the Board and stated that the district attorney's office had no objection to the granting of the petition. The investigation of the Board of Pardons reveals that the applicant together with one Gilbert Busch visited a beer garden in Mt. Oliver, and after consuming a considerable quantity of beer, they left the beer garden and went down the street where a Buick automobile was parked. The applicant's accomplice got into the car and managed to get it started. Applicant ran along behind the car until they turned the corner where the car stopped and Busch was unable to get it started again. Applicant and his accomplice abandoned the car and walked up the street where they saw another parked car which they got into, but were unable to get it started. Two state highway patrolmen came on the scene and asked them why their lights were not on. Applicant and accomplice not being able to answer satisfactorily, they were placed under arrest.

The applicant desires a pardon in order that he may apply for employment in the City of Pittsburgh. It is not his purpose to apply for employment with the police or fire department, but in a service capacity where his services might be utilized and with the conviction standing against him he is unable to compete in a civil service examination.

The Board, therefore, recommends that a full pardon be granted to the applicant. It will remove part of the stigma of the crime from the applicant and his family and will be of material assistance to his advancement and progress in the business world.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Doran, D-3696, No. 4814, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Joseph Doran, convicted of breaking and entering and jail breaking, the Court of Oyer and Terminer and of Quarter Sessions of Luzerne County on January 16, 1939, to be computed from October 31, 1938 be commuted from 3 years, 9 months and 25 days to a minimum of 9 months expiring on April 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crimes of breaking and entering and jail breaking and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Luzerne County on January 16, 1939, sentence to be computed from October 31, 1938, to undergo imprisonment in the Eastern State Penitentiary for from 6 months to 1 year and an additional 3 years, 9 months and 25 days, being the unexpired portion of the sentence imposed for the crime of breaking and entering.

The Board of Trustees of the Eastern State Penitentiary report the applicant having a good conduct record and that he has maintained a satisfactory attitude. The trial judge, the Honorable Benjamin R. Jones, in communication addressed to the Chaplain of the Eastern State Penitentiary states as follows: ". . . I know his wife and they have three small children and she is having a terrible struggle to get along. For the sake of her and the children, I do not hesitate to break my accustomed rule and recommend to the Board of Pardons that he be paroled and given another opportunity to re-establish his home and conduct himself as a peaceful, law-abiding citizen." This letter is on file with the Board of Pardons. The assistant district attorney, J. C. Flannery, Esquire, appeared before the Board of Pardons and stated that the district attorney's office was opposed at this time to the granting of clemency. He also stated that box-car thefts in Luzerne County had ceased after the arrest of the applicant and the office further objected because of the prison behavior of the applicant during the period he was confined in the Luzerne County Prison. The investigation of the Board of Pardons indicates that the applicant was unqestionably guilty of the crimes for which he was sentenced. The offense in this case was the breaking and entering into the property of the D. L. & W. Railroad Co., and that he did feloniously take therefrom personal property. While serving his sentence in the Luzerne County Prison information was received by the applicant that his infant child, age six months, was in a precarious condition and was not expected to live. The applicant left the Luzerne County Jail and went directly to his home to see the dying infant. He returned to the Luzerne County Prison after being out of custody for a period of one hour. The applicant has served about 1 year, 3 months of his sentence and has demonstrated his determination to forsake criminal ways and become a useful citizen. The Board has been assured that employment will be offered to the applicant upon his release by Mr. Michael Gilroy, mine foreman at the Heidilberg Coal Company. Mr. Gilroy has also offered his willingness to act as his sponsor.

The Board of Pardons is of the opinion that the applicant is ready for release and with the asssurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until May 11, 1943.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George E. Sanders, C-4948, No. 4815, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of George E. Sanders, convicted of statutory rape in the Court of Oyer and Terminer and Quarter Sessions of Susquehanna County on November 15, 1928 be commuted from 8 years to 7 years, 8 months, expiring on May 6, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of statutory rape and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Susquehanna County to imprisonment in the Eastern State Penitentiary for from 4 to 8 years on November 15, 1928. The applicant was released on parole November 15, 1932. On September 6, 1935, applicant was sentenced in the Quarter Sessions of Bradford County for the crime of driving an automobile while under the influence of intoxicating liquor and was sentenced to the Bradford County Prison to a term of 1 year. September 18, 1936, he was returned to the Eastern State Penitentiary for violation of parole.

The Board of Trustees of the Eastern State Penitentiary reports that applicant has a good conduct record. The trial judge, the Honorable Charles M. Culver has indicated in a communication to the Board of Pardons he will rely to the judgment of the Board in this case. The present district attorney, Joseph L. Carrigg, Esquire, in reply to a communication to the Board of Pardons states as follows: " . . . Replying to your letter of March 18, regarding application of George E. Sanders for a pardon may I say, that as far as this office is concerned we will be satisfied that a pardon be granted." The investigation of the Board of Pardons indicates that this applicant was unquestionably guilty of the crimes for which he was sentenced. The applicant has demonstrated his determination to forsake criminal ways and become a useful citizen. He has served approximately 7 years and 8 months of his maximum sentence of 8 years. The Board of Pardons has been assured that employment will be offered to the

applicant upon his release. The applicant's father, George Sanders, is willing to act as sponsor and has indicated his willingness to assist his son in making an adjustment, if released on parole.

The Board is of the opinion that the applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until September 6, 1940.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Frank Castro, D-969, No. 4820, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Frank Castro, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on November 1, 1935 be commuted from 10 years to 4 years, 6 months expiring on May 1, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of murder in the second degree and was sentenced in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County to imprisonment in the Eastern State Penitentiary for from 10 to 20 years on the 1st day of November, 1935.

The Board of Trustees of the Eastern State Penitentiary report that the applicant has maintained a good conduct record and has demonstrated a constructive attitude. The applicant has been employed as a barber during his entire period of incarceration. The trial judge, the Honorable Raymond MacNeille, in a communication to the Board of Pardons has stated in part ". . . the sentence imposed was lenient and am unable to say whether it would be safe to return him to society." The assistant district attorney, James W. Tracey, Jr., Esquire, stated that the district attorney's office objected to the granting of clemency in this case. That the applicant on his first trial was convicted of murder in the first degree and a new trial was granted, and which the applicant plead guilty, and the sentence that was imposed by the Court was not in the opinion of the district attorney's office excessive, and that the minimum sentence should be served. The investigation of the Board of Pardons indicates that the applicant together with a girl, Evelyn Quiachon, a Filipino, was sitting in a taproom located at the S. E. corner of 11th Street and Columbia Avenue, Philadelphia, and that one Andrew Keating accompanied by George Messmer and William Kaufer, were drinking at the bar nearby, and Keating, looking in the direction of the Filipino girl made a remark which caused the applicant to take exception. Keating and his companion left the taproom being followed by the petitioner and an argument started and the petitioner drew a razor and slashed Keating. Keating died about 5 days after the assault. The applicant has demonstrated his determination to forsake criminal ways and become a useful citizen. He has served 4 years and 6 months of his minimum sentence.

The Board has been assured that employment will be offered to the applicant by Dr. B. M. Gancy, 504 Philadelphia Pike, Wilmington, Delaware. Dr. Gancy has also consented to act as his sponsor.

The Board of Pardons is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until November 1, 1955.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Chester Bonetsky, B-5230, No. 4823, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Chester Bonetsky, convicted of robbery, receiving stolen goods in the Court of Oyer and Terminer and Quarter Sessions of Beaver County on December 2, 1936 be commuted from 10 years to a min. of 3 years, 5 months expiring on May 2, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, receiving stolen goods and was sentenced by the Oyer and Terminer and Quarter Sessions Courts of Beaver County to imprisonment in the Western State Penitentiary for from 3 to 10 years on the 2nd day of December, 1936.

The Board of Trustees of the Western State Penitentiary did not recommend this applicant at this time because of his prior criminal history. His institutional record is reported as being satisfactory. The trial judge, the Honorable Frank E. Reader, has advised the Board of Pardons that he has no recommendation to make. The trial district attorney, Robert E. McCreary, Esquire, in a communication to the Board of Pardons states: ". . . I am inclined to the view indicated by the Board of Trustees that the parole record of this man justifies the postponement of consideration of clemency to the applicant." The investigation of the Board of Pardons reveals that the applicant was unquestionably guilty of the crimes for which he was sentenced. The offense in this case was entering a butcher shop located in the Borough of Ambridge, and after asking for meat the applicant pointed a barrel shot-gun stating that he wanted his money. The proprietor resisted and the applicant pulled the trigger of the gun in an effort to shoot the proprietor, but the hammer of the gun embedded itself in the flesh of Mr. Chaiet's hand, preventing the gun from being discharged.

The applicant has served 5 months beyond his minimum term. The Board has been assured that employment will be offered to this applicant upon his release. He will be under the sponsorship of Mr. George Hoy, Chief of Police, Ford City, Pennsylvania, who has advised the Board of

Pardons that he will make every effort to assist this applicant.

The Board is of the opinion that this applicant is ready for release and with the assurance of employment and the excellent sponsorship there is every reason to believe that he will conduct himself in the future as a law-abiding citizen. The applicant will be under the supervision of the Board of Pardons until December 2, 1946.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Howard A. Hunter, No. 4834, April Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Howard A. Hunter, convicted of false pretense and conspiracy in the Court of Quarter Sessions of Beaver County, on July 8, 1939 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to five bills of indictment in the Quarter Sessions Court of Beaver County on July 8, 1939, to the charges of false pretense and conspiracy, and was sentenced to undergo imprisonment in the Allegheny County Workhouse for from 4 months to 1 year, to pay costs and fine of $656.15, make restitution in the amount of $1349.84. The applicant was released on parole November 7, 1939. Full restitution has been made.

The trial judge, the Honorable Frank E. Reader, has advised the Board of Pardons that the petition of the applicant should be favorably considered. The trial district attorney, Robert E. McCreary, Esquire, communication to the Board of Pardons is as follows: " . . . we think the end of justice will not be frustrated by the granting of this application." The investigation of the Board of Pardons reveals that the applicant had been duly elected County Commissioner of the County of Beaver, did with his accomplice convert funds and property of Beaver County to his own use and to the use of one Charles Goldstein and other persons, the same being then and there the moneys and property of the said Beaver County Institution District and the said Beaver County Poor District convert same to their own use. The applicant is engaged in the general contract business and has been so engaged for a period of years. He employs from 20 to 200 men and specializes mainly in construction work. In the transaction of his contracting business it is necessary from time to time to post bond, and because of this conviction against him, it is difficult for him to obtain a bond.

The Board, therefore, recommends that a full pardon be granted to the applicant. It will remove part of the stigma of the crime from the applicant and his family and will be of material assistance to his advancement and progress in the business world.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of David Prosser, B-4302, No. 135A, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on David Prosser, convicted of entering, felonious shooting with intent to kill, aggravated assault and battery, in the Quarter Sessions Court of Mercer County, on June 7, 1932; and of breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on September 8, 1934, be commuted on Bill No. 164 September 1934, from a minimum of 3 years to a minimum of 1 day, expiring on June 12, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (And also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, vs. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the

Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of James Duran, B-2171, No. 136A, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on James Duran, convicted of breaking and entering with intent to commit a felony, larceny of an auto, in the Quarter Sessions Court of Erie County, on August 28, 1930, be commuted on Bill No. 34 September Sessions from a minimum of 5 years to a minimum of 1 day, expiring on August 28, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Harr, C-7152, No. 137A, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on John Harr, convicted of felonious entry, larceny, receiving stolen goods, burglary, in the Oyer and Terminer and Quarter Sessions Court of Bucks County, on June 23, 1930, be commuted on Bill No. 75 from a minimum of 1 year to a minimum of 1 day, expiring on June 12, 1940, on Bill No. 76 from a minimum of 1 year to a minimum of 1 day, expiring on June 13, 1940, and on Bill No. 77 from a minimum of 1 year to a minimum of 1 day, expiring on June 4, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum

of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

BOARD OF PARDONS

In re application of William Smoker, C-6208, No. 424, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on William Smoker, convicted of burglary, entering to steal, larceny, in the Oyer and Terminer Court of Philadelphia County on June 5, 1930, be commuted on Bill No. 142 from a minimum of 5 years to a minimum of 1 day, expiring on June 6, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. The above recommendation is approved:
ARTHUR H. JAMES.
Governor

BOARD OF PARDONS

In re application of Antoni Algero, A-14089, No. 485, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Antoni Algero, convicted of murder of the second degree in the Court of Oyer and Terminer of McKean County on June 4, 1925 be commuted from 20 years to 11 years, 7 months, expiring on June 15, 1940 for deportation to Italy.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of murder in the second degree and was sentenced by the Oyer and Terminer Court of McKean County on June 4, 1925 to a term of imprisonment in the Western State Penitentiary for from 10 to 20 years. Applicant was released on parole December 4, 1935.

The petitioner's history on parole was satisfactory until about August 1, 1936 when he left the state of Pennsylvania without permission from the proper authorities and went to the city of Cleveland, Ohio, from which point he reported until November 4, 1936. On December 18, 1936 applicant was arrested in the city of Cleveland charged with shooting to kill. On May 4, 1937 he was sentenced by the Honorable Walter McMahon of the Criminal Courts, Cuyahoga County, Ohio, to a term of imprisonment in the Ohio State Penitentiary for from 1 to 20 years. The petitioner was released on parole and returned to the Western State Penitentiary on May 15, 1939 as a parole violator. The United States Department of Labor, Immigration Bureau, has lodged a warrant for the deportation of the applicant upon his release from the custody of the prison authorities to his native land—Italy. The Board of Trustees of the Western State Penitentiary advises us that they would only recommend his release subject to deportation to Italy. The sentencing judge had not made any reply to our letter of inquiry as to its attitude in this case.

The Board of Pardons is of the opinion that no further good can be accomplished by retaining the custody of the petitioner in the Western State Penitentiary, and therefore, recommends that the sentence be commuted to a maximum term of 11 years, 7 months, expiring on June 15, 1940 on condition that he is deported to Italy and that the applicant remain on parole under the supervision of the Board of Pardons until November 15, 1948.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Thomas, C-277, No. 592, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Joseph Thomas, convicted of attempted robbery, assault with intent to commit rape, rape, in the Oyer and Terminer and Quarter Sessions, Court of Chester County, on May 3, 1920, be commuted on Bill No. 7 August 1920, from a minimum of 2½ years to a minimum of 1 day, expiring on May 4, 1940, and on Bill No. 8 August 1920, from a minimum of 7½ years to a minimum of 1 day, expiring on May 5, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of David Lehr, C-2982, No. 1349, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on David Lehr, convicted of robbery, assault and battery, rape, in the Court of Oyer and Terminer of Luzerne County, on May 29, 1925, be commuted on Bill No. 399 June Sessions, 1925, from a minimum of 7½ years to a minimum of 1 day, expiring on May 30, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice

that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Carrol Becker, C-5660, No. 1517, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Carrol Becker, convicted of breaking and entering, assault with intent to rob in the Court of Oyer and Terminer and Quarter Sessions of Lehigh County on October 4, 1929 be commuted from June 20, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of breaking and entering, assault with intent to rob and was sentenced in the Oyer and Terminer and Quarter Sessions Court of Lehigh County on October 4, 1929 to pay a fine of $100.00 and to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years. The applicant was released on parole at the expiration of his minimum term and his history on parole remains satisfactory until August 15, 1935 at which time he was arrested in the city of Allentown, Pennsylvania, as a fugitive from the State of New York, on the charge of Grand Larceny 2nd. On November 14, 1935 petitioner entered a plea of guilty and was sentenced to the Niagara County Jail, Lockport, New York, for the term of five months. Upon his release from the New York jail he was returned to the Eastern State Penitentiary as a parole violator. Since the petitioner's return to the penitentiary he has served approximately 4 years and 6 months as a penalty for his parole violation.

The Board of Trustees of the Eastern State Penitentiary reports that the applicant has maintained a satisfactory conduct record. The trial judge, the Honorable Richard W. Iobst, in communication to the Board of Pardons states: ". . . if the Board feels satisfied to grant the Pardon I have no objection." The district attorney entered no objection to the petition. The Supervisor of Paroles has advised the Board he has no objection to the release, because of his long incarceration.

Mr. William McQuay, R. F. D. No. 3, Bloomsburg, Pennsylvania, has offered employment to the petitioner, if he is released, and he has also agreed to act as his sponsor and look after his welfare. The Board of Pardons is of the opinion that the applicant has been sufficiently punished and there is every reason to believe that if he is released he will become a useful and law-abiding citizen, and therefore, recommends that the sentence be commuted from a maximum term of 10 years to a minimum of 9 years, 6 months, expiring on June 20, 1940. The applicant will remain under the supervision of the Board of Pardons until December 20, 1940.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harold Schreckengost, B-2756, No. 1540, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Harold Schreckengost, convicted of burglary and larceny in the Court of Oyer and Terminer of Armstrong County on July 27, 1931, be commuted from 6 years to 5 years, 9 months, expiring on June 27, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of burglary and larceny in the Oyer and Terminer Court of Armstrong County on June 27, 1931 and was sentenced to pay a fine of $100.00 and to a term of imprisonment in the Western State Penitentiary for from 3 to 6 years. Sentence to be served concurrently with the unexpired parole period that was imposed on November 27, 1926. The applicant was paroled from the Western State Penitentiary on June 27, 1934 and he has maintained a satisfactory record until October 1936, at which time, he was arrested by the Federal Authorities and sentenced to the Federal Penitentiary at Leavenworth, Kansas, for violation of the Narcotic Act. On September 23, 1937 he was returned to the Western State Penitentiary as a parole violator and has been continuously incarcerated since that time. The Board of Trustees of the Western State Penitentiary in communication to the Board of Pardons states that they would probably not recommend because of his previous criminal record.

The trial judge, the Honorable Harry S. Rimer, advises the Board he has no recommendation to make. The Supervisor of Paroles has informed the Board of Pardons that he feels the applicant has been sufficiently punished, and therefore, offers no objection to the granting of this petition.

The Board of Pardons is of the opinion that the petitioner, if he is released, will become a useful and law-abiding citizen, and therefore, recommends that a new minimum term of 5 years, 9 months, expiring on June 27, 1940. He will remain on parole under the supervision of the Board of Pardons until September 27, 1940.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of James B. Stockman, D-4641, No. 1875, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James B. Stockman, convicted of setting fire to public buildings in the Court of Oyer and Terminer of Montgomery County on October 1, 1934 to begin January 15, 1940, be commuted from 3 years to 6 months expiring July 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of setting fire to public buildings and was sentenced by the Oyer and Terminer Court of Montgomery County on October 1, 1934 to a term of imprisonment in the Eastern State Penitentiary for from 3 to 6 years. This sentence to begin at the expiration of sentence imposed on October 7, 1931 by the Court of Delaware County for a term of 5 to 10 years for the crime of burglary which sentence the applicant was placed on parole January 15, 1940.

The Board of Trustees of the Eastern State Penitentiary states that prior to August 1934 and subsequent to that date, this man's conduct record is satisfactory. During the past 5½ years, his conduct and actions indicate he has profited by his past experiences, and he now exhibits a stable personality. The trial judge, the Honorable George C. Corson, in communication to the Board of Pardons states he does not object to the application. The district attorney has also advised the Board that he had no objection to the granting of clemency. Colonel F. Dickinson Shaw, 34 South 17th Street, Philadelphia, Pennsylvania, has advised the Board that he will give the petitioner a home at the Home of Industry, 73rd Street and Paschall Avenue, Philadelphia, Pennsylvania, and that he will also look after his welfare in the event he is released on parole.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished and there is every reason to believe that he will become a useful and law-abiding citizen if released, and the Board, therefore, recommends that the minimum sentence be commuted to a term of 6 months, expiring on July 15, 1940. The applicant will remain under the supervision of the Board of Pardons until January 15, 1946.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Bennie J. Levinsky, B-1122, No. 2407, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Bennie J. Levinsky, convicted of taking an automobile without consent of owner in the Court of Quarter Sessions of Armstrong County on November 19, 1928 be commuted from 2 years to 1 day expiring on July 10, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of taking a motor vehicle without consent of owner and was sentenced in the Quarter Sessions Court of Armstrong County on November 19, 1928 to a term of imprisonment in the Western State Penitentiary for from 1 to 2 years. Applicant was released on parole December 19, 1929. On April 9, 1930 the applicant was sentenced in the Quarter Sessions Court of Montgomery County to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years for the crime of robbery, being armed with an offensive weapon, larceny. The applicant is at present confined in the Eastern State Penitentiary. Levinsky minimum sentence has already expired and the Board of Trustees of the Eastern State Penitentiary have recommended his release on parole to become effective July 9, 1940.

In communication with the trial judge, the Honorable J. Frank Graff, he has advised that he has no objection in granting clemency in this case and that he would rely on the judgment of the Board of Pardons. The Supervisor of Paroles has expressed no objection to the granting of clemency in this case. The trial district attorney entered no objection to the granting of this petition.

The Board of Pardons is of the opinion that Levinsky has been sufficiently punished by serving all of his present sentence, and that there is every reason to believe that he will live a useful and law abiding life, if released on parole, and therefore, recommends that the sentence be commuted to a new minimum sentence of 1 day, expiring on July 10, 1940. The applicant will remain on parole under the supervision of the Board of Pardons until June 9, 1941 on this Bill of Indictment and until April 9, 1950 on sentence imposed in Montgomery County.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Marshall Pepperis convicted of entering to steal, larceny, in the Oyer and Terminer Court of Philadelphia County on May 16, 1930, be commuted on Bill No. 642 May 1930 sessions from a minimum of 5 years to a minimum of 1 day, expiring on May 17, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent mini-

mum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Durkay, C-6687, No. 2655, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Joseph Durkay, convicted of breaking and entering, robbery, in the Court of Oyer and Terminer and Quarter Sessions of Columbia County on December 22, 1930, be commuted from 20 years to 5 years, 6 months expiring on June 8, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of breaking and entering, robbery in the Oyer and Terminer and Quarter Sessions Court of Columbia County on December 22, 1930 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years. On December 14, 1935 the minimum sentence was commuted by the Governor upon the recommendation of the Board of Pardons to a minimum term of 5 years. He was placed on parole December 21, 1935. The records of the Board of Pardons indicate that Durkay has maintained a satisfactory record while on parole until October 28, 1939 at which time he was arrested in the city of Detroit, Michigan, charged with possession of an unregistered gun. On November 11, 1939, petitioner entered a plea of guilty before the Honorable Judge Cotter in the Recorder's Court and was placed on probation for a period of eight months. Because of this conviction he was returned to the Eastern State Penitentiary as a parole violator on December 9, 1939.

The trial judge, the Honorable Charles Evans, has advised the Board of Pardons that the petitioner should be released on parole. The district attorney has expressed no objection. The supervisor of Paroles has advised the Board of Pardons that a definite parole plan could be obtained and that he offered no objection to his release on parole.

The Reverend John M. Puskar of St. Joseph's Catholic Church, Nanticoke, Pennsylvania, has offered to act as his sponsor in this case and to obtain employment for Durkay in the event he was released.

The Board of Pardons is of the opinion that he has been sufficiently punished and that if he is released he will become a useful and law-abiding citizen, and therefore, recommends that his sentence be commuted from a maximum term of 20 years to a minimum term of 5 years, 6 months, expiring on June 8, 1940, The applicant will remain on parole under the supervision of the Board of Pardons until December 8, 1954.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Tate, B-3542, No. 3387, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the life sentence of George Tate, convicted of murder in the first degree, in the Court of Oyer and Terminer and Quarter Sessions of Fayette County on December 20, 1932, be commuted from life imprisonment to 7 years, 6 months, expiring on June 30, 1940, and a maximum of life imprisonment.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of murder in the first degree and was sentenced in the Oyer and Terminer and Quarter Sessions Court of Fayette County on December 30, 1932 to life imprisonment in the Western State Penitentiary.

The Board of Trustees of the Western State Penitentiary states: ". . . We would probably recommend him for parole (1) first conviction (2) excellent institutional record." The trial judge, the Honorable S. John Morrow, in communication to the Board of Pardons under date of March 22, 1940 stated: ". . . in my opinion each of these defendants was given every consideration in the disposition of his case that could be given under the facts. I do not know of any good reason justifying clemency at this time." This letter was written in connection with

the applicant and one Harry William Dugan. In communication addressed to the trial district attorney, Wade K. Newell, Esquire, he did not reply to our letter of inquiry.

The Board of Pardons feels because of the unusual circumstances surrounding the crime that the applicant has been sufficiently punished and if clemency is granted he will become a useful and law-abiding citizen, and therefore, recommends commutation of his sentence to a minimum term of 7 years, 6 months, expiring on June 30, 1940, and the applicant will remain on parole under the supervision of the Board of Pardons the balance of his natural life.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Carto, D-1546, No. 3664, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Carto, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on August 25, 1936 be commuted from 5½ years to 3 years, 10 months, expiring on June 25, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon and was sentenced by the Oyer and Terminer and Quarter Sessions Courts of Philadelphia County on August 25, 1936 to a term of imprisonment in the Eastern State Penitentiary for from 5½ to 20 years.

The Board of Trustees of the Eastern State Penitentiary reports that the applicant has maintained a good conduct record. The trial judge, the Honorable Raymond MacNeille, has advised the Board that he is satisfied with any action taken by the Board of Pardons. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the applicant had helped the police in solving the crime, and if the Board felt that the applicant had served a sufficient period of time, that the district attorney's office would have no objection to the granting of his prayer. Mr. A. T. Holcombe, 1018 North Bodine Street, Philadelphia, Pennsylvania, has offered to employ the applicant and act as his sponsor and look after his welfare during his period of parole.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished and if he is released he will become a useful and law-abiding citizen, and the Board, therefore, recommends that the minimum sentence be commuted to a term of 3 years, 10 months, expiring on June 25, 1940. The applicant will remain under the supervision of the Board of Pardons until August 25, 1956.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of James Bernard Schoeppner, B-3935, No. 3750, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of James Bernard Schoeppner, convicted of larceny of an automobile in the Court of Quarter Sessions of Alegheny County on December 15, 1933 be commuted from 5 years on Bill No. 99 to 1 year, 6 months, expiring on June 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of larceny of an automobile and was convicted in the Quarter Sessions Court of Allegheny County on December 15, 1933 and was sentenced to imprisonment in the Western State Penitentiary for from 10 to 20 years.

An investigation of the facts of the crime reveal that the applicant with one William Bebout were arrested on October 31, 1933 being charged with larceny of an automobile and were indicted by the Grand Jury on Bills Nos. 180-181-182-183-184-185-189-190-191-192-193-194-195-196-197-198-199-200. The applicant was convicted on all bills of indictment except Bill No. 185, to which bill he was found not guilty. Sentence was imposed on Bills Nos. 98 and 99 and suspended on all other bills.

The Board of Trustees of the Western State Penitentiary in communication to the Board of Pardons state that they would probably conditionally recommend him for parole subject to an adequate parole plan. He has maintained an excellent institutional record and in addition he has served 6 years and 5 months of his sentence. The trial judge, the Honorable O. Clare Kent, in communication to the Board of Pardons has advised that the petition contains some merit and that he will rely on the judgment of the Board. Mr. Louis Martig, manager of a freight trucking concern, with an office at 900 Venial Street, Pittsburgh, Pennsylvania, advised the Board that he would act as sponsor for the applicant in the event he was released. Mr. John Gierl, 1001 Spring Garden Avenue, Pittsburgh, Pennsylvania, has offered to furnish employment to the applicant.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished, and therefore, recommends that the sentence be commuted to the minimum term of 6 years and 6 months, expiring on June 15, 1940. The applicant will remain on parole under the supervision of the Board of Pardons until December 15, 1948.

Respectfully submitted,

S. S. LEWIS.
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harold R. Stingley, C-9325, No. 4105, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harold R. Stingley, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer of Cumberland County on December 5, 1933 be commuted from 10 years to 6 years, 6 months, expiring on June 5, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer Court of Cumberland County on December 5, 1933 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Eastern State Penitentiary reports that the applicant has maintained a good conduct record and that his attitude has been constructive. The trial judge, the Honorable Fred S. Reese states: " . . .sentence justified—satisfied with the decision of the Board." The district attorney entered no objection.

Mr. William Rabinowitz who conducts a wholesale meat business at 10 North Delaware Avenue, Philadelphia, Pennsylvania, has offered employment to the applicant, if released, and in addition to act as his sponsor and look after his welfare while on parole.

The Board of Pardons is of the opinion that the petitioner has been sufficiently punished and there is every reason to believe that he will become a useful and law-abiding citizen, if he is released on parole, and the Board, therefore, recommends that his sentence be commuted to a minimum term of 6 years, 6 months, expiring on June 5, 1940. The applicant will remain on parole under the supervision of the Board of Pardons until December 5, 1953.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Benjamin Hudson, D-362, No. 4134, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Benjamin Hudson, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on February 15, 1935, be commuted from a minimum term of 7½ years on Bill No. 347 to a minimum term of 5 years, 4 months, expiring on June 15, 1940, and a maximum of 15 years, on Bill No. 348 from a minimum of 2½ years to a minimum of 1 day, expiring on June 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on February 15, 1935 to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Eastern State Penitentiary reports that the applicant has maintained a good conduct record and has maintained a satisfactory attitude. The applicant was only a little past 16 years of age when committed to the institution. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated to the Board that the district attorney's office opposed the granting of clemency, because of the fact that guns were used and that an automobile had been stolen to commit the crimes, of which there were five. The trial judge, the Honorable Howard Davis, in a communication to the Board of Pardons states in part: ". . . Defendant was sentenced by me February 13, 1935, for a term of 10 to 20 years. I see nothing whatever to recommend clemency in his case." However, in communication to Herbert L. Maris, Esquire, under date of April 22, 1940 Judge Davis states in part: ". . . If the defendant has been in prison for five years, it would seem to me that he perhaps has received a very salutary lesson." Mr. Christopher Barske, Lansdowne, Pennsylvania, has offered to employ the petitioner if he is released. Mr. John Hudson, petitioner's brother, has offered to act as sponsor and to take care of his general welfare in the event he is released.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished, and because of his youth at the time of his sentence, and the fact that he has served over 5 years for his offense, it has been a salutary lesson to him, and he will become a useful and law-abiding citizen if released on parole. The Board, therefore, recommends that his sentence be commuted to a minimum term of 5 years, 4 months, 1 day, expiring on June 16, 1940, and he will remain on parole under the supervision of the Board of Pardons until February 15, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph H. Hartland, B-6220, No. 4445, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph H. Hartland, convicted of embezzlement by public officer in the Court of Quarter Sessions of Lawrence County on July 12, 1934, effective be commuted from 2½ years from June 2, 1938 to 2 years expiring on June 2, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead nolle contendere to the crime of embezzlement by public officer and was sentenced in the Quarter Sessions Court of Lawrence County on July 12, 1938 to pay a fine of $12,000 and to imprisonment in the Western State Penitentiary for from 2½ to 5 years. Sentence to be computed from June 2, 1938.

The Board of Trustees of the Western State Penitentiary

reports that the applicant has maintained an excellent institutional record and that they would probably recommend him. The trial judge, the Honorable W. Walter Braham, states: ". . . From a personal standpoint I would like very much to see Mr. Hartland paroled. He is a longtime friend of mine and was a client during the period of time when I was at the bar. In my official capacity it appears to me that a breach of trust such as this must be dealt with sternly. At thsi point I bow however to the superior knowledge of the Board. You have a knowledge of similar offenses and how they have been dealt with. It may be that under similar circumstances other offenders have been paroled in a similar or less time. If so, nothing would please me more than to have clemency extended to him. My private opinion is that the law will not have any further difficulty with Mr. Hartland, yet I feel the problem is one particularly for the Board. You have not only the duty but a superior opportunity of seeing that the administration of justice is equalized in cases such as this." The district attorney, John G. Lamoree, Esquire, appeared before the Board and stated that he did not object to the granting of clemency in this matter, and further, that their office was entirely satisfied to leave the ultimate disposition of the case up to the composite judgment of the Pardon Board. Numerous letters have been filed by citizens of Lawrence County attesting to the good character and reputation of the petitioner in this case. In addition substantial restitution has been made by the applicant of the sums embezzled. The applicant, if released, will be employed by his father in the City of Miami, Florida, as a bricklayer and will be sponsored by Mr. Benjamin B. Hartland, who will look after the interest of the applicant in the event of his release.

The Board of Pardons is of the opinion that the petitioner has been sufficiently punished and he will become a useful and law-abiding citizen, and therefore, recommends that the sentence be commuted to a minimum term of 2 years, expiring on June 2, 1940, and the applicant will remain under the supervision of the Board of Pardons until June 2, 1943.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Richard Darlington, No. 4610, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Richard Darlington, convicted of driving an automobile while under the influence of intoxicating liquor, in the Court of Quarter Sessions of Montgomery County, on March 17, 1939 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of driving an automobile while under the influence of intoxicating liquor and was sentenced by the Quarter Sessions Court of Montgomery County on March 17, 1939 to pay a fine of $100 and costs of prosecution. The sentence of the Court was complied with.

The trial judge, the Honorable Harold M. Knight, in communication to the Board of Pardons stated that he had no objection to the granting of the petition. The assistant district attorney, Arthur W. Dean, Esquire, in communication to the Board of Pardons stated: ". . .We can see no valid reason why the case against Richard Darlington differs from that of any defendant arrested on a charge of driving while under the influence of intoxicating liquor, nor can we see why his offense should be expiated. There seems to be no valid reason in the petition why he should be completely pardoned and, as is stated in the petition, he will soon be able to obtain his driver's license and therefore any penalty inflicted will have been completed." The petitioner in this case operates the Foedisch Coal Company, 1169 Broad Street Station Building, Philadelphia, Pennsylvania, and the operating of an automobile is a necessity for the successful operation of his business. A term of one year has elapsed between the time of his conviction and application for a pardon, for which reason, the granting of a pardon would not conflict with the rules of the Department of Revenue in suspending the licenses of those persons convicted for the crime of driving an automobile while under the influence of intoxicating liquor.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished and feels that the granting of a full pardon will in part remove the stigma of the crime from the applicant and will be of material assistance to him, and the Board, therefore, recommends that a full pardon be granted to the applicant.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Frank Rock, C-6225, No. 4628A, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Frank Rock, convicted of robbery with an offensive weapon, larceny of an automobile, in the Oyer and Terminer Court of Philadelphia County, on June 12, 1930, be commuted on Bill No. 1094 May 1930 Sessions from a minimum of 5 years to a minimum of 1 day, expiring on June 13, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favor-

ably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Isador B. Griver, No. 4813, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Isador B. Griver, convicted of omitting to make entries in books of account, false pretense, conspiracy, in the Court of Quarter Sessions of Philadelphia County, on November 6, 1925 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead nolle contendere to the crime of omitting to make entries in books of account, false pretense, conspiracy, and was sentenced in the Quarter Sessions Court of Philadelphia County on November 6, 1925 to 6 years in the Philadelphia County Prison, from which he was released on parole December 6, 1929.

The petitioner is now employed by the City of Los Angeles, California, he having passed a civil service examination during the year of 1937 for a position as a general clerk. Because of a recent ruling of the Civil Service Commission of Los Angeles County the applicant is in danger of losing his position if he does not receive a pardon for his offense committed in the Commonwealth of Pennsylvania. For the past 10 years and 6 months the applicant has lived a useful and law-abiding life and has completely rehabilitated himself.

The trial judge, the Honorable Harry S. McDevitt, in communication to the Board of Pardons states in part: ". . . However, since it is his family that suffers and not himself, you may say to the Board of Pardons so far as I am concerned, I have no objection to a full pardon." This letter was addressed to William M. Gerber, Esquire, the attorney who presented the petitioner's case to the Board of Pardons. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the applicant had never been arrested before and had never been arrested since that time, and the district attorney's office would have no objection to the granting of the pardon.

The Board of Pardons after a careful review of all the facts in the case are of the opinion that the petitioner has been sufficiently punished and that a full and complete pardon would in part remove the stigma of the crime and would permit him to retain his employment in the City of Los Angeles, and the Board, therefore, recommends that a full and complete pardon be granted.

Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John M. Hardcastle, No. 4836, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John M. Hardcastle, convicted of embezzlement, conversion, conspiracy, false pretense, in the Court of Quarter Sessions of Delaware County, on February 3, 1933, effective as of February 14, 1934, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of embezzlement by corporate officer, conversion, conspiracy, false pretenses, false statement and was sentenced in the Quarter Sessions Court of Delaware County on February 3, 1935 to pay a fine of $1000, costs of prosecution and to undergo imprisonment in the Delaware County Prison for from 1 to 3 years and to make restitution in the sum of $10,000. Sentence to be effective as of February 14, 1934. The applicant was released on parole January 31, 1935.

The petitioner's purpose in asking for a full and complete pardon is that he may better himself in his employment, which will enable him to obtain a bond, and will permit him to engage in the Real Estate Business, because of this conviction remaining on his record he is unable to obtain a bond.

The trial judge, the Honorable Samuel L. Reed, is deceased. The president judge of Delaware County did not reply to the Boards letter of inquiry in this matter. The assistant district attorney, Guy DeFuria, Esquire, appeared before the Board of Pardons and stated that the district attorney's office joined in the application for a pardon in this case. That although a large amount of money was stolen the petitioner got none of the profit, but simply carried out the orders of the bank president, which caused him to become involved in the case, and

further, the trial district attorney, William Toal, Esquire, feels that a full and complete pardon should be granted.

The Board of Pardons is of the opinion that the petitioner has been sufficiently punished for his participation in the crime, and that a full and complete pardon will in part remove the stigma of the crime and permit him to obtain a bond which will allow him to pursue a course of business which will be more profitable to him and materially aid in the support of his dependent wife and child.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Morris Sandler, No. 4869, May Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommended that Morris Sandlar, convicted of setting up an illegal lottery in the Court of Quarter Session of Philadelphia County, on August 27, 1935 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of setting up an illegal lottery and was sentenced in the Quarter Sessions Court of Philadelphia County on August 27, 1935 to 60 days in the Philadelphia County Prison, which sentence was reconsidered and suspended within one hour after conviction.

The trial judge, the Honorable Howard A. Davis, in communication to the Board of Pardons states that he had no recommendation to make in this case. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board for the district attorney's office and stated that their office had no objection to the granting of clemency in this case.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished by the conviction obtained against him and that a full and complete pardon will in part remove the stigma of the crime from the applicant, and will permit him to obtain employment which he has not been able to do, because of this conviction, and the Board, therefore, recommends that a full and complete pardon be granted.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Albert Hart, D-864, No. 138A, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Albert Hart, convicted of enticing minor for immoral purposes, assault and battery with intent to rape in the Oyer and Terminer Court of Lancaster County, on September 20, 1935, be commuted on Bill No. 9, December Sessions, 1935 from a minimum of 2½ years to a minimum of 1 day, expiring on September 21, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Benjamin LeHorn, C-6356, No. 139 A., June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Benjamin LeHorn, convicted of burglary, in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County, on August 25, 1930, be commuted on Bill No. 964 July Sessions from a minimum of 5 years to a minimum of 1 day, expiring on August 26, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Vito Tomaccio, D-881, No. 140 A., June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Vito Tomaccio, convicted of assault and battery, aggravated assault and battery with intent to ravish, attempted rape, attempted sodomy, in the Oyer and Terminer Court of Philadelphia County, on September 30, 1935, be commuted on Bill No. 1219 September Session from a minimum of 2½ years to a minimum of 1 day, expiring on October 1, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Gus Nazzaro, No. 256, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Guz Nazzaro, convicted of attempted robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on June 2, 1930 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of attempted robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on June 2, 1930 and was sentenced to undergo imprisonment in the Eastern State Penitentiary for from 5 to 20 years. The petitioner was transferred to Berks County Prison from which he made his escape on September 22, 1934 and was sentenced in the Oyer and Terminer and Quarter Sessions Court of Berks County to a term of imprisonment of 4 months for the crime of escape. This sentence to run concurrently with sentence imposed in Philadelphia County on June 2, 1930. The petitioner filed an application to the Board of Pardons which was heard at the June 1935 meeting and clemency being granted and he was thereupon released on parole.

The trial judge, the Honorable Harry S. McDevitt, in a communication under date of May 29, 1940, states: ". . . If you see fit to grant him a pardon, I have no objection to it." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the district attorney's office had no interest in this petition, because of the fact that the minimum term of the Philadelphia County had been satisfied. The district attorney of Berks County in a communication to the Board stated that his office had no objection to the granting of the commutation. The Supervisor of Paroles advised the Board he had no objection to the granting of clemency if the Board feels that it is warranted.

After petitioner's release from the Eastern State Penitentiary he was given permission to live in the city of Cleveland, Ohio, whereupon he was placed under the jurisdiction of the Ohio State Authorities. A report submitted from the Ohio State Authorities under date of June 6, 1940 states in part: ". . . In view of the results of my investigation I feel that this subject's request for a complete pardon has definite merits and recommend that same be given favorable consideration."

The Board is of the opinion that petitioner in this case has completely rehabilitated himself and he is now a law-abiding citizen and an asset to the community in which he lives, and that the granting of a pardon will in part remove the stigma of the crimes from the applicant and his family and will be of material assistance to him, and the Board, therefore, recommends that a full and complete pardon be granted to the applicant.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA.
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Frank Dombek, A-11287, A-8167, No. 286, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Frank Dombek, convicted of murder in the first degree in the Court of Oyer and Terminer and Quater Sessions of Allegheny County, on March 8, 1920 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of murder in the first degree in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on March 8, 1920 and was sentenced to death. On March 29, 1921 sentence was commuted to life imprisonment in the Western State Penitentiary. The petitioner submitted an application to the Board of Pardons for clemency which was heard at the July 1933 meeting of the Board. Clemency was granted and he was released on parole August 3, 1933 to reside in the city of Chicago, Illinois.

The president judge, the Honorable A. B. Reid, in a communication to the Board of Pardons advised them that he had no comment to make. The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board and stated that the attitude of the district attorney's office was that the matter was one to be decided by the Board, and that his office had no comment to make for or against the granting of this petition. The Supervisor of Paroles advised the Board that because of the record made by the applicant on parole, he had no objection to him being granted further clemency at this time. After the release of applicant from the Western State Penitentiary he was employed by the Kline Tool Company, 3200 Belmont Avenue, Chicago where he has been continuously employed for the past 7 years. An investigation made by an agent of the Illinois State Authorities reports in part: ". . . It is my recommendation that this subject has learned his lesson and will once again become a useful citizen to society. The reason subject is anxious to receive his pardon is because he is an alien, and is afraid he is going to lose his job, when the firm find out he has not taken out his citizenship papers, because the firm is checking on all of the employees, whether they are aliens or American citizens. In view of the foregoing facts, I recommend he be given consideration in his application for final pardon, because he has made a splendid record while on parole."

The petitioner is married and he is the father of one child. He resides with his wife in Chicago. Since his release he has made every effort to abide by the regulations laid down by the Board governing convicts on parole. He has completely rehabilitated himself and is now a law-abiding citizen. The Board feels that the granting of a full pardon will in part remove the stigma of the crime from the applicant and his family and will be of material assistance to him, and the Board, therefore, recommends that a full pardon be granted to the applicant.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles W. Schoenleber, No. 1009, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Charles W. Schoenleber, convicted of conspiracy to extort money, bribery and to accept bribes in the Court of Quarter Sessions of Philadelphia County, on November 3, 1928 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant pleaded not guilty to the crimes of bribery, extortion, conspiracy to extort and accept bribes in the Quarter Sessions Court of Philadelphia County on November 3, 1928 and was sentenced to pay a fine of $10,000 and to undergo imprisonment in the Philadelphia County Prison for a period of 4 years. The applicant served his full sentence after deduction had been made for good behavior while confined in accord with the Act of 1901.

The trial judge, the Honorable James Gay Gordon did not reply to an inquiry addressed to him by the Board as to his attitude in this case. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the district attorney's office had no objection to the granting of this petition, as the applicant had been out of prison over 9 years, and that there was no record of any arrests since before or after his release.

An investigation made by an agent of the Department of Justice shows that the applicant was a police officer in the 18th police district in the City of Philadelphia, and that he became involved in certain activities in connection with the violation of the liquor laws. He now seeks relief for his conviction in order that he may obtain a license from the Department of Public Safety, which will permit him to act as a private watchman in order to earn a living.

The Board is of the opinion that the applicant has completely rehabilitated himself and that he is now a respectable citizen and a asset to the community in which he resides, and therefore, recommends that a full and complete pardon be granted, which will in part remove the stigma of the crime from the applicant and will be of material assistance to his advancement.

The recommendation for the granting of a full and complete pardon in this case is made upon condition that the applicant will never at any time apply for re-instatement to the police department of the City of Philadelphia or for an original appointment to any police department in any other community.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Michael David Norton, C-4105, No. 1655, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of Michael David Norton, convicted of robbery, receiving stolen goods, entering a building in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on July 8, 1921; and of murder in the second degree in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on May 23, 1924; and of breaking and escaping penitentiary in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on April 21, 1925 be commuted on Bill No. 187 February Sessions, 1924 from a minimum of 10 years to a minimum of 6 months, expiring on July 16, 1940; and on Bill No. 189 February Sessions, 1924 from a minimum of 10 years to a minimum of 1 day, expiring on July 17, 1940; and on Bill No. 512 April Sessions, 1925 from a minimum of 5 years to a minimum of 1 day, expiring on July 18, 1940. Applicant served full time on Bill No. 120 June Sessions, 1921 and was granted a parole on Bill No. 801 June Sessions, 1921 on January 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crimes of robbery, receiving stolen goods, entering a building, larceny in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on July 8, 1921 and was sentenced to a term of imprisonment in the Western State Penitentiary for from 16 to 19 years. On May 23, 1924 applicant pleaded guilty to the crime of murder in the second degree in the Oyer and Terminer and Quarter Sessions Court of Allegheny County and was sentenced to imprisonment in the Western State Pententiary for from 20 to 40 years. This sentence to begin at the expiration of maximum sentence imposed July 8, 1921. On April 21, 1925 applicant was sentenced in the Court of Allegheny County to the Western State Penitentiary to a term of imprisonment for from 5 to 10 years for breaking and escaping penitentiary. This sentence to begin at the expiration of maximum sentence imposed May 23, 1924, making a total sentence of from 64 to 69 years. Applicant was transferred to the Eastern State Penitentiary on September 15, 1927.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that applicant has a very good institutional record and has maintained a very cooperative attitude. On a number of occasions he has rendered valuable service to the officials of the institution. He is employed in the Cigar Factory where he has worked for approximately 11 years. The trial judge, the Honorable A. B. Reid in a communication under date of June 5, 1940 states: ". . . I can only reiterate what I stated in my letter to your board under date of September 29, 1938, i.e., that your board has before it a complete history of this case, together with reports of your investigators and the institutional record of the applicant." The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board of Pardons and advised the Board that he was not prepared to present the attitude of the district attorney's office at this time. On request, he was granted permission to wait and consult the District Attorney. On June 24, 1940 a communication was received by the Board from the District Attorney's Office which in part states: ". . . It is my understanding that the applicant will not be released forthwith, and that if any clemency is granted, he will be returned to the authorities in Chicago, where he will be required to serve at least five more years. If that is the basis on which any clemency is to be entertained, that matter I feel is for the Board to consider alone." There is on file at the Eastern State Penitentiary a detainer charging the petitioner with being an escaped prisoner from the Illinois State Penitentiary Farm. There is also a letter on file at the penitentiary to the effect that petitioner will be returned to the Illinois State Penitentiary if released from the Eastern State Penitentiary to serve a term of 5 years, 8 months and 14 days which is the unexpired portion of his sentence at the time of his escape from that institution. The communication further stated that he would have 11 years, 5 months and 14 days

to serve if his good time allowance should be revoked because of his escape. This letter is under date of February 26, 1940.

The petitioner has been confined for about 19 years. The Board of Pardons is of the opinion that no further good can be accomplished by retaining the applicant in custody. Further that when released from the penitentiary he will be taken into custody by the Illinois State Penitentiary to serve the balance of his term of imprisonment.

The Board of Pardons, therefore, recommends that his sentences be commuted and he be returned to the Illinois State Penitentiary to serve the sentence imposed November 20, 1917. Applicant will be under the supervision of the Board of Pardons until July 17, 1960.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Isaac Goldstein, B-2422, No. 2066, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Isaac Goldstein, convicted of entering a building with intent to commit a felony, larceny, receiving stolen goods in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on January 14, 1931 be commuted from a maximum term of 10 years on Bill No. 144 to a minimum term of 9 years, 6 months, expiring on July 14, 1940; and on Bill No. 138 from a minimum term of 5 years to a minimum term of 1 day, expiring on July 15, 1940 and a maximum of 10 years.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crimes of entering a building with intent to commit a felony, larceny, receiving stolen goods and was sentenced in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on January 14, 1931 to a term of imprisonment in the Western State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . In view of criminal history and return from Rockview for misconduct should at least complete minimum term imposed by court." The trial judge, the Honorable George V. Moore, in a communication to the Board of Pardons under date of May 31, 1940, states: ". . . While I yet believe the sentences which I imposed were proper, and even advisable, under all of the circumstances, this man's restoration to decent living, is the object most to be sought by all concerned. The further fact that the applicant is now aged 59 years, supports the likelihood that he would be a law-abiding citizen if released in the early future. The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board and stated that the district attorney's office felt that because of the previous record and commitments to other penal institutions that the petition warrant opposition.

The petitioner in this case has been confined in the Western State Penitentiary for a period of 9 years and 5 months. The Board, is therefore, of the opinion that he has been sufficiently punished for the crimes committed. A parole plan has been offered which will provide employment immediately upon his release. An investigation made by the New York State Authorities reports the employment offer to be satisfactory.

The Board of Pardons is of the opinion that the petitioner will become a useful and law-abiding citizen if released, and therefore, recommends that the sentence be commuted. Applicant will be under the supervision of the Board of Pardons until July 15, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Ross A. Barclay, B-3635, No. 2484, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Ross A. Barclay, convicted of arson, conspiracy in the Oyer and Terminer and Quarter Sessions Court of Blair County on March 20, 1933 be commuted from a minimum term of 8 years on Bill No. 17, March, 1933, to a minimum of 7 years, 4 months, expiring on July 20, 1940; on Bill No. 44 from a minimum of 1 year to a minimum of 1 day, expiring on July 21, 1940; and on Bill No. 46 from a minimum of 1 year to a minimum of 1 day, expiring on July 22, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded not guilty to the crimes of arson and conspiracy in the Oyer and Terminer and Quarter Sessions Court of Blair County on March 20, 1933 and was sentenced to a term of imprisonment in the Western State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . If this inmate were eligible to apply for parole, we would probably recommend him for parole (1) first conviction (2) excellent institutional record (3) cooperative and trustworthy inmate and employed in responsible position in Deputy Warden's Office (4) has now served 7 years, 3 months." The trial judge, the Honorable Marion D. Patterson did not reply to our letter of inquiry. The district attorney, Richard H. Gilbert, Esquire, appeared before the Board and stated that the district attorney's office could not recommend the granting of clemency, his personal opinion was that the petitioner should be paroled.

The petitioner in this case has been confined in the Western State Penitentiary for a period of 7 years, 4 months, and the Board is now of the opinion that he has been sufficiently punished. A parole plan has been offered which will provide immediate employment for the petitioner, if released. A satisfactory sponser has also been obtained.

The Board of Pardons is further of the opinion that the applicant will become a useful and law-abiding citizen if released, and therefore, recommends that clem-

ency be granted. Applicant will be under the supervision of the Board of Pardons until March 20, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harry Stengel, C-6270, No. 2556, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Harry Stengel, convicted of burglary, attempted entering with intent to steal, in the Oyer and Terminer Court of Philadelphia County on June 23, 1930, be commuted on Bill No. 1255 June Sessions from a minimum of 5 years to a minimum of 1 day, expiring on June 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Stanley Grant, B-1619, No. 2894, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Stanley Grant, convicted of robbery, in the Oyer and Terminer Court of Allegheny County, on September 26, 1929, be commuted on Bill No. 15 September Sessions from a minimum of 2 years to a minimum of 1 day, expiring on September 25, 1940; and on Bill No. 27 September Sessions from a minimum of 3 years to a minimum of 1 day, expiring on September 26, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into con-

sideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Alexander Harry Berkcute, C-5782, No. 2995, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Alexander Harry Berkcute, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on December 9, 1929 be commuted from 10 years to 7 months expiring on July 9, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on December 9, 1929 and was sentenced on Bills of Indictment Nos. 147 and 148 December Term, 1929, to the Eastern State Penitentiary for from 10 to 20 years on each bill to be served consecutively. Applicant was released on parole on Bill No. 147.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that improvement has been noted in this man's conduct and attitude during the past three years and he has a fair personality and makes a fair appearance. He associates with a number of different inmates in the institution and he required close supervision. The trial judge, the Honorable Howard A. Davis, in a communication addressed to the Board of Pardons under date of October 28, 1938 stated that he would leave the matter entirely up to the Board. In a communication to the Board dated May 29, 1940, Judge Davis stated that he had no reason to change my views expressed by him in October, 1938. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board of Pardons and stated that the petitioner has served a substantial term in jail and that the district attorney's office felt this case was one to be considered by the Board of Trustees of the Eastern State Penitentiary and the Board of Pardons, and further, that the district attorney's office had no objection to the granting of this petition if the sentencing court felt that consideration was due.

The applicant has been confined in the Eastern State Penitentiary 10 years, 7 months and the Board of Pardons is of the opinion that he has been sufficiently impressed by his incarceration. A parole plan has been obtained in this case which will include definite employment. A satisfactory sponsor has been obtained and Mr. Joseph Levey, 1944 Spencer Street, Philadelphia, Pennsylvania, will act as his sponsor. An investigation by the Department of Justice reports the sponsor to be satisfactory.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished and there is every reason to believe that he will become a useful and law-abiding citizen if he is released on parole, and therefore, recommends that his sentence be commuted. Applicant will be under the supervision of the Board of Pardons until December 9, 1959.

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Herbert Preston, B-4437, No. 3153, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Herbert Preston, convicted of voluntary manslaughter in the Court of Oyer and Terminer and Quarter Sessions of Allegheny County on January 25, 1935, be commuted from 6 years to 5 years, 8 months expiring on September 25, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded not guilty to the crime of voluntary manslaughter in the Court of Oyer and Terminer and Quarter Sessions of Allegheny County on January 25, 1935 and was sentenced to imprisonment in the Western State Penitentiary for from 6 to 12 years.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . If this inmate were eligible to apply for parole, we would probably recommend him for parole (1) first conviction (2) excellent institutional record (3) very cooperative and trustworthy inmate." The trial judge, the Honorable M. Ward Fleming, in a communication to the Board of Pardons states: ". . . As far as I know these applications are true as stated and the writer has no desire to offer objections provided the prison authorities believe the morale of their institutions will not be disturbed." The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board and stated that the district attorney's office was opposed to the granting of clemency in this case.

A parole plan has been offered which will ensure immediate employment if released and a suitable sponsor has been assured. An investigation made by an agent of the Department of Justice reports the parole plan satisfactory. The petitioner has been confined in the Western State Penitentiary for a period of 5 years, 6 months. An investigation shows that he was arrested for the present crime on September 25, 1935 and that credit for the period between the date of his arrest and the date of sentence was not allowed by the trial court. The Board is of the opinion that the petitioner should be allowed credit for the period spent in the county jail awaiting trial, and they are also of the opinion that if the petitioner is released he will become a useful and law-abiding citizen, and therefore, recommends that the peti-

tioner in this case be granted a commutation. Applicant will be under the supervision of the Board of Pardons until January 25, 1947.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Julian Andrews, C-7927, No. 3173, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of John Julian Andrews, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on April 14, 1932, be commuted from a minimum term of 10 years on Bill No. 488 to a minimum term of 8 years, 3 months, expiring on July 14, 1940 and a maximum of 20 years; on Bill No. 489 from a minimum of 10 years to a minimum of 1 day, expiring on July 15, 1940; on Bill No. 490 from a minimum of 10 years to a minimum of 1 day, expiring on July 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on April 14, 1932 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years on each of Bills Nos. 488, 489 and 490 April Term, 1932 to be served consecutively.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that this man's conduct record is satisfactory and definite improvement has been noted in his attitude. He was only 18 years when received in the institution and he was definitely an unstable youth. He is clean and neat about his person and cell and appears to get along well with the other inmates. He has a retiring personality and makes a fair appearance. During his confinement he has attempted to improve himself by attending school.

The trial judge, the Honorable Howard A. Davis under date of October 17, 1939 in a letter addressed to the Board of Pardons expressed his objection to the granting of clemency and in a later communication under date of May 29, 1940, Judge Davis stated he had no reason to change his views expressed in the letter of October 17, 1939. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the opinion of the district attorney's office in this case was that the sentence was severe and the matter of the granting of clemency would not be objected to by the district attorney's office if the sentencing court made no objection.

The applicant has been confined in the Eastern State Penitentiary for a period of 8 years, 3 months. If released, he will be employed by Russell Hopkins Glass Company, S. W. corner 17th and Callowhill Streets, Philadelphia, Pennsylvania, at a salary of $20 per week. Mr. Russell Hopkins, who is President of the company, will act as petitioner's sponsor.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished and there is every reason to believe that he will become a useful and law-abiding citizen if he is released on parole, and therefore, recommends that his sentence be commuted to a minimum term of 8 years, 3 months, expiring on July 16, 1940. Applicant will be under the supervision of the Board of Pardons until July 14, 1960.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of William Engle, C-5385, No. 3237, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of William Engle, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on May 17, 1929 be commuted from a minimum term of 10 years on Bill No. 1552 June Term, 1930 to a minimum of 1 year, 2 months, expiring on July 17, 1940 and a maximum of 18 years, 10 months; and on Bill No. 1553 from a minimum of 5 years to a minimum of 1 day, expiring on July 18, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on May 17, 1929 and was sentenced to imprisonment in the Eastern State Penitentiary for from 25 to 50 years.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated that this man's conduct record is satisfactory and he has maintained a co-operative attitude. He makes a fair appearance and has a fair personality. He has consistently demonstrated habits of industry and at the present time is employed in the roofing gang and is considered to be an industrious worker. The trial judge, the Honorable Harry S. McDevitt, in a communication to the Board of Pardons under date of June 1, 1940 states: ". . . This man has served approximately eleven years of a twenty-five to fifty year sentence. His prior record was not very lengthy, but the character of his crimes stamps him as a menace to society. He attempted to justify his criminal career by hiding behind poverty. His institution record and his attitude are good and he has few associates among the prisoners. His work as a member of the roofing gang is satisfactory, but outside of the fact he has served eleven years, there is nothing outstanding to commend him." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board of Pardons and stated that the petitioner has been in jail for 11 years and that he had been substantially punished. That the district attorney's office offered no objection because the district attorney felt that the petitioner has been sufficiently punished.

A parole plan has been obtained in this case which will include employment immediately upon his release. Mr. Joseph Snyder, 1715 Spring Garden Street, Philadel-

phia, Pennsylvania has offered to furnish employment and to sponsor the petitioner. An investigation made by an agent of the Department of Justice reports Mr. Snyder's offer bonafide.

The petitioner in this case has been confined 11 years, 2 months in the Eastern State Penitentiary, and the Board of Pardons feels he has been sufficiently punished and that he will become a useful and law-abiding citizen if released on parole. The Board, therefore, recommends that his sentence be commuted. He will be under the supervision of the Board of Pardons until May 17, 1959.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles Chase, C-7823, No. 3308, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend the sentences of Charles Chase, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on March 7, 1932 be commuted from a minimum term of 10 years on Bill No. 1620 to a minimum of 8 years, 4 months, expiring on July 7, 1940; on Bill No. 1621 from a minimum of 5 years to a minimum of 1 day, expiring on July 8, 1940; and on Bill No. 1622 from a minimum of 5 years to a minimum of 1 day, expiring on July 9, 1940 and a maximum of 20 years.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on March 7, 1932 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 20 to 60 years.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states this man's conduct record is satisfactory and he has maintained a good attitude. He has worked in the shoe shop for the past 4 years. He has attempted to improve himself by completing a course in automobile mechanics and has received his diploma from the International Correspondence School. Applicant's previous record consists of one arrest for larceny of automobile for which he was fined.

The trial judge, the Honorable Harry S. McDevitt in a communication to the Board of Pardons has stated: ". . . He is well behaved as a prisoner, but has made little effort to prepare himself for release. He completed a correspondence course in automobile mechanics, but he is by no means a specialist. He was employed in the Shoe Shop, but now has no special duty." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the district attorney's office opposed the granting of clemency in this case. The petitioner participated in 15 robberies in which deadly weapons were used.

The parole plan in this case includes definite employment by Mr. Edward C. Benkert, 8311 High School Road, Elkins Park, Pennsylvania. Applicant will be employed as a general helper in the Fairmount Foundries at $10 per week. Mr. Benkert has also agreed to act as applicant's sponsor.

The petitioner has been confined in the penitentiary for a period of 8 years, 3 months. The Board is of the opinion that he has been sufficiently punished for his offenses. The Board, therefore, recommends the granting of this petition. The applicant will be under the supervision of the Board of Pardons until July 9, 1960.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Maxwell Weaver, C-7836, No. 3636, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Maxwell Weaver, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 8, 1932 be commuted from 5 years to 3 years, 4 months expiring on July 9, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on March 8, 1932 and was sentenced on Bills of Indictment Nos. 1656 and 1657 February Term, 1932 to a term of imprisonment in the Eastern State Penitentiary for from 5 to 15 years on each bill. Sentence to be served consecutively.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that this man's conduct record is satisfactory and he has maintained a good attitude. He has a fair personality and makes a fair appearance. He has been employed as a night fireman in the engine room for over 3 years and is considered to be a good worker. He has made a little attempt to improve himself by completing 4 lessons in Junior Accounting. Applicant's previous record consists of two juvenile charges, one for suspicious character, for which he was discharged and one for incorrigibility, for which he was sent to Philadelphia Protectory.

The trial judge, the Honorable Harry S. McDevitt, in a communication to the Board of Pardons under date of June 1, 1940 states in part: ". . . His prison record and attitude are satisfactory. He has been employed in the power plant for about three years, and his associates are of a mixed character. He is not, however, identified with any particular so-called gang in the institution. Other than the fact that he has served a little over eight years, there is nothing to particularly commend him. His prior record was not particularly vicious, but whether he can maintain a proper attitude when not under restraint, only time will tell." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the district attorney's office felt that the petitioner should receive the same consideration as one Harry Lower who received favorable consideration at the December 1939 meeting of the Board of Pardons.

A parole plan has been obtained which will include

definite employment if favorable consideration is given this petitioner. Mr. Philip H. Read, 1712 West Diamond Street, Philadelphia, Pennsylvania has offered to employ petitioner as a general helper at a salary of $15 per week. Mr. Read has also agreed to act as his sponsor. An investigation of the Department of Justice reports the parole plan to be bonafide.

The petitioner in this case has been confined 8 years, 4 months and the Board of Pardons is now of the opinion that he has been sufficiently punished for his offensives. The Board is also of the opinion that the petitioner will become a law-abiding citizen, and therefore, recommends the granting of this petition. The applicant will remain under the supervision of the Board of Pardons until March 8, 1952.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Adrani, B-3469, No. 4130, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Adrani, convicted of arson in the Court of Oyer and Terminer and Quarter Sessions of Allegheny County on November 25, 1932 started serving sentence December 1, 1932 be commuted from 10 years to 7 years, 5 months expiring on July 25, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded not guilty to the crime of arson and was sentenced in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on November 25, 1932 to a term of imprisonment in the Western State Penitentiary for from 10 to 20 years. Started serving sentence December 1, 1932.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . if this inmate were eligible to apply for parole, we would probably not recommend him for parole because of two serious misconduct reports involving personal violence, and previous criminal record." The trial judge, the Honorable A. B. Reid, in a communication to the Board of Pardons under date of January 31, 1940 states that he had no recommendation to offer. The assistant district attorney, Ralph T. Bell, Esquire, advised the Board of Pardons that the district attorney's office made no objection to the granting of clemency and that the office felt it would be satisfied with any action taken by the Board of Pardons.

A parole plan has been offered which will insure definite employment for the petitioner, is he is released. The petitioner has been confined in the Western State Penitentiary for a period of 7 years, 5 months, and the Board of Pardons is now of the opinion that he has been sufficiently punished for his offense. The Board is further of the opinion that the petitioner will become a useful and law-abiding citizen if released, and therefore, recommends that his petition be granted. Applicant will be under the supervision of the Board of Pardons until November 25, 1952.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Wayne Daugherty, B-3027, No. 4161, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Wayne Daugherty, convicted of larceny of an automobile in the Quarter Sessions Court of Crawford County on December 28, 1931; and of breaking and escaping penitentiary, entering, larceny and larceny of an automobile in the Quarter Sessions Court of Centre County on November 14, 1933 be commuted on Bill No. 19 February Session, 1932 from a maximum of 10 years, 2 months, 19 days to a minimum of 8 years, 7 months, expiring on July 28, 1940; on Bill No. 150 September Sessions, 1933 from a minimum of 5 years to a minimum of 1 day, expiring on July 29, 1940; on Bill No. 168 from a minimum of 2 years to a minimum of 1 day, expiring on July 30, 1940; on Bill No. 169 from a minimum of 2 years to a minimum of 1 day, expiring on July 31, 1940; on Bill No. 170 from a minimum of 2 years to a minimum of 1 day, expiring on August 1, 1940; and on Bill No. 167 from a minimum of 5 years to a minimum of 1 day, expiring on August 2, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crime of larceny of an automobile in the Quarter Sessions Court of Crawford County on December 28, 1931 and was sentenced to a term of imprisonment in the Western State Penitentiary for from 5 to 10 years. On November 14, 1933 applicant was sentenced in the Quarter Sessions Court of Centre County to a term of imprisonment in the Western State Penitentiary for from 16 to 32 years for the crimes of breaking and escaping penitentiary, entering, larceny and larceny of an automobile. This sentence to begin at the expiration of sentence imposed from Crawford County.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . In view of his escape from Rockview, this applicant should at least complete the minimum sentence imposed for breaking and escaping penitentiary, which will not expire until March 17, 1942. The trial judge, the Honorable O. Clare Kent, in a communication under date of May 25, 1940 states: ". . . It is my recollection that this defendant plead guilty to larceny of one or more automobiles on or about December 28, 1931. At the time of entering sentence in this case, I considered that same was merciful and sufficient. I see no real merit in this application for commutation, but will advise, as I always do, that whatever conclusion you may come to after investigation of the matter will meet with my approval." The trial district attorney, Herbert A. Mook, Esquire, in communication under date of June 4, 1940 states: ". . . I am further advised that Mr. Daugherty had a poor reputation for being a peaceable and law-abiding citizen and that he never at any time was considered a useful citizen to society. We, therefore, must go on record as opposing a commutation of the sentence of this defendant." The trial judge, the Honorable M. Ward Fleming,

in communication under date of May 21, 1940 states: ". . . As far as I know these applications are true as stated and the writer has no desire to offer objections provided the prison authorities believe the morale of their institutions will not be disturbed.

The petitioner in this case has been confined for a period of 8 years, 7 months, and the Board of Pardons is of the opinion that he has been sufficiently punished for the crimes committed. A parole plan which will assure definite employment to the petitioner if he is released, has been offered. A satisfactory sponsor has been obtained in the person of Mr. H. P. Scott and has offered his services to assist the petitioner. An investigation made by an agent of the Department of Justice reports the plan to be satisfactory.

The Board, therefore, is of the opinion that there is every reason to believe that the petitioner will become a useful and law-abiding citizen if released, and recommends that his sentences be commuted. Applicant will be under the supervision of the Board of Pardons until August 2, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Chase, C-9704, No. 4237, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of George Chase, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on May 22, 1934 be commuted from 10 years to 6 years, 2 months expiring on July 22, 1934.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on May 22, 1934 and was sentenced to imprisonment in the Eastern State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that applicant's conduct record is satisfactory and he is clean and neat about his person and cell. He associates with the better type of inmate and has maintained a good attitude. He has a good personality, and makes a good appearance. He is employed in the shoe shop and has worked there for almost 6 years. He is considered a good worker and has learned to operate a number of machines in the shops.

The trial judge, the Honorable Raymond MacNeille, in a communication to the Board of Pardons under date of May 22, 1940 states: ". . . In my opinion he should not be released unless there is a reasonable certainty that he will not be a menace to society. You will hear the evidence on that subject and I shall be satisfied with your judgment." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and expressed the objection of the district attorney's office. Mr. Tracey stated that the petitioner participated in 15 robberies, in which deadly weapons were used.

A parole plan has been obtained in this case, which will include definite employment with Mr. William Bergner, 4616 Howell Street, Philadelphia, Pennsylvania at a salary of $15 per week. Mr. Bergner will also act as petitioner's sponsor. The investigation made by the Department of Justice reports the sponsor to be satisfactory.

The petitioner in this case has been confined in the Eastern State Penitentiary for 6 years, 2 months, and the Board feels he has been sufficiently impressed by his incarceration, and if released, he will become a useful and law-abiding citizen, and the Board, therefore, recommends that a commutation be granted. Applicant will be under the supervision of the Board of Pardons until May 22, 1954.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George M. Ryan, No. 4259, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that George M. Ryan, convicted of embezzlement by agent and officer of corporation, fraudulent conversion and concurring in making false entries in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on December 28, 1931 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead guilty to the crimes of embezzlement by agent and officer of corporation, fraudulent conversion and concurring in making false entries in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on December 28, 1931 to a term of imprisonment in the Philadelphia County Prison for from 10 to 20 years. Petitioner was released on parole by the Trial Court on March 30, 1936 having served 4 years, 5 months of his sentence.

The trial judge, the Honorable Horace Stern made no reply to an inquiry forwarded to him by the Board of Pardons. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the attitude of the district attorney's office was that the applicant has served a substantial portion of his sentence, for which reason they had no objection to the granting of the petition. An investigation made by an agent of the Board of Pardons reveals that the applicant is unemployed and that he has been unable to obtain employment because of his inability to obtain a bond. The applicant is 41 years of age, a graduate of Wharton School, University of Pennsylvania, and had been engaged in brokerage and construction business, entering the banking business in 1925 and had been engaged in that business for the past 15 years. The conviction from which he now seeks relief was his only violation of the law. Since his release on parole he has been earning his living in any way possible in order to support his wife and child. The Board feels that the petitioner has been sufficiently punished, and that he has completely rehabilitated himself, and that he is now

law-abiding citizen, who is an asset to the community in which he resides.

The Board is also of the opinion that the granting of a full pardon will in part remove the stigma of the crime from the applicant and his family and will be of material assistance to him, and the Board, therefore, recommends that a full and complete pardon be granted to the applicant.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harry Bush, B-2532, No. 4442, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Harry Bush, convicted of larceny of automobile, entering, larceny, assault and battery with intent to rob in the Quarter Sessions Court of Bedford County on March 16, 1931 be commuted from a minimum term of 2 years on Bill No. 9 April 1931 to a minimum of 8 months, expiring on July 17, 1940; on Bill No. 10 from a minimum of 5 years to a minimum of 1 day, expiring on July 18, 1940; on Bill No. 11 from a minimum of 2 years to a minimum of 1 day, expiring on July 19, 1940; and on Bill No. 12 from a minimum of 2 years to a minimum of 1 day, expiring on July 20, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crimes of larceny of an automobile, entering and larceny, assault and battery with intent to rob in the Quarter Sessions Court of Bedford County on March 16, 1931 and was sentenced to a term of imprisonment in the Western State Penitentiary for from 15 to 30 years.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . If this inmate were eligible to apply for parole, we would probably recommend him for parole (1) has now served 9 years, 3 months (2) excellent institutional record." The trial judge, the Honorable Harry C. James, in a communication under date of June 17, 1940, states in part: ". . . I believe that this applicant has been sufficiently punished and executive clemency should be extended to him." The trial district attorney did not reply to the inquiry sent him by the Board of Pardons relative to the case.

The petitioner has been confined in the Western State Penitentiary for 9 years, 4 months, and the Board of Pardons is now of the opinion that he has been sufficiently punished. A parole plan has been offered which will provide immediate employment to the petitioner if released and a suitable sponsor has been obtained.

The Board of Pardons is further of the opinion that this applicant will become a useful and law-obidizg citizen if released, and therefore, recommends that the sentence of imprisonment be commuted. The applicant will remain under the supervision of the Board of Pardons until July 17, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Frank J. Pfingston, D-3339, No. 4600, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Frank J. Pfingston, convicted of assault, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on August 29, 1938, to begin August 19, 1938 be commuted from 2½ years to 1 year, 11 months expiring on July 19, 1940.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crimes of assault, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on August 29, 1938 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 2½ to 5 years. Sentence to be computed from August 19, 1938.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that this man has a good conduct record and has maintained a good attitude. Although he consistently claims innocence in the current case. He has a good personality and makes a good appearance. He has attempted to improve himself by taking a course in blueprinting reading and his progress is satisfactory. He spends his leisure at woodworking and is quite efficient in cabinet and inlay work. He was formerly employed in the Psychology department and at the present time is employed as a clerk in the identification department. He is considered to be a steady and conscientious worker. The trial judge, the Honorable Gerald F. Flood, in a communication to the Board under date of March 26, 1940, states: ". . . The entire question during this trial was one of identification and upon this there was a very real dispute upon which the jury might well have found either way. However, the jury found aganst the defendant and in view of the verdict, I believed at that time that my sentence was a proper one. As to the merits of the application, I prefer to leave that entirely to the determination of the Board of Pardons." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated the Commonwealth felt that this petitioner was properly convicted and agreed with the Court that the sentence was justified.

The petitioner has been confined in the Eastern State Penitentiary for a period of 1 year, 11 months, and the Board is of the opinion that he has been sufficiently punished for his participation in this crime. Petitioner has no prior criminal history. The parole plan has been offered which will provide immediate employment to the petitioner if he is released. A sponsor in the person of Mr. Carl J. Smith, 3416 Haverford Avenue, Philadelphia, Pennsylvania, has been obtained to look after petitioner. The investigation made by an agent of the Department of Justice reports it to be satisfactory.

The Board of Pardons, therefore, recommends the granting of this petition. Applicant will be under the supervision of the Board of Pardons until August 19, 1943.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Jacob Troup, C-6734, No. 4662, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommended that the life sentence of Jacob Troup, convicted of murder in the first degree in the Court of Oyer and Terminer and Quarter Sessions of York County on April 21, 1930 be commuted from life imprisonment to 10 years, 3 months expiring on July 21, 1940, and a maximum of life imprisonment.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of murder in the first degree and was sentenced by the Oyer and Terminer and Quarter Sessions Court of York County on April 21, 1930 to life imprisonment in the Eastern State Penitentiary.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that this man's conduct record has been good. He is quiet and of the timid type and has a nervous disposition. He makes a good appearance and has a fair personality. He has attempted to improve himself by attending school for 2 weeks on two different occasions and has been unable to make any progress although he is barely literate. He was formerly employed in the shoe shop for approximately 7 years and has learned part of the shoe trade. He is considered to be a good worker.

The trial judge, the Honorable Ray P. Sherwood, in a communication to the Board of Pardons under date of May 25, 1940 states in part: ". . . The defendant, in my opinion, had a fair trial by a jury, the facts were for them and they found them against the prisoner. On an appeal to the Supreme Court, it held that all of the elements of murder in the first degree were present in the case, and for that reason sustained the conviction." The district attorney of York County in a communication to the Board of Pardons under date of May 22, 1940 states in part: ". . . I will say that this man has now about done what he could have received if he had been convicted of second degree murder. The jury was not satisfied that he was entitled to such a break and neither am I."

An investigation made by an agent of the Department of Justice reveals that the so-called arresting officers in this case were armed with an apurious warrant and that their purpose of going to the Troup place on the night of the murder was to take Troup into the city of York and to turn him loose to make the best of his way home.

The Board of Pardons is of the opinion that the petitioner in this case has been sufficiently punished for this offense. A parole plan has been obtained which will include definite employment if clemency is granted. Mr. Boyd Toomey, R. F. D. No. 1, York Haven, Pennsylvania, has offered to sponsor the petitioner. An investigation made by the Department of Justice reports it to be bona-fide. The Board of Pardons is further of the opinion that the applicant, if released, will become a useful and law-abiding citizen, and therefore, recommends that commutation of his sentence be granted. The applicant will be under the supervision of the Board of Pardons the remainder of his natural life.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Rando, D-4225, No. 4671, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Rando, convicted of felonious assault and battery with intent to kill in the Court of Oyer and Terminer and Quarter Sessions of Chester County on September 5, 1939 to be computed from June 12, 1939, be commuted from 1½ years to 1 year, 1 month expiring on July 12, 1940, for deportation to Italy.

Our reasons for making this recommendation are as follows:

The applicant pleaded nolle contendere to the crime of felonious assault and battery with intent to kill in the Oyer and Terminer and Quarter Sessions Court of Chester County on January 17, 1936 and sentence suspended with the understanding that defendant be deported. Deportation was not affected and a bench warrant was issued for the petitioner's arrest. On May 19, 1939 he was apprehended and committed to the Chester County Jail. Petitioner was re-sentenced on September 5, 1939 to the Eastern State Penitentiary to a term of imprisonment for from 1½ to 3 years. Sentence to be computed from June 12, 1939.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated that this man does not associate with any of the inmates and has a quiet disposition. He has maintained a good attitude and has attempted to improve himself by attending school for a period of 5½ months studying academic work and made good progress. He is idle at the present time and has not had an opportunity to work because of the lack of employment at Graterford. The trial judge, the Honorable Ernest Harvey, in a communication under date of May 21, 1940, states: ". . . I have no comment to make on the merits of the application." The assistant district attorney, Philip Reilly, Esquire, appeared before the Board and stated that the district attorney's office had no objection to the granting of this petition. A detainer has been lodged with the authorities of the Eastern State Penitentiary by the United States Immigration Service for the deportation of this petitioner.

The petitioner in this case has been confined in the Eastern State Penitentiary for a period of 1 year, 1 month, and the Board is of the opinion that he has been sufficiently punished for his crime. A parole plan has been obtained which will provide immediate employment to the petitioner if released and if he is not deported to

Italy. A satisfactory sponsor has been obtained. An investigation of the parole plan by an agent of the Department of Justice reports it to be satisfactory.

The Board of Pardons is of the opinion that there is every reason to believe that petitioner will become a useful and law-abiding citizen if released, and therefore, recommends the sentence be commuted. Applicant will be under the supervision of the Board of Pardons until June 12, 1942.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Frank Trocolli, No. 4878 A, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Frank Trocolli, convicted of unlawful possession and sale of drugs in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on November 3, 1922 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant plead not guilty to the crime of unlawful possession and sale of drugs in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on November 3, 1922 and was sentenced to a term of imprisonment in the Philadelphia County Prison for 7 years. The petitioner was released on parole by the trial court after serving a period of 5 years.

The trial judge, the Honorable Harry S. McDevitt, in a communication under date of May 29, 1940, states: ". . . I have no objection to a pardon, if you see fit to grant it." The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and advised the Board that a co-defendant Al Wagner was the actual culprit and the applicant was but an agent and the crime happened 18 years ago and that the district attorney's office did not object to the granting of the petition. An investigation made by an agent of the Department of Justice shows the applicant has been continuously employed in the city of Philadelphia for the past 12 years and he has completely rehabilitated himself and is now an asset to the community in which he resides. The petitioner is married and is the father of two children.

The Board of Pardons is of the opinion that the applicant has been sufficiently punished and feels that the granting of a full pardon will in part remove the stigma of the crime from the applicant and his family and will be of material assistance to him, and the Board, therefore, recommends that a full pardon be granted to the applicant.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Oscar Littlejohn, C-7013, No. 4889, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Oscar Littlejohn, convicted of entering with intent to steal in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on April 24, 1931; and of entering with intent to steal and larceny in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on February 16, 1937 be commuted on Bill No. 1285 April Sessions 1931 from a maximum term of 10 years to a minimum of 8 years, 5 months, expiring on July 16, 1940; and on Bill No. 488 February 1937 from a minimum term of 1 year to a minimum term of 1 day, expiring on July 17, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crime of entering with intent to steal in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on April 24, 1931 and was sentenced on Bill of Indictment No. 1285 April Sessions 1931 to undergo imprisonment in the Eastern State Penitentiary for from 5 to 10 years. Applicant was released on parole April 28, 1936. On February 16, 1937 the applicant pleaded guilty to the crimes of entering with intent to steal, larceny in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on Bill No. 488 February Sessions, 1937, and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 1 to 10 years. Sentence to begin at the expiration of his unexpired parole period, i.e., February 12, 1942.

The Board of Trustees of the Eastern Penitentiary in a report to the Board of Pardons stated that his institutional record is satisfactory and that he has maintained a good attitude. The trial judge, the Honorable Harry S. McDevitt has advised the Board that the applicant was a good worker and he has maintained a proper attitude while in prison. That the applicant has been confined for a period of 4 years and he could well be entitled to consideration at this time. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and expressed objection to the granting of clemency in this case stating that the applicant has a record of other arrests besides these in Philadelphia County. A parole plan has been obtained which provides definite employment to the petitioner if he is released on parole. In addition Mr. W. L. O'Hoy has offered his services as sponsor. An investigation made by an agent of the Department of Justice reports it to be satisfactory.

The applicant has been confined in the Eastern State Penitentiary for a period of 3 years, 5 months because of his conviction while on parole. The Board is of the opinion that he has been sufficiently punished for his crime, the seriousness of which is indicated by the sentence imposed by the trial judge. The Supervisor of Paroles has stated to the Board that he feels the applicant has been severely punished and has expressed no objection to his release under a satisfactory parole plan.

The Board further have reason to believe that if the applicant is released he will become a useful and law-abiding citizen, and therefore, recommends that the sentence be commuted. Applicant will be under the supervision of the Board of Pardons until July 17, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor

BOARD OF PARDONS

In re application of Archie Brooks, C-6698, No. 4891, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Archie Brooks, convicted of robbery, being armed with an offensive weapon, in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 5, 1931 be commuted from 10 years to 9 years, 6 months expiring on July 5, 1940, for hospitalization.

Our reasons for making this recommendation are as follows:

The applicant pleaded not guilty to the crime of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on January 5, 1931 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states that the applicant's institutional record is satisfactory. The medical staff of this institution as well as the consulting staff, after examining the inmate agree that the clinical picture presented by the man is one who is suffering from cancer of the stomach. X-rays verify the clinical findings. Therefore, it is our opinion that the man needs surgical and perhaps radium and deep X-ray theraphy which cannot be given to him in the institution. If this man should be released, arrangements can be made to hospitalize him in the Philadelphia General Hospital.

The trial judge, the Honorable Thomas D. Finletter, in a communication to the Board of Pardons under date of May 20, 1940 states that the facts seems to be correctly stated and that he knows nothing of his physical condition. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that there is nothing in the facts to commend him only the physical condition standpoint. The district attorney's office is opposed to the granting of clemency in this matter.

The petitioner in this case has been confined in the Eastern State Penitentiary for a period of 9 years, 6 months. The medical department has advised the Board of Pardons that the petitioner is suffering from cancer, and that the medical department of the penitentiary was not able to give him the type of treatment for this disease.

The Board of Pardons is of the opinion that the petitioner has been sufficiently punished, and therefore, recommends the granting of this petition, subject to hospitalization for treatment of this disease. The applicant will be under the supervision of the Board of Pardons until January 5, 1951.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph DeCaro, D-4318, No. 4916, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph DeCaro, convicted of burglary, larency in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on October 11, 1935 to begin October 11, 1935 to be commuted from 2½ years to 9 months expiring on July 11, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded not guilty to the crime of burglary and larceny in the Oyer and Terminer and Quarter Sessions Court of Montgomery County on October 11, 1935 to a term of imprisonment in the Eastern State Penitentiary for from 2½ to 5 years. This sentence to begin at the expiration of sentence imposed January 30, 1931 by the Court of Montgomery County for a period of 3 to 7 years for the crime of robbery, being armed with an offensive weapon, from which sentence the applicant was placed on parole January 30, 1934. The parole period expired October 11, 1939 and he was reentered to serve the present sentence.

Th Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated that this man's conduct record is satisfactory and his attitude has been fair. He was offered a job as a laborer but he refused that work. He has been idle during the majority of his time in the institution and two weeks ago he enrolled in school. This enrollment was probably motivated by his applying for commutation.

The trial judge, the Honorable Harold G. Knight, in a communication to the Board of Pardons under date of May 22, 1940 states in part: ". . . I remember this case, because it was very earnestly contested, and the defendant maintained his innocence throughout. I believe that the verdict of the jury was right, and that the man was guilty, but the Commonwealth's case was not particularly strong. I further believe, that the refusal of the defendant to take the stand, helped in his conviction. I have no objection to the Board extending clemency." The district attorney of Montgomery County in a communication under date of June 3, 1940 states in part: ". . . The fact that this defendant committed another burglary while on parole from his 1931 sentence would seem to indicate that he is not worthy of further leniency. We therefore feel that the sentence imposed by the court was proper." The Supervisor of Paroles has stated that he has no objection to the granting of clemency in this case provided that a satisfactory parole plan is obtained. A parole plan has been obtained which will provide a satisfactory sponsor, however, definite employment has not yet been obtained.

The petitioner has been confined in the Eastern State Penitentiary for a period of 5 years and the Board now feels he has been sufficiently punished. The Board, therefore, recommends the granting of this petition, subject to a conditioin that he obtains a satisfactory parole plan before being released from imprisonment. Applicant will be under the supervision of the Board of Pardons until October 11, 1944.

Respectfully submitted.

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Earnest Paul Snyder, D-3633, No. 4917, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Earnest Paul Snyder, convicted of breaking and entering, larceny in the Oyer and Terminer and Quarter Sessions Court of Union County on December 23, 1938 be commuted from a maximum of 2 years on Bill No. 20 January 1939 to a minimum of 1 year, 7 months, expiring on July 23, 1940; and on Bill No. 21 from a minimum of 5 years to a minimum of 1 day, expiring on July 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crime of breaking and entering, larceny in the Oyer and Terminer and Quarter Sessions Court of Union County on December 23, 1938 and was sentenced to imprisonment in the Eastern State Penitentiary for from 6 to 12 years.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated that during the entire time that this man has been in the institution, he has demonstrated a constructive attitude and definite habits of industry. He associates with a better type of inmate. Has attended school for 7 months studying agriculture and since employed has completed 7 courses in agriculture through the Pennsylvania State College Extension Service. He is employed as a blacksmith in the maintenance department and is considered to be a willing and industrious worker.

The trial judge, the Honorable Curtis C. Lesher, in a communication to the Board of Pardons under date of May 25, 1940 states: ". . . I feel that he has learned his lesson, and longer incarceration will likely embitter him, and that he should be given an opportunity, by being placed on probation. I know his family is in dire need, and reiterate my feeling in the matter that he should be relaesed." The district attorney of Union County in a communication to the Board of Pardons under date of May 29, 1940 states: ". . . Anything that the Board may due will be greatly appreciated."

The petitioner in this case has been confined in the Eastern State Penitentiary for a period of 1 year, 7 months. A parole plan has been offered which will include definite employment if the petitioner receives favorable consideration. An investigation of the parole plan made by an agent of the Department of Justice reports it to be satisfactory.

The Board of Pardons feels that the petitioner has been sufficiently punished and that there is every reason to believe that he will become a useful and law-abiding citizen if clemency is extended, and that the Board, therefore, recommends the granting of this petition. Applicant will be under the supervision of the Board of Pardons until July 24, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Wilson W. Bethard, No. 4925, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Wilson W. Bethard, convicted of operating automobile while under the influence of intoxicating liquor in the Court of Quarter Session of Philadelphia County, on June 6, 1934 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty to the crime of operating an automobile while under the influence of intoxicating liquor in the Quarter Sessions Court of Philadelphia County on June 6, 1934 and received a suspended sentence.

The trial judge, the Honorable Albert S. C. Millar is deceased. Under date of May 31, 1940 the Honorable Howard Davis, in a communication to the Board stated that he would not interpose any objection to any action that the Board sees fit to take. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board and stated that the district attorney's office did not object to the granting of this petition.

Petitioner is employed by Henry Disston and Son as a punch press operator, and receives $25.00 per week. He has been continuously employed since February 1933. Applicant resides with his wife in Philadelphia, Pennsylvania. The applicant has not been in any difficulty since the date of the conviction from which he now seeks relief. He has been a law-abiding citizen and is a credit to the community in which he resides.

The Board feels that the granting of a pardon in this case would in part remove the stigma of the crime from the applicant and will be of material assistance to him, and therefore, recommends that a full and complete pardon be granted to the applicant.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Myrtle P. Mutschler, 1330, No. 4937, June Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of

Myrtle P. Mutschler, convicted of misdemeanor, embezzlement, fraudulent conversion in the Court of Oyer and Terminer and of Allgheny County on March 24, 1939 be commuted from 2½ years to 1 year, 4 months expiring on July 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant pleaded guilty of the crimes of misdemeanor, embezzlement and fraudulent conversion and was sentenced by the Oyer and Terminer and Quarter Sessions Court of Allegheny County on March 24, 1939 to a term of imprisonment in the Pennsylvania State Industrial Home for Women for 2½ years.

The Superintendent of the Pennsylvania State Industrial Home for Women in a communication to the Board of Pardons under date of June 1, 1940 states in part: ". . . This girl is normal in every way, has a good intelligence and is in fine health. She has had an excellent record in this institution, is a willing, capable worker, cooperates at all times and has a perfect conduct record. I do not hesitate to recommend this girl to the Board for favorable consideration and I feel sure she will conform to any parole rules laid down for her conduct in the community when released." The trial judge, the Honorable W. Heber Dithrich made no answer to our communication addressed to him in reference to this petition. The assistant district attorney, Ralph T. Bell, Esquire, appeared before the Board of Pardons and stated that the district attorney's office felt that this case was a breech of trust and that the application was premature.

The applicant has been confined in the State Industrial Home for Women for a period of 1 year, 4 months and the Board of Pardons is of the opinion that she has been sufficiently punished for her crime. A parole plan has been obtained which will provide a home for the petitioner at 974 Lilac Street, Pittsburgh, Pennsylvania which is the residence of the petitioner's family. Mr. George W. Mutschler, applicant's husband, has remained faithful to his wife and has stated to our investigator that his purpose in life is to provide a home for his wife and make restitution to the best of his ability of the sums taken. $13,000.00 has already been returned in the form of part restitution of the amount embezzled.

The Board of Pardons is now of the opinion that the petitioner will never again violate the law, and that she will become a useful and law-abiding citizen if released. The Board, therefore, recommends that the sentence in this case be commuted. Applicant will be under the supervision of the Board of Pardons until September 24, 1941.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of William H. Arndt, C-7394, No. 141 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on William H. Arndt, convicted of larceny, receiving stolen goods, uniform firearms act, robbery, carrying concealed deadly weapons, aggravated assault and battery in the Oyer and Terminer Court of Lehigh County, on October 2, 1931, be commuted on Bill No. 106, September Session 1931 from a minimum of 1 year to a minimum of 1 day, expiring on October 3, 1940 on Bill No. 107 September Session 1931 from a minimum of 1 year to minimum of 1 day, expiring on October 4, 1940, on Bill No. 108 September Session 1931 from a minimum of 1 year to minimum of 1 day, expiring on October 5, 1940 and on Bill No. 109 September Session 1931 from a minimum of 1 year to a minimum of 1 day, expiring on October 6, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA.
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Richard Pike, C-7407, No. 142 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Richard Pike, convicted of larceny, receiving stolen goods, uniform firearms act, robbery, carrying concealed deadly weapons, aggravated assault and battery in the Oyer and Terminer Court of Lehigh County, on October 2, 1931, be commuted on Bill No. 106 September Session 1931 from a minimum of 1 year to a minimum of 1 day, expiring on October 3, 1940, on Bill No. 107 from a minimum of 1 year to a minimum of 1 day, expiring on October 4, 1940, on Bill No. 108 from a minimum of 1 year to a minimum of 1 day, expiring on October 5, 1940 and on Bill No. 109 from a minimum of 1 year to a minimum of 1 day, expiring on October 6, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex. rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Wayne, B-2324, No. 143 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on George Wayne, convicted of entering a building in the Quarter Sessions Court of Allegheny County on November 21, 1930, be commuted on Bill No. 670 November Sessions, 1930 from a minimum of 5 years to a minimum of 1 day, expiring on November 21, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Norman Weidert, B-3418, No. 144 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Norman Weidert, convicted of Forgery, passing forged instrument, obtaining money under false pretenses, receiving stolen goods, burglary, larceny in the Quarter Sessions Court of Warren County, on October 22, 1932, be commuted on Bill No. 9 December Sessions, 1932 from a minimum of 3 years to a minimum of 1 year, 1 month, expiring on November 2, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex. rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles McLean, B-4641, No. 145 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Charles McLean convicted of forgery in the Quarter Sessions Court of Allegheny County, on January 23, 1930, and of breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on August 19, 1935, be commuted on Bill No. 398 January Sessions, 1930 from a minimum of 2 years to a minimum of 1 day, expiring on November 22, 1940 and on Bill No. 95 November Sessions, 1932 from a minimum of 2 years to a minimum of 1 day, expiring on November 23, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (And also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that

it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Tony Jurista, B-3929, No. 146 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Tony Jurista convicted of breaking and entering with intent to commit a felony, larceny in the Quarter Sessions Court of Butler County on February 28, 1931; and breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on December 19, 1933, be commuted on Bill No. 65 March Sessions, 1931, from a minimum of 1 year to a minimum of 1 day, expiring on October 11, 1940; and on Bill No. 54 February Sessions, 1931 from a minimum of 3 years to a minimum of 1 day, expiring on October 12, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (Also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

BOARD OF PARDONS

In re application of George Glenn Dailey, B-2160, No. 147 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on George Glenn Dailey convicted of entering, larceny, receiving stolen goods in the Quarter Sessions Court of Cambria County, on March 31, 1939; and of breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on August 16, 1930, be commuted on Bill No. 106 September Sessions, 1930 from a minimum of 3 years to a minimum of 6 months, expiring on November 3, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (Alson in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered

for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Leo Stiles, B-4864, No. 148 A, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Leo Stiles convicted of forgery, in the Quarter Sessions Court of Potter County, on March 11, 1935; and of breaking and escaping penitentiary, larceny of automobile, in the Quarter Sessions Court of Centre County, on December 7, 1935, be commuted on Bill No. 26 February Sessions, 1936 from a minimum of 1 year to a minimum of 7 months, 29 days, expiring on November 20, 1940; and on Bill No. 31 February Sessions, 1936 (Bill No. 32 February Sessions, 1936 concurrent) from a minimum of 2 years to a minimum of 1 day, expiring on November 21, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (Also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Samuel Hinton, C-2394, No. 312, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Samuel Hinton, convicted of robbery, being armed with an offensive weapon, assault and battery with intent to kill and entering with intent to commit a felony in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 25, 1924 be commuted from 20 years to 11 years 1 month and 9 days expiring on November 17, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on March 25, 1924 of the crimes of robbery, being armed with an offensive weapon, assault and battery with intent to kill, entering with intent to commit a felony and was sentenced to a term of imprisonment in the Eastern Penitentiary for from 10 to 20 years by the Honorable Alonzo T. Searle. The petitioner was paroled from the Eastern State Penitentiary on March 25, 1934. The records of the Board show that his conduct on parole was satisfactory until July 14, 1938 when he was sentenced by the United States District Court, Philadelphia, to a term of 6 months to the Mercer County Workhouse, Trenton, New Jersey for violation of Internal Revenue Act. Upon the expira-

tion of the sentence imposed the petitioner was returned to the Eastern State Penitentiary as a parole violator where he has been confined approximately 21 months.

The Board of Trustees of the Eastern State Penitentiary have advised the Board of Pardons that the institutional record of the petitioner is satisfactory. James W. Tracy, Jr., Esquire, assistant district attorney, appeared before the Board of Pardons and stated that his office was opposed to the granting of clemency only because of the fact that the petitioner was on parole when the violation of the Revenue Act occurred. The trial judge, the Honorable Alonzo T. Searle made no reply to a communication addressed to him by the Board of Pardons. The Supervisor of Paroles has stated to the Board of Pardons that in his opinion that petitioner has been severely punished for his parole violation which was minor in its nature, and that he would have no objection to the granting of clemency to the petitioner if he can obtain a parole plan which will provide him with immediate employment and adequate sponsorship.

The Board of Pardons after considering all the facts in this matter are of the opinion that the petitioner has been sufficiently punished. A satisfactory parole plan has been obtained which assures definite employment and reliable sponsorship.

The Board, therefore, feels that if the petitioner is released on parole will become a law-abiding citizen and will rehabilitate himself, and therefore, recommends that the maximum term of imprisonment be commuted to a minimum term of 11 years, 1 month, 9 days, expiring on November 17, 1940, and that the applicant will be on parole until February 17, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES.
Governor.

BOARD OF PARDONS

In re application of John Nesterick, C-7553, No. 971, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of John Nesterick, convicted of breaking and entering with intent to commit a felony, larceny in the Court of Oyer and Terminer and Quarter Sessions of Northumberland County on June 10, 1929 to be computed from May 29, 1929 be commuted from 10 years to 7 years, 1 month, expiring on October 29, 1940.

Our reasons for making this recommendation are as follows:

The petitioner for commutation of sentence was convicted in a Court of Oyer and Terminer and Quarter Sessions in and for the County of Northumberland on May 29, 1929 for the crime of breaking and entering with intent to commit a felony, larceny and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years from which he was paroled at the expiration of his minimum term, i.e. May 29, 1934. During the period of his parole the petitioner made a satisfactory record until July 29, 1937 on which date he was convicted in the Courts of Columbia County for the crime of involuntary manslaughter and was sentenced by the Honorable Judge Evans to a term of 15 months in the Columbia County Prison from which he was released on October 3, 1938 and was thereupon returned to the Eastern State Penitentiary as a parole violator where he has been confined for a period of 2 years, 1 month because of his violation of parole.

The Board of Trustees of the Eastern State Penitentiary have stated in a communication to the Board of Pardons that the applicant has maintained a satisfactory institutional record, further that he has selected his prison associates wisely and has continued to maintain a cooperative attitude. The trial district attorney made no reply to a communication addressed him by the Board of Pardons relative to the application submitted by the petitioner. The trial judge, the Honorable Albert Lloyd is no longer on the bench, the president judge, Charles K. Morganroth has advised the Board that he has no objection to the granting of the petition. The Supervisor of Paroles advised the Board that the applicant had violated parole on 2 occasions and that in his opinion there was not much merit to the application. A parole plan has been obtained which provides adequate sponsorship and definite employment to the petitioner if released.

The Board of Pardons after due consideration of all facts presented is of the opinion that the applicant has been sufficiently punished and that he will, if released, completely rehabilitate himself and thereby become a self-respecting, law-abiding citizen. The Board, therefore, recommends that the sentence be commuted to a minimum term of 7 years, 1 month, expiring October 29, 1940 and that the petitioner remain on parole until September 29, 1943.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of DeWitt Kimbrew, B-2494, No. 1749, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommends that the sentence of imprisonment imposed on DeWitt Kimbrew, convicted of breaking and entering with intent to commit a felony, larceny in the Quarter Sessions Court of Crawford County, on February 25, 1931, be commuted on Bill No. 35 February Sessions, 1931 from a minimum of 3½ years to a minimum of 2 years, 9 months, expiring on November 23, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second

and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Salvatore Lobiondo, D-5002, No. 1778, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Salvatore Lobiondo, convicted of riotous destruction of buildings in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on October 1, 1934 to be computed from June 19, 1940 be commuted from 1 year to 4 months expiring on October 19, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on December 19, 1930 of the crime robbery and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 7½ to 15 years. On October 1, 1934 the petitioner was sentenced in the Oyer and Terminer and Quarter Sessions Court of Montgomery County to a term of 1 to 2 years in the Eastern State Penitentiary for the crime of riotous destruction of buildings. Under date of June 19, 1940 the petitioner was paroled from the sentence imposed in Philadelphia County and was reentered on the records of the penitentiary for the service of the sentence imposed in the Court of Montgomery County.

An examination of the record shows that the petitioner had never been in any trouble prior to the offense which sent him to the penitentiary in 1930. The Board of Trustees in a report submitted to the Board of Pardons has stated "definite improvement has been noted in this man's conduct record. He is employed as a laborer and is considered a good worker. He has also shown an interest in self-improvement by completing a correspondence course furnished by the International Correspondence School." James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that in as much as the minimum term of the Philadelphia County sentence was served that the district attorney's office would have no objection. The trial judge, the Honorable George C. Corson had entered no objection to the granting of this petition. An adequate parole plan has been obtained which insures satisfactory sponsorship and bona fide employment.

The Board of Pardons after a consideration of all facts is of the opinion that the petitioner has been sufficiently punished and that he will if released on parole rehabilitate himself and become a self-respecting law-abiding citizen. The Board, therefore, recommends that the minimum sentence be commuted from a minimum term of 1 year to a minimum term of 4 months, expiring on October 19, 1940, and applicant to remain under the supervision of the Board of Pardons until December 19, 1945.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Anthony John Lis, C-8771, No. 2958, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Anthony John Lis, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Lackawanna County, on March 4, 1933 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Oyer and Terminer and Quarter Sessions Court of Lackawanna County on March 4, 1933 for the crime of robbery and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 20 to 40 years. An application was presented to the Board of Pardons for a commutation of his sentence which was granted May 20, 1936 and petitioner was released on parole July 13, 1936.

An examination of his record reveals that he was never convicted of any serious crimes before this conviction. The applicant has been on parole for a period of 4 years. He has a vocation as a counterman and is employed in a cafeteria where intoxicating liquor is sold. Because of the ruling of the Alcoholic Beverage Control Commission of the State of New York which does not permit any parolee to work in any place in any capacity where alcoholic beverages are sold, and the petitioner will be dismissed from his employment, which is the only vocation he has.

The trial judge, the Honorable Will Leach in a reply to an inquiry addressed to him from the Board of Pardons stated that he knew nothing of the facts. The trial district attorney did not reply to a communication addressed to him by the Board of Pardons. The Supervisor of Paroles advised the Board that unless the trial judge and district attorney recommend a complete pardon, that the application was premature and merited little consideration at this time.

The Board of Pardons after a review of the facts is of the opinion that the applicant has made an honest attempt to rehabilitate himself and is now a self-respecting and law-abiding citizen, and further, if clemency were to be denied the petitioner it would take from him the only employment by which he can make an honest living, for which reasons the Board of Pardons recommends that a full and complete pardon be granted to the petitioner.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Tomachesky, B-2540, No. 3068, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on George Tomachesky convicted of robbery in the Oyer and Terminer Court of Allegheny County, on October 24, 1930; and of breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on March 21, 1931, be commuted on Bill No. 46 May Sessions, 1931 from a minimum of 5 years to a minimum of 1 day, expiring on November 8, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (Also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Anthony Narcise, D-4706, No. 3363, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Anthony Narcise, convicted of riotous destruction of buildings in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on October 1, 1934 to be computed from March 2, 1940 be commuted from 1 year to 8 months expiring on November 2, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Court of Philadelphia County on March 2, 1933 to the crime of robbery, being armed with an offensive weapon and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years. On October 1, 1934 the applicant pleaded guilty in the Courts of Montgomery County to the crime of riotous destruction of buildings and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 1 to 2 years. This sentence to begin upon the expiration of sentence imposed in Philadelphia County. On March 2, 1940 the petitioner was paroled on the Philadelphia County sentence and was thereupon entered on the records of the Eastern State Penitentiary to serve the term imposed in the Courts of Montgomery County.

The Board of Trustees of the Eastern State Penitentiary has stated that the applicant's behaviour has been satisfactory since 1934. He formerly worked in the knit shop and at the present time is employed on the farm outside the walls. There is nothing outstanding in the way of self-improvement in this case. However, the length of time which he served beyond his original minimum sentence should be considered.

The district attorney of Montgomery County failed to

reply to a communication addressed to him by the Board of Pardons relative to this petition. The trial judge, the Honorable George C. Corson, has entered no objection to the granting of this petition.

The petitioner was denied parole on the sentence imposed in Philadelphia County for a period of 2 years beyond the expiration date of his minimum term and he has served 7 months of a 1 year minimum term imposed in Montgomery County. An adequate parole plan has been obtained which assures satisfactory sponsorship and bona fide employment.

The Board of Pardons after considering all the facts in this case is of the opinion that the petitioner has been sufficiently punished, and that he will, if released, become a self-respecting, law-abiding citizen, and therefore, recommends that the minimum sentence be commuted to a period of 8 months, expiring on November 2, 1940, and that applicant will remain on parole until March 2, 1953.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harry W. Gordon, B-5002, No. 3609, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry W. Gordon, convicted of voluntary manslaughter in the Court of Oyer and Terminer of Allegheny County on May 15, 1936 be commuted from 5 years to 4 years, 5 months, expiring on October 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Oyer and Terminer Courts of Allegheny County of the crime of voluntary manslaughter and was on May 15, 1936 sentenced to the term of not less than 5 nor more than 10 years in the Western State Penitentiary.

The applicant in this case was arrested in the city of Pittsburgh on September 24, 1935 and was confined in the Allegheny County Jail until May 15, 1936, on which date sentenced was imposed by the Honorable Harry H. Rowand.

An examination of the petition shows that he was in no difficulties prior to the offense which resulted in his present incarceration. Petition for clemency was filed in order that he may obtain credit for the time served in the county jail awaiting trial.

Ralph T. Bell, assistant district attorney of Allegheny County appeared before the Board and stated that the district attorney's office was willing to leave the matter of clemency in the hands of the Board of Pardons. The trial judge in a communication to the Board stated that he had no objection to the granting of a petition.

The Board of Pardons after considering all the facts is of the opinion that the applicant has been sufficiently punished and that he will, if released, become a self-respecting, law-abiding citizen. The petitioner will have immediate employment if released and will be under satisfactory sponsorship. The Board of Pardons, therefore, recommends that the minimum term be commuted to a minimum term of 4 years, 5 months, expiring on October 15, 1940, and that applicant will be on parole until May 15, 1946.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Nelson Hoyt, B-2316, No. 3676, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of John Nelson Hoyt, convicted of robbery, being armed with an offensive weapon, attempted robbery in the Quarter Sessions Court of Washington County on November 12, 1930, be commuted from a minimum term of 4 years on Bill No. 7 November Sessions, 1930 to a minimum term of 2 years, expiring on November 12, 1940; on Bill No. 13 from a minimum of 4 years to a minimum of 1 day, expiring on November 13, 1940; on Bill No. 2 from a minimum term of 3 years to a minimum of 1 day, expiring on November 14, 1940; on Bill No. 8 from a minimum term of 4 years to a minimum term of 1 day, expiring on November 15, 1940; on Bill No. 1 from a minimum term of 4 years to a minimum term of 1 day, expiring on November 16, 1940; on Bill No. 12 from a minimum term of 4 years to a minimum term of 1 day, expiring on November 17, 1940; on Bill No. 9 from a minimum term of 4 years to a minimum term of 1 day, expiring on November 18, 1940; on Bill No. 3 from a minimum term of 4 years to a minimum of 1 day, expiring on November 19, 1940; on Bill No. 4 from a minimum term of 4 years to a minimum of 1 day, expiring on November 20, 1940; on Bill No. 14 from a minimum term of 4 years to a minimum of 1 day, expiring on November 21, 1940; on Bill No. 5 from a minimum term of 4 years to a minimum of 1 day, expiring on November 22, 1940; on Bill No. 11 from a minimum term of 4 years to a minimum of 1 day, expiring on November 23, 1940; and on Bill No. 10 from a minimum term of 4 years to a minimum of 1 day, expiring on November 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Washington County on fourteen bills of indictment being charged with robbery, being armed with an offensive weapon and attempted robbery and was sentenced by the Honorable Howard W. Hughes to a term of imprisonment in the Western State Penitentiary for from 55 to 110 years.

An examination of the record shows that he was arrested on one occasion in the city of Pittsburgh and was discharged by a local magistrate.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states if this inmate was eligible for parole we would probably recommend (1) first conviction (2) excellent institutional record. The trial district attorney, Warren S. Burchinal in a communication to the Board of Pardons states in part: ". . . I would not offer any objection as to the official in charge of the case at that time, to the Board

acting favorable upon such a recommendation." The trial judge, the Honorable Howard W. Hughes has advised the Board of Pardons that he has no objection to any action the Board may see fit to take regarding the petition. A parole plan has been obtained which will provide adequate sponsorship and bona fide employment.

The Board of Pardons after considering all the facts is of the opinion that the applicant has been sufficiently punished and that he will if released rehabilitate himself and become a self-respecting, law-abiding citizen, and therefore, recommends that the minimum sentence be commuted. The applicant will be under the supervision of the Board of Pardons until November 24, 1948.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Louis Francis Nati, D-1015, No. 3777, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Louis Francis Nati, convicted of breaking and entering, larceny, arson in the Quarter Sessions Court of Sullivan County on November 19, 1935, be commuted from a minimum term of 3 years on Bill No. 21 to a minimum term of 1 year, 11 months, expiring on October 19, 1940; on Bill No. 22 from a minimum term of 3 years to a minimum term of 1 day, expiring on October 20, 1940; on Bill No. 27 from a minimum term of 4 years to a minimum term of 1 day, expiring on October 21, 1940; on Bill No. 32 from a minimum term of 1 year to a minimum term of 1 day, expiring on October 22, 1940; and on Bill No. 31 from 1 year to 1 day, expiring on October 23, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Quarter Sessions Court of Sullivan County on November 19, 1935 for the crime of breaking and entering, larceny, arson and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 15 to 46 years.

The Board of Trustees of the Eastern State Penitentiary has advised the Board of Pardons that the petitioner has maintained a satisfactory institutional record and that if he would continue the same type of behavior outside the walls he would have a good possibility of remaining out of trouble. The trial district attorney in a communication to the Board of Pardons has advised the Board that in his opinion the petitioner should receive favorable consideration. The president judge in a communication to the Board stated: ". . . there is no objection on my part to the pardon applied for in this case. I neither recommend it nor oppose it because I think that the Board should grant it upon its merits as it appears before them at this time."

A parole plan has been obtained which insures satisfactory sponsorship, bona fide employment if released.

The Board of Pardons after considering all facts in this case is of the opinion that the petitioner has been sufficiently impressed by his incarceration and therefore recommends that his minimum sentence be commuted. The applicant will be under the supervision of the Board of Pardons until November 21, 1948.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Steve Waters, B-2477, No. 3923, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Steve Waters convicted of robbery, larceny of an automobile in the Oyer and Terminer Court of Allegheny County, on June 10, 1930; and of breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on February 19, 1931, be commuted on Bill No. 29 November Sessions, 1930 from a minimum of 4 years to a minimum of 11 months, 29 days, expiring on November 27, 1940; and on Bill No. 98 November Sessions, 1930 from a minimum of 1 year to a minimum of 1 day, expiring on November 28, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (Also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison

officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Peter Portone, C-7746, No. 3927, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Peter Portone, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on February 9, 1932 be commuted from 10 years to 8 years, 9 months expiring on November 9, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Philadelphia County on February 9, 1932 of the crime of robbery and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years.

An examination of the criminal record shows that he has been arrested on 6 occasions none of which is of a serious nature and on 3 of which he was discharged by a magistrate.

The Board of Trustees of the Eastern State Penitentiary reports to the Board of Pardons that he has a satisfactory institutional record and that the applicant has demonstrated definite habits of stability while in this institution. He has been employed in the Weave Shop for over 8½ years and is considered to be a good worker. James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board of Pardons and stated that the petitioner was serving a probationary period of 2 years imposed by Judge Kun and that he was later placed on probation by Judge Copeland, and further, there is nothing in his record to commend him and for that reason the district attorney's office was opposed to the granting of clemency. The trial judge, the Honorable Joseph L. Kun in a communication to the Board of Pardons stated the applicant has served a substantial part of his minimum sentence and a commutation of sentence would be helpful.

The Board of Pardons after considering all the facts is of the opinion that the petitioner has been sufficiently punished. A parole plan has been obtained which will provide reliable sponsorship and adequate employment.

The Board, is further, of the opinion that the petitioner if released will rehabilitate himself and become a self-respecting law-abiding citizen, and therefore, recommends that the minimum sentence be commuted to a minimum term of 8 years, 9 months, expiring on November 9, 1940 and to remain on parole until February 9, 1952.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Joseph Galiczynski, C-9066, No. 3934, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Joseph Galiczynski, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 11, 1933 be commuted from 5 years to 2 years, 4 months expiring on November 11, 1940. (Has been granted parole on Bill No. 729).

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded nolle contendere in the Court of Philadelphia County on July 11, 1933 and was sentenced by the Honorable Harry S. McDevitt to a term of imprisonment in the Eastern State Penitentiary for from 10 to 30 years for the crime of robbery.

An examination of the records of the case of the petitioner shows that he has been arrested on several occasions on charges none of which were serious in nature.

The Board of Trustees of the Eastern State Penitentiary advises that the petitioner's conduct record has been very good and he has maintained a constructive attitude. He has been employed in the tailor shop for over 6 years, and is now a competent tailor. The trial judge, the Honorable Harry S. McDevitt in a communication to the Board of Pardons states: ". . . the applicant has an entirely different outlook on life now from when he entered the penitentiary." James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board and stated that the district attorney's office had no objection to the granting of the petition if the Board of Pardons feels that the petitioner would be law-abiding.

The Board of Pardons after considering all the facts is of the opinion that the petitioner has been sufficiently punished and that he will if released on parole become a self-respecting law-abiding citizen, and therefore, recommends that the minimum sentence on Bill No. 730 July Sessions, 1933 be commuted from a minimum term of 5 years to a minimum term of 2 years, 4 months, expiring on November 11, 1940 and to remain on parole until July 11, 1953.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Andrews, C-1558, No. 4207, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Andrews, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on September 7, 1932 be commuted from 10 years to 8 years, 2 months expiring on November 7, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Oyer and Terminer and Quarter Sessions Courts of Philadelphia County on September 7, 1932 to the crime of robbery, being armed with an offensive weapon and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years by the Honorable Harry S. McDevitt.

An examination of the criminal history of the petitioner shows that he has been arrested on several occasions while a juvenile and that he was arrested on four occasions after reaching the age of 16 years of charges none of which was of a serious nature.

The Board of Trustees of the Eastern State Penitentiary have reported to the Board of Pardons that the applicant was transferred to the Philadelphia County Prison during the month of November, 1933 and that the officers of the Philadelphia County Prison advise that the applicant has maintained an excellent institutional record and that he has been trained as a dental mechanic. The assistant district attorney, James W. Tracey, Jr., Esquire, appeared before the Board of Pardons and stated that the brother of the applicant is a police officer known to the district attorney's office and he is one who would turn applicant over to the authorities if he in any way violated the law, and further, that the petitioner has served 8 years of the sentence imposed, and that the district attorney has no objection to the granting of the petition. The trial judge, the Honorable Harry S. McDevitt has advised the Board of Pardons that he wouldn't hesitate to give him another chance. A parole plan has been obtained which assures satisfactory sponsorship and bona fide employment.

The Board of Pardons after considering all the facts is of the opinion that the petitioner has been sufficiently punished, and therefore, recommends that the minimum sentence be commuted to a minimum term of 8 years, 2 months, expiring on November 7, 1940 and the applicant remain on parole until September 7, 1952.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Fred Williams, B-3071 No. 4295, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Fred Williams convicted of breaking and entering with intent to commit a felony, larceny, receiving stolen goods in the Quarter Sessions Court of Erie County, on February 18, 1928; and of breaking and escaping penitentiary, in the Quarter Sessions Court of Centre County, on January 23, 1932, be commuted on Bill No. 89 September Sessions, 1931 from a minimum of 4 years to a minimum of 1 day, expiring on November 14, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (Also in the opinion of the Superior Court in the case of Anthony Narcise, Appellant, v. The Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Isaac Laws, C-8420, No. 4360, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Isaac Laws, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on November 17, 1932 be commuted from 10 years to 8 years expiring on November 17, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on November 17, 1932 for the crime of robbery and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years.

An examination of the criminal record of the petitioner shows that he has been arrested on 6 occasions of charges, none of which were of a serious nature, and which resulted in 5 arrests being discharged and a commitment to the County Prison for one.

The Board of Trustees of the Eastern State Penitentiary report to the Board of Pardons that the applicant has an excellent conduct record and that he has consistently demonstrated a cooperative attitude. Because of his continued demonstration of habits of industry we would rate his institutional record as being above the average. James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board of Pardons and stated that although there is nothing in his record to commend the prisoner, nevertheless, the petitioner has served 8 years, and the district attorney's office will be satisfied with the action that the Board of Pardons takes if they feel that the applicant should be released. The trial judge, the Honorable James Gay Gordon, Jr., made no reply to an inquiry addressed to him by the Board of Pardons relative to this case.

The Board of Pardons after reviewing all the facts is of the opinion that the petitioner has been sufficiently punished, and therefore, recommends that the minimum term of imprisonment be commuted to a minimum term of 8 years, expiring on November 17, 1940 and that the petitioner remain on parole until November 17, 1952.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Howard McCollumn, B-4956, D-486, No. 4511, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Howard McCollumn, convicted of murder of the second degree in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on April 3, 1935 be commuted from 6 years to 5 years, 6 months and 7 days, expiring on October 10, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty to the crime of murder in the second degree in the Courts of Philadelphia County on April 3, 1935 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 6 to 20 years by Honorable Albert S. C. Millar.

An examination of the criminal record of the petitioner shows that he has been arrested on 4 occasions, being charged with impersonating an officer and disorderly conduct, and further, he served a term of 11 days in the Philadelphia House of Correction prior to the offense which he now is incarcerated. The petitioner was arrested in the city of Philadelphia on October 10, 1934 and was confined to the Philadelphia County Prison until April 3, 1935.

The Board of Trustees of the Eastern State Penitentiary reports to the Board of Pardons that the petitioner has a satisfactory institutional record and a parole plan has been obtained which includes reliable sponsorship and bona fide employment. The assistant district attorney, James W. Tracey, Jr., Esquire appeared before the Board of Pardons and stated that the district attorney's office had no objection to the granting of clemency in this case because of the length of time he was required to wait for his trial.

The Board of Pardons after considering the facts is of the opinion that the petitioner should be given the benefits of the Act of April, 1937 which provides for the allowance of commitment of time to all prisoners held in county prisons awaiting trial, and therefore, recommends that the minimum sentence in this case be commuted to a minimum term of 5 years, 6 months and 7 days, expiring on October 10, 1940 and to remain on parole until April 3, 1955.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Morris Rosenberg, D-816, No. 4542, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Morris Rosenberg, convicted of arson in the Court of Oyer and Treminer and Quarter Sessions of Philadelphia County on August 26, 1935 be commuted from 10 years to 5 years, 2 months, expiring on October 26, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty to the crime of arson and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years on August 26, 1935.

An examination of his record shows that he was convicted on June 16, 1933 for the crime of arson and was sentenced to a term of imprisonment in the Philadelphia County Prison for from 6 to 12 years. The sentence being later reconsidered and made to read 1 to 5 years.

The Board of Trustees report a satisfactory institutional record. The trial judge, the Honorable Harry S. Mc-

Devitt advised the Board of Pardons that he had no objection to the granting of clemency in order that the prisoner could be returned to the Philadelphia County Prison to serve his unexpired parole period. James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board of Pardons and stated that if it had not been for the cooperation and assistance given by the prisoner many cases in Philadelphia and in other counties could not have been solved. A representative of the Fire Underwriter's Association appeared before the Board of Pardons and stated that information and assistance furnished by the prisoner was a great benefit to the Commonwealth and to the Underwriter's in solving many cases of arson.

The Board of Pardons after considering the facts is of the opinion that the prisoner has been sufficiently punished by his incarceration in the penitentiary, and therefore, recommends that the minimum sentence be commuted to a minimum term of 5 years, 2 months, expiring on October 26, 1940 and to remain on parole until August 26, 1955 in order that the prisoner may be returned to the Philadelphia County Prison to satisfy a sentence already imposed.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Britton Bulick, B-5922, No. 4606, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Joseph Britton Bulick, convicted of forgery, breaking and entering, larceny in the Court of Quarter Sessions of Mifflin County on January 10, 1938 to be computed from December 28, 1937 be commuted from 4 years to 2 years, 10 months, expiring on October 28, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was sentenced in the Court of Quarter Sessions of Mifflin County on January 10, 1938 to a term of imprisonment in the Western State Penitentiary for from 4 to 8 years for the crime of forgery, breaking and entering, larceny. Sentence to be computed from December 28, 1937. The Board of Trustees of the Western State Penitentiary in a report submitted to the Board of Pardons have stated that applicant's conduct record has been excellent and that he has been a very cooperative inmate and holds a trustworthy position in the penitentiary.

The trial district attorney made no reply to an inquiry forwarded by the Board of Pardons as to the attitude of the district attorney's office for this petitioner. The trial judge, the Honorable William W. Uttley has advised the Board of Pardons that any action taken by the Board is satisfactory to him. An examination of the record shows that the applicant was tried by Military Authority on a charge of desertion and was sentenced to a term of 1 year, 6 months to the United States Military Barracks.

A satisfactory parole plan has been obtained which assures satisfactory sponsorship and adequate employment if the petitioner is released.

The Board of Pardons after considering all facts in this case are of the opinion that the petitioner has been sufficiently punished and that he will, if released on parole, rehabilitate himself and will become a self-respecting, law-abiding citizen. The Board, therefore, recommends that the sentence in this case be commuted from a minimum term of four years to a minimum term of 2 years, 10 months, expiring on October 28, 1940, and that the applicant will be under the supervision of the Board of Pardons until December 28, 1945.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Bert Kabo, No. 4866, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Bert Kabo, convicted of larceny, receiving stolen goods, false pretense, larceny by bailee in the Court of Quarter Sessions of Allegheny County, on June 24, 1929 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was sentenced in the Quarter Sessions Court of Allegheny County on June 24, 1929 for the crime of larceny, receiving stolen goods and was sentenced to a probationary period of 1 year, 6 months and pay the costs of prosecution. On June 18, 1925 he was sentenced in the Court of Allegheny County to a term of 4 months in the County Prison for the crime of false pretense. On October 20, 1925 he was sentenced in the Allegheny County Court to a term of 1 day in the Allegheny County workhouse for the crime of larceny by bailee.

The petitioner is married and since February 1926 has been steadily employed by the Yellow Cab Company in the City of Pittsburgh. He is the father of two children, age 13 and 7 years. Applicant prior to and subsequent to the period during which the crimes were committed he has lived a model and law-abiding life and has made an honest effort of self improvement.

Ralph T. Bell, Esquire, Assistant District Attorney of Allegheny County in a letter to the Board of Pardons stated that the district attorney's office had no objection to the granting of a pardon. The trial judge, the Honorable Ambrose B. Reid stated that he had no objection.

The Board of Pardons is of the opinion that the petitioner has fully rehabilitated himself and that he is now a self-respecting and law-abiding citizen, and therefore, recommends that a full and complete pardon be granted to him which will in part remove the stigma of the crime from the name of the applicant and that of his children.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.

CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Yelkovich, No. 4941, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that John Yelkovich, convicted of robbery, assault with intent to rob in the Court of Oyer and Terminer of Dauphin County, on December 11, 1936, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Oyer and Terminer Court of Dauphin County and was on December 11, 1936 sentenced to a term of imprisonment in the Dauphin County Prison for from 2 to 4 months for the crime of robbery, assault with intent to rob. His sentence was immediately suspended and he was placed on probation for a period of two years.

The petitioner desires a full and complete pardon in order that he may procure permanent employment and that he may be in a position to obtain a bond, and further, that he will then be eligible to take a civil service examination.

The record in this case shows that he has never been involved in any offenses prior to the one from which he seeks relief nor has he been involved in any difficulties since.

The district attorney's office advised the Board of Pardons that they had no recommendation to make and would be entirely satisfied with any action the Board took in this matter. The trial judge, the Honorable John E. Fox advised that the facts were substantially correct.

The Board of Pardons after a review of the facts is of the opinion that the petitioner is not criminally minded and that he has during the past 4 years completely rehabilitated himself. He is at present employed by the Central Iron and Steel Company, Harrisburg, Pennsylvania.

The Board of Pardons is of the opinion that the applicant is now a self-respecting and law-abiding citizen, and that the granting of a full and complete pardon will be of material assistance to him in procuring employment and will permit him to provide more adequately for himself and family, and therefore, recommends that a full and complete pardon be granted.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Francis Cervino, No. 4947, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Francis Cervino, convincted of burglary in the Court of Quarter Sessions of Philadelphia County, on March 8, 1934, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was sentenced in the Quarter Sessions Court of Philadelphia County on the 8th day of March, 1934 to a term of 30 days in the House of Correction for the crime of burglary.

An examination of his record shows that he had never been arrested before nor has he been in any difficulty since his discharge from the House of Correction. The applicant has been employed by the Lee I. Robinson Hosiery Mills, 23rd and Allegheny Avenue, Philadelphia for the past three years. He is married and is the father of two children.

James W. Tracey, Jr., Esquire assistant district attorney, advised the Board of Pardons that the district attorney's office had no objection to the granting of clemency. The trial judge, the Honorable George Gowen Parry has stated that he had no objection to the granting of clemency.

The Board of Pardons after a review of all the facts is of the opinion that the petitioner has been fully rehabilitated and that he is now a self-respecting and law-abiding citizen, and therefore, recommends that a full and complete pardon be granted to the petitioner which will in part remove the stigma of the crime from his name and be of material assistance to him.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Jacob Aronovitz, No. 4948, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Jacob Aronovitz, convicted of receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on January 18, 1935 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Quarter Sessions Court of Philadelphia for the crime of receiving stolen goods and was sentenced on the 5th day of December, 1934 to three months in the Moyamensing Prison. On January 4, 1935 sentence was reconsidered and revoked and held open for further investigation. On January 18, 1935 sentence was suspended and petitioner placed on probation for three years.

The petitioner was never involved in any difficulties with the law before the arrest which resulted in the conviction which now stands nor has he been in any difficulties since that date.

The Board after a review of the facts is of the opinion that the petitioner is not criminally minded and that he will never again become involved in difficulties which

will require criminal prosecution. The Board is further of the opinion that the petitioner has completely rehabilitated himself and that he is now a self-respecting and law-abiding citizen. The petitioner has been steadily employed. He is single and resides at the home of his parents.

The Board, therefore, recommends that a full and complete pardon be granted which will in part remove the stigma of the crime from his name and be of material assistance to him in obtaining employment which will compensate him more fully than the employment which he now has.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Adolph M. Albrecht, No. 4950, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Adolph M. Albrecht, convicted of Adolph M. Brecht in the Court of Quarter Sessions of Philadelphia County, on April 14, 1932 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Quarter Sessions Court of Philadelphia County on Bills of Indictment Nos. 506 and 507 April Term, 1932 for the crimes of larceny of an automobile, driving an automobile without consent of owner and receiving stolen goods and was placed on probation for a period of 3 years on April 14, 1932.

An examination of his record reveals that he was never arrested prior to the arrest which resulted in the conviction which now stands nor has he been involved in difficulties since that date. The petitioner was 17 years of age at the time of the commission of this offense. He has been steadily employed with the John J. Felin Company, Philadelphia, Pennsylvania for the past eight years.

James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board of Pardons and stated that the district attorney's office had no objection to the granting of the petition. The trial judge, the Honorable Edwin O. Lewis directed the Chief Probation Officer of Philadelphia County to advise the Board that he had no objection to a pardon being granted.

The Board of Pardons is of the opinion that the petitioner is not criminally minded and that he will never again become involved in any difficulties with the law. The Board, is further of the opinion that the applicant has completely rehabilitated himself and that he is now a self-respecting and law-abiding citizen, and therefore, recommends that a full and complete pardon be granted to him.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of S. Jesus Gonzalez, No. 4951, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that S. Jesus Gonzalez, convicted of larceny in the Court of Quarter Sessions of Philadelphia County, on April 30, 1926, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Quarter Sessions Court of Philadelphia County on April 30, 1926 and was sentenced to a term of imprisonment in the Philadelphia County Prison for from 5 to 10 years for the crime of larceny from which he was paroled on April 31, 1931.

The petitioner was born in Spain. He is married and resides with his wife at No. 329 West 112th Street, New York City, and he has been steadily employed since his release from the County Prison. Prior to the commission of the crime from which he seeks relief he has applied for naturalization and was granted his first naturalization papers. Because of the conviction he is unable under a ruling of the United States Immigration Bureau, and, because of the federal law to obtain his final citizenship papers. An examination of his record shows that he had never been in any difficulty before the commission of the offense for which he was incarcerated nor has he been in any difficulty since that time.

James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board of Pardons and stated that his office had no other record and that they had no objection to the granting of his petition, as the offense had taken place in 1926. The trial judge, the Honorable Arird made no reply to an inquiry addressed to him by the Board of Pardons.

The Board of Pardons after a review of all the facts is of the opinion that the petitioner has completely rehabilitated himself, and he is now a self-respecting and law-abiding citizen, and therefore, recommends that the granting of this petition be granted, which will in part remove the stigma of the crime from his name and be of material assistance to him.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Zef Banda, No. 4952, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Zef Banda, convicted of sodomy and buggery in the Municipal Court of Philadelphia County, on November 17, 1922, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded not guilty in the Municipal Court of Philadelphia County on the 17th day of November, 1922 and was sentenced to a term of imprisonment in the Philadelphia County Prison for a term of 2½ years for the crime of sodomy and buggery.

An examination of his record shows that he was never arrested before the arrest which resulted in his imprisonment nor has he been arrested subsequently. The applicant was born in Albania. After his discharge from the County Prison he applied for his citizenship papers, which were denied him because of the conviction standing against him.

James W. Tracey, Jr., Esquire, assistant district attorney appeared before the Board of Pardons and stated that the district attorney's office had no objection to the granting of clemency. The trial judge, the Honorable Raymond MacNeille recommended to the Board of Pardons that a pardon should be granted to the peittioner.

The petitioner has been constantly employed since his discharge from the Philadelphia County Prison and has made an honest and sincere effort to become a self-respecting and law-abiding citizen.

The Board after considering all the facts of the case is of the opinion that a full and complete pardon should be granted to the petitioner. The Board, therefore, recommends that a full and complete pardon be granted to the applicant.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Theodore Zbiegniewicz, No. 4978, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of Theodore Zbiegniewicz, convicted of receiving stolen goods in the Quarter Sessions Court of Allegheny County on March 30, 1939 be commuted from a minimum term of 1½ years on Bill No. 317 December Sessions, 1938 to a minimum term of 3 months, expiring on October 30, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Quarter Sessions Court of Allegheny County on March 30, 1939 to be computed from January 30, 1939 of the crime of receiving stolen goods and was sentenced to a term of imprisonment in the Allegheny County Workhouse for from 1½ to 3 years on each of Bills Nos. 316 and 137 December Sessions, 1938. Sentence to run consecutively.

An examination of the petition submitted by the applicant shows that he was not involved in any difficulty with the law prior to the date of the commission of the offense which resulted in his present imprisonment. Ralph T. Bell, assistant district attorney, appeared before the Board and stated that the district attorney's office felt that the sentence as imposed was not severe and that his office was opposed to the granting of the petition. The trial judge, the Honorable Charles Culver in a communication to the Board of Pardons stated that the sentence was not severe and that the petitioner should be required to serve it. Several communications had been addressed to the Board of Pardons by reputable persons in the city of Lansing, Michigan and Detroit, Michigan, attesting to the good character of the petitioner. The Superintendent of the Allegheny County Workhouse had advised the Board of Pardons that the petitioner has maintained an excellent record and has been of much assistance to the authorities of that institution.

The Board of Pardons after considering all facts in the case are of the opinion that the petitioner has been sufficiently punished, and therefore, recommends that the minimum sentence be commuted on Bill No. 317 December Sessions, 1938 from a term of 1½ years to a minimum term of 3 months, expiring on October 30, 1940 and that the applicant remain on parole until January 30, 1945.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Green, Jr., No. 4979, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that George Green, Jr., convicted of operating a motor vehicle without consent of owner in the Court of Quarter Sessions of Montgomery County, on March 31, 1939 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Quarter Sessions Court of Montgomery County on March 31, 1939 for the crime of operating a motor vehicle without consent of owner and was sentenced to pay one-half of damages on the car to which injuries were inflicted and to be placed on probation for a period of one year.

An examination of his record shows that he was arrested on one occasion for the crime of disorderly conduct. The case was discharged by a magistrate. The applicant is employed by the United States Maritime Service Training Station, Hoffman's Island, New York and he is desirous of joining the United States Navy, but, because of this conviction which stands against his record, he is not eligible for enlistment.

The trial judge, the Honorable William F. Dannehower did not reply to the Board of Pardons letter of communi-

cation addressed to him nor did the trial district attorney make any reply to the Board.

The Board of Pardons after a review of the facts is of the opinion that the petitioner is not criminally minded and that he has made an honest effort to rehabilitate himself. The Board, therefore, recommends that a full and complete pardon be granted to the applicant, which will in part remove the stigma of the crime from his name and be of material assistance to him in enlisting in the armed forces of the United States.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Gustave Serotta, No. 4990, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Gustave Serotta, convicted of larceny in the Court of Oyer and Terminer of Lackawanna County, on September 23, 1912 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Oyer and Terminer Court of Lackawanna County on September 23, 1912 for the crime of larceny and was sentenced to an indeterminate term in the Pennsylvania Industrial School. An examination of his record shows that for the past 26 years he has not been in any difficulties with the law.

The trial district attorney did not reply to a communication addressed to him by the Board of Pardons. The trial judge, the Honorable Will Leach stated that he knew of no facts in this case. An investigation conducted by the New York State Parole Authorities reports that the subject has been engaged in business and has been employed for the past 25 years. The petitioner is desirous of entering business which will require the possession and sale of intoxicating liquor and because of the ruling of the Alcoholic Beverage Control Commission of New York it is impossible for him to operate or be employed in any place of business where liquor or beer is sold. Because of the conviction which stands against his record, it is impossible for him to enter this business.

The Board of Pardons is of the opinion that the petitioner has completely rehabilitated himself, and that he is deserving of consideration, and therefore, recommends that a full and complete pardon be granted to the petitioner.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Dominic F. Mollica, No. 5003, September Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Dominic F. Mollica, convicted of entering a building in the Court of Quarter Sessions of Allegheny County, on February 19, 1936 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Quarter Sessions Court of Allegheny County on February 19, 1926 and was sentenced to a term of imprisonment in the Allegheny County Prison for from 2 to 4 months for the crime of entering a building.

The petitioner was never involved in any transgressions of the law prior to the arrest which resulted in the sentence from which he now seeks relief nor has be been in any difficulty since that time. He has been steadily employed since the date of his release from the prison in the capacity of Deputy United States Marshal in the State of New Mexico and has rendered valuable service to the State of New Mexico and the United States, which is attested to in letters presented to the Board of Pardons written by Mr. J. Edgar Hoover, Federal Bureau of Investigation, Mr. Felipe Sanchez Y. Baca, United States Marshall of the District of New Mexico, and Mr. A. M. Fernandez, Assistant Attorney General of the State of New Mexico. The applicant is now a candidate for a political office and desires a pardon in order that he may qualify for the office if elected.

Ralph T. Bell, Esquire, assistant district attorney of Allegheny County appeared before the Board and stated that his office did not object to the granting of a pardon. The trial judge, the Honorable Ambrose B. Reid has advised the Board of Pardons that he had no objection to the granting of a pardon.

The Board of Pardons is of the opinion that the petitioner has fully rehabilitated himself and that he is now a self-respecting and law-abiding citizen, and therefore, recommends that a full and complete pardon be granted which will in part remove the stigma of the crime from his name and be of material assistance to him.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Francis E. C. Quinn, D-3479, No. 792, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum

sentence of Francis E. C. Quinn, convicted of assault, being armed with an offensive weapon with intent to rob, in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on October 8, 1935 to be computed from October 8, 1938, be commuted from 4 years to 2 years, 1 month expiring on November 8, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on October 8, 1935 of the crime of assault, being armed with an offensive weapon with intent to rob and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 4 to 20 years. Sentence to be computed from October 8, 1938.

An examination of the record shows that he was committed to the Eastern State Penitentiary on January 7, 1931 by the Courts of Philadelphia County for a period of 3 to 6 years for the crime of robbery, being armed with an offensive weapon, from which he was released on parole January 14, 1934. The sentence which petitioner is now serving resulted in the petitioner being retaken as a parole violator, and he was returned to the Eastern State Penitentiary on October 8, 1935 to serve the unexpired sentence imposed January 14, 1931 and thereupon to be recommitted to serve the term of 4 to 20 years.

The Board of Trustees of the Eastern State Penitentiary have reported to the Board of Pardons that he has utilized every opportunity toward self-improvement. He is employed as a surveyor in the Maintenance Department and is considered one of the best workers that has ever been employed in that capacity. His assignments are both inside and outside the wall. If he had not been able to perform successfully the technical work assigned him, it would have been necessary to have a civilian employe. In order to improve himself he has studied mathematics in his spare time and at present is working in trigonometry. Judging from this man's changed attitude and the mature method in which he has attacked his problems since his return, it is felt that he will have a good apportunity of successful adjustment, if he is released. The trial judge, the Honorable James Gay Gordon, Jr., made no reply to a communication addressed to him by the Board of Pardons in this matter. James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has served a period of time equal to the two minimum terms as imposed by the Court and that the district attorney's office had no objection to the granting of this petition. The Supervisor of Paroles advised the Board of Pardons that if the petition met with the approval of the convicting authorities he would have no objection to the re-release of this petitioner. A parole plan has been obtained which assures adequate sponsorship and bona fide employment.

The Board of Pardons after a review of all of the facts in this case are of the opinion that the petitioner has been sufficiently punished and will, if released, become a self-respecting, law abiding citizen, and therefore, recommends that the minimum sentence be commuted to 2 years, 1 month, expiring on November 8, 1940 and that the applicant will remain on parole under the supervision of the Board of Pardons until October 8, 1958.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.

S. M. R. O'HARA,
Secretary of the Commonwealth.

CLAUDE T. RENO,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Mike Churley, No. 970, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Mike Churley, convicted of statutory rape in the Court of Oyer and Terminer of Allegheny County, on March 31, 1931 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon was convicted in the Oyer and Terminer Court of Allegheny County on March 31, 1931 of the crime of statutory rape and was sentenced to a term of imprisonment in the Western State Penitentiary for from 4 to 15 years. The applicant submitted a petition to the Board of Pardons for commutation of sentence which was heard at the October 1932 session. After due deliberation a recommendation was made to the Governor that the sentence be commuted and Churley was thereupon released on parole.

An examination of his record reveals no prior criminal history. The petitioner has during his entire parole period complied with every regulation of the Board. He has been steadily employed and bears a good reputation in the community where he now resides. The Supervisor of Paroles has informed the Board of Pardons that he has no objection to the granting of this petition.

The trial judge, the Honorable James H. Gray, has advised the Board of Pardons that he will rely on the Board's judgment. Ralph T. Bell, Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has not violated the law in any way since his release, and that the offense for which he now seeks a pardon was the only offense upon the applicant's record, and therefore, the district attorney's office desired to leave the matter up to the Board's good judgment.

The Board of Pardons after a review of all the facts is of the opinion that the petitioner is now a self-respecting, law-abiding citizen and an asset in the community in which he lives, and further, that he has made a complete rehabilitation, the Board, therefore recommends a full and complete pardon be granted.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.

S. M. R. O'HARA,
Secretary of the Commonwealth.

CLAUDE T. RENO,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles Durst, B-1617, No. 1065, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of Charles Durst, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on September 26, 1929 be commuted from 16 years to 11 years, 2 months expiring on November 26, 1940.

Our reasons for making this recommendation are as follows:

The applicant for a commutation of sentence was con-

victed in the Courts of Allegheny County on Bills of Indictment Nos. 142, 144, 145 and 146 September Sessions, 1929 of the charge of robbery and was sentenced to a term of imprisonment in the Western State Penitentiary for from 2 to 4 years on each bill. Sentences to run consecutively.

An examination of the record shows that during the month of January, 1929 he was arrested in Pittsburgh charged with the crime of larceny of an automobile for which he was confined for a period of 35 days in the County Prison. The applicant presented a petition to the Board of Pardons which was heard in October, 1933 and favorable recommendation was made and the applicant was released on parole December 22, 1933. The Supervisor of Paroles has informed the Board that the petitioner during his entire parole period has faithfully complied with the rules and restrictions of the Board of Pardons, and he has been continuously employed with the Kengan Provision Company in the city of Pittsburgh. He is married, has two children and resides with his family at 1906 Gibert Street, North Side, Pittsburgh, Pennsylvania.

The trial judge, the Honorable Harry H. Rowand, in a communication to the Board of Pardons has stated that he is in favor of the granting of the petition. Ralph T. Bell, Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has had no other law violation. That he has served his minimum term and that the district attorney's office would be satisfied with any action taken by the Board of Pardons.

The Board of Pardons after a review of all the facts is of the opinion that a continuation of the applicant on parole would serve no good purpose. The petitioner has demonstrated he has completely rehabilitated himself. The Board, therefore, recommends that the maximum sentence as imposed by the Court be commuted to a new maximum term of 11 years and 2 months, expiring on November 26, 1940.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Henry Franklin Coffey, B-691, No. 1558, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Henry Franklin Coffey, convicted of larceny, entering a building and robbery in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on March 16, 1928, be commuted from a minimum term on Bill No. 328 from a minimum of 1 year to a minimum of 8 months, expiring on November 16, 1940; on Bill No. 327 from a minimum of 1 year to a minimum of 1 day, expiring on November 17, 1940; on Bill No. 55 from a minimum of 2 years to a minimum of 1 day, expiring on November 18, 1940; on Bill No. 56 from a minimum of 2 years to a minimum of 1 day, expiring on November 19, 1940 and on Bill No. 57 from a minimum of 2 years to a minimum of 1 day, expiring November 20, 1940.

Our reasons for making this recommendation are as follows:

The applicant for a commutation of sentence was convicted in the Oyer and Terminer and Quarter Sessions Court of Allegheny County on March 16, 1928 on Bills of Indictment Nos. 1075, 1073, 354, 326, 327, 328, 329 February Term, 1928, Bills Nos. 55, 56, 57, 58 February Term, 1928 and was sentenced to a term of imprisonment in the Western State Penitentiary for from 14 to 28 years for the crimes of larceny, robbery, entering a building.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons stated: " . . . If this inmate were eligible to apply for parole, we would probably recommend him for parole (1) has served 12 years, 7 months (2) excellent institutional record since transfer to Rockview." The trial judge, the Honorable Ambrose B. Reid, made no reply to a communication addressed to him by the Board of Pardons. Ralph T. Bell, Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has committed 13 crimes, none of which amounted to the loss of any large amount of money and could probably be classed as petty larceny, and further, the petitioner has been in jail for 12 years, 7 months, and that the district attorney's office felt that the petitioner could now be released. A parole plan has been obtained which provides adequate sponsorship. Employment is to be obtained prior to the release of the applicant from the Western State Penitentiary.

The Board of Pardons is of the opinion that applicant has been sufficiently punished and that he will, if released, become a self-respecting, law-abiding citizen, and therefore, recommends that the sentence be commuted in the following manner: On Bill No. 328, from a minimum term of 1 year to a minimum term of 8 months, expiring on November 16, 1940; on Bill No. 327 from a minimum term of 1 year to a minimum term of 1 day, expiring on November 17, 1940; on Bill No. 55 from a minimum term of 2 years to a minimum term of 1 day, expiring on November 18, 1940; on Bill No. 56 from a minimum term of 2 years to a minimum term of 1 day, expiring on November 19, 1940 and on Bill No. 57 from a minimum term of 2 years to a minimum term of 1 day, expiring on November 20, 1940 and the applicant will remain under the supervision of the Board of Pardons until November 20, 1944.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Albert Miller, B-91, No. 1845, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Albert Miller convicted of assault and battery with intent to commit murder, robbery in the Oyer and Terminer Court of Clearfield County, on April 18, 1927, be commuted on Bill No. 98 May Sessions, 1927 from a minimum of 10 years to a minimum of 6 years, 7 months, expiring on November 18, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme

Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommend tions for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Tomkiewicz, B-6179, C-8934, No. 3550, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Tomkiewicz, convicted of murder in the second degree in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on May 9, 1933 be commuted from 8 years to 7 years, 7 months and 4 days expiring on December 13, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Luzerne County on May 9, 1933 to the charge of murder generally. The Court fixed the degree as murder in the second degree and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 8 to 20 years.

An examination of the record shows that he was committed to the Luzerne County Industrial School to an indeterminate term for incorrigibililty on June 29, 1929. He was arrested in Jersey City, New Jersey, on September 26, 1932 for carrying concealed weapons and sentence suspended.

The Board of Trustees of the Eastern State Penitentiary has advised the Board of Pardons that the petitioner was transferred to the Rockview Farm Prison on June 24, 1938. The authorities of that institution report that his performance there has been satisfactory. He is employed as a truck driver in the farm gang and his associates are of the better class. The trial judge, the Honorable Benjamin R. Jones, in a communication to the applicant stated: " . . . You are entitled to consideration for the time you spent in prison since your arrest on December 13, 1932, until the date of your sentence, May 9, 1933. If the authorities will request an order to that effect I shall be glad to forward it."

Mitchell Jenkins, Esquire, assistant district attorney, appeared before the Board and stated that in view of the facts that the minimum sentence was almost up the district attorney's office would leave the matter to the Board of Pardons without any recommendation.

The Board, after reviewing all of the facts is of the opinion that the petitioner should be credited with the period that the petitioner was confined in the county jail awaiting trial, and further, that the petitioner will if released become a self-respecting, law-abiding citizen. A parole plan has been obtained which assures adequate sponsorship and bona fide employment.

The Board, therefore, recommends that the minimum sentence be commuted to a minimum term of 7 years, 7 months and 4 days, expiring on December 13, 1940, and that applicant remain on parole under the supervision of the Board of Pardons until May 9, 1953.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Samuel I. Perlman, D-1458, No. 3961, October Sesion, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Samuel I. Perlman, convicted of fraudulently making a written instrument in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 9, 1936 be commuted from 5 years to 4 years, 6 months and 18 days, expiring on January 27, 1941.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Court of Philadelphia County on July 9, 1936 for the crime of fraudulently making a written instrument and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years.

An examination of the record shows on several occasions the petitioner was charged with larceny, receiving stolen goods, fraudulent conversion, false pretense, embezzlement, perjury and on each arrest the case was disposed of by the applicant making restitution and by verdicts of not guilty, with the exception of one arrest of the charge of perjury, where he was sentenced to a term of imprisonment in the Philadelphia County Prison for from 18 months to 3 years.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . While his conduct record has been satisfactory, there is nothing in his performance record that would lead us to believe he will change his former habits or methods of securing his livelihood." The trial judge, the Honorable Robert E. Lamberton, made no reply to a communication addressed to him by the Board in this mater. James W Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the district attorney's office had no objection to the granting of the commutation in order that the petitioner could be credited for the time spent in the county prison awaiting trial for the sentence imposed by the Court. The record in this case shows that the petitioner was placed under arrest on January 27, 1936 and was committed to the county prison in default of bail, where he remained until July 9, 1936 the time of imposition of the sentence. Because of the Act of Assembly approved April, 1937 the Board is of the opinion that the petitioner should be credited with the time spent in prison as applying against the minimum sentence, and therefore, recommends that the minimum sentence be commuted to a minimum term of 4 years, 6 months, 18 days, expiring on January 27, 1941, and that the applicant will remain under the supervision of the Board of Pardons until July 9, 1946.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Melvin Rudy, B-6157, D-2723, No. 3992, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Melvin Rudy, convicted of breaking and entering with intent to steal in the Court of Oyer and Terminer and Quarter Sessions of Tioga County on December 21, 1937 to begin July 8, 1937 be commuted from 4 years to 3 years, 4 months, expiring on November 8, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Tioga County on December 21, 1937 of the crime of breaking and entering with intent to steal and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 4 to 10 years. Sentence to be computed from July 8, 1937.

An examination of the record in this case shows that the petitioner was arrested on six occasions, charged with suspicion and sentence was suspended in each case.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states this petitioner was transferred to Rockview on June 17, 1938. The authorities of that institution report that he has a good prison performance. He is employed in the garage and is considered to be an excellent worker. He has attended school studying a course in electric arc welding. They stated that if this man was being considered to parole, they would probably recommend. The trial judge, the Honorable Thomas A. Crichton, in a communication to the Board stated he had no objection to the granting of this petition. The district attorney, Charles M. Elliott, Esquire, in a communication to the Board stated: ". . . Again I write that I do not believe, under all of the circumstances, that this man is entitled to commutation at this time." A parole plan has been obtained which assures adequate sponsorship and bona fide employment.

The Board after a review of all of the facts in this matter is of the opinion that the petitioner has been sufficiently punished, and if released, he will become a self-respecting, law-abiding citizen, for which reason the Board recommends that the minimum sentence be commuted to a minimum term of 3 years, 4 months, expiring on November 8, 1940 and that the applicant remain on parole under the supervision of the Board of Pardons until July 8, 1947

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Emil Grayshock, B-2520, No. 4002, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Emil Grayshock, convicted of robbery in the Court of Oyer and Terminer of Allegheny County on March 6, 1931 be commuted from 10 years to 9 years, 9 mos. and 18 days expiring on December 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant for a commutation of sentence pleaded guilty in the Courts of Allegheny County on Bills of Indictment Nos. 75 and 77 December Term, 1930 charging him with the crime of robbery and was sentenced to a term of imprisonment in the Western State Penitentiary on Bill No. 75 for from 10 to 20 years and on Bill No. 77 for from 5 to 40 years. Sentences to be served concurrently.

The Board of Trustees of the Western State Penitentiary in a report submitted to the Board of Pardons stated: " . . . If this inmate were eligible to, apply for parole, we would probably recommend him for parole (1) first conviction (2) excellent institutional record (3) has served 9 years, 6 months (4) sentence of accomplice has been commuted." The trial judge, the Honorable George V. Moore, made no reply to a communication addressed to him by the Board of Pardons. Ralph T. Bell, Esquire, assistant district attorney, appeared before the Board and stated that the district attorney's office had no objection to applying credit for the period of time the prisoner spent in the Allegheny County Prison in default of bail to the minimum sentence as imposed. The petitioner was

placed under arrest on December 24, 1930 and was confined in the Allegheny County Prison until March 6, 1931 on which date sentence was imposed. A period of 2 months and 12 days. A parole plan has been obtained which assures adequate sponsorship and bona fide employment to the petitioner.

The Board after a review of all the facts is of the opinion that the petitioner should be credited with the time spent in the county jail in default of bail as applying to his minimum sentence, and therefore, recommends that the minimum sentence be commuted to a term of 9 years, 9 months and 18 days, expiring on December 24, 1940 and that the applicant remain on parole under the supervision of the Board of Pardons until March 6, 1971.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harry Alvan Myers, B-4178, No. 4032, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harry Alvan Myers, convicted of robbery, receiving stolen goods in the Court of Oyer and Terminer of Allegheny County on June 15, 1934 be commuted from 10 years to 6 years, 5 months expiring on November 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Allegheny County to the charge of robbery, receiving stolen goods and was sentenced to a term of imprisonment in the Western State Penitentiary for from 10 to 20 years on the 15th day of June, 1934.

An examination of the record shows on May 13, 1929 he was committed to the Pennsylvania Industrial School, Huntingdon, for the crime of larceny.

The Board of Trustees of the Western State Penitentiary has advised the Board of Pardons if this inmate were eligible to apply for parole, we would probably conditionally recommend him for parole subject to adequate parole plan (1) excellent institutional record since transfer to Rockview (2) has now served 6 years, 4 months. The trial judge, the Honorable W. Heber Dithrich, made no reply to a communication addressed to him by the Board in this matter. Ralph T. Bell, Esquire, assistant district attorney, appeared before the Board and stated that the district attorney's office had no objection to the granting of the petition. A parole plan has been obtained which assures adequate sponsorship and bona fide employment.

The Board, after reviewing all of the facts is of the opinion that he will, if released, live a self-respecting, law-abiding life, and therefore, recommends that the minimum sentence be commuted. The applicant will remain on parole under the Supervision of the Board of Pardons until June 15, 1954.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Wipf, B-5435, No. 4181, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Wipf, convicted of murder in the second degree in the Court of Oyer and Terminer of Beaver County on March 20, 1937 be commuted from 5 years to 3 years, 8 months expiring on November 20, 1940.

Our reasons for making this recommendation are as follows:

The applicant for a commutation of sentence was convicted in the Courts of Beaver County on March 20, 1937 of the crime of murder in the second degree and was sentenced to a term of imprisonment in the Western State Penitentiary for from 5 to 20 years.

An examination of the record shows that he was never in trouble before the commission of the offense which resulted in his present imprisonment. The applicant was placed under arrest on March 22, 1936 and was confined to the Beaver County Jail from that date until March 20, 1937 when he was sentenced to the Western State Penitentiary.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons state: " . . . if this inmate were eligible to apply for parole, we would probably recommend him for parole (1) first conviction (2) excellent institutional record (3) very cooperative and trustworthy inmate." The trial judge, the Honorable Frank E. Reader, has advised the Board that he does not desire to oppose the granting of this petition. The district attorney made no reply to an inquiry addressed to him by the Board as to his attitude in this matter. A parole plan has been obtained which insures adequate sponsorship and bona fide employment to the petitioner if he is released on parole.

The Board, after a review of all the facts are of the opinion that the petitioner has been sufficiently punished, and taking into consideration the period of 1 year during which he was confined in the Beaver County Prison, he has been confined continuously for a period of 4 years, 8 months, which is almost the entire minimum sentence imposed by the Court.

The Board, therefore, recommends that the minimum sentence be commuted from a minimum term of 5 years to a minimum term of 3 years, 8 months, expiring November 20, 1940, and that the applicant remain on parole under the supervision of the Board of Pardons until March 20, 1957.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES.
Governor.

BOARD OF PARDONS

In re application of Frank William Searcy, C-9381, No. 4225, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Frank William Searcy, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on December 15, 1933, be commuted from a minimum term on Bill No. 345 from 10 years to a minimum term of 6 years, 11 months, expiring on November 15, 1940; and on Bill No. 346 from a minimum term of 5 years to a minimum term of 1 day, expiring on November 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant for communtation of sentence was convicted in the Courts of Philadelphia County on Bills of Indictment Nos. 345 and 346 December Session, 1933 of the crime of robbery, being armed with an offensive weapon and was sentenced to a term of imprisonment on Bill No. 345 for from 10 to 20 years and on Bill No. 346 for from 5 to 10 years in the Eastern State Penitentiary. Sentences to be served consecutively.

An examination of the record shows that the petitioner was never involved in any difficulties of the law before the offense which resulted in his present imprisonment.

The trial judge, the Honorable Harry S. McDevitt, in a communication to the Board of Pardons has stated that the petitioner deserves consideration: " . . . That while he has not yet served half of his minimum, I am inclined to think that prison has now done him as much good as it will ever do him, and if we believe in rehabilitation, this is one case that deserves consideration." James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the petitioner was engaged in a number of holdups where guns were used, however, because of his penitentiary record and the accomplishments of the petitioner while confined the district attorney's office was entirely willing to leave the matter up to the Board of Pardons. The Board of Trustees of the Eastern State Penitentiary has advised the Board of Pardons that the petitioner has a very good prison record and has maintained an excellent attitude. He has real ability in cartooning and art work and has made an exceptional attempt to improve himself along these lines. His actions, attitude and efforts to improve himself, and the facts that he has no prior criminal record justify our belief that he will, if released, refrain from further criminal activities. A parole plan has been obtained which ensures reliable sponsorship and bona fide employment.

The Board after a review of all the facts in this case are of the opinion that the petitioner has been sufficiently punished, and will, if released, become a self-respecting, law-abiding citizen, and the Board, therefore, recommends that the minimum sentence on Bill No. 345 be commuted from a minimum term of 10 years to a minimum of 6 years, 11 months, expiring on November 15, 1940, and on Bill No. 346 from a minimum term of 5 years to a minimum term of 1 day, expiring on November 16, 1940 and that the applicant will remain on parole under the supervision of the Board of Pardons until November 16, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles Damato Eletto, D-1971, No. 4570, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Damato Eletto, convicted of murder-manslaughter in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on Febrcary 18, 1937 be commuted from 6 years to 3 years, 9 months expiring on November 18, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on February 18, 1937 of the crime of murder-manslaughter and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 6 to 12 years.

An examination of the petitioner's record reveals that he has never been in any difficulties with the law other than the offense which he now seeks release. The petitioner was committed to the county prison on July 26, 1936 where he was detained for a period of 6 months and 12 days while awaiting trial.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: " . . . The petitioner has attended school for a period of 16 months and made good progress in learning to read and write English. He is employed in the Weave Shop and is considered to be a good worker. This man is now 63 years of age and it is doubtful if he will again become delinquent." The trial judge, the Honorable James Gay Gordon, Jr., made no reply to a communication addressed to him by the Board. James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has been confined for a period over 4 years and the facts in his petition are correct. The petitioner went to the hospital to see his child and met his wife. He pleaded with her to return home and she struck the applicant in the face. The petitioner then drew a gun and shot his wife. Mr. Tracey stated that the district attorney's office would be satisfied with any action taken by the Board of Pardons. A parole plan has been obtained which assures adequate sponsorship and bona fide employment.

The Board of Pardons after a review of all the facts are of the opinion that the applicant, if released, will become a self-respecting, law-abiding citizen, and therefore, recommends that the minimum term be commuted to 3 years, 9 months, expiring on November 18, 1940 and that the applicant will remain on parole under the supervision of the Board of Pardons until February 18, 1949.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.

CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Melvin Walter Armpriester, D-4649, No. 4578, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Melvin Walter Armpriester, convicted of breaking and escaping penitentiary in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on September 23, 1937 to begin January 15, 1940 be commuted from 2 years to 10 months expiring November 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence entered a plea of guilty in the Courts of Montgomery County for the crime of breaking and escaping penitentiary and was sentenced on September 23, 1937 to a term of imprisonment in the Eastern State Penitentiary for from 2 to 4 years. Sentence to be computed from January 15, 1940.

An examination of the petitioner's record shows that he has been arrested on six occasions and has been convicted on each occasion. The offense for which he is now incarcerated was committed while the petitioner was confined in the New Eastern State Penitentiary under sentence imposed by the Court of York County to a term of imprisonment of from 3 to 6 years for the crime of felonious entry, larceny, receiving stolen goods.

The Board of Trustees of the Eastern State Penitentiary has advised the Board of Pardons that petitioner is suffering from tuberculosis. Dr. R. J. Grayson, Chief Resident Physician, has made a report to the Board as to the physical condition of the applicant: " . . . The above captioned inmate is afflicted with lung tuberculosis, both sides being affected. The disease is more pronounced on the right side where a cavity is present. The tuberculosis of the left lung is limited to the upper portion. His general physical and mental condition is progressively worse. At the present time he is very despondent and irritable. In addition to the tuberculosis, the inmate, also, has an indirect inguinal rupture which at the present time is inoperatable because of the lung disease. It is the opinion of the medical staff that his life span is very much abbreviated." Arrangement has been made with the Department of Health to place him in a State Tuberculosis Sanitorium for treatment in the event he is released on parole. The trial judge, the Honorable Harold G. Knight, in a communication to the Board has advised that he did not oppose the application. The trial district attorney, Frederick B. Smillie, Esquire, stated that the sentence was proper and would rely on the action of the Board.

The Board of Pardons after a review of all the facts is of the opinion that the petitioner is in a precarious physical condition and little good can result in his further confinement in the State Penitentiary.

The Board, therefore, recommend that the minimum sentence be commuted to a term of 10 months, expiring on November 15, 1940, and that the applicant will remain on parole under the supervision of the Board of Pardons until January 15, 1944. The applicant upon his release is to be admitted to a proper institution for medical treatment.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Jacob Mordell, No. 5008, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Jacob Mordell, convicted of receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on March 4, 1938 to be computed from February 21, 1938.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded not guilty in the Quarter Sessions Court of Philadelphia to the charge of receiving stolen goods and was sentenced by the Honorable Otto R. Heiligman on March 4, 1938 to a term of imprisonment in the Philadelphia County Prison for from 3 months to 3 years. Sentence to be computed from March 4, 1938.

An examination of the record shows that he was never arrested before the conviction which he now seeks release. The trial judge, the Honorable Otto R. Heiligman, in a communication to the Board stated that he left the matter up to the discretion of the Board. James W. Tracey, Jr., Esquire assistant district attorney, appeared before the Board and stated that the petitioner was charged with receiving stolen goods because of a stolen watch which he purchased, and further, that he was engaged in the pawnbrokers' business and a customer came into his place of business and wanted to sell the watch. The customer looked very young and petitioner called the Pawnbrokers' Bureau, City Hall, Philadelphia, and made inquiries as to whether the watch had been stolen and was advised that no record of the watch as having been stolen was in their department. The petitioner thereupon made the purchase of the watch, which later developed that it had been stolen and he was placed under arrest. Mr. Tracey, further stated that in view of all the facts in the case the district attorney's office had no objection to the granting of a pardon.

The Board of Pardons after reviewing all the facts in the matter are of the opinion that the petitioner has been sufficiently punished for his part in the transaction, and therefore, recommends the granting of the petition.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Erkert, No. 5011, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that George Erkert, convicted of larceny, receiving stolen goods, operating automobile without consent of owner, in the Court of Quarter Sessions of Philadelphia County, on April 1931, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty in the Quarter Sessions Court of Philadelphia County on Bills of Indictment Nos. 670, 671, 672, 673 and not guilty on Bills of Indictment on Nos. 674 and 675 of the crime of larceny, receiving stolen goods and operating an automobile without consent of owner and was on April 24, 1931 placed on probation for a period of 10 years.

An examination of the petitioner's record shows that he was never in difficulties with the law before the arrest which resulted in the sentence from which he now seeks release.

The trial judge, the Honorable Harry S. McDevitt, in a communication to the Board stated: ". . . I placed this man on ten years probation in 1931, and so far as the police records show he has not been in trouble since that time. I have no objection to a pardon." James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the petitioner was only seventeen years of age when the offense occurred. That he had never been arrested before or since, and that the district attorney's office had no objection to the granting of the petition.

The Board of Pardons after a review of all the facts is of the opinion that the petitioner has been sufficiently punished and he has demonstrated that he has become a self-respecting, law abiding citizen and is now fully rehabilitated, the Board, therefore, recommends that the petition be granted.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Nicholas Radick, B-5317, No. 5020, October Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Nicholas Radick, convicted of robbery, being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on June 24, 1931 be commuted from 10 years to 9 years, 5 months, expiring on November 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant for a commutation of sentence pleaded guilty in the Court of Philadelphia County on June 24, 1931 and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years for the crime of robbery, being armed with an offensive weapon. On December 1, 1936 petitioner was transferred to the Western State Penitentiary to serve the remaining portion of the sentence imposed.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons has advised them if this inmate were eligible to apply for parole, we would probably recommend him for parole (1) first conviction (2) excellent institutional record (3) cooperative and trustworthy inmate (4) has now served 9 years, 3 months. The trial judge, the Honorable Raymond MacNeille, has advised the Board that he had not objection to the granting of clemency if the petitioner has reformed. James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has served 9 years of a 10 years' minimum sentence for which reason the district attorney's office would offer no objection to the granting of the petition. A parole plan has been obtained for the petitioner which ensures adequate sponsorship and bona fide employment, if he is released on parole.

The Board after a review of all the facts are of the opinion that the petitioner has been sufficiently punished, and will if released, become a self-respecting, law-abiding citizen, and therefore, recommends that the minimum sentence be commuted to a minimum term of 9 years, 5 months, expiring on November 24, 1940 and that the applicant will remain on parole under the supervision of the Board of Pardons until June 24, 1951.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles P. Willey, B-2730, No. 141A, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Charles P. Willey convicted of larceny, receiving stolen goods in the Quarter Sessions Court of Allegheny County, on June 10, 1931, be commuted on Bill No. 79 June Sessions, 1931 from a minimum of 2½ years to a minimum of 1 day, expiring on December 9, 1940 and on Bill No. 80 from a minimum of 2 years to a minimum of 1 day, expiring on December 10, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Martin Delash, B-1768, No. 142A, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Martin Delash convicted of robbery, attempt to feloniously break and enter, jail breaking, felonious breaking and entering, larceny in the Oyer and Terminer and Quarter Sessions Court of Washington County on December 23, 1929, be commuted on Bill No. 119 February Session, 1930 from a minimum of 6 months to a minimum of 1 day, expiring on December 20, 1940; on Bill No. 120 from a minimum of 6 months to a minimum of 1 day, expiring on December 21, 1940; on Bill No. 122 from a minimum of 2 years to a minimum of 1 day, expiring on December 22, 1940 and on Bill No. 123 from a minimum of 2 years to a minimum of 1 day, expiring on December 23, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Louis Stulic, B-4161, No. 143A, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of imprisonment imposed on Louis Stulic convicted of sodomy, buggery, solicitation to commit sodomy, in the Quarter Sessions Court of Fayette County, on June 7, 1934, be commuted on Bill No. 130-4/7 June Sessions, 1934 from a minimum of 1 year to a minimum of 6 months, 29 days, expiring on January 6, 1941 and on Bill No. 130-6/7 from a minimum of 1 year to a minimum of 1 day, expiring on January 7, 1941.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sen-

tences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Howard Estler Rineer, C-7531, No. 1799, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Howard Estler Rineer, convicted of felonious entry and larceny in the Oyer and Terminer and Quarter Sessions Court of Lancaster County on November 17, 1931 be commuted from a minimum term on Bill No. 24 from 4½ years to a minimum term of 1 day, expiring on November 18, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Lancaster County on November 17, 1931 to Bills of Indictments Nos. 22, 23 and 24 November Term, 1931—charge—felonious entry and larceny and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 4½ to 9 years on each of the Bills. Sentences to run consecutively.

An examination of the criminal record of the petitioner shows that on November 22, 1922 he was committed by the Courts of Lancaster County to the State Industrial School to an indeterminate term of 10 years for the crime of felonious entry and larceny. The record also shows that he was arrested in the City of Lancaster on September 15, 1927 for the crime of forgery and fraudulent conversion and was sentenced to the Lancaster County Prison for a term of 6 months. The record further shows that in 1929 in the City of Harrisburg he was arrested for liquor violation and received a suspended sentence.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . Subject's institutional performance has been satisfactory. He has shown an interest in improving himself by completing 6 courses in agriculture from Pennsylvania State College and has received his diploma. He is employed in the maintenance department as a welder and his work is satisfactory." The trial judge is now deceased. The president judge, the Honorable Oliver S. Schaeffer, has advised the Board of Pardons that he will rely on any action taken by the Board of Pardons. The present district attorney, Karl L. Shirk, Esquire, appeared before the Board of Pardons and stated that the petitioner had a bad record and was convicted on three prior occasions, however, he has now an opportunity of a lifetime, because of the interest shown him by Mr. Snavely, who is well known to the district attorney, and further, if the petitioner should be rehabilitated, Mr. Snavely is the man to do it.

The Board of Pardons after considering all of the facts is of the opinion that the petitioner has been sufficiently punished. He has also been confined in excess of 9 years. A parole plan has been obtained which will provide excellent sponsorship and adequate employment. The Board of Pardons is further of the opinion that because of the type of sponsoring which he has obtained, that the petitioner will become a self-respecting law-abiding citizen, and therefore, recommends that the minimum sentence be commuted in the following manner: On Bill No. 24 from a minimum term of 4½ years to a minimum term of 1 day, expiring on November 18, 1940 and that he remain on parole until May 18, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Louis Swiderski, B-1668, No. 1969, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Louis Swiderski, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer Court of Allegheny County on October 13, 1929 be commuted from a minimum term of 5 years on Bill No. 51 to a minimum term of 1 year and 29 days, expiring on November 30, 1940; and on Bill No. 52 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 1, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Allegheny County to Bills of Indictment Nos. 50, 51 and 52 October Sessions, 1929—charged—robbery, being armed with an offensive weapon on October 13, 1929 and was thereupon sentenced to a term of imprisonment in the Western State Penitentiary for from 5 to 10 years on each Bill. Sentences to run consecutively.

An examination of the petitioner's criminal history shows that he was arrested on five occasions—charge—suspicious person and larceny before the arrest which resulted in his present incarceration.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons states: ". . . If this inmate were eligible to apply for parole, we would probably conditionally recommend him subject to a favorable parole plan." Ralph T. Bell, assistant district attorney, appeared before the Board of Pardons and stated that the question in this case was whether the improvement noticed in the applicant during his confinement is permanent or not. Further, that their office felt that if the Board is of the opinion that the petitioner was entitled to consideration that the action was a matter for the Board alone. The trial judge, the Honorable Harry H. Rowan, made no reply to a communication addressed to him by the Board of Pardons.

The petitioner has been confined in the Western State Penitentiary for a period of 11 years and the Board of Pardons is of the opinion that he has been sufficiently punished. A parole plan has been obtained which provides adequate sponsorship and bona fide employment.

The Board of Pardons is further of the opinion that the petitioner will, if released, become a self-respecting law-abiding citizen, and therefore, recommends that the sentences be commuted in the following manner: on Bill No. 51 from a minimum term of 5 years to a minimum term of 1 year and 29 days, expiring on November 30, 1940; and on Bill No. 52 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 1, 1940 and to remain on parole under the Board of Pardons until December 1, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES.
Governor.

BOARD OF PARDONS

In re application of Frank Taylor, B-2196, No. 2520, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Frank Taylor convicted of entering a building in the Quarter Sessions Court of Allegheny County, on September 16, 1930, be commuted on Bill No. 116 September Sessions 1930 from a minimum of one year to a minimum of 2 months, 26 days, expiring on December 12, 1940; on Bill No. 117 from a minimum of 1 year to a minimum of 1 day, expiring on December 13, 1940; on Bill No. 118 from a minimum of 1 year to a minimum of 1 day, expiring on December 14, 1940; on Bill No. 119 from a minimum of 1 year to a minimum of 1 day, expiring on December 15, 1940 and on Bill No. 120 from a minimum of 1 year to a minimum of 1 day, expiring on December 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Alois Schligler, B-2868, No. 2742, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Alois Schligler, convicted of murder in the second degree in the Court of Oyer and Terminer of Erie

County on September 24, 1931 be commuted from 10 years to 9 years and 3 months expiring on December 24, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Erie County on September 24, 1931 to Bill of Indictment No. 110 February Session, 1931—charge—murder in the second degree, and was thereupon sentenced to imprisonment in the Western State Penitentiary for from 10 to 20 years.

The Board of Trustees of the Western State Penitentiary have reported to the Board of Pardons: ". . . If this inmate were eligible to apply for parole, we would probably recommend him (1) first conviction (2) excellent institutional record (3) very cooperative inmate (4) has served 9 years, 2 months, in addition to 8 months in the county jail awaiting trial." The present district attorney, Burton R. Laub, Esquire, appeared before the Board of Pardons and stated that the petitioner has been rehabilitated if any prisoner ever has. That the petitioner was fortunate in getting a second degree verdict, however, he has made considerable gains while in prison. The prison authorities have done wonders with him, and further, he should be allowed credit for the period of time he spent in the Erie County Prison while awaiting trial. The record shows that the petitioner was placed under arrest on January 23, 1931 and that he was confined continuously in the Erie County Prison until the date of his sentence; i. e., September 24, 1931, a period of 8 months and 1 day.

The Board of Pardons after having reviewed all of the facts is of the opinion that he has been sufficiently punished, and will, if released, become a self-respecting law-abiding citizen. The Board is of the opinion that the petitioner should be credited for a period of 8 months and 1 day as applying against the sentence as imposed by the Court having in mind the Act of Assembly approved April 1937, which provides for credit for time spent in county prison by defendants, for default of bail. The Board, therefore, recommends that the minimum sentence in this case be commuted to a minimum term of 9 years and 3 months, expiring on December 24, 1940 and to remain on parole under the supervision of the Board of Pardons until September 24, 1951.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Lester Beck, C-7697, No. 3183, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Lester Beck, convicted of felonious entry and larceny in the Oyer and Terminer and Quarter Sessions Court of Lancaster County on January 23, 1932 be commuted from a minimum term of 4½ years on Bill No. 9 to a minimum term of 1 day, expiring on November 22, 1940; and on Bill No. 10 from a minimum term of 4½ years to a minimum term of 1 day, expiring on November 23, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the courts of Lancaster County on January 23, 1932 to Bills of Indictment Nos. 7, 8, 9, and 10 January Term, 1932—charge—felonious entry and larceny, and was thereupn sentenced to a term of imprisonment in the Eastern State Penitentiary for from 4½ to 9½ years on each Bill. Sentences to run consecutively and to be computed from November 21, 1931.

An examination of the record of the petitioner shows that he was placed under arrest at Ephrata, Pennsylvania during the year of 1927 for the crime of larceny. The case was settled before a Justice of the Peace. During the same year he was sentenced for the crime of felonious entry and larceny to a term of imprisonment of 2 years in the Lancaster County Prison. The record further shows on two occasions during 1930 he was arrested in Lancaster County. On one arrest he was discharged and on the other he was sentenced to imprisonment in the Lancaster County Prison for a period of 3 months for the crime of larceny.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states: ". . . Subject has maintained a good record of institutional performance. He has attempted to improve himself by studying a course in auto mechanics and made good progress. Has been employed as a mechanic in the knit shop for over 4 years and he frequently works during the time that he could be free." The trial judge is now deceased. The president judge, the Honorable Oliver S. Schaeffer, has advised the Board of Pardons he would be satisfied with any action taken by the Board of Pardons. The present district attorney, Karl L. Shirk, Esquire, has advised the Board of Pardons he would be satisfied with any action taken by them.

The Board of Pardons after reviewing all of the facts are of the opinion that applicant is worthy of consideration. He has served approximately 9 years, and they feel he has been sufficiently punished. It is noted that the sentence was imposed on January 23, 1932 and the Court directed the sentence be computed from November 21, 1931.

A parole plan has been obtained which provides adequate sponsorship and bona fide employment. The Board is further of the opinion that the petitioner will, if released, become a self-respecting law-abiding citizen, and therefore, recommends that his minimum sentence be commuted in the following manner: on Bill No. 9 from a minimum term of 4½ years to a minimum term of 1 day, expiring on November 22, 1940; and on Bill No. 10 from a minimum term of 4½ years to a minimum term of 1 day, expiring on November 23, 1940 and to remain on parole until May 23, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of James Paul Barnhart, B-3365, No. 3337, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommended that the minimum sentence of James Paul Barnhart, convicted of murder in the second degree in the court of Oyer and Terminer of Green County on September 17, 1932 be commuted from

9 years to 8 years, 6 months and 28 days, expiring on April 15, 1941.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Greene County on September 17, 1932 to Bill of Indictment No. 3 June Term, 1932—charge—murder in the second degree, and was thereupon sentenced to a term of imprisonment in the Western State Penitentiary for from 9 to 18 years.

An examination of his record shows that he was arrested on two occasions for non-support, for which he was committed to the Greene County Prison for a period of 30 days.

The Board of Trustees of the Western State Penitentiary in a communication to the Board of Pardons has stated: ". . . If this inmate were eligible to apply for parole, we would probably recommend him for parole (1) first major imprisonment (2) excellent institutional record (3) very cooperative and trustworthy inmate." The president judge, the Honorable Challen W. Waychoff, in a communication to the Board of Pardons has stated that the applicant should be paroled at the end of his minimum term. The present district attorney, A. M. Nichols, Esquire, has advised the Board of Pardons as follows: ". . . I am convinced that a favorable action by the Board of Pardons would serve the ends of justice in this case. The record shows that the petitioner was committed to the Greene County Jail on April 15, 1932 in default of bail, and was confined continuously until September 17, 1932, on which date he was sentenced to confinement in the Western State Penitentiary, a period of time amounting to 5 months and 2 days.

The Board of Pardons after reviewing all of the facts and taking into consideration the Act of Assembly approved April, 1937, the Board is of the opinion that the applicant, if released on parole, will become a self-respecting law-abiding citizen, and further, 5 months and 2 days the time which is the period of time equal to the time he spent in Greene County Jail should be applied to his minimum sentence, and therefore, recommends that the minimum sentence of 9 years be commuted to a minimum term of 8 years, 6 months and 28 days, expiring on April 15, 1941 and to remain on parole until September 17, 1950.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Jules Davis, D-2199, No. 3690, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Jules Davis, convicted of forgery in the Court of Oyer and Terminer and Quarter Sessions of Columbia County on May 8, 1937 be commuted from 4 years to 3 years, 8 months, and 18 days, expiring on January 25, 1941.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Columbia County on May 8, 1937 to Bill of Indictment No. 3 May Sessions, 1937 for the crime of forgery, and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 4 to 8 years and pay a fine of $100.00.

An examination of the record shows that the petitioner was committed to the county prison on January 25, 1937 in default of bail where he remained until the date of his trial, May 8, 1937.

The trial district attorney in a communication to the Board of Pardons stated he had no objection to the granting of the petition. The Honorable Charles C. Evans, trial judge, made no reply to a communication addressed to him by the Board of Pardons.

The Board of Pardons after reviewing all of the facts is of the opinion that the petitioner should be credited with the time spent while confined in the county prison awaiting trial, as applying to the sentence imposed by the Court, and therefore, recommends that the minimum sentence be commuted from a term of 4 years to a minimum term of 3 years, 8 months and 18 days, expiring on January 25, 1941 and to remain on parole until May 8, 1945. The action of the Board is based on the Act of Assembly approved April 1937, which provides for the crediting of the time spent in county prisons for default of bail in applying against the sentence imposed by the Court.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Milford Rough, B-6183, No. 3745, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Milford Rough, convicted of felonious assault with intent to kill in the Court of Oyer and Terminer and Quarter Sessions of Columbia County on September 29, 1937 to be computed from September 11, 1937 be commuted from 3½ years to 3 years and 3 months, expiring on December 11, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Columbia County on September 29, 1937 to the Bill of Indictment No. 77 October Session, 1937—charge—felonious assault with intent to kill and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 3½ to 7 years and pay a fine of $500.00. Sentence to be computed from September 11, 1937.

An examination of the petitioner's record shows that on January 27, 1928 he was convicted in Columbia County for driving while intoxicated and was sentenced to the Columbia County Prison for a term of 3 months.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . Subject was transferred to Rockview on June 24, 1936. His prison record is satisfactory. He is employed by the Welfare Department and is considered to be a good worker and seems to have some proficiency as a butcher. While at the Eastern Penitentiary, he attempted to improve himself by attending school. Authorities of Rockview state that they would probably recommend him for parole."

The trial judge, the Honorable Charles C. Evans, is now deceased. The president judge, the Honorable C. E. Kreisher, in a communication to the Board of Pardons stated the petitioner has been sufficiently punished. Judge Kreisher is also the person who was the trial district attorney. Miss Eunice Iddings who is the former Mrs. Holinger, the victim in this case appeared before the Board and stated that she desired the release of the petitioner. A parole plan has been obtained which provides adequate sponsorship and bona fide employment to the petitioner, if and when he is released.

The Board after considering all of the facts is of the opinion that the petitioner has been sufficiently punished, and he will, if released, become a self-respecting law-abiding citizen, and therefore, recommends that the minimum sentence of 3½ years be commuted to a minimum term of 3 years and 3 months, expiring on December 11, 1940 and to remain on parole under the supervision of the Board of Pardons until September 11, 1944.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Martin Zajac, B-3389, No. 4028, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of imprisonment imposed on Martin Zajac convicted of felonious taking and stealing a motor vehicle in the Quarter Sessions Court of Beaver County, on October 18, 1930; and breaking and escaping penitentiary in the Quarter Sessions Court of Centre County, on September 26, 1932, be commuted on Bill No. 125 September Sessions, 1932, from a minimum term of 5 years to a minimum term of 1 day, expiring on January 3, 1941.

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence. (And, also in the opinion of the Superior Court in the case of Anthony Narciso, Appellant, v. the Board of Trustees of the Eastern State Penitentiary).

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph Guestis, D-3759, No. 4230, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Joseph Guestis, convicted of burglary, larceny, receiving stolen goods, breaking and entering in the Oyer and Terminer and Quarter Sessions Court of Delaware County on March 28, 1929 be commuted on Bill No. 255 March Term, 1929 from a minimum term of 5 years to a minimum term of 1 year and 10 months, expiring on December 21, 1940; on Bill No. 307 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 22, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Delaware County on March 28, 1929 to Bills of Indictment Nos. 255 and 307 March Term, 1929 charging him with burglary, larceny, receiving stolen goods, breaking and entering and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years on each bill. Sentences to run consecutively. At the time of the petitioner's trial in Delaware County he was serving a sentence imposed on February 21, 1929 in the Court of Philadelphia County to a term of imprisonment for from 10 to 20 years for the crime of burglary. He was paroled on the Philadelphia County sentence on February 21, 1939 and was immediately re-entered for the service of the sentence im-

posed by Delaware County, which sentence was to commence upon the expiration of the sentence that the petitioner was then serving from Philadelphia County.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states: "Subject's institutional performance has been of the ordinary type. He associates with the average type of inmates and has maintained a poor attitude. He is employed in the woodworking department and has saved a large portion of his money. His lengthy record of delinquency prohibits any prediction of future behaviour." There is on file at the Eastern State Penitentiary a warrant lodged by the Philadelphia County Prison charging him with violation of parole from his sentence imposed on October 20, 1925. The trial judge, the Honorable Albert MacDade. made no reply to a communication addressed to him by the Board of Pardons in this matter. Guy DeFuria, Esquire, assistant district attorney of Delaware County, appeared before the Board of Pardons and stated that the district attorney's office did not oppose the application if the petitioner was to be returned to the Philadelphia County Prison to serve a period of 3 years for his parole violation in Philadelphia County.

The Board of Pardons after reviewing all of the facts in this case are of the opinion that the petitioner has been sufficiently punished for his offense in Delaware County. The Board has noted that the petitioner has been confined for almost 12 consecutive years, and that he will when released from the Eastern State Penitentiary be returned to the Philadelphia County Prison to serve an additional period of 3 years for parole violation, which will amount to almost 15 years of continuous imprisonment. The Board, therefore, recommends that the minimum sentences be commuted in the following manner: On Bill No. 255 from a minimum term of 5 years to a minimum term of 1 year and 10 months, expiring on December 21, 1940; on Bill No. 307 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 22, 1940 and to be on parole until December 22, 1950, for the purpose of returning petitioner to the Philadelphia County Prison.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Isadore Holtzin, C-5309, No. 4484, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Isadore Holtzin, convicted of robbery, being armed with an offensive weapon in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on April 15, 1929 be commuted from a minimum term on Bill No. 550 from 10 years to a minimum term of 1 year and 8 months, expiring on December 15, 1940; and on Bill No. 551 from a minimum term of 10 years to a minimum term of 1 day, expiring on December 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Philadelphia County on April 15, 1929 to Bills of Indictment Nos. 549 to 570 inclusive April Term, 1929 and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary on Bill No. 549 for from 10 to 20 years; on Bill No. 550 to a term of imprisonment for from 10 to 20 years; and on Bill No. 551 to a term of imprisonment for from 10 to 20 years. Sentences to run consecutively and the sentences to cover all other bills generally.

An examination of the criminal record of the petitioner shows that he was arrested on six occasions in the City of Philadelphia before the arrest which resulted in his present imprisonment and that he was committed on one occasion to the County Prison and was later committed to the Pennsylvania Industrial School.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . This inmate participated in the disturbances in 1933 and as a result was transferred to Philadelphia County Prison. He was returned to this institution in 1935. Since his return, definite improvement has been noted in his conduct and attitude. He was formerly employed in the boiler house, and when that department was eliminated, he secured employment in the Electrical Department where he is now working. He receives correspondence regularly from his family and they are anxious that he make a successful adjustment when released. Consideration should be given to this man's improved attitude and also the potentialities on his parole plan." Mr. Justice Stern of the Pennsylvania Supreme Court was the trial judge in this case. Justice Stern made no reply to a communication addressed to him relative to this petition. James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board of Pardons and stated the district attorney's office opposed this application, unless the Board is satisfied he has been rehabilitated and will be law-abiding. A parole plan has been obtained which provides adequate sponsorship and bona fide employment to the petitioner, if and when he is released.

The Board after reviewing all of the facts is of the opinion that the petitioner has been sufficiently punished and that he will, if released, become a self-respecting law-abiding citizen, the Board, therefore, recommends that the minimum sentences imposed by the Court be commuted in the following manner: on Bill No. 550 from a minimum term of 10 years to a minimum term of 1 year and 8 months, expiring on December 15, 1940; on Bil Nlo. 551 from a minimum term of 10 years to a term of 1 day, expiring on December 16, 1940 and that the petitioner remain on parole until December 16, 1960.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of William Mark Hayward, D-326, No. 4537, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the maximum sentence of William Mark Hayward, convicted of larceny of auto in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on January 31, 1935 be commuted from 10 years to 4 years and 11 months expiring on December 21, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Philadelphia County on January 31, 1935 to Bill of Indictment No. 992 January Term, 1935 charging him with the crime of larceny of auto and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 2½ to 10 years, from which he was paroled on July 31, 1937. After the petitioner's release on parole he was arrested in Montgomery County and was on May 27, 1938 sentenced to a term of imprisonment in the Montgomery County Prison for a period of 60 days for the crimes of operating auto while intoxicated and without owner's consent. On July 21, 1938 he was discharged from service of this sentence and returned to the Eastern State Penitentiary as a parole violator.

An examination of the criminal history of petitioner shows that he was in the hands of the law on four occasions prior to the arrest which resulted in his sentence from the Philadelphia County Courts.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . This man's institutional performance has been good. He has shown an interest in self-improvement by completing 6 agricultural courses in Pennsylvania State College and a course from International Correspondence School in Electrical Apprenticeship and now is studying radio. He is employed as a clerk in the Protestant Chaplain's office and is considered a good worker." The trial judge, the Honorable James Gay Gordon, Jr., made no reply in a communication addressed to him by the Board of Pardons relative to this petition. James W. Tracey, Jr., Esquire, assistant district attorney, advised the Board that the district attorney's office felt that the petitioner had been severely punished and that they had no objection to the granting of this petition. The applicant has been confined in the Eastern State Penitentiary for his parole violation for a period of 2 years and 5 months.

The Board of Pardons after reviewing all of the facts are of the opinion that the applicant has been sufficiently punished and that he will, if released, become a self-respecting law-abiding citizen, and the Board, therefore recommends that the maximum sentence in this case be commuted to a minimum term of 4 years and 11 months, expiring on December 21, 1940 and that he remain on parole until January 21, 1946.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Walter McDermott, D-3843, No. 4555, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Walter McDermott, convicted of entering with intent to steal, larceny in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on March 17, 1939 to be computed from March 10, 1939, be commuted from 2 years to 1 year and 9 months expiring on December 10, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on March 17, 1939 to Bills of Indictment Nos. 391, 392 and 392 March Sessions, 1939 charging him with the crime of entering with intent to steal and larceny and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 2 to 10 years. Sentence to be computed from March 10, 1939.

An examination of his criminal record shows that he has never been arrested before.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: " . . . The applicant has maintained a good record of prison performance. He has been careful in the selection of his associates and his attitude has been consistently constructive. He has worked in the bake shop since July 1939 and is considered to be an industrious worker." The Honorable Joseph Sloane, trial judge, in reply to a communication addressed to him by the Board of Pardons has stated that in his opinion the petitioner should be given a chance. James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the district attorney's office felt that the application of the petitioner had merit and should be granted. A parole plan has been obtained which ensures adequate sponsorship and definite employment.

The Board after reviewing all of the facts are of the opinion that the petitioner has been sufficiently punished, and he will, if released on parole, become a self-respecting law-abiding citizen, and the Board, therefore, recommends that the minimum sentence as imposed by the Court be commuted to a minimum term of 1 year and 9 months, expiring on December 10, 1940 and that he remain on parole until March 10, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Stanley Joseph Zelenik, D-608, No. 4854, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Stanley Joseph Zelenik, convicted of robbery, being armed with an offensive weapon, larceny, receiving stolen goods, aggravated assault and battery in the Court of Oyer and Terminer and Quarter Sessions of Bucks County on May 21, 1935 be commuted from 7 years to 5 years and 7 months, expiring on December 21, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Bucks County on May 21, 1935 to Bill of Indictment No. 64 May Term, 1935 charged with robbery, being armed with an offensive weapon, larceny, receiving stolen goods, aggravated assault and battery and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 7 to 14 years.

An examination of the petitioner's criminal history shows

that he was arrested in Philadelphia County on January 3, 1931 on a charge of operating auto without consent of owner, for which he was committed to the Philadelphia County Prison for a period of 15 days. On November 20, 1931 he was committed to the Glen Mills School to an indeterminate term for felonious entry and larceny. The record further shows he was sentenced to the Pennsylvania Industrial School to an indeterminate term for the crime of attempted larceny of auto. The record further shows on July 14, 1934 he was arrested in Montgomery County for the crime of operating an auto without consent of owner, for which he was committed to the Montgomery County Prison for a period of 1 year. Upon his release from the Montgomery County Prison he was delivered to the Bucks County authorities from which he now seeks release.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated: ". . . That the applicant's behavior while confined has been erratic. He has demonstrated no interest in self-improvement. His institutional performance would not permit us to make any favorable recommendation at this time." The trial judge, the Honorable Hiram H. Keller, in a communication to the Board of Pardons states: ". . . there is no objection on the part of this office to the granting of this request." The trial district attorney, Edward G. Biester, Esquire, in a communication to the Board of Pardons states in part: ". . . If you feel in spite of the record of the Defendant that there has been a complete rehabilitation then in that event, we do not object to the grant of the prayer of the petition, although neither do we urge it." A parole plan has been obtained which will provide immediate employment and adequate sponsorship, if he is released to society. Mr. Leon Johnson, a resident of Colmar, Pennsylvania, appeared before the Board and stated that he is in business and that he is willing to sponsor and employ the petitioner, if and when he is released on parole. Mr. Johnson is known to the Board of Pardons as a very reliable person. He has sponsored and employed two brothers of the petitioner's who have made exceptional adjustment while on parole. The one brother is now married and owns his own home. The other is married and is steadily employed and has become an asset to the community in which he resides.

After a review of all the facts and taking into consideration the behavior of the applicant, the Board is of the opinion that because of the unusual sponsorship offered in this case and the employment which is known to be bona fide, there is a reasonable probability that the petitioner becoming a self-respecting law-abiding citizen under the guidance of Mr. Johnson, and therefore, recommends that the minimum sentence be commuted from 7 years to a minimum term of 5 years and 7 months, expiring on December 21, 1940 and that the petitioner remain on parole under the supervision of the Board of Pardons until May 21, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Edwin N. Yagle, D-3235, No. 5048, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Edwin N. Yagle, convicted of voluntary manslaughter in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 1, 1938 to be computed from March 16, 1938 be commuted from 6 years to 2 years and 9 months expiring on December 16, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on July 1, 1938 to Bill of Indictment No. 853 March Term, 1938 charging him with voluntary manslaughter and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 6 to 12 years. Sentence to be computed from March 16, 1938.

An examination of the petitioner's record shows that he was never arrested before. The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: "Definite evidence of instability was observed in this youth at the time of entrance. So far his prison experience has contributed very little in the way of a stabilizing influence. Every attempt has been made to give him an opportunity of maintaining a constructive program. He is employed in the bookkeeping department in the Philadelphia institution. He enrolled in school on two occasions but made no progress. Applicant has no record of previous delinquencies and his present evidence of instability prevents any prediction of future behavior." James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated that the petitioner has learned his lesson and the position of the district attorney's office was the same as that of the sentencing judge. The Honorable L. Stauffer Oliver, trial judge, in a communication to the Board of Pardons has stated: "The facts set forth in the application are substantially correct, although I felt at the trial that the young man was much too hasty with his knife and was not quite as innocent as his version of the facts indicates. However, he is a young man of good parentage and the killing took place in the course of a boyish quarrel which he gave every indication of seeking to avoid. I am convinced he has learned his lesson and is not likely to commit any further offense. Under all the circumstances I join in his application and sincerely trust that clemency may be granted." A parole plan has been obtained for the petitioner which provides adequate sponsorship and employment, if and when he is released.

The Board of Pardons after considering all of the facts are of the opinion that the petitioner has been sufficiently punished, and that he will, if released, become a self-respecting law-abiding citizen. The Board, therefore, recommends that the minimum sentence imposed by the Court be commuted to a minimum term of 2 years and 9 months, expiring on December 16, 1940 and to remain on parole until March 16, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Earl Connolly, C-8743, No. 5051, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Earl Connolly, convicted of burglary in the Court of Oyer and Terminer and Quarter Sessions of Delaware County on March 3, 1933 to be computed from February 21, 1933 be commuted from 10 years to 7 years and 10 months expiring on December 21, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Delaware County on March 3, 1933 to Bills of Indictment Nos. 210, 236, 239, 241, 242, 243, 244 and 245 March Term, 1933 charging him with burglary and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 10 to 20 years. Sentence to be computed from February 21, 1933.

An examination of the record of the applicant shows he was arrested in Norwalk, Connecticut on September 9, 1923 charged with burglary, for which he received a suspended sentence. The record also shows on February 23, 1926 he was arrested in Bridgeport, Connecticut charging him with burglary and was sentenced to the Connecticut State Reformatory to a term of imprisonment for from 2 to 5 years. The record also shows on September 19, 1932 he was arrested in Springfield, Massachusetts for the crime of assault and robbery. No action was taken on this arrest.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: "Applicant has maintained an excellent prison record. He is quiet and unassuming. He is employed as an machinist in the engine room and had demonstrated proficiency in that work. This man's exceptional prison performance, his unusual habits of industry and thrift, and his skill as a machinist leads us to believe that there is excellent possibility that he will become a good citizen." The trial judge, the Honorable John M. Brommall, in a communication to the Board of Pardons has stated: "If those facts are true that he is a proper subject for parole so that he may be given an opportunity to rehabilitate himself, warrants us in recommending favorable action." Guy DeFuria, Esquire, assistant district attorney of Delaware County, appeared before the Board of Pardons and stated the district attorney's office did not oppose the granting of the petition. A parole plan has been obtained which provides the petitioner with immediate and bona fide employment in the City of Philadelphia as a machinist. A satisfactory sponsor has been obtained.

The Board of Pardons after reviewing all of the facts is of the opinion that the applicant has been sufficiently punished for his offense, and that he will become a self-respecting law-abiding citizen, if released on parole. The Board, therefore, recommends that his minimum sentence be commuted from a period of 10 years to a minimum term of 7 years and 10 months, expiring on December 21, 1940 and that he remain on parole until February 21, 1953.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.

S. M. R. O'HARA,
Secretary of the Commonwealth.

CLAUDE T. RENO,
Attorney General.

WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of William Pegram, D-4110, No. 5053, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of William Pegram, convicted of sodomy in the Court of Oyer and Terminer and Quarter Sessions of Luzerne County on January 3, 1925 to be computed from June 25, 1939, be commuted from 3 years to 1 year and 6 months expiring on December 25, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Luzerne County on January 3, 1925 to Bill of Indictment No. 466 November Term, 1924 charging him with sodomy and was sentenced to a term of imprisonment in the Eastern State Penitentiary for from 3 to 6 years. This sentence to commence upon the expiration of the unexpired portion of the sentence imposed November 19, 1914 in the Courts of Lackawanna County, from which sentence the petitioner is on parole.

An examination of the record of the petitioner shows that on November 19, 1914 the petitioner was sentenced to a term of imprisonment for from 5 to 20 years in Lackawanna County for the crime of murder in the second degree, and was released on parole May 27, 1920, and that he violated the condition of this parole by the crime which resulted in his present incarceration. The petitioner was returned to the Eastern State Penitentiary on January 12, 1925 to complete the unexpired portion of his sentence imposed on November 19, 1914. He was discharged on June 25, 1939 and was immediately re-entered by the prison authorities for the purpose of serving the sentence imposed in the County of Luzerne on January 3, 1925.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . This man has maintained an excellent record. He has never been guilty of any misconducts and has consistently maintained a cooperative attitude. He is 69 years of age and he is still able to perform the work of janitor successfully. It is felt that this man has been sufficiently punished for his parole violation and the new crime which he committed." The trial judge, the Honorable Benjamin R. Jones, made no reply to a communication addressed to him by the Board of Pardons in this matter. The Honorable Will Leach of Lackawanna County in a communication to the Board of Pardons stated that he had no knowledge of the facts which resulted in the Lackawanna County sentence.

The Board of Pardons after a review of all the facts is of the opinion that the petitioner has been sufficiently punished. He having been continuously confined in the Eastern State Penitentiary for a period of 15 years and 6 months. The Board takes into consideration that the petitioner will because of his age be unable to obtain employment, however, a home has been provided for him with his brother and sister at 247 South Pennsylvania Avenue, Wilkes-Barre, Pennsylvania. An investigator for the Board of Pardons has reported that the petitioner's brother is in a position to take care of the petitioner, and that he bears an excellent reputation in the community in which he resides.

The Board of Pardons, therefore, recommends that the minimum sentence be commuted from a term of 3 years to a minimum term of 1 year and 6 months, expiring on December 25, 1940 and that he remain on parole until June 25, 1945.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.

Not Sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harold L. McNally, D-3536, No. 5057, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Harold L. McNally, convicted of felonious entry in the Court of Oyer and Terminer and Quarter Sessions of Lancaster County November 4, 1938 to be computed from October 27, 1938 be commuted from 5 years to 2 years and 1 month expiring on November 27, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Lancaster County to Bill of Indictment No. 108 September Term, 1938—charge—felonious entry, and on November 4, 1938 was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years. Sentence to be computed from October 27, 1938.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . This applicant's institutional performance has been good. He is employed as a clerk in the parole office and has become a proficient typist. He is careful in selecting his associates and reacts well to discipline. He uses mature judgment and has the ability to earn an honest livelihood." The trial judge is now deceased. The president judge, the Honorable Oliver S. Schaeffer, in a communication to the Board of Pardons has stated: ". . . Entitled to favorable consideration." The present district attorney, Karl L. Shirk, Esquire, appeared before the Board of Pardons and stated that the district attorney's office was convinced that if the petitioner is released he will be a decent citizen and there is merit to his application, and the district attorney's office voices no objection.

The Board of Pardons after reviewing all of the facts in this case is of the opinion that the petitioner has been sufficiently punished for his offense, and he will, if released on parole, become a self-respecting law-abiding citizen. A parole plan has been obtained which provides adequate sponsorship and bona fide employment to the petitioner, if and when he is released. The Board, therefore recommends that the minimum sentence of 5 years be commuted to a minimum term of 2 years and 1 month, expiring on November 27, 1940 and that he remains on parole until October 27, 1948.

Respectfully submitted,
S. S. LEWIS.
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not sitting.
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Walter Albert Trucksess, No. 5071, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Walter Albert Trucksess, convicted of receiving stolen goods, entering with intent to steal in the Court of Quarter Sessions of Philadelphia County, on April 1, 1938 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty to the Bill of Indictment No. 659 February Session, 1938 in Philadelphia County to the charge of receiving stolen goods, entering with intent to steal, and was thereupon sentenced by the Honorable Theodore Rosen, to the Philadelphia County Prison to a term of imprisonment for from 1 to 2 years on the first count or Bill No. 659, and to a probationary period of ten years on Bills Nos. 651, 652, 653, 654, 655, 656, 657, 658, 660 and 661. The petitioner was released on parole on April 1, 1939.

An examination of his criminal history shows he was arrested in the City of Philadelphia during the year of 1932 for assault and battery by auto and again in 1934 in a similar charge, however, both complaints were discharged by a magistrate. Petitioner operates a place of business in Feasterville, Pennsylvania, and his conduct since his release from the Philadelphia County Prison has been exemplatory. He is married and resides with his wife in Feasterville. At the time he committed the offense from which he now seeks relief he was a member of the Philadelphia Police Department. The petitioner bore an excellent reputation in the neighborhood and, during the trial, the trial judge tried to get some evidence from the various witnesses as to any queerness in the actions of petitioner, but the only thing that came out in the testimony was that he laid out in the sun on the very hottest days in summer, getting burnt, without a hat.

James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board of Pardons and stated that the petitioner was a former police officer, and that his arrest was brought about because he tried to sell a stolen typewriter, and that a loss of $1192.00 was caused by the depredations of the petitioner. Mr. Tracey further stated because of the short period of the probationary sentence served his office was opposed to the granting of the petition. The trial judge, the Honorable Theodore Rosen, is now deceased. The Honorable Harry S. McDevitt, president judge of the Common Pleas Court No. 1, in a communication to the Board of Pardons stated as follows: ". . . I don't see that the probationary period is a burden, and it may be wise to let it run a little while since he has only six months to snow that his original sentence had a beneficial effect." The petitioner is a former member of the Military Forces of the United States, and he is desirous of obtaining a full and complete pardon in order that he may re-enlist in the United States Navy and commence an honorable and worthy career. The petitioner's wife is self-supporting and has expressed no objection to the re-enlisting of her husband into the Navy.

The Board of Pardons after a review of all the facts is of the opinion that the offenses committed by the petitioner were committed during a period when he was not mentally balanced, and the Board is of the further opinion that he is worthy of consideration. The Board, therefore, recommends that a full and complete pardon be granted to the petitioner in order that he may re-enlist in the Navy Service of the United States, and commence an honorable career.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Robert B. Harold, No. 5074, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Robert B. Harold, convicted of assault and battery with attempt to ravish in the Court of Quarter Sessions of Montgomery County, on September 6, 1940 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty in the Court of Montgomery County on September 6, 1940 to the charge of assault and battery with attempt to ravish, whereupon sentence was suspended upon payment of costs in the amount of $47.68 and petitioner was placed upon probation for a period of one year.

An examination of the petition show that on July 19, 1930 the applicant attempted to force himself upon one Mary Mulroy whose present whereabouts is now unknown. Miss Mulroy being unwilling to accept the attention of the petitioner made an outcry, whereupon he arose and desisted from forcing his attentions. Nothing further was heard of the matter until August 29, 1940 on which date petitioner was placed under arrest in the City of Philadelphia, to answer to the indictment brought against him in the County of Montgomery at September Term, 1930.

The trial judge, the Honorable Harold G. Knight, in a communication to the Board of Pardons states as follows: ". . . I remember this somewhat unusual case. The crime was committed in 1931, but the defendant was not apprehended at that time, and was not arrested until 1940. It appears that he has conducted himself well, and that he had a responsible position when arrested. I believe the facts are substantially as set forth in the application, and have no objection to the grant of a pardon." Arthur W. Bean, Esquire, assistant trial district attorney, in a communication to the Board of Pardons states in part: ". . . We have investigated this matter and find that the facts set forth in the petition are correct. We feel that this offense will definitely hurt the applicant's chances of securing employment. He pleaded guilty to the charge in this county and was given a suspended sentence. If he had chosen to plead not guilty, our chance of convicting him would have been very remote, by reason of the fact that a period of almost ten years had elapsed from the time of the crime to the time of the arrest. Accordingly, we are entirely satisfied to have your Board grant a pardon to this defendant.

The Board of Pardons after considering all of the facts in this case are of the opinion that the petitioner is not criminally minded and that his action in pleading guilty to the assault before the Court, although he knew of the seriousness of the conviction, is an indication of the character of the petitioner in this case. In addition, the petitioner has maintained a splendid record since the date of the commission of the offense and his record shows no prior transgressions.

The Board is further of the opinion that a full and complete pardon should be granted, and therefore, recommends the prayer contained in the applicant's petition be granted."

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of George Harland Bilger, D-3234, No. 5085, November Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that George Harland Bilger, convicted of murder in the first degree, robbery being armed with an offensive weapon in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County, on November 3, 1938 to be computed from May 17, 1937, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty in the Courts of Philadelphia County on May 17, 1937 of the crime of murder in the first degree, and on November 3, 1938 pleaded not guilty to the crime of robbery, being armed with an offensive weapon on Bills of Indictment 423, 425, 426, 427, 428, 429, 430 and 431 June Term, 1937, and was thereupon sentenced on Bills of Indictment Nos. 40 and 41 June Sessions, 1937, charging him with murder in the first degree to a term of life imprisonment in the Eastern State Penitentiary, and on all other Bills of Indictment to a term of not less than 70 years nor more than 140 years in the Eastern State Penitentiary.

James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board of Pardons and stated that the petitioner was not guilty of the crime to which he pleaded guilty, and that his innocence had been established upon the investigation made by the district attorney's office and by the record of the Commonwealth v. Rudolph Sheeler, March Sessions, 1939, No. 574 Philadelphia County. The trial judge, the Honorable Harry S. McDevitt, in a communication to the Board of Pardons states: ". . . This man was convicted and sentenced to death by a jury in May, 1937. At this time I was not satisfied with the verdict and I granted him a new trial and permitted him to plead guilty based on the evidence in the first trial, upon which I sentenced him to life imprisonment. Subsequently, one Jack Howard was killed by the Philadelphia police during an attempted holdup, and his companion, Rudolph Sheeler, was arrested and confessed to participating in the crime for which Bilger is serving time. Howard and Sheeler were entirely responsible for the murder of Patrolman James T. Morrow and a citizen named John Canham, and Bilger should not be detained longer for this crime. His own testimony would have sent him to the electric chair at the time of his trial without any police evidence, and it was because of his lack of mental capacity that I hesitated to sentence him to death. He had been confined in the Elwyn Training School for mental defectives, and I still consider him a mental defective with an I. Q. of 68. During his confinement in the Penitentiary two operations have been performed upon his thyroid gland, and he is now in infinitely better physical condition than ever before. There still remains some signs of thyroid disturbance. I will not attempt to give you the results of his medical examinations, but I urge upon you most emphatically that you consider his mental and physical condition before taking action. He should not be longer detained at the Penitentiary for the crime that he was charged with, but I doubt seriously

whether his mental condition warrants his being turned loose upon the community with safety."

The Board of Pardons has been reliably informed that after the discharge of the petitioner from the Eastern State Penitentiary that he will be committed to a mental hospital where he can obtain the course of treatment for his complete recovery.

The Board after reviewing all of the facts in this matter, and after giving due consideration to the statements of the district attorney and the sentencing judge, is of the opinion that the innocence of the petitioner has been definitely established, and therefore, recommends the granting of his prayer.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
Not Sitting,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Albert B. Mackinnon, No. 5120. December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Albert B. Mackinnon, convicted of false pretenses and obtaining hotel accommodations with intent to defraud in the Court of Quarter Sessions of Philadelphia County, on November 28, 1913 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty in the Courts of Philadelphia County on November 28, 1913 to Bills of Indictments Nos. 691, 692 and 603 October Session, 1913 charging false pretenses and obtaining hotel accommodations with intent to defraud, and was thereupon sentenced to a term of imprisonment of 1 year and a day in the Philadelphia County Prison by the Honorable Robert Ralston, Judge. An examination of the criminal history of the petitioner shows on March 3, 1911 he was convicted at Woodstock, Vermont charged with issuing worthless checks and was thereupon sentenced to 1 year and 6 months in the House of Correction. An unconditional pardon was granted by the Governor of Vermont, thus expunging this conviction from the record. The record further shows on July 1, 1913 the petitioner was arrested in Boston, Massachusetts charged with passing worthless checks, from which sentence he was suspended. A full and complete pardon was granted in this case. An examination of the petition shows that the applicant has been in no difficulties with the law for the past 27 years. He is now gainfully employed and receiving a salary in excess of $10,000.00 per year.

The Honorable Harry S. McDevitt, president judge of the Common Pleas Court No. 1, in a communication to the Board has stated: ". . . This man was sentenced to a year and a day by the late Judge Ralston in November, 1913. Since that time, so far as our records shows, he has not been in trouble. I am unable to tell you anything about his activities and can only give you the record." James W. Tracey, Jr., Esquire, appeared before the Board and stated that the petitioner has maintained a clear record for the past 27 years and that the district attorney's office had no objection to the granting to a full and complete pardon. An investigation made of the activities of the petitioner reports that he has been a self-respecting law-abiding citizen. That he holds a position that is responsible and he is regarded as one of the top men in the division. He is employed in the advertising division with the New York Times. He bears a splendid reputation in his community.

The Board of Pardons after reviewing all of the facts is of the opinion that the petitioner has been severely punished for the misdeeds of his youth, and therefore, recommends that a full and complete pardon be granted which will in part remove the stigma of his crimes from his name and will be of material assistance to him in advancement in his chosen vocation.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Charles Daniel Quirple, D-4633. No. 951, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Charles Daniel Quirple, convicted of riotous destruction of property in the Court of Oyer and Terminer and Quarter Sessions of Montgomery County on September 19, 1934 to be computed from January 15, 1940 be commuted from 2 years to 11 months expiring on December 15, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Montgomery County on September 19, 1934 to Bill of Indictment No. 241-1 June Term, 1934 charging riotous destruction of property, and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 2 to 4 years. Sentence to begin upon the expiration of a sentence the petitioner was then serving; i. e., January 15, 1940. The applicant for commutation in this case pleaded guilty in the Courts of Philadelphia County on February 5, 1930 to Bill No. 12, February Term, 1930 charging robbery, being armed with an offensive weapon, and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary for from 5 to 10 years. The petitioner was technically paroled from further service of this sentence on January 15, 1940 and and was re-entered in the Eastern State Penitentiary to serve the sentence which he now seeks relief.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states: ". . . With the exception of his participation in the riot at Graterford, his institutional record has been satisfactory. He has been employed in the print shop for five years and is considered an efficient workman. If he had continued without misconduct, the applicant would no doubt have been recommended for parole at the expiration of his original minimum. However, the riot charge compelled him to complete his first sentence and this, together with the ten months' service on the second really means that

he has served more than five years punishment for rioting. Considering the latter, we feel that probably the ends of justice have been met." The trial judge, the Honorable George C. Corson, in a communication to the Board has stated: ". . . Whether or not you feel, under the testimony before you, that they are safe to return to society is, of course, a question for your sole determination and I cannot be of much assistance to you as I know nothing of the defendant's conduct in the penitentiary since September 1934." The Honorable Harry S. McDevitt, trial judge, in the case which resulted in the petitioner's commitment from Philadelphia County in a communication to the Board has stated: ". . . Outside of his participation in the 1934 riots, his institutional record has been satisfactory and for the past five years has been employed in the print shop where he is regarded as an efficient workman. Except for 1934, he would no doubt have been recommended for parole at the expiration of his minimum sentence. Considering the fact that he was only sentenced to two years for rioting and that he had actually served the maximum of my original sentence, which means ten years instead of five years, I feel that he is entitled to consideration." A parole plan which provides a reputable sponsor and adequate employment has been obtained.

The Board, after reviewing all of the facts in this case are of the opinion that the petitioner has been sufficiently punished, and therefore, recommends that the minimum sentence as imposed by the court in this case be commuted to a minimum term of 11 months, expiring on December 15, 1940 and that petitioner remain on parole until January 15, 1944.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Bologa, C-6801, No. 2306, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentence of John Bologa, convicted of entering with intent to steal and larceny in the Oyer and Terminer and Quarter Sessions Court of Philadelphia County on February 5, 1931, be commuted on Bill No. 183 from a minimum term of 5 years to a minimum term of 4 years and 10 months, expiring on December 5, 1940; and on Bill No. 184 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 6, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Philadelphia County on February 5, 1931 to Bills of Indictment Nos. 182, 183 and 184 February Term, 1931 charging entering with intent to steal, larceny and was thereupon sentenced to a term of imprisonment for from 5 to 10 years on each bill. Sentences to run consecutively.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . Subject's institutional performance has demonstrated a definite improvement in attitude and also a more mature judgment. He was 20 when received and during his 9 years and 10 months has consistently maintained a constructive record. Has been employed in the hosiery and underwear department for 7½ years where he works as a machinist repairing the equipment of that department. This man's change in attitude and behavior and interest in self-improvement deserves some consideration, however, his constant conflict with the law since 1927 makes it difficult to predict what his future conduct will be." The trial judge, the Honorable Frank Smith, in a communication to the Board has stated in part: ". . . I believe this young man has criminal tendencies, but it may be that he has seen the error of his ways." James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board of Pardons and stated that the petitioner has served almost 10 years of a 15 years' minimum sentence. The district attorney's office feels he has been sufficiently punished and that the matter was one for the Board.

A parole plan has been obtained which provides reputable sponsorship and adequate employment to go to, if and when released. The petitioner in this case has been confined for a period of approximately 9 years and 10 months. The Board of Pardons is of the opinion that he has been sufficiently punished, and will, if released on parole, become a self-respecting, law-abiding citizen, and therefore, recommends that the minimum sentences imposed by the Court be commuted in the following manner. On Bill No. 183 from a minimum term of 5 years to a minimum term of 4 years, 10 months, expiring on December 5, 1940; on Bill No. 184 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 6, 1940 and to remain on parole until December 6, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joe Lupjo, B-3101, No. 3287, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the board of Pardons recommend that the sentence of imprisonment imposed on Joe Lupjo convicted of breaking, entering and larceny in the Quarter Sessions Court of Westmoreland County, on February 6, 1932, be commuted on Bill No. 206 February Sessions, 1932 from a minimum of 3 years to a minimum of 2 years, 11 months and 29 days, expiring on February 5, 1941; on Bill No. 205 from a minimum of 3 years to a minimum of 1 day, expiring on February 6, 1941 (Bills Nos. 204, 207, 208, 209, 211, 212, 213 and 232 February Session 1932 concurrent).

Our reasons for making this recommendation are as follows:

The applicant is one of many prisoners whose release on parole has been affected by the opinion of the Supreme Court in the case of Commonwealth of Pennsylvania ex rel. Thomas Lynch v. Stanley P. Ashe, Warden of the Western State Penitentiary, 320 Pa. 341. In this opinion it was held that unless a prisoner, who was serving sentences imposed to run consecutively, was recommended and approved for parole at the expiration of the first

minimum sentence, he would be serving the maximum of that sentence, and if no recommendation for parole was made at the expiration of the second and subsequent minimum of sentences imposed to run consecutively, the prisoner would be serving the maximum of the second and subsequent sentences. In other words, a prisoner serving an indeterminate sentence is not automatically paroled at the expiration of the minimum term but is merely eligible for parole at that time, and if not favorably considered by the Prison Board at any time thereafter, the prisoner is required to serve the full sentence.

It was the custom for a long period of time for the officials of both the Eastern and Western State Penitentiaries to lump consecutive sentences and the Boards of Trustees would only make recommendations for release on parole at the expiration of the period of time equal to the total of the minimum sentences.

Since the Supreme Court held this procedure improper, the applicant and others, whose cases were not considered for parole at the expiration of their minimum sentences, through no fault of their own, will have to serve a much longer period of time than contemplated by the sentencing judge and the prison officials.

The failure of the Board of Trustees to make the necessary recommendations for parole at the expiration of the minimum sentences was an honest mistake, as most, if not all, sentencing judges shared the same view as the prison officials in deeming it to be unnecessary to make recommendations for parole at the expiration of the minimum of every consecutive sentence. Sentencing judges throughout the state have uniformly believed and taken into consideration in passing sentences the Prison Board practice that consecutive sentences would be lumped making a total minimum and a total maximum.

We believe that a great injustice would be done and that it would be most unfair to keep the applicant incarcerated for a longer period of time than recommended by the Board of Trustees of the institution in which the applicant is confined.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Raymond Roller, C-8142, No. 3358, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Raymond Roller, convicted of robbery in the Court of Oyer and Terminer and Quarter Sessions of Philadelphia County on July 19, 1932 be commuted from 10 years to 8 years and 5 months expiring on December 19, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the courts of Philadelphia County on July 19, 1932 to Bill of Indictment No. 554, July Term, 1932, charging robbery and was thereupon sentenced by the Honorable Forrest R. Shanaman, Judge, especially presiding, to a term of not less than 10 nor more than 20 years in the Eastern State Penitentiary for the crime of robbery.

The Board of Trustees in a report to the Board of Pardons stated: ". . . His institutional performance has been above the average. He was employed in the knitting shop for a number of years and was a good worker and also acted in the capacity of instructor. At the present time he is employed in the woodworking department. This is the first time that he has been in a penitentiary and it is our thought the amount of time he has served under constant discipline has made a definite impression which will react favorably when released provided he maintains his prison attitude and habits of industry and desire to refrain from further criminal activities."

The trial judge in a communication to the Board of Pardons stated: ". . . Without recollecting anything of the defendant, and without in any way prejudicing the judgment of the Board, I feel rather inclined, on general principles, toward clemency." James W. Tracey, Esquire, Assistant District Attorney appeared before the Board and stated: ". . . The petitioner has been in prison over 8 years. If the Board of Pardons feels that he has been rehabilitated the district attorney's office has no objection to the granting of clemency."

The applicant has been confined in the Eastern State Penitentiary for a period of 8 years and 5 months and the Board is of the opinion that he has been sufficiently punished. A parole plan has been obtained which provides reputable sponsorship and bonafide employment to the petitioner if and when he is released.

The Board is, therefore, of the opinion that the petitioner will, when released, become a self-respecting, law-abiding citizen and, therefore, recommends that the minimum sentence as imposed by the Court be commuted to a minimum sentence of 8 years and 5 months to expire December 19, 1940. The petitioner to remain on parole until July 19, 1952.

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Anthony Danna, B-5627, No. 3764, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Anthony Danna, convicted of voluntary manslaughter in the Court of Oyer and Terminer of Beaver County on July 3, 1937 be commuted from 6 years to 3 years and 5 months expiring on December 3, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Beaver County on July 3, 1937 to Bill of Indictment No. 15, June, 1937, charging voluntary manslaughter and was thereupon sentenced by the Honorable Henry H. Wilson, Judge, to a term of not less than 6 nor more than 12 years in the Western State Penitentiary.

The Board of Trustees of the Western State Penitentiary in a report submitted to the Board of Pardons stated as follows: ". . . . If this inmate were eligible to apply for parole we would probably recommend him for parole,

1 (first conviction) 2 (excellent institutional record) 3 (cooperative inmate)."

The trial Judge, Honorable Henry H. Wilson in a communication to the Board of Pardons in reference to this petition stated as follows: ". . . I am still of the opinion that it is too early to grant clemency in this case, and the application does not truthfully state the facts. The crime was committed in a "beer war," and very closely approched the deliberate. Therefore this insistance of parole, under a finding and sentence of mere manslaughter which at the time gave the applicant every consideration, does not strike me with any particular force."

The district attorneys, Robert Mundy and Robert E. McCreary, Esquires, made no reply to a communication addressed them by the Board of Pardons in this matter.

The applicant for executive consideration has been confined in the Western State Penitentiary for a period of three years and five months. He is sixty-three years of age. An examination of his petition indicates that he has never been in difficulty with the law at any time prior to the offense for which he is now serving a term of imprisonment. A parole plan has been obtained which provides adequate sponsorship and bonafide employment to the petitioner if and when he is released on parole.

The Board of Pardons, after a review of all of the facts, is of the opinion that the applicant has been sufficiently punished and that he will if released on parole become a self-respecting, law-abiding citizen. The Board, therefore, recommends that the minimum sentence as imposed by the Court be commuted to a minimum term of 3 years 5 months expiring December 3, 1940 and the petitioner to remain on parole until July 3, 1949.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Joseph McLaughlin, D-3967, No. 4064, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Joseph McLaughlin, convicted of riotous destruction of public buildings and setting fire to public buildings in the Oyer and Terminer and Quarter Sessions Court of Montgomery County on September 19, 1934 be commuted on Bill No. 223-1 June Term, 1934, from a minimum term of 2 years to a minimum term of 1 year and 8 months, expiring on December 28, 1940; and on Bill No. 223-3 from a minimum term of 3 years to a minimum term of 1 day, expiring on December 29, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the courts of Montgomery County on September 19, 1934 on Bills of Indictment Nos. 223-1 and 223-3 June Term, 1934—charging riotous destruction of public buildings and setting fire to public buildings, and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary on Bill No. 223-1 for from 2 to 4 years. Sentence to commence upon the expiration of his sentence that he was then serving; i. e., April 28, 1939, and on Bill No. 223-3—to a term of imprisonment for from 3 to 6 years. This sentence to commence upon the expiration of sentence imposed on Bill No. 223-1 June Term, 1934. The applicant at the time of conviction in this case was an inmate confined in the Eastern State Penitentiary. He having been sentenced in the courts of Philadelphia County on April 28, 1923, to a term of imprisonment for from 3 to 6 years for entering with intent to steal, larceny and receiving stolen goods. The applicant served this sentence in its entirety and was reentered on the record to serve the sentences he now seeks relief.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons states: ". . . That the petitioner with the exception of the latter misbehaviour, his conduct and attitude has been good. He is a finished carpenter and has attempted to improve himself by taking correspondence course in carpentry, millwork and bricklaying. It is further stated that he has served over four and one-half years is probably sufficient punishment for his participation in the prison disturbances, and if this were the only factor concerned, we should not hesitate to recommend favorable consideration." The trial judge, the Honorable George C. Corson, in a communication to the Board of Pardons stated: ". . . Whether or not you feel, under the testimony before you, that they are safe to return to society is, of course, a question for your sole determination and I cannot be of much assistance to you as I know nothing of the defendant's conduct in the penitentiary since September, 1934." The Honorable Harry S. McDevitt, trial judge in the case which resulted in McLaughlin's commitment to the penitentiary from Philadelphia County has advised the Board of Pardons as follows: ". . . He has served the maximum sentence imposed in Montgomery County. The two minimums imposed in Montgomery County amount to five years, and he has already served four and a half years in excess of my minimum, and I have no objection to clemency if you have none." A parole plan has been obtained in this case which provides the petitioner with reputable sponsorship and adequate employment.

The Board of Pardons after reviewing all of the facts in this case are of the opinion that the petitioner has been sufficiently punished, and will, if released, become a self-respecting, law-abiding citizen. The Board, therefore, recommends that the minimum sentence as imposed in the Courts of Montgomery County be commuted in the following manner: On Bill No. 223-1 from a minimum term of 2 years to a minimum term of 1 year, 8 months, expiring December 28, 1940; and on Bill No. 223-3 from a minimum term of 3 years to a minimum term of 1 day, expiring on December 29, 1940 and to remain on parole until December 29, 1946.

Respectfully submitted,

S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:

ARTHUR H. JAMES.
Governor.

BOARD OF PARDONS

In re application of Phillip McCormick Oakes, B-3282, No. 4573, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Phillip McCormick Oakes, convicted of burglary in the Oyer and Terminer Court of Allegheny County on June 28, 1932 be commuted on Bill No. 66 December Term, 1931, from a maximum term of 10 years to a minimum term of 8 years and 6 months, expiring on December 28, 1940; on Bill No. 69 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 29, 1940; on Bill No. 83 from a minimum term of 5 years to a minimum term of 1 day, expiring on December 30, 1940; and on Bill No. 51 from a minimum term of 4 years and 4 months to a minimum term of 1 day, expiring on December 31, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the courts of Allegheny County on June 28, 1932 to Bills of Indictment Nos. 66, 51, 83, 69, December Term, 1931 and was thereupon sentenced by the Honorable Elder W. Marshall, Judge, to a term of not less than 19 years and four months nor more than 40 years in the Western State Penitentiary for the crimes of burglary.

The Board of Trustees in a report to the Board of Pardons stated: ". . . If this inmate were eligible to apply for parole we would probably recommend him for parole 1 (first conviction) 2 (satisfactory institutional record)."

The trial judge made no reply to a communication addressed him by the Board of Pardons relative to this matter. Ralph Bell, Esq., Assistant District Attorney, Allegheny County, appeared before the Board and stated that the petitioner participated in over fifty burglaries together with an accomplice named Robert Considine, and the District Attorney's office opposed the granting of the petition.

A parole plan has been obtained which provides for bonafide employment and adequate sponsorship. The Board of Pardons, after reviewing all of the facts, is of the opinion that the petitioner has been sufficiently punished for his misdeeds and that he will, if released, become a self-respecting, law-abiding citizen. The Board, therefore, recommends that the sentences as imposed by the Court be commuted in the following manner: Bill No. 66 from a maximum term of ten years to a maximum term of 8 years and 6 months expiring December 28, 1940; Bill No. 69 from a minimum term of 5 years to a minimum term of 1 day expiring December 29, 1940; Bill No. 83 from a minimum term of 5 years to a minimum term of 1 day expiring December 30, 1940; Bill No. 51 from a minimum term of 4 years and 4 months to a minimum term of 1 day expiring December 31, 1940; and to remain on parole until December 31, 1950.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Harry Brosius Kessler, D-23, No. 4597, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Harry Brosius Kessler, convicted of breaking and entering, larceny in the Oyer and Terminer and Quarter Sessions Court of Northumberland County on September 28, 1934; and convicted of breaking and escaping prison, assault and battery, aggravated assault and battery, assault and battery with intent to kill in the Oyer and Terminer and Quarter Sessions Court of Northumberland County on November 25, 1935 be commuted on Bill No. 192 September Term, 1934 from a minimum term of 2½ years to a minimum term of 11 months, expiring on December 15, 1940; on Bill No. 110 December Term, 1935 from a minimum term of 1 day, expiring on December 16, 1940; and on Bill No. 111 December Term, 1935 from a minimum term of 3½ years to a minimum term of 1 day, expiring on December 17, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Northumberland County on September 28, 1934 to Bills of Indictments Nos. 190 and 192 September Term, 1934 charging breaking and entering, larceny, and was thereupon sentenced to a term of 5 to 10 years on Bill No. 190 and a term of 2½ to 5 years on Bill No. 192 in the Eastern State Penitentiary. Sentences to run consecutively. On November 4, 1935 the petitioner escaped. On November 9, 1935 he was apprehended in Elkhart, Indiana, and was returned to the County Prison. On November 25, 1935 the petitioner entered a plea of guilty on Bills Nos. 110 and 111 December Term, 1935, charging breaking and escaping prison, assault and battery, aggravated assault and battery, assault and battery with intent to kill, and was thereupon sentenced to a term of imprisonment for from 1 to 2 years on Bill No. 110 and was further sentenced on Bill No. 111 to 3½ to 7 years. This sentence to commence at the expiration of sentence imposed on Bill No. 110. Both to run consecutively with the sentence imposed on September 28, 1934.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons has stated: ". . . The petitioner was originally received in this institution on September 28, 1934; was transferred to Northumberland County Prison and escaped from that institution along with other inmates. He was apprehended on November 25, 1935 and was given additional sentence for escape and also a sentence for assult and battery which occured during the escape. His institutional record since his return has shown definite signs of improvement. He was employed in a shoe shop and when that shop was transferred to Graterford was given work as a typist. There is definite signs of improvement in his attitude and evidence that he realizes the gravity of his acts, however, his prior criminal record prevents a favorable recommendation." The trial judge, the Honorable Charles K. Morganroth, in a communication to the Board has stated: ". . . As to Kessler, no opinion as to merits." The present district attorney, Robert M. Forney, Esquire, appeared before the Board and stated that his office had no recommendation to make and would be satisfied with such action as the Board deemed proper to take. He invited, however, the attention to the fact that the criminal record of the petitioner began when he was 15 years of age. The petitioner has been confined for a period of approximately 6 years and 3 months. A parole plan has been obtained which provides reputable sponsorship and adequate employment, if and when released on parole.

The Board of Pardons, after reviewing all of the facts of the case are of the opinion that the applicant has been sufficiently punished, and that, if he is released, will become a self-respecting, law-abiding citizen. The Board, therefore, recommends that his minimum sentences be

commuted. The petitioner will remain on parole until December 17, 1947.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Donald E. Sharpe. D-3730, No. 4710, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Donald E. Sharpe, convicted of attempted robbery under aggravated circumstances in the Court of Oyer and Terminer and Quarter Sessions of Lancaster County on February 3, 1939 to be computed from January 16, 1939 be commuted from 3 years to 2 years expiring on January 16, 1941.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Lancaster County February 3, 1939 to Bill of Indictment No. 79, December Term, 1938, charging attempted robbery under aggravated circumstances, and was thereupon sentenced by the Honorable Oliver S. Schaeffer, Judge, to a term of imprisonment of not less than 3 nor more than 10 years in the Eastern State Penitentiary; sentence to be computed from January 16, 1939.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated: ". . . This man has maintained a very good record in the institution. He has accepted the counseling of the officials and as a result has come into contact with a minor number of negative influences of the institution. He attended school for 8½ months, studying agriculture and has completed 2 courses. He is now enrolled in automobile mechanics. During one half of each working day he is employed as a laborer in the landscape detail."

The Honorable Oliver S. Schaeffer, Judge, in a communication to the Board of Pardons stated: ". . . Replying to your letter of the 18th instant in re application of Donald E. Sharpe for clemency before the Board of Pardons, I am satisfied to have the Board use its own discretion. However, the application seems rather premature considering the minimum term and the serious offense. Furthermore, at the time of sentence, it was stated that two detainers had been lodged against Sharpe by the authorities at Chester County. The status of the two accomplices, who received the same sentence, should also be taken into consideration."

K. L. Shirk, District Attorney, appeared before the Board and stated: ". . . Inasmuch as the petitioner had served approximately two years of his minimum sentence that his office would express no objection to the granting of the petition."

The petitioner has been confined in the Eastern State Penitentiary for approximately twenty-three months and the Board is of the opinion that he has been sufficiently punished. A parole plan has been obtained which provides for a reputable sponsor and adequate employment for the petitioner if and when he is released on parole.

The Board, after a review of the facts in this case, is of the opinion that the petitioner is ready for release and that he will if released become a self-respecting, law-abiding citizen. The Board, therefore, recommends that the minimum sentence as imposed by the Court be commuted to a minimum sentence of 2 years to expire on January 16, 1941. The petitioner to remain on parole until January 16, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Emelio Barsoni, No. 4774, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Emelio Barsoni, convicted of Surety of the Peace in the Court of Quarter Sessions of Allegheny County on June 8, 1923; and convicted of violation of the liquor law in the Court of Quarter Sessions of Allgheny County, on February 2, 1924, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty in the Court of Allegheny County June 8, 1923 to Bill No. 210 June Term, 1923 charging surety of the peace and was thereupon sentenced by the Honorable Thomas Ford, Judge to pay the costs of the prosecution and to enter into his own recognizance in the sum of $500.00 to keep the peace.

On February 2, 1924 the applicant pleaded guilty in the Courts of Allegheny County to Bill of Indictment No. 357, June Sessions, 1923, charging violation of the liquor laws and was sentenced to pay the costs of the prosecution and to be placed on probation for a period of six months. During the month of October 1934 the petitioner was tried in the Courts of Allegheny County, charging violation of the liquor law. He was sentenced to a term of six months in the Allegheny County Workhouse and to pay a fine of $300.00 from which he was released on parole February 4, 1935.

The Honorable Ambrose B. Reid, trial Judge and the Honorable MacFarlane, Judge, failed to make a reply to a communication addressed them by the Board of Pardons relative to this matter. Ralph Bell, Esquire, Assistant District Attorney, Allegheny County appeared before the Board and stated that the District Attorney's office had no objection to the granting of a full and complete pardon.

The petitioner is married and resides with his wife at 5429 Second Avenue, Pittsburgh, Pennsylvania. The petitioner together with his wife operates a restaurant and saloon. An investigator of the Board of Pardons reports that the wife of the applicant bears an excellent reputation in the community, and the petitioner himself is know in the community as a person of good repute.

The Board of Pardons, after a review of all the facts, is of the opinion that the petitioner has been sufficiently punished for his misdeeds and that he is entitled to consideration. The Board, therefore, recommends that a full

and complete pardon be granted which will in part remove the stigma from the crimes committed from the names of the petitioner's wife and family, and will be of material assistance in the pursuance of applicant's legitimate business enterprise.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Earl Miller, D-3728, No. 5012, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Earl Miller, convicted of attempted robbery under aggravated circumstances in the Court of Oyer and Terminer and Quarter Sessions of Lancaster County on February 3, 1939 to be computed from January 16, 1939 be commuted from 3 years to 2 years expiring on January 16, 1941.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Lancaster County on February 3, 1939 to Bill of Indictment No. 79, December Term, 1938, charging attempted robbery with aggravated circumstances, and was thereupon sentenced by the Honorable Oliver S. Schaeffer, Judge, to a term of not less than 3 nor more than 10 years in the Eastern State Penitentiary; sentence to be computed from January 16, 1939.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated: ". . . This man attended school and was interested in completing high school but he had to quit because his family could not afford to pay for transportation. His previous behaviour and reputation in the community prior to this crime was of a very high type. He assisted in the support of his family by turning over most of his earnings. His prison performance has been good. He has attempted to improve himself by taking a course in Electric apprentice work and he is employed in a position of trust in the canteen. This man apparently has learned a lesson from his incarceration. He probably will never again come in conflict with the law." The Honorable Oliver S. Schaeffer, trial judge, in a communication to the Board of Pardons stated: ". . . I feel that this application is premature considering the serious offense and that the minimum term is not unreasonable. Karl L. Shirk, Esquire, district attorney, Lancaster County, appeared before the Board and stated that inasmuch as the petitioner had served two years of the minimum term imposed that he would offer no objection to the granting of the petition.

A parole plan has been obtained which provides adequate sponsorship and bona fide employment. The Board of Pardons, after considering all of the facts, is of the opinion that the petitioner will, if released on parole, become a law-abiding, self-respecting citizen, and therefore, recommends that the minimum term of imprisonment as imposed by the court be commuted to a minimum term of two years to expire on January 16, 1941. Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Agnes McCabe Gay, 1455, No. 5015, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Agnes McCabe Gay, convicted of embezzlement in the Quarter Sessions Court of Washington County on January 19, 1940 be commuted on Bill No. 165 November Sessions, 1939 from a minimum term of 1½ years to a minimum term of 11 months, expiring on December 19, 1940; and on Bills Nos. 2 and 3 February Sessions, 1940 from a minimum term of 1½ years to a minimum term of 11 months, expiring on December 19, 1940. (These sentences to be served concurrently.)

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Washington County on January 19, 1940 to Bills of Indictment Nos. 165 November Term, 1939; Nos. 2 and 3 February Term, 1940, charging embezzlement, and was thereupon sentenced by the Honorable Carl E Gibson, Judge to a term of not less than 1 year, 6 months nor more than 3 years in the State Industrial Home for Women, Muncy, Pennsylvania.

The petitioner has maintained a satisfactory institutional record since the date of her commitment to the Women's Industrial Home. The trial judge, Honorable C. E. Gibson in a communication to the Board of Pardons stated as follows: ". . . This is an ordinary case of embezzlement by a bank employe who had access to money in the bank and an opportunity to take in from other accounts. The sentences on the three indictments run concurrently, and I have no recommendation to make." George T. Cummins, Esquire, District Attorney, in a communication to the Board stated: ". . . In connection with the application of the above named we wish to advise that we do not desire at this time to either recommend or oppose this application but shall leave the matter entirely within the hands of your Honorable Board."

Several reputable citizens of Washington County have signed a petition requesting clemency in the case of the petitioner. An investigator for the Board of Pardons stated in his report that embezzlement had been occurring from time to time in the bank where the petitioner was employed prior to the date of her employment and that she, after entering the bank's employ, embezzled funds which she converted to her own use. However, that at the time of her arrest she was asked to assume responsibility for embezzlements which occurred in the bank by others.

The petitioner has been confined for a period of about one year and the Board of Pardons is of the opinion that she has been sufficiently punished. She is married and her husband has expressed his willingness to provide a home for the petitioner at any time that she is released. A reputable sponsor has been obtained.

The Board of Pardons, after a review of all of the facts, is of the opinion that the petitioner is not criminally minded and that she will not, if released, at any time

become involved in further difficulties with the law. The Board, therefore, recommends that the minimum sentence as imposed by the court be commuted to a minimum sentence of 11 months to expire on December 19, 1940 and that she remain on parole until January 19, 1943.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Gardiner Smith, D-4097, No. 5033, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of Gardiner Smith, convicted of sodomy in the Court of Oyer and Terminer and Quarter Sessions of Lancaster County on June 15, 1939 to be computed from March 27, 1939 be commuted from 4 years to 1 year and 9 months expiring on December 27, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence was convicted in the Courts of Lancaster County on June 15, 1939 to Bill of Indictment No. 25, March Term, 1939, charging sodomy and was thereupon sentenced by the Honorable Oliver S. Schaeffer, Judge, to a term of not less than 4 nor more than 10 years in the Eastern State Penitentiary; sentence to be computed from March 27, 1939.

The Board of Trustees of the Eastern State Penitentiary in a communication to the Board of Pardons stated; ". . . He was formerly separated from his wife but apparently they have again become friendly; she writes to him regularly and he plans to return to her when he is released. His institutional performance has been of the average type. He has not attended school and he is working as a cleaner on the block. No unusual factors have been observed in this inmate's prison performance, and we can see no reason for recommending special consideration."

The trial judge is now deceased. The president judge in a communication to the Board of Pardons stated: ". . . In re application of the above for clemency, I did not sentence the prisoner. However, I feel that there is some merit in petitioner's application in view of the minimum sentence of one year heretofore imposed by our local court in cases of this kind. Furthermore, this is the prisoners first offense."

K. L. Shirk, District Attorney, appeared before the Board and stated: ". . . That if the record of the petitioner in the penitentiary has been satisfactory that his office offered no objection to the granting of the petition." The applicant has been confined for a period of one year and six months and the Board is of the opinion that he has been sufficiently punished for his crime.

A parole plan has been obtained which provides for a reputable sponsor and adequate employment to the petitioner if and when he is released. The Board, after considering all of the facts is of the opinion that the petitioner will, if released on parole, become a self-respecting, law-abiding citizen, and, therefore recommends that the minimum sentence as imposed by the Court be commuted to a minimum term of 1 year and 9 months to expire December 27, 1940. The applicant to remain on parole until March 27, 1949.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Walter Schultz, B-6056, D-1910, No. 5095, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the sentences of Walter Schultz, convicted of breaking and entering, larceny and burglary in the Oyer and Terminer and Quarter Sessions Court of Lackawanna County on December 12, 1926 be commuted on Bill No. 15 October Sessions, 1936 from a minimum term of 3 years to a minimum term of 2 years, 6 months and 18 days, expiring on June 30, 1941.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Lackawanna County on December 12, 1936 to Bills of Indictment Nos. 13, 14 and 15, October Term, 1936 charging breaking and entering, larceny and burglary, and was thereupon sentenced to a term of imprisonment in the Eastern State Penitentiary on Bill No. 13 for from 2 to 4 years and on Bill No. 15, for from 3 to 6 years. Sentences to run consecutively.

The Board of Trustees of the Eastern State Penitentiary in a report to the Board of Pardons stated: ". . . Subject was transferred to Rockview on April 29, 1938 and the authorities of that institution report that his record there has been satisfactory. He has maintained a good attitude and associated with a better class of inmates. He is employed as a carpenter on construction work and is considered to be an industrious worker. He has also attempted to improve himself by studying a course in electric arc welding through the Pennsylvania State College Extention Service. Rockview officials state that if considered for parole would probably recommend." The trial judge, the Honorable William R. Lewis, made no reply to a communication addressed to him by the Board of Pardons in this matter. The district attorney failed to reply to the Board's communication in which he was requested to advise the attitude of the district attorney's office in regards to this petition.

The petitioner has been confined for a period of approximately 4 years. It is noted from the record that the petitioner was placed in the County Prison on June 30, 1936 and that he was confined in the County Prison in default of bail until December 12, 1936, a period of 5 months and 12 days, for which credit was not allowed by the sentencing court.

The Board of Pardons having in mind the provision of an Act of Assembly approved April 1937 feels that the applicant in this case should be given credit for the period confined in the County Prison, and therefore, recommends that the sentence on Bill No. 15 be commuted to a minimum term of 2 years and 6 months and 18 days, expiring on June 30, 1941. The applicant was already granted a technical parole on Bill No. 13, October Term, 1936 as of December 12, 1938. He will remain on parole until December 12, 1944.

Respectfully submitted,
S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Edward Shelton, No. 5098, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Edward Shelton, convicted of receiving stolen goods, larceny in the Court of Quarter Sessions of Philadelphia County, on March 12, 1924 and December 23, 1931, be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon pleaded guilty on March 12, 1924 to Bill of Indictment No. 140 March Session, 1924 charging receiving stolen goods, and was thereupon placed on probation for a period of 2 years by the Honorable McPherson, Judge. On December 23, 1931 the petitioner pleaded non-vult in the Courts of Philadelphia County to Bill of Indictment No. 1203 March Session, 1931 charging larceny, and was placed on probation for a period of 1 year by the Honorable Horace Stern, Judge. Mr. Justice Stern made no reply to a communication addressed to him by the Board of Pardons in this matter. The Honorable McPherson is now deceased. James W. Tracey, Jr., Esquire, assistant district attorney, appeared before the Board and stated the district attorney's office had no objection to the granting of a full and complete pardon.

The petitioner is employed by the City of Ventnor, New Jersey in a supervisory capacity, having charge of all mechanical units for the City of Ventnor. The Honorable Harry S. Hodson, Mayor of the City of Ventnor, in a communication to the Board stated: ". . . Mr. Shelton has been in the employ of the City for a year or more and during that time we have found him absolutely reliable, ambitious and willing. His work has been entirely satisfactory and his standing in this community is unquestionable. You will make no mistake, I think, in considering Mr. Shelton for a position commensurate with his abilities." The Chief of Police, Maurice C. Mower, stated: ". . . The bearer of this letter is Mr. Edward Shelton is personally known to me and I have always found him to be a good character, honest, reliable and very industrious. He has been a respected resident of this city for a number of years and anything which might be done to assist him would be greatly appreciated." A communication was also received from Reverend Thomas J. Kelly, Presentation B. V. M. Rectory, Cheltenham, Pa., attesting to the integrity of the petitioner. An investigation submitted by the authorities of New Jersey states: ". . . He is married and lives quietly and respectably with his wife and three children, two daughters, 11 and 18 years of age, and a son, 17, under better than average condition in a high class, strictly residential environment at 106 South Princeton Ave., Ventor City, N. J. His wife keeps house and the home is ably managed and supervised. Their home life is conventional and happy. The children appear well brought up and are non-delinquent. According to his wife, subject is a good husband and father and takes his responsibilities seriously. He is employed by the City of Ventnor as a mechanic in charge of all mechanical equipment at wages of $25.50 a week and is reported as satisfactory in the performance of his duties. On the basis of this investigation, subject has established himself in the community in which he lives as a responsible, law-abiding family man with a satisfactory degree of stability and his petition is deserving of consideration."

The Board after reviewing all of the facts is of the opinion that the petitioner is not criminally minded and that he has during the past 9 years completely rehabilitated himself and is worthy of consideration. The Board, therefore, recommends that a full and complete pardon be granted which will in part remove the stigma from his name and the name of his family.

Respectfully submitted,
S. S. LEWIS,
Lieutenant Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of John Hovis, B-6970, No. 5106, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that the minimum sentence of John Hovis, convicted of burglary in the Court of Oyer and Terminer of Butler County on November 18, 1939 to be computed from November 14, 1939 be commuted from 3 years to 1 year and 1 month expiring on December 14, 1940.

Our reasons for making this recommendation are as follows:

The applicant for commutation of sentence pleaded guilty in the Courts of Butler County on November 14, 1939 to Bill of Indictment No. 6, December Term, 1939 charging burglary, and was thereupon sentenced by the Honorable John H. Wilson, Judge, to a term of not less than 3 nor more than 6 years in the Western State Penitentiary.

The Board of Trustees of the Western State Penitentiary in a report to the Board of Pardons stated: ". . . If this inmate were eligible to apply for parole we would probably recommend him for parole (1) first imprisonment (2) excellent institutional record (3) cooperative inmate."

The Honorable John H. Wilson, trial judge in a communication to the Board of Pardons stated: ". . . I have learned since imposing this sentence that this boy was lead into these offenses by men of stronger character and mentality than he. He was well brought up by his grandparents and, up to the offense for which he was sentenced, bore a good reputation. Had I known at the time of sentence all of the things that I know now, I would not have imposed as heavy a sentence as I did."

The district Attorney, Willis A. MacDonald failed to make a reply to a communication addressed to him by the Board of Pardons relative to this petition.

A parole plan has been obtained which provides adequate sponsorship and bonafide employment to the petitioner if and when he is released on parole. The petitioner has been confined for a period of 1 year and 1 month, and the Board is of the opinion that he has been sufficiently punished and that he will, if released, become a self-respecting, law-abiding citizen.

The Board, therefore, recommends that the minimum sentence as imposed by the court be commuted to a minimum sentence of 1 year and 1 month to expire December 14, 1940. The petitioner to remain on parole until November 14, 1945.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

BOARD OF PARDONS

In re application of Francis James McKenna, No. 5127, December Session, 1940.

To His Excellency, the Governor of the Commonwealth of Pennsylvania:

Sir: The above application having been heard, upon due public notice, in open session, the undersigned members of the Board of Pardons recommend that Francis James McKenna, convicted of operating an automobile while under the influence of intoxicating liquor in the Court of Quarter Session of Philadelphia County, on October 28, 1928; and convicted of entering, receiving stolen goods in the Court of Quarter Sessions of Philadelphia County, on May 29, 1935 be pardoned.

Our reasons for making this recommendation are as follows:

The applicant for a full and complete pardon entered a plea of not guilty in the Courts of Philadelphia County to Bill of Indictment No. 1619 October Term, 1928 charging operating an automobile while under the influence of intoxicating liquor, and was sentenced to pay a fine of $100, costs of prosecution and placed on probation for a period of 2 years on October 28, 1928 by the Honorable Miles J. Potter. On May 29, 1935 he pleaded not guilty to Bill of Indictment No. 190 February Term, 1935 charging entering, larceny and receiving stolen goods, and was sentenced to a term of imprisonment for from 1 to 5 years in the Philadelphia County Prison, from which he was released on September 10, 1935 on parole.

The trial judge, the Honorable Miles J. Potter is now deceased. Judge Potter presided at the trial which was held on February 5, 1929. The Honorable James Barnett, now deceased, presided at the trial held on May 29, 1935. The Honorable Harry S. McDevitt, president Judge of the Common Pleas Court No. 1, in a communication to the Board of Pardons stated: ". . . In 1929 this man was fined $100 and costs and placed on probation for two years, by former Judge Potter, specially presiding. He now asks a full pardon, but since that occurrence he has been arrested for attempted entering to steal, suspicion of breaking and entering, entering to steal, larceny and larceny by sneak. He has served a term of one year and his general reputation is such that there seems to be no good reason for granting a full pardon. At that time he claimed to be shielding others who were involved, but there has been no such claim on subsequent occasions. I don't see any good it will do him to have this crime wiped off the record and the rest of his criminal record remain intact." James W. Tracey, Jr., Esquire, Assistant District Attorney appeared before the Board and stated that the district attorney's office had no objection to the granting of a full and complete pardon.

He is employed by the Board of Education, in the city of Philadelphia, as an assistant janitor. He is married and resides with his wife and two daughters in the city of Philadelphia. His employment requires that he commence work at 6:00 A. M., and he is required to work for a period of twelve and half hours a day. Character witnesses appeared before the Board and they attested to the good reputation borne by the petitioner in his community.

The Board of Pardons after reviewing all of the facts is of the opinion that the applicant has been sufficiently punished for his misdeeds, and that he will, if granted a full and complete pardon, be materially aided. He will be able to obtain more gainful employment, and will therefore, be in a position to provide more of the necessities of life for his family than he is at the present time. The granting of a pardon will in part remove the stigma from his name and will permit him to obtain a bond which is necessary for his future advancement with the Board of Education. The Board of Pardons, therefore, recommends that a full and complete pardon be granted.

Respectfully submitted,

S. S. LEWIS,
Lieutenant-Governor.
S. M. R. O'HARA,
Secretary of the Commonwealth.
CLAUDE T. RENO,
Attorney General.
WILLIAM S. LIVENGOOD, JR.,
Secretary of Internal Affairs.

The above recommendation is approved:
ARTHUR H. JAMES,
Governor.

REPORT OF THE AUDITORS

The undersigned, Auditors appointed by the President Judges of the Court of Common Pleas of Philadelphia, to audit and settle the accounts of THE WESTERN SAVING FUND SOCIETY OF PHILADELPHIA, in conformity with the provisions of Article 1 of the Act of Assembly incorporating the said Society, approved 8th February, 1847, having been duly sworn according to law faithfully so to do:

Certify that the Assets of the said Society, at the close of business on the Thirty-First day of December, 1940, have been examined and verified by them, and that the value thereof as set forth in the above Schedule agrees with the books and the balance sheet of the Society.

The amount due to depositors, including interest, on the 31st day of December, 1941, and the Surplus are correctly stated and are in agreement with the books and balance sheet.

REPORT OF THE AUDITORS OF THE PHILADELPHIA SAVING FUND SOCIETY

The subscribers, duly appointed by the President Judges of the Courts of Common Pleas of Philadelphia County, to audit and settle the Accounts of The Philadelphia Saving Fund Society, under the provisions of the Third Section of the Supplement to the "Act" incorporating the said Society, approved March 15, 1824, having been duly qualified, respectfully report:—

That, in the performance of the duties assigned them, they have audited and settled the Books and Accounts of The Philadelphia Saving Fund Society for the year ending the thirty-first day of December, 1940, and have examined and ascertained the amount of the Bonds and Mortgages, Real Estate, Public Loans, Railroad Loans, and the other evidences of the property and effects of the said Society, and agreeably thereto have made out the subjoined statement, which agrees with the books at that date, and exhibits the situation and condition of the said The Philadelphia Saving Fund Society on the first day of January, 1941.

EMILE C. GUYELIN,
T. TRUXTON HARE,
THEODORE W. REATH,
Auditors.

REPORT ON RELIEF

PREPARED FOR THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA

by the

Joint State Government Commission of the General Assembly

Capitol Building, Harrisburg, Penna.

January 1941

JOINT STATE GOVERNMENT COMMISSION OF THE GENERAL ASSEMBLY

(Created in 1937, P. L. 2460, as amended 1939 P. L. 1084)

"A continuing agency of the General Assembly to undertake studies and develop facts, information and data on all phases of government for the use of the General Assembly and Departments and Agencies of the State Government."

LETTER OF TRANSMITTAL

To the Members of the General Assembly of the Commonwealth of Pennsylvania

In pursuance of House Resolution, Serial No. 134 of the Regular Session of 1939, and under the authority of the Act of July 1, 1937, P. L. 2460, as amended by the Act of June 26, 1939, P. L. 1084 (Act creating Joint State Government Commission), we submit herewith Report and Recommendations on the subject of Unemployment Relief and the administration thereof.

ELLWOOD J. TURNER, Chairman,
Joint State Government Commission.

January, 1941

FOREWORD

The new public function of affording assistance to those who are unemployed or have no other means of support can no longer be considered escapable, or a temporary or emergency function of government.

The Committee on Relief approached this task with a keen sense of appreciation of the magnitude and many ramifications and implications of the relief problem as well as its responsibility to render a worthwhile accounting of its stewardship to the legislature.

It is generally easy and popular to be kind. However, it is necessary to remember the tremendous burden that relief has placed on the taxpayers. It is also important that both the recipient of relief and the taxpayers who pay the bill should be treated fairly. The Committee approached this task on a non-partisan and non-political basis.

Its sole aim has been to learn facts about the present system of relief, its organization, its policies and its methods, and finally to evaluate them in terms of efficiency to administer relief to those who, through no fault of their own, are in need, and at a minimum cost to those who pay the bill.

RECOMMENDATIONS

The Joint State Government Commission makes the following recommendations:

I. LIBERALIZATION OF THE SOCIAL SECURITY ACT

A. The Social Federal Security Act should be amended to permit Pennsylvania to make payment to the aged on a more liberal basis.

B. The Federal Social Security Act should be amended to permit the matching of Pennsylvania's payments to the blind, which is on a liberal pension basis.

II. RELATIONS OF THE DEPARTMENT TO THE COUNTY BOARDS

A. The County Boards should be made really autonomous. They should be granted full authority to operate their county organizations.

B. The function of the Secretary of the Department of Public Assistance and the State staff should be advisory in character and confined to securing compliance with the Public Assistance law by the County Boards. Therefore:

1. All contacts, suggestions, findings, information and advice from the Secretary or the State staff should be made or communicated to the Executive Director and the County Board and to no other person.

C. Each County Board should be permitted to set up such organization and establish such methods of maintaining records as may be deemed essential for local conditions, subject only to such reasonable requirements or provisions as may be prescribed by the Department to bring about uniformity.

D. The Secretary of Public Assistance should set quarterly administrative budgets for each board and not monthly budgets. Within the limits of this over-all budget, County Boards should have the authority to determine the number and type

of employes required, subject to the civil service lists.

E. Suggestions to County Boards from the Department should be greatly simplified, their number decreased, and made to conform to the above recommendations.

F. Department field representatives should be greatly reduced in number and their qualifications raised.

III. RELATION OF THE COUNTY BOARDS TO THE EMPLOYMENT BOARD OR CIVIL SERVICE AGENCY

A. The County Boards should deal directly with the Employment Board.

B. Eligible lists of candidates for all positions shall be furnished direct to County Boards.

C. In the preparation of examinations and determining the qualifications of applicants for positions of visitors or supervisors, ratings should be based primarily upon investigatory and supervisory ability and experience in the field of business rather than upon social service training.

D. County Boards should have power to terminate the services of employes for the following reasons:

1. Lack of ability to efficiently perform their duties.
2. Insubordination.
3. Unpatriotic activities.
4. Membership in any political party or organization designed to destroy the American form of government.
5. Any form of political activity.

E. County Boards should have the right to suspend the services of any employes not needed at the the time, subject to reinstatement in the order of their suspension.

IV. INVESTIGATION OF CASES

A. The investigation staff in all counties should be greatly improved. Sound investigation and reinvestigation of cases forms the entire basis for effective work in the Department and the County Boards.

B. Visitors should be rotated and the practice of checking and rechecking cases by the same employe should be discontinued

C. More stringent supervision of visitors' work should be instituted. Therefore:

1. Supervisors should direct visitors' work rather than "confer" with them regarding it.
2. The number of daily visitations should be increased.
3. An effort should be made to set up time limits for rechecking recipients of any type of assistance. Supervisors should demand that these time limits be observed.

D. The paper work required by visitors should be reduced.

E. Night checking of many recipients, particularly in the larger cities, should be provided, in order to assure the County Board that the recipient is not employed on a night shift.

F. Special investigating units composed of employes with Superior investigating ability than the average visitor now possesses should be established

G. Independent surveys of assistance payments should be made periodically.

H. Any visitor who knowingly grants relief to a person who is not entitled to it by law should be penalized.

V. SALARIES AND PROMOTION OF EMPLOYES OF THE COUNTY BOARDS

A. Methods should be adopted to encourage efficiency and diligence of the employes of the County Boards.

1. Fewer classifications for examinations for employment of the staffs of the County Boards should be utilized, thereby making possible greater salary ranges for employes within a classification. This reduction in classifications for examinations will tend to decrease the cost of the operation of the Employment Board.
2. Employes should start at the lowest salary in their classification and their salary systematically increased as their efforts justify.
3. County Boards should have the exclusive power to promote employes and to increase their salaries, subject only to salary ranges established by the Employment Board. Such salary ranges should take into account local living costs.
4 Every effort should be made to reduce the large turnover in personnel by promoting efficient employes to higher salaried classifications.

VI. LOCAL INTEREST IN THE COST AND ADMINISTRATION OF RELIEF

A. The County Boards should make every effort to develop and foster Local Citizens' Committees provided by law in order that local interest may be aroused as to the social effects of unemployment and the costs thereof.

B. Every effort should be made to cooperate with all agencies engaged in training and retraining programs which will provide skills for those receiving assistance. This will result in individual self-reliance and in the reduction of the relief rolls.

VII. COORDINATION OF THE STATE AGENCIES DEALING WITH PERSONS ON ASSISTANCE ROLLS

A. There should be improved coordination of data pertaining to the unemployed between State and County offices of the Department of Public Assistance and the Department of Labor and Industry.

B. Consideration should be given to the desirability of providing general assistance for a person whose total salary and unemployment compensation payments during the preceding 12 months have equalled a predetermined figure. There is evidence of a cyclical movement of individuals between employment, unemployment compensation and general assistance, which results in the granting of relief to many individuals who receive substantial wage payments during the preceding months.

VIII. SPECIAL FACTORS RELATIVE TO THE ADMINISTRATION OF PUBLIC ASSISTANCE

A. A special survey should be made of the medical program as now constituted.

B. The County Boards should be given power to adopt rules and regulations relative to the denial of assistance in cases where:
   1. Relief funds are being used for the purchase of intoxicating liquor.
   2. It has been demonstrated over a long period of time that no effort has been made to secure employment.
   3. Relief funds are used to maintain extra-marital relationships.
   4. Relief funds are being used for gambling purposes
C. Consideration should be given to amending the Milk Order Law enacted in 1939 to meet valid objections. However, it is imperative that children of families on relief should receive an adequate supply of milk.
D. No authority should be given by any County Board to the Worker's Alliance, or similar organizations, to represent applicants or to appear in their behalf at any meeting of the Board. No worthy applicant needs the services of any organization to obtain relief.
E. Organizations of employes under civil service should not be affiliated with labor unions. Employes subject to civil service have the right to form any organization within their own Department. Civil service provides their protection.
F. Consideration should be given to the possibility of effecting greater economies and efficiency in the administration of relief by the counties participating in some financial and administrative responsibility. The closer the administration of relief comes to the people who are benefited thereby, the more likely it is to be successful, effective and economical.
G. Provision should be made under the Pierson Work Relief Act for accumulating the credits of a recipient of relief so that he can be employed for a longer period at any one time.

* * * *

It is the considered opinion of the Joint State Government Commission that if these recommendations are adopted, the administration of assistance in the Commonwealth of Pennsylvania will be raised to a higher level and will result in every needy person within the State receiving the assistance provided for him by the laws of this State; that the morale of those receiving relief will be improved, maintained and strengthened; and that the costs of relief will be materially reduced.

PENNSYLVANIA JOINT STATE GOVERNMENT COMMISSION

The Pennsylvania Joint State Government Commission was created by Act 439 of the General Assembly in 1937. Although many temporary committees had been established to study specific problems, the committee composed of members of the House and Senate, was the first permanent research agency ever established by the Pennsylvania Legislature to study government and its problems.

The primary function of the Commission is research. Pursuant to its authority received from the Legislature, to whom it is responsible, the mission has as its permanent work the study of State problems and the preparation of recommendations for the legislature.

Duties of Commission

The duties of the Commission as prescribed by the Act include seven points as follows:

1. To investigate departments, boards, commissions, and officers of the State and local governments and to study their legislative, financial, and other problems;
2. To make studies for the use of the legislative branch of the government, seeking to improve the administrative organization of the State and local governments, to eliminate waste and overlapping functions and to institute economies;
3. To suggest ways and means of financing the Commonwealth upon a more scientific and equitable basis;
4. To gather budget information for the use of the General Assembly;
5. To make such other investigations and studies and to gather such other information as may be deemed useful to the General Assembly;
6. To sit during the interim between legislative sessions;
7. From time to time, to report to the General Assembly such findings and recommendations accompanied with such drafts of legislation as it deems necessary for the information of and consideration by the General Assembly.

In 1937 the Commission, under the Chairmanship of Representative Herbert B. Cohen of York, completed a study covering the costs of legislative printing and a survey of State government departments, which resulted in savings of thousands of dollars.

The powers and duties of the present Commission were outlined on August 16, 1939, following the naming of new members incident to changes in the 1939 Legislature, the present Chairman, Representative Ellwood J. Turner, was then appointed. At the 1939 session the Commission was granted $30,000 to carry on its work and at the special session of 1940 an additional $35,000 was made available to the Commission.

The Commission appointed an Executive Committee consisting of Hon. Ellwood J. Turner, Hon. Frederick T. Gelder, Hon. G. Mason Owlett, Hon. John E. Van Allsburg, and Hon. Robert E. Woodside, Jr.

In addition, it set up standing sub-committees; all reports and recommendations made by the Commission will be based on studies of these sub-committees.

In order that the legislators may be able to view the present relief situation and time in growth from its earliest conception, a brief history of public assistance in Pennsylvania has been included as part of the report.

BRIEF HISTORY OF POOR RELIEF

For the Period 1705 to 1929

A brief review of the events which took place to aid the "poor and the distressed in Pennsylvania" beginning with the colonial days of William Penn stretching down through the years to our stream-lined, highly-centralized relief system of today, may well serve as a fitting introduction to, and a background for, this study.

It was in the year 1705 that poor laws* were first enacted in Pennsylvania. Since that time more than one thousand laws affecting the poor have been enacted, in view of this fact, it should be obvious to the most skeptical that poverty cannot be entirely eliminated by legislative enactment and that the biblical prophecy "The Poor Ye Have With You Always" is true.

That we have come far along the humanitarian path in caring for the poor is evident, for we recall in highlight that in the beginning all unfortunates, whether indolent, feeble-minded, infants or aged, were classed alike and treated alike. This was the first application of the English precept conceived in Queen Elizabeth's era that "The condition of the lowest class of industrious laborer should be a more enviable one than that of pauperism."

From such beginnings we proceeded, step by step, to the building of almshouses, the appointment of poor directors, the first subsidy of private charity, the inception of the county unit for poor relief, exclusion of children from almshouses and the establishment of special categories for feeble-minded, insane, aged and other groups.

Whether properly or not, we no longer hold strictly to the original precept. There is no imaginary line. In fact many persons on relief live at a higher standard than some of those who labor industriously.

At the same time we have improved our humanitarian approach so that it is difficult to realize that one time the law required that all persons receiving aid, even children, must wear upon the right sleeve a large letter "P,"* signifying "pauper."

Act of 1718.

When the General Settlement Act of 1718 was passed the law-makers believed it necessary to put a curb upon relief activities. Provisions for discouraging applications for relief were enacted, one of which was the pauper's "P." Strict requirements for legal settlement, based on continued residence and occupation, specifying rates of assessment for relief of the poor, were provided.

Still seeking more economical and efficient solution to the problem, another important step was taken in 1731 when Philadelphia erected its first public almshouse. One of the primary thoughts in this was that an almshouse would prove less attractive to the indolent than outside relief.

Further efforts to relieve the public treasury came in 1749 when provision was made for putting the dependent poor of Philadelphia to work in order that they might contribute something to their own support. At the same time the poor overseers were authorized to receive donations from private sources.

This process was applied, although with a change in emphasis in 1751, when the Pennsylvania Hospital was incorporated as the "Contributors to the Pennsylvania Hospital" under private management with public subsidy. This was the beginning of the system of public aid for privately organized charity.

By 1771** the poor problem had increased so alarmingly that the assembly again enacted legislation with emphasis particularly upon the efficiency of administration.

The system of county relief, replacing small township poor districts, was inaugurated in Chester and Lancaster counties in 1798 "in the interests of economy."

Here then, for the first time in the history of poor relief in Pennsylvania, directors of the poor were chosen by the electorate of the County and financial compensation (at first only $20 a year) was provided for their services.

However, the old township and borough systems of directing poor relief in small local units continued for many years in the majority of counties.

Progressive thought concerning poor relief was in the ascendancy after the turn of the 19th century, and in 1836 the general poor law of 1771 was taken apart, revised, and put back to work.

During the period from 1836 to 1874 many laws were enacted, most of which were directed toward specific counties and townships, thereby adding to already existing diversity and confusion.

The general acts of 1876[1] and 1879[2], amended several times since, simplified the adoption of the county unit system of poor relief.

An important step was made by legislation of 1883[3] which prohibited the keeping in almshouses for more than 60 days normal children between the ages of two and sixteen, rather than allow them to associate permanently with adult paupers.

A thoroughgoing attempt to revise and codify Pennsylvania's mass of poor laws was made by the Poor Law Commission of 1890, appointed by Governor Beaver in response to general demand, but the legislature of 1891 failed to act upon the Commission's recommendations.

In 1922, Governor Sproul appointed another Poor Law Commission whose report, submitted in the legislature of 1925, led to the passage of the General Poor Relief Act.

The 1925 Act aimed at carrying to its logical conclusion the trend, inaugurated a century and a quarter before, namely to make the county the unit of poor relief administration. But changes made in the act before passage, and in supplementary legislation, have minimized this reform so that in 1934 there were only seven more counties using the county unit system than there were in 1925.

RELIEF BECOMES STATE AND NATIONWIDE PROBLEM
THE PERIOD 1929 TO 1940

The depression of 1929 helped to increase the rising tide of unemployment. The April 1930 census showed that more than 325,000 Pennsylvania wage earners were unemployed.

It was not until the fall and winter of 1930-31 that any definite action was taken regarding what was then referred to as a "trend." The first important statewide movement leading up to the relief problem was the Pennsylvania

[2] June 4, P. L. 78.

[3] June 13, P. L. 111.

Committee on Unemployment appointed by Governor Pinchot in October 1930. The report of this committee was transmitted to the General Assembly in February 1931. No action was taken by the General Assembly. In November 1930 and January 1931, two local citizen committees were formed to study the unemployment situation, the former being the Philadelphia Committee for Unemployment Relief and the latter was the Allegheny County Emergency Association.

In July 1931 Governor Pinchot appointed the Baker Committee to ascertain ". . . what is the actual situation of unemployment relief and to prepare for whatever demands may be made upon the State and estimate the sufficiency or insufficiency of local tax funds . . ."

In submitting its report the Committee called attention to the June Bulletin of the State Department of Labor and Industry, which estimated Pennsylvania's unemployed at nearly 1,000,000, or 24.7 per cent of the total wage earners in the State. It called attention to the extent of unemployment in the major industries and the poverty and dire need which existed in many communities.

But mainly it tended to show the need of State aid for unemployment relief.

On September 23, 1931, the Committee suggested that $20,000,000 be considered as an appropriation by the legislature for unemployment relief, and that this sum be raised from some new source of revenue.

But Article III, Section 18, of the Constitution of Pennsylvania which provides that ". . . No appropriation except for persons or gratuities for military services, shall be made for charitable, educational or benevolent purposes to any person or community, nor to any denominational or sectarian institution, corporation or association" become an obstacle. The Baker Committee suggested a way of circumventing the act, but the Attorney General found it unconstitutional.

Governor Pinchot then proposed a "Prosperity Bond Issue" subject to a constitutional amendment. After a stormy session the legislature rejected the "bond issue" and enacted the First Talbot Act, which provided $10,000,000 to be paid to political subdivisions charged by law with the care of the poor. The Governor refused to sign the bill and it became a law without his signature on December 28, 1931; four months later the State Supreme Court found the act constitutional.

The administration of the Act was through poor directors without State supervision.

Pennsylvania's unemployment relief structure began to take shape during the Second Special Session of the Pinchot Administration.

At that session the legislature enacted three bills: The Woodward Act (Act 51), Second Talbot Act (Act 52)[1] and the Emergency Relief Sales Tax (Act 53).[2]

The Woodward Act, approved August 19, 1932, established the State Emergency Relief Board.

THE FEDERAL RELIEF PROGRAM

As the effect of unemployment became more severe, and the needs of the unemployed more acute, it became evident that the local governments with their limited taxing and borrowing powers could not bear the whole burden. It was then that the State government found itself obliged to help provide the necessary funds for relief.

As unemployment increased, it also became necessary for the Federal Government to lend aid to the various state governments. The first official Federal expenditure for unemployment relief was the appointment in 1930 of the "President's Emergency Committee for Unemployment."

A second committee was appointed to stimulate state, local and charitable agencies to provide relief funds. On March 7, 1932, by joint resolution, Congress authorized the Federal Farm Board to give 40,000,000 bushels of federally-owned wheat to the Red Cross, and authorized an additional 45,000,000 bushels of wheat and 500,000 bales of cotton to the same agency.

The Act of 1932 authorized Reconstruction Finance Corporation to lend states $300,000,000[1] for relief purposes and later authorized R.F.C. to make loans to the states and their political subdivisions for self-liquidating construction projects, and provided for the expenditure of $322,000,000 for Federal Public Works. In May 1933 the Federal Emergency Relief Administration was created and the R.F.C. granted to the F.E.R. $500,000,000 for relief. This amount was later increased by appropriations and allocations to $2,945,450,000.[2]

In an effort to increase the buying capacity of the general public the F.E.R. Program was interrupted from November 1933 to April 1934, when the Federal government initiated the Civil Work Administration (C.W.A.) The main purpose of the C.W.A. was to increase consumer purchasing power as quickly as possible, thereby providing business with a needed stimulant. During the Civil Works Administration all other work relief was suspended.

In June 1933 Congress enacted the National Industrial Recovery Act, which became known as N.R.A., for which was appropriated $3,300,000,000. Under N.R.A. was created the Public Works Administration, which had as part of its program: (1) The construction of post offices, harbors, naval construction and land reclamations; (2) non-federal roads, schools and slum clearance. P.W.A. was allotted $2,200,000,000.

Two years later the Federal government decided to expand its work relief program in an effort to take up the entire slack in unemployment and to this end, by Executive Order of the President, the Works Progress Administration (W.P.A.) was created, thus leaving the care of unemployables to the State. To carry out the purpose of this order, Congress on April 8, 1935, appropriated the sum of $4,888,000,000.

Today W.P.A. is supposed to be the hub of the entire relief program of the nation which features a federally-administered work relief program for needy unemployed employables in need of work projects sponsored by the states and local communities who bear a small share of the cost. However, W.P.A. has never been able to employ all the employables on relief.

The workers on W.P.A. for the most part are taken from local relief rolls, certified by local relief authorities as be-

[1] Act 52 (August 19, 1932) appropriated $12,000,000 to the State Emergency Relief Board.

[2] Act 53 (August 19, 1932) provided revenue by an emergency sales tax upon sales of tangible personal property by vendors.

[1] Statistical Abstract of the United States (1939, p. 282)

[2] Statistical Abstract of the United States (1939, p. 170)

ing in need. They are paid a monthly wage, varying in amount from locality to locality, and according to the type of work performed. The Federal government administers the W.P.A. program on a basis which compels the local sponsors to contribute some cash, material, equipment and non-relief labor. The wages of relief labor and administrative costs are paid by W.P.A. Up to January 1, 1940, there was no statutory requirement as to the amount of the sponsor's contribution. Now each state must average at least 25 per cent of the total cost of each project, which is more than 100 per cent increase over Pennsylvania's required contribution of 11 per cent in January 1939.

Under the Federal Social Security Act of January 9, 1935, the Federal government makes grants in aid to the states on a fifty-fifty basis for assistance to the aged, the blind and aid to dependent children. While Pennsylvania participates in this Federal program so far as it applies to the aged and aid to dependent children, it bears alone the entire cost of pensions to the blind. Federal authorities refuse aid to our blind assistance program because they consider it to be on a pension basis and not one of need.

In addition, the Social Security Act established a long-range Federal Old Age Insurance System, paved the way for nation-wide action by states in setting up unemployment compensation programs, and appropriated funds for the extension of State public health, maternal and child welfare activities.

The other relief agencies operated directly by the Federal government are:

National Youth Administration (NYA); to provide part-time work for persons up to 24 years of age.

Farm Security Administration (FSA); was originally the resettlement administration which sponsored the construction of over 160 cooperative, rural resettlement and homestead projects.

Civilian Conservation Corps (CCC); the earliest form of direct relief activity created by the Act of March 31, 1933, was to place in camps young men 17 to 23 years of age whose families were in need. In these camps they devoted themselves to trail-making, forest conservation, flood control and the like. Formerly independent, the CCC is now part of the Federal Security Agency.

Federal Surplus (Commodities) Marketing Administration:* the purpose of which is to remove price-depressing farm surplus by subsidizing exports and by relief distribution through state and local agencies.

In 1932 when Pennsylvania made its first appropriation for relief no one anticipated that out of this emergency there would develop, within the short period of eight years, the most pressing problem Pennsylvania's legislators have had to face since the crisis in which Benjamin Franklin cast the future of the Commonwealth with the new union of states.

There was no way to know that relief would skyrocket, in 1938, to the level of $350,000,000[1] spent in the State for relief in various forms; that in a single month the relief rolls would include about 2,000,000 people; that the problem of financing the program would tax the ingenuity of succeeding legislatures; that the resulting tax increase would become so great as to lead many economists[2] to believe that business was being impeded and that the cost of relief, instead of stimulating recovery, was preventing recovery.

SITUATION BECAME ACUTE

Within a few short months after the State's initial venture into augmenting local funds for the needy, it became evident to the members of the legislature that they were facing a situation which was growing more acute—a situation which demanded action.

Like most states, Pennsylvania's heart had been opened by the desperate knocking of those who were unable to help themselves, and during the first three months of 1933 the State's purse strings were opened to the tune of $19,500,000.

From that moment to the present time[1] it has cost the State (excluding federal funds) approximately $56,000,000 just to administer relief in Pennsylvania, and while the total monthly outlay for assistance has decreased in the past two months, General Assistance alone is costing approximately $925,000 a week. Relief in all its forms, including categories and General Assistance, costs $7,500,000 a month.

LEGISLATIVE COMMITTEES FORMED

Anxiety on the part of the legislature and the mushroom growth of relief and its attendant costs resulted in many committees[2] being appointed to study the new trend in taking care of the needy.

During the period between 1932 and 1935 more than 20 legislative[3] committees were appointed. Each studied and reported on various phases of relief.

As early as 1935 a Legislative Committee was blazing a trail toward a "balanced" relief set-up for Pennsylvania. In their preliminary report, to Joint Committee to Investigate the Distribution of Public Relief Throughout the Commonwealth (House Res. No. 110,[3] 1935) said, "Relief administration . . . should be decentralized . . . and local boards should be given authority to make such rules as will provide reasonable relief at a minimum of expense to the taxpayers."

And in reporting on the trend toward socializing relief, the Committee found, "no criticism occurred more frequently than that relating to the type of employes administering relief . . . the administration of relief has passed to a large extent into the hands of professional social workers . . ." and added, "the testimony of the Assistant Administrator of Direct Relief showed the large measure of free play given to the social influence in the whole administration of relief."

Early in 1935, a committee appointed under House Resolution No. 44, to investigate the Allegheny County Emergency Relief Board pointed out that "local control was vital . . ." and added that "State emergency Relief Board should determine allotments to various counties . . . but the manner, organization, distribution and planning of relief is distinctly a local problem."

In commenting on the type of workers, the Committee was most emphatic in its statement that "use of social workers (is) not essential or even necessary. Require-

nents for the position of investigator seems to have been drawn up to fit social workers."

GENERAL DISSATISFACTION

Knowing the general dissatisfaction of the legislators and the public with the relief problem, which early in 1936 was costing the taxpayers in State and Federal grants more than $20,000,000 a month, Governor George H. Earle appointed a Committee on Public Assistance and Relief, headed by Dean Herbert F. Goodrich, of the University of Pennsylvania, which was complete with special advisory committees, a technical staff, research assistants and others.

The Goodrich report which was presented in December, 1936, recommended sweeping changes in the entire relief set-up, including a new department to be known as the "Department of Assistance."

During this period many persons were emphasizing the need for returning relief to local responsibility. At the special session of the Legislature in the summer of 1936, these demands became especially frequent and urgent.

In August, 1936, Governor Earle, with the approval of the State Emergency Relief Board, announced that an experiment in this direction would be made in the hope of deriving, during the ensuing months, information of value to the legislature in guiding the formulation of a permanent relief policy.

Six counties were chosen for this experiment, partly because they had expressed a desire for an increased measure of local administration, and partly because they were representative counties in the State.

They were Butler, Carbon, Centre, Chester, Cumberland, and Clarion counties.

Local boards were selected and they were granted full powers to use any method of procedure they thought wise. Prior to this there were no local boards under the S. E. R. B.

Members of the Goodrich Committee visited the various counties to study their methods and approach to the problems which came up during the experiment.

SUMMARY OF GOODRICH COMMITTEE EXPERIMENT

Note: All material under Summary of Goodrich Committee Experiment to quotes (") on page 14 is quoted from Goodrich Report.

"Two general conclusions must be drawn from the study of this experiment. First, despite the unlimited freedom allowed to the especially constituted boards in these counties, no drastic change in policy or method of administration was found by them advisable or necessary. Second, it appears, nevertheless, that in these communities there is somewhat increased confidence in relief administration as a whole, based on public confidence in the local citizens to whom opportunity and responsibility had been given for close scrutiny of administrative policy and action.

"The following facts regarding policies of relief administration are apparent from the study:

1. There were no drastic changes or reductions of staff.
2. Expenditures were not decreased more rapidly in these counties than in other counties of the state.
3. Case loads in the experimental counties followed practically the same curve as for the rest of the state.
4. Standards of eligibility for relief were not altered in any substantial degree. The local boards apparently found little evidence of widespread chiseling and there were indications that the new board members, faced with actual individual needs, came to feel that relief grants should be somewhat greater.

". . . While there are indications that the mere existence of genuine local boards, with real responsibilities, strengthened local confidence and cooperation, there is also evidence that most of these local communities still lack* any deep interest, or even general understanding, in regard to the relief program."

"One of the striking outcomes of the experiment is the demonstration that a state-local partnership in public assistance and relief is practicable and desirable. It is clear, in the first place, that it is possible to enlist the unselfish, intelligent, and diligent services of representative citizens of the local community in the conduct of these important functions without any promise of financial reward. In no single instance was there evidence of the slightest intrusion of partisan political activity.(")

Following the report of the Goodrich Committee, the legislature in 1937 set up a Department of Public Assistance (Act No. 399, 1937 P. L. 2051) providing for a centralized system of administration and distribution of assistance and relief.

Prior to 1937 the permanent relief load of the unemployables had presumably been with the counties; the temporary relief load of the employables had been with a temporary State agency. By this 1937 Act they were combined under a permanent State agency and no taxes were thereafter collected in any county for these purposes but were collected by the State and the proceeds thereof sent into all parts of the State as applicants were certified for assistance and relief.

A survey[1] completed in November, 1940, by the Pennsylvania Economy League showed that locally supported welfare costs in the counties dropped $6,125,000 in 1939 below similar costs in 1936. While this may be an answer to the often asked question "What savings in local taxes will (The Goodrich Acts) be effected?", it must be remembered that there may be and are other contributing factors which, while possibly not so important as the change, have had some effect on the costs.

SURVEY COMMITTEE APPOINTED

It soon became evident, however, that a satisfactory formula for administering relief was still in doubt. For it was but one year and one day from the date that the Goodrich Report was presented, and less than six months

(") End quotes from Goodrich report.

* In the opinion of the Relief Committee this lack of interest was due to the absence of any local financial burden for the relief load.

[1] See page 6162 Appendix.

after the so-called Goodrich Plan was enacted into law, that Governor Earle found it necessary to appoint a Relief Survey Committee *, charged with checking the efficiency of the newly-formed Department's staff, investigating the eligibility of relief cases, an analysis of elapsed time between visits to relief recipients and additional comparable data.

The Survey Committee, consisting of D. M. Livingston, Chairman, Harry Margolis, and William A. Sponsler, 3d, found that among other things the "supervisors in charge of interviewers and investigators did not attempt to check data compiled for relief grants . . . permitting the possibility of collusion or fraud between the applicant and the investigator."

They found that the investigators were "spending 25 to 50% of their time in obtaining irrelevant matter on the applicant . . . instead of finding the facts upon which eligibility was (and is) based."

The Committee also found the whole system of investigation had become classified in the Department as follows: Investigators were known as "visitors," relief recipients as "clients," and investigations and re-investigations as "visits." And added, "In our judgment, this terminology exactly describes the degeneration of the Department's most important activity."

EIGHT YEARS AFTER

During the past eight years committee after committee has found virtually the same situation year to year.

What was true in 1932 was more evident in 1940.

Reports of special committees appointed to study relief four and five years ago read like carbon copies of much later reports.

Similar committees found similar conditions in all parts of the State.

Naturally, the figures and trends presented in this section of the report show how relief was affecting our pocketbooks the general employment situation began to show improvement.

The cost of unemployment relief (general assistance)[1] has decreased from an all-time high of $7,657,000 per month in 1939 to approximately $4,000,000 per month for the last few months of 1940.

Official figures show that General Assistance during the last six months of 1940 cost Pennsylvania taxpayers approximately $26,373,000 or approximately $8,000,000 less than the $34,719,000 for the first six months of the year.

This is the "breather" that the Legislature needs in order to stand off from the picture and see its true colors.

Eight years after starting on this course we are justified in asking ourselves these questions:

What has relief accomplished?

Have the benefits been in proportion to the costs?

Have abuses and evils developed?

Can improvements in approach and administration be brought about?

In answering the above questions, these problems are involved:

To what extent should the Commonwealth obligate itself to care for those who are in need?

Is it responsible, and if so to what extent, for the social welfare of recipients beyond physical necessities for health and decent living?

Does the experience of being a recipient of government aid have any ill effect upon character or citizenship?

Should these considerations have a definite place in the plan and policies of relief administration?

The answers to those questions do not come properly from our emotional side. They depend upon facts, sincerely and honestly studied. What is done now in this opportune period may determine the course of social and economic events in our Commonwealth for a long time to come. If after eight years we cannot appraise our problem and act as the situation dictates, what possibility is there that we shall be better able to reach a just and equitable conclusion after ten, fifteen or twenty years?

What the legislators have a right to know and must know is how assistance is being administered in Pennsylvania. Is it being administered in accordance with the real intent of the Act? Are the eligibility requirements as prescribed by law being followed?

ORGANIZATION AND PROGRAM OF COMMITTEE ON RELIEF

It is the duty of the Legislature to know the pertinent facts about the relief situation and to bring about whatever changes are necessary.

Too often in the past eight years the Legislature has lacked all of the necessary facts. Without knowledge it has had to proceed upon emotion and under pressure.

The Committee on Relief of the Joint State Government Commission, with the cooperation of the Pennsylvania Economy League and others, has developed the facts. This report is the result of studies of taxes and of relief, in comparison with 13 other states, of investigations and of a generally constructive approach to the whole question. To support this report, the Commission has gathered authentic and specific material.

AMBITIOUS PROGRAM PLANNED

At its first meeting, the Committee adopted an ambitious program of study covering the administration of relief in Pennsylvania and throughout the nation. The Committee and its sub-committee met regularly between August 23, 1939, and December 31, 1940.

The Committee was organized to study the cost of assistance in Pennsylvania and has therefore sponsored the following activities:

1. Recommended and assisted in organizing the State War Mobilization program to ascertain if unemployment can be reduced by:
   a. Creating interest by citizens in local units throughout the State.
   b Arousing interest of employers in assistance costs.
   c. Stimulating re-employment.
2. It has made a comprehensive survey of the cost of the present Public Assistance program in Pennsylvania.

The Committee has surveyed the administration of public assistance by the Department and the County Boards, with particular reference to:

* November 16, 1937 (Page 1.) Page 6162, Appendix.

[1] See page 6162 Appendix.

1. Scope of the present program of public assistance in Pennsylvania.
2. Relationship which exists between the Department and the County Boards, their staffs and offices throughout the State, including:
   a. Powers, Duties, Personnel and Organization of the County Board of Assistance.
   b. Rules and regulations imposed on County Boards by the Department.
   c. Regulations regarding eligibility issued by the Department and the effect of reviewing boards organized to review local determinations of eligibility.
   d. Cooperation and conflicts between the Department and the County Boards.
3. Extent of interest on the part of the members of the local boards and the extent of their activity.
4. Method of determination and investigation of eligibility for General Assistance.
5. Effect of certain provisions in the law:
   Milk
   Family responsibility
   Citizens' committees
   Performance of work for relief
   Medical services.
6. Operation of the Merit System in the following particulars:
   a. Examinations and Rating.
   b. Appointment.
   c. Promotion.
   d. Separation from Service.
7. Existence of Labor Organizations in the Department of Public Assistance and its effect on administration.
8. Coordination between facilities of State Employment Offices and the Department of Public Assistance.
9. Unemployment Compensation and Relief Payments.

The Committee engaged in a comprehensive study of administration of public assistance and the costs in Pennsylvania contrasted to other selected states. In securing this information:

1. It gathered much data on public assistance in Pennsylvania and the laws and programs of administration in other states. It considered reports on recent investigations of the administration of Public Assistance in other states.
2. It secured the cooperation of the Pennsylvania Economy League in preparation of a report which includes detailed tables and charts analyzing the expenditures for public assistance, number of cases, and number of persons on assistance since 1932 in Pennsylvania and ten other selected comparable states, by type of assistance granted by Federal, State and local governments. In addition, three southern states were also studied and similar comparisons made.

FIELD INVESTIGATIONS

The Committee conducted hearings and through the personnel of the Commission made extensive surveys. These hearings and surveys have included the following:

1. A field investigation in Philadelphia of 777 general assistance cases, taken at random, the majority of which were from the "Federal District," which was a representative area, to ascertain whether persons receiving assistance were in need of such aid, to learn the number of cases ineligible and the reasons therefor. This study was made in the period from October 23, 1939, to January 27, 1940.
2. A field investigation in Pittsburgh of 283 general assistance cases, also taken at random in several areas to ascertain whether persons receiving assistance were in need of such aid, to learn the number of cases ineligible and the reasons therefor. This study was made in the period from February 21, 1940, to April 8, 1940.
3. A field investigation in Delaware County to survey 105 cases to determine how persons, denied or removed from assistance, were presently living without aid. This included single men, aged 18 to 45, who the County Board assumed could earn the equivalent of a weekly relief check, and others "who were on too long and had not made an honest effort to get into industry." This study was made in the period from February 27, 1940, to April 8, 1940.
4. Conferences during February, 1940. with members of seven County Boards, to inquire into local administration of public assistance.
5. Field surveys from June 17 to August 9, 1940, of the administration of public assistance in the offices of eight County Assistance Boards.
6. Meetings from February 13 to July 24, 1940, with the Employment Board, the Department of Public Assistance, the Department of Labor and Industry, and the Auditor General, to discuss the operation of the Department of Public Assistance, the merit system and the State Employment Offices.

LIMITED FUNDS AVAILABLE

A limited appropriation to the Joint State Government Commission, and the need of funds by other Committees of the Commission, made it necessary for the Committee on Relief to carry on its studies and investigations on a proportionate allotment.

This does not mean that the findings of the Committee's report are any less pertinent or final.

The investigations of the Committee were based on complaints by citizens and those engaged in the administration of assistance, on obvious administrative defects in the counties, and objections to the system which had been raised during the past few years.

Every action of the Committee was motivated by a desire to learn the true, unbiased facts concerning the administration of relief in Pennsylvania. To effect this, the Committee's staff chose representative localities in the State and made samplings.

All cases were taken at random from County Board files and no attempt was made to "choose" a specific case which could be considered a "set-up" to prove a case or point either for or against the present system.

In some cases the staff investigated "complaint" cases turned in by citizens who felt that the recipient was not entitled to relief, either wholly or in part.

STRUCTURAL ORGANIZATION OF THE DEPARTMENT OF PUBLIC ASSISTANCE

A comprehensive idea of the governmental machinery of

the Department of Public Assistance may be had from Organization Charts I and II (pages 6065-6066).

It is the purpose here to supplement those charts by briefly outlining the main divisions of the Department and their functions and to offer such comments and facts as may be conducive to a workable knowledge of the Department.

The Department of Public Assistance was created by legislative enactment June 24, 1937. It displaced the then existing State Emergency Relief Board and local relief agencies. The Department supervises and administers relief through the Secretary and staff in Harrisburg and the 67 county boards. There are two arms of the Department, namely the State Board of Public Assistance and the State Employment Board.

The Secretary is appointed by the Governor with the confirmation of the Senate. He is a member of the Governor's cabinet and is responsible to him for the efficient administration of relief throughout the Commonwealth. Here is a member of the State Board of Public Assistance and has joint powers with the State Employment Board relating to salaries, classification of positions and qualifications of the Department's employes.

The State staff as of December 31, 1940 consisted of 7,060 employes.* The number of employes was considerably augmented by the requirements for the administration of the so-called Pierson Act and the Milk Order Law, more about which will be said later. Its various bureaus and field agencies are plainly indicated on Chart II, page 25.

The outstanding functions of the Department are:

(a) To allocate to the several assistance programs (OAA-ADC-AB and GA) funds as may be necessary from time to time to provide assistance as requisioned by the county boards.

(b) To establish with the approval of the State Board of Assistance rules and regulations as to eligibility for assistance and as to its nature and extent.

(c) To supervise local boards and establish for them rules, regulations and standards consistent with law.

For a complete statement of the powers and duties of the Department see page 6183 of the Appendix.

1. The cost of Old Age Assistance granted to persons who are 65 years of age or over is borne on a 50-50 basis by the state and the federal government.
2. The Aid to Dependent Children group includes children under 16 years of age (and those 16 to 18 who are regularly attending school) and any one relative (as specified by the Federal Social Security Board) with whom they are living. The state and federal government jointly on a 50-50 basis finance this program.[1]
3. Blind Pensions are provided for under the Constitution and the Public Assistance Law. A pension is a flat monthly sum granted without regard to need. This differs from assistance granted to other groups which are on a basis of need.[2]
4. General Assistance is assistance provided entirely from state funds for those needy persons who are not eligible for assistance in the other three above-named groups. This group includes not only employable persons who are out of work but also many persons and families without income who are unemployable. From a study made last October (1940) the Secretary of the Department of Public Assistance stated that approximately 49,000[3] or slightly over one-third of the cases on the general assistance rolls contained no members currently able to take employment.

Detailed information regarding the rules and regulations of the Department of Public Assistance relating to eligibility for assistance, which change from time to time, can be obtained from the County Board or from the Department of Public Assistance.

STATE EMPLOYMENT BOARD

The other arm of the Department of Public Assistance is the State Employment Board. This board appointed by the Governor with the consent of the Senate consists of three members. They receive per diem compensation not exceeding $25 per day and actual expenses incurred.

The duties of this board are confined exclusively to administering the civil service laws pertaining to employment in the Department of Public Assistance. Briefly sketched they are as follows:

(a) Prepare and conduct examinations for employment.

(b) Grade examinees and prepare eligibility lists of successful applicants.

(c) Make rules for fixing the order in which the names of successful applicants shall be placed on eligibility lists.

(d) Perform duties and in some cases establish rules and regulations regarding probation, transfers, suspensions, demotion and removal of department employes.

(e) Has joint powers with the Department of Public Assistance to:
   1. Classify employment positions
   2. Fix minimum and maximum salaries, and
   3. Establish qualifications for any class of employment.

(f) To make rules and regulations necessary to carry its prescribed duties into effect.

The following table gives the number of employes in the Department of Assistance as of May 31, 1939, and May 31, 1940, and December 31, 1940, respectively:

	5-31-39	5-31-40	12-31-40
Employment Board	65	131	108
State Headquarters*	859	996	921
County Boards	6831	7129	6031
	7755	8256	7060

TYPES OF ASSISTANCE ADMINISTERED

There are four general types of assistance administered by the Department of Public Assistance. They are:

(a) Old Age Assistance (OAA)

(b) Aid to Dependent Children (ADC)

*Auditor General's figures.

[1] The State is actually paying 61 per cent because in the number of recipients in A.D.C. is included one responsible relative. The Federal government participates on a 50-50 basis for the children only.

[2] The Federal government does not participate in this program.

[3] See page 6163 Appendix.

*Includes regional, claims settlement and Federal Surplus Commodity personnel.

The first three above for convenience are referred to as "Categorical Assistance."

COUNTY BOARDS

There is one board for each county appointed by the Governor with the consent of the Senate. Members of the county boards shall not all belong to the same political party and they serve without pay but are allowed actual expenses. Each board consists of 7 members except in counties of the 1st and 2nd class where they have 11 members each.

The structural organization of county boards though alike in pattern, vary greatly according to population. Chart III page 6164 Appendix for example is typical of the organization of a populous county while Chart IV on the following page 6165 is typical of that of smaller counties.

The outstanding powers and duties of the county board are:

(a) To appoint, transfer, lay off, suspend and remove its employes in accordance with law which employes on behalf of the board and under the supervision of the County Executive Director shall provide assistance in the territory under its jurisdiction.
(b) By far, the most important duty of the Department of Assistance is that of determining who, according to law, is entitled to assistance and that grave responsibility, subject to supervision from the state office, rests with the county boards and their employes.

For a complete statement of the powers and duties of county boards as amended by the 1937 session of the legislature it is suggested the reader see pages 6181 and 6182 of the Appendix.

STATE BOARD OF PUBLIC ASSISTANCE

The State Board of Public Assistance consists of the State Treasurer, Attorney General and 7 other citizens of the Commonwealth, appointed by the Governor. The sole duties of the Board are as follows:

(a) To approve or disapprove and adopt rules, regulations and standards recommended by the Department of Assistance and local boards as to eligibility for assistance and as to its nature and extent. To establish for the Department and local boards rules and regulations concerning the administration of the Act.
(b) The study of work of the Department and to recommend changes in administrative policies to the Governor, and
(c) To take any other action authorized or required by law. P. L. 1937, page 2014.

RELIEF IN PENNSYLVANIA COMPARED TO TEN NEIGHBORING AND COMPETITIVE STATES*

Now let us consider the cost of relief in Pennsylvania as compared with the neighboring and competitive states, with some reference to the situation in the southern states. The following states were compared in a study[1] by the research staff of the Pennsylvania Economy League: Illinois, Indiana, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, West Virginia, and Wisconsin.

Relief in all its forms is the largest single item of governmental expenditure in Pennsylvania. Few people realize its full magnitude[2] even after paying the bills for eight years. Looking at the expenditures of one relief agency, it is easy to lose sight of the expenditures being made simultaneously by other agencies.

The total cost, excluding some costs such as Federal administration, nonrelief labor and materials and supplies on work projects, amounted to $177,722,000 in 1934, rose to an all-time high of more than $350,000,000 in 1938, and decreased to $317,800,000 in 1939.

$25,000,000 A MONTH IN 1938 AND 1939[3]

In other words relief in Pennsylvania, State and Federal, cost more than $25,000,000 a month in each of the last two years. In 1938 relief expenditure of $350,775,000 amounted to $34.53 per capita or a cost of $41.26 for each of the 8,500,000 residents of Pennsylvania not receiving any form of relief. This means that approximately $165.00 had to be given up by each family of four persons not receiving relief for the support of the unemployed and unemployable. It is obvious that the localities could not have earned this tremendous cost.

Relief expenditures in 1939 in Pennsylvania amounted to 5.95 percent of the total income of the residents of the State in 1937, the latest year for which income figures are available.

Looking only at the State's share of the total relief expenditures, the picture is equally dark. In 1939 the State paid out over $10,000,000 a month for relief, including general assistance and special categories, and in the early months of 1940 paid out only slightly less. In the pre-preparedness era the cost was running at a rate which would have meant a total of $240,000,000 in the current biennium, or approximately 65 percent of the receipts of the general fund anticipated in the budget for this period.

Increased employment* in Pennsylvania resulting from the efforts of the State Job Mobilization Program,[4] war orders from Great Britain and France, and other activities, brought about some reduction in the combined relief rolls.

Since January, 1940, General Assistance grants have decreased from approximately $7,000,000 a month until today it is costing slightly more than $4,000,000 a month.

Special Categories at $2,451,000, and administration, including medical aid and special programs at slightly more than $1,000,000 a month respectively, bring the total cost of General Assistance and Special Categories to approximately $7,500,000 a month at the present time.

And while the National Defense Program has helped to alleviate the situation for the present, it can only be

* See pages 6166-6179, Appendix for table showing financial and administrative responsibility by States.

[2] See page 6179, Appendix.
[3] See page 6057, Appendix.
[4] See page 6179, Appendix.
[4] See pages 6179, Appendix.

termed "temporary" because the fundamental conditions which created the relief load have not been corrected and no preparation made for the time when another recession reduces the employment rolls.

GENERAL ASSISTANCE CASE LOAD HIGH

In relation to its population, Pennsylvania is not out of line with certain other states in the over-all number of cases receiving relief of various types, including W.P.A., as noted herein*. However, since the spring of 1938, Pennsylvania has had relatively more general assistance cases than any of the other ten industrial states, and its general assistance case load continued to grow throughout 1938 and the first nine months of 1939, while the general trend among the other states was slightly downward.

Pennsylvania and Maryland were the only two states which did not show a substantial decrease in cases per thousand on General Assistance. Several factors probably have influenced this, one being that throughout 1936 and 1937 Pennsylvania was high in relation to population in number of W.P.A. cases but in the early months of 1938, fell behind most of the other states, and since has had a relatively low number of W.P.A. cases. Also, Pennsylvania has had a relatively low number of cases receiving special types of assistance under the special categories. Whatever the cause of this high ratio of general assistance, it is these cases for which the State pays in Pennsylvania, and thus the State has been unduly burdened in relation to competitive states.

Grants[1] per case on general assistance and the special categories, and earnings of persons employed on Federal work programs, are all relatively high in Pennsylvania, but not excessively so, being generally less than in Massachusetts and New York and only slightly more than in most of the other comparable states.

Pennsylvania[2] varies between second and third place among the states compared in per capita expenditures for direct relief and in per capita state and local expenditures for all forms of relief.

ONLY STATE STUDIED CARRYING WHOLE BURDEN

Pennsylvania is the only one* of the states studied in which the state, as contrasted to local government, has assumed the whole burden of both direct relief and the special categories.

W.P.A. COSTS

The rapid rise in expenditures in relation to cases and persons in Pennsylvania can be attributed to the advent of W.P.A. which paid more than twice as much per case as general assistance after G.A. grants had been increased. W.P.A. is the "aristocracy of relief" when viewed solely as a relief program and without consideration of the value produced. Using the amount ($133,127,000)[1] paid by the Federal government to W.P.A. project employes in 1939, we find a figure of $61.91 a month for the average of 179,207 W.P.A. employes as compared with an average general assistance grant of $31.04 per case per month, and an average grant of $24.09 per month for categories.[2] Had the same number of cases been carried on public assistance at $31.04 a month per case, it would have cost $66,751,020, or $66,375,980 less than it did to support them on W.P.A.

With this great disparity in cost, it might be well to reconsider the efficacy of W.P.A. as a relief program and to consider other possible forms of Federal participation in relief.

EXPENDITURES FOR RELIEF

Relief expenditures (Federal, State and local) in Pennsylvania rose from six and one-half million dollars per month in the first quarter of 1933 to almost twenty-seven million in the last quarter of 1938, an increase of more than four times[3] the former. During this same period the number of cases rose from 395,746 to 615,704, an increase of only 55 percent. Both increases were more or less gradual and continuous. Persons relieved, on the other hand, rose only 44,403—from 1,814,700 to 1,859,103—and the rise was neither gradual nor continuous; the total amounted to 2,017,683 in the second quarter of 1933, declined to a low of 1,241,118 in the third quarter of 1937, and finally advanced rapidly to 1,888,084 in the first quarter of 1939.

629,000 CASES IN 1939

Cases did not reach their all time high until the first quarter of 1939 when an average of 629,000* cases received relief. In the last quarter of 1939 with approximately one thousand more cases receiving relief, costs had fallen to $18,664,000 a month, as compared to $23,093,000 a month for the second quarter of 1936 when relief payments reached their pre-recession high. This peculiar circumstance—that approximately the same number of cases should receive almost $4,500,000, or 19 percent, less in the last quarter of 1939 than in the second quarter of 1936—is explained by the larger number on General Assistance and Special Categories and smaller number on W.P.A. Here is illustrated the teeter-totter effect of W.P.A. As General Assistance rolls declined, due to increases of W.P.A., the total cost of relief increased, without any change in the number of cases or persons receiving relief.

One of the ill effects of the present Federal program is that there is no relation between the W.P.A. program and the needs of the States for relief; primarily because the W.P.A. program is controlled only by the allocations of the Federal Government of moneys and jobs and the sponsoring by local and State government of projects. There may, therefore, be no relation between the Federal Relief Program as evidenced by W.P.A. and the State program. Another defect of this plan is that it is difficult for the State to appropriate and budget its money for relief because it has no assurance as to the amount which W.P.A. will carry, as proven in Pennsylvania in 1939[1] at

* See page 6179, Appendix (Comparison with other States)

[2] See page 6097, Appendix (Chart 13, Table XXXV)

* See page , Appendix

[1] This does not include Pennsylvania's share to sponsor W.P.A. projects.

[2] Old Age $20.44 (single persons only); Aid to Dependent Children $32.34; Blind Pensions $29.92.

[3] See page 6078-6079, Appendix (Chart 1, Table 1).

* See Chart, page 6080-6081, Appendix (Chart 2, Table II)

[1] See page 6180, Appendixx.

a very decided effect upon the whole cost of relief to the State.

THREE SOUTHERN STATES STUDIED*

The one evident similarity between the three southern states and the northern states studied was found in W.P.A. cases per thousand population. The study showed that the southern states followed the general pattern very closely, but on a lower level.

Because of the extent and nature of the diversity of relief in the South as compared with the North, a supplemental study comparing relief in Alabama, North Carolina and Texas was also made.

The study showed that there was a greater variance between the Southern states and Pennsylvania in cases per thousand population than in over-all cases. This difference lies in the fact that only a small proportion of the cases are on General Assistance and the remainder are on W.P.A. and other categories.

The proportion[1] of General Assistance cases per thousand of population as compared to Pennsylvania is much lower than the proportion of categorical cases per thousand compared to Pennsylvania. This is occasioned apparently by the transfer of cases to the special categories, and particularly to Old Age Assistance. The number of cases receiving General Assistance in these three states never exceeded 2.6 after the third quarter of 1937, as compared with a range of from 14.76 to 31.35 cases per thousand population in Pennsylvania during the same period.

SPECIAL CATEGORIES

In Pennsylvania, Special Categories, including Old Age Assistance, Aid to Dependent Children, and Aid to Blind, have on the whole increased sharply[2] in the four years covered by the study. (1936-1939).

With the broadened eligibility for aid to dependent children which went into effect in September, 1938, and the change in age limit for Old Age Assistance eligibility from 70 to 65, which became effective in January, 1940, the number of cases receiving special types of relief rose. It is estimated that hereafter the State will occupy a median position among the states studied.

The practice of carrying as many cases as possible on special categories and as few as possible on General Assistance may have some merit from the point of view of holding down state costs. (Primarily because the Federal government pays one-half of Old Age Assistance and one-half of Aid to Dependent Children).

Special thought should be given to the granting of relief in kind, such as milk, medicine, etc., as the Federal government does not pay any share of such aid. With the State paying the full cost, naturally each relief case receiving milk grants will tend to increase the total cost of relief to the State.

During the month of October, 1940, 52% of Pennsylvania's total case load was on special categories and 48% was on General Assistance.

PER CENT OF TAXES FOR RELIEF[1]

Pennsylvania ranked first in percent of State and local taxes used for direct relief and ninth in per cent used for categories and W.P.A. in 1938, again emphasizing the fact that most of the other states have put proportionately greater emphasis on special categories and W.P.A. sponsorship than has Pennsylvania.

Pennsylvania has shown a consisent upward trend in total taxes used for all forms of relief except for the year 1937.

All of the states had in increase in per cent of total taxes used for direct relief, categories, and W.P.A. from 1933 to 1938—some at a greater rate than Pennsylvania, and others at a lesser rate. Pennsylvania, however, has never ranked lower than third and in all but one year ranked first or second.

It is apparent that since 1933 Pennsylvania has consistently spent a large and growing proportion of its total State and local tax receipts for direct relief[2] in spite of a rapid increase in taxes. Of the states studied, Pennsylvania ranked:

1933—second
1934—third
1935—second
1936—first
1937—second (tie with Illinois)
1938—first.

Nine of the eleven states spent a higher percentage of state and local taxes for direct relief in 1938 than they did in 1933.

Two states, Maryland and Massachusetts, showed an actual decline in per cent of taxes used for relief. In Massachusetts the drop was from first place at 11.8 per cent to fifth place at 8.3 per cent, and in Maryland from fourth place at 6.7 per cent to eleventh place at 2.9 per cent. In both states the reduction of per cent of taxes for direct relief is accompanied by a sharp curtailment of relief expenditures, rather than by any sudden change in tax receipts, although both states did have a steady increase of tax receipts throughout the period.

CENTRALIZATION INCREASED EXPENDITURES

The increased activity of Pennsylvania's State government and the creation, centralization and enlargement in its functions have generally increased its expenditures in recent years.

Development of the State relief program and of the unemployment compensation program, and a great emphasis on expenditures for social services, such as public health, welfare, and public education, mark recent years.

In the 1937-39 biennium, Pennsylvania's expenditures* for public health, welfare, public assistance from all state operating funds, plus unemployment benefit payments, represented more than 50 per cent of the state tax collections for the period, whereas in 1927-29, health, welfare, and the then existent forms of assistance amounted to only 12 per cent of the biennial taxes collected. With unemployment compensation receipts and payments eliminated from the totals for the year, public assistance costs represented over 40 per cent of 1939 tax collections. In the last year of the 1937-39 biennium public assistance alone, exclusive of Federal aid, disbursed by the State, amounted to $117,649,780.

*See page 6150, Appendix.

[1] See page 6150, Appendix.

[2] See page 6088-6090, Appendix (Chart 8, Table VIII).

[1] See page 6101, Appendix (Chart 17, Table XXXVII).

[2] See page 6103, Appendix.

* These figures were taken from a report prepared by the Pennsylvania Economy League for Governor James.

RELIEF COSTS COMPARED TO STATE GOVERNMENT

Thus the facts show the tremendous increase in the public assistance burden added to the backs of Pennsylvania taxpayers. They show that this one function of government during the 1937-39 biennium cost $207,000,000 or 50 per cent more than the $143,000,000 spent for the whole operating cost of Pennsylvania government during the 1927-29 biennium. This rapidly increasing cost of relief should be a warning flag, if no other data were available.

Contrasted with the cost of relief, educational expenditures by the State represented only 13 per cent of tax collections in the 1937-39 biennium as compared to 27 per cent of biennium tax collections in 1927-29 despite the increase of biennial school subsidies.

The comparison does not include Federal funds amounting to $63,000,000 disbursed for public assistance, education or highway operations.

And what is equally important to the individual taxpayer of the State, the annual tax bill (Federal, State and local) of Pennsylvania residents is $96.63 per person which exceeds the average bill of all residents of the United States by $6.14. Of this bill Pennsylvania residents pay a larger share of taxes to the State government than the resident of the average state. This means that a smaller proportionate total is paid to local governments.

The rate of tax increase has been greater in Pennsylvania in the last nine years than in a majority of states, and only Maryland and Illinois have shown a greater comparative increase in the total.

During the depression years the tax structure of state governments was subjected first to a period of severe strains when the yields of normal income sources dropped while the demand for relief expenditures increased.

TOTAL TAX COLLECTION INCREASED 38%.

While Pennsylvania's total tax bill in 1937 was not far above the average, it appears evident that the proportion of increase in this State during the depression years was considerably above the average. Coming up from its favorable low position in 1929, total tax collections in the State had increased 38.1 per cent by 1937 in contrast with an average increase throughout the country of 27.3 per cent. The per capita increase in Pennsylvania was $22.27 as against an average increase of only $14.91.

Again the taxes collected and used by the State government showed the greatest increase over the nine years. In Pennsylvania the rate of this increase was considerably above the average throughout the other states. Federal taxes increased at approximately the same average rate in Pennsylvania as in other states, and local taxes followed the same decreasing trend shown on the average by all states.

TAX INCREASE FOLLOWS NEW POLICY

The increase in state taxes in Pennsylvania has followed the policy pursued in this state whereby the new or increasing functions of government, particularly public assistance, were assumed and financed by the State. In many other states the cost of assistance has either been transferred to local governments, or shared by the state and local governments.

In some states, where the responsibility for handling all, or a large part of the relief problem was left with the local governments, the states have levied and collected taxes which were then returned to the local units to supplement local revenues in meeting increased expenditures. In Pennsylvania both the responsibility for these functions and the taxes to pay for them have been retained by the State government. This has resulted in the concentration of tax increases in the state tax system.

THE STATE JOB MOBIILIZATION COMMITTEE*

One of the urgent needs today is a more "local attitude" toward assistance in Pennsylvania and while the General Assistance case load has generally been showing reductions during the past few months, it is still an important function of the Department and the taxpayers of the state to find ways and means of taking recipients from the relief rolls and putting them to work on private payrolls. The first state-wide movement of this kind was initiated[1] in Pennsylvania and was originated by the Joint State Government Commission. In a few months, from November 1939 to May 1940, the program produced job opportunities in private business for probably 100,000 men and women along with savings of millions of tax dollars. It was estimated that this pioneer effort of the people stimulated business to millions of dollars of more business.

Approximately $100,000,000 in new construction and plant maintenance work was developed and millions of additional dollars in home modernization was encouraged. In many localities an aroused public succeeded in reopening mines and factories while others obtained new industries. Most important of all was the laying of ground work for the future retaining of displaced workers.

It is important to point out here that under this program the first emphasis of training and retraining on vocational education was voiced. From this has come the Federal training program put into effect in Pennsylvania and the nation.

It is significant that Pennsylvanians, generally, like people in other states, have been complacent in the ten years of the depression about supporting a large and increasing relief load, at an average cost of $371.28 a year per case, paid principally out of increased taxes. But when the problem was made local and approachable, Pennsylvanians not only produced the humane result of transferring thousands of families back to private payrolls but at a cost so low as to be surprising even to themselves. Jobs were produced for the unemployed, including both those on and off the relief rolls, at a maximum expense of $1 each.

TEN THOUSAND MEN AND WOMEN

Without detracting from the humanitarian purposes and accomplishments it is understandable that there was a commendable selfishness on the part of 10,000 men and women who were the spearhead of this movement from November 15, 1939, to May 1, 1940. These people—businessmen, labor leaders, members of veterans' and civic organizations, representatives of religious and educational forces and government officials in state, county and town—appreciated fully the economic value to all in relieving

---

* See page 6179 Appendix for Recommendations of this Committee.

[1] See page 6052, this Report.

the unemployment situation, and in reversing and reducing the relief situation. Without denying the necessity of relief, these men and women concluded that a job in private business was the best possible relief. They realized that the only way to relieve the burden of taxation which had become oppressive and destructive was to reduce the relief rolls. For experience had shown that additional taxes would produce increased unemployment, thus causing increased relief needs and increased taxes again, in a cycle of increasing momentum.

Thus, this movement became a campaign "of the people, by the people, and for the people of Pennsylvania" in which every constructive force and thought was marshaled. An injustice would be done the many thousands who cooperated in various ways were it not stated that the recorded accomplishments are only a small measure of the real benefits obtained and that the seeds which had been planted will bear fruit for a long time to come. The fact that every constructive force in the Commonwealth joined hands in this voluntary, non-partisan program is in itself a major accomplishment probably unduplicated in a similar campaign.

The Job Mobilization Program had the broad effect of arousing the people of Pennsylvania to the vital necessity of thinking and acting realistically about the trinity of unemployment, relief and taxation and has moulded an American pattern for the future.

PURPOSES AND PLAN

When the program was launched, more than $1,700,000,000 had been spent in Pennsylvania for all relief needs since 1931. The relief costs to the state had risen from $7,500,000 for the 1931-32 fiscal year to $132,000,000 for the 1938-39 fiscal year. During this period taxes had been increased materially.

By mid-September of 1939, more than a million Pennsylvanians were unemployed; there were 273,129 cases, consisting of 828,195 persons on direct relief alone and it was costing $8,805,482 a month to sustain them.

That was the situation when the Joint State Government Commission came to the conclusion that the money remaining of the $120,940,000 relief appropriation for the biennium ending May 31, 1941, would carry the relief load only to March, 1940. They agreed upon the need for reducing the relief burden and also that increased employment was the soundest method.

The commission, Governor Arthur H. James, and members of his cabinet, went even further and agreed that the responsibility of any re-employment effort should rest upon those who were most familiar with employment and its factors, i. e., the businessmen of the State.

These major principles were the basis of the program:

1. That the "grass roots" methods be applied and the solution found in the local knowledge and responsibility of unemployment, relief and taxation.
2. That business be encouraged and stimulated in every proper way so as to create jobs in private business in contrast to temporary expedients such as "give-a-job" pleas or high-pressure ballyhoo.
3. That no one be misled into expecting a miracle, but that the campaign be an honest and hopeful effort to do as much good as possible, in view of the business recession and other handicaps.

Thus, the emphasis was upon re-employment in a broad sense rather than being restricted to employables on relief. The wisdom of these principles became apparent during the campaign. Available relief statistics were not clear as to the number that were adults, the number of persons that one "employable" represented, how many "non-employables" might be trained or aided by vocational education, etc.

THREE-PHASE PROGRAM

In the meantime, broad state-wide committees were set up. These were special groups concerned with special programs for industrial development, retail trade stimulus, religious and educational cooperation, women's cooperation, state business association cooperation, and for necessary finance and report activities.

As the program developed, it was seen to have three distinct phases—re-employment through efforts of business and individual employers, in which the industrial committee and State business association committee were principally active; the renovizing effort, which became the principal responsibility of the women's committees, and the necessity for occupational training and retraining to fill a long-term need.

One of the most significant developments was the fact that at a time when more than a million Pennsylvanians were unemployed, 12,000 job opportunities were lost from July to December, 1939, because no qualified person was available through the State Employment Service. In some districts this factor was responsible for as much as 74 per cent of all lost-job opportunities. The studies of the service indicated a definite shortage of competent workers in approximately 300 occupational classifications, most of them in the skilled trades.

STATISTICS

However, the fact that with such handicaps, a program, which was initiated purely on an experimental basis with the philosophy of doing as much good as possible under existing business and other conditions, produced case records of 48,513 additional jobs in private business, speaks convincingly for the success of the program. Based on an estimated unemployment total of 957,097 for November, 1939, the campaign resulted in a definite 6 per cent increase in employment, although this figure is not net. It is the judgment of those who were most closely in touch with the situation, and who therefore have the best informed opinion, that at least 100,000 jobs in private business resulted in the five and a half-month period of the Job Mobilization efforts.

The experience cannot properly be closed without the benefit of some conclusions, which will be found in the appendix.* Conclusions are especially desirable since this pioneer effort has been watched and studied by more than a dozen states, including New Jersey, Massachusetts, Oklahoma, Iowa, Ohio, New York, Georgia, Connecticut, Illinois, Kansas, California and Missouri.

The Committee on Relief feels that emphasis should be given to the fact that the extra outlay of State funds in obtaining the many benefits under Job Mobilization was only $42,656. Even though original estimates contemplated the loan of State employes and the use of privately-raised funds, the amount was far below expectations of

* See page 6179 Appendix.

officials. And not only are results far beyond those anticipated, but their worth and value to all people of Pennsylvania are many, many times the dollars and cents expended. All those who cooperated in this voluntary, nonpartisan effort deserve the thanks and appreciation of the Commonwealth as a whole.

ADMINISTRATIVE FACTORS BEARING ON RELIEF IN PENNSYLVANIA

In the preceding pages we have discussed the rise of relief, the acts under which the Department of Public Assistance was created, its organization, its functions, the increasing costs of assistance, effect of W.P.A., and the Job Mobilization Program, and now it is essential that we consider the administrative factors bearing on relief.

Those factors are important to the effective direction of assistance in Pennsylvania. They are not only important to the thousands who receive assistance but they are doubly important to the hundreds of thousands who pay the bill.

First, let us consider the Department itself.

THE DEPARTMENT

The program of assistance in Pennsylvania is directed by the Secretary of Public Assistance at Harrisburg, through the 67 County Boards.

The Committee on Relief believes that the Secretary of Public Assistance is sincerely and honestly trying to provide an efficient and a fair administration; but to do the job that is necessary in Pennsylvania, it is essential that the members of the Department be wholly in accord with the proper spirit as it affects the recipients and the taxpayers who provide the money.

Despite the intent of the act creating it, the Department since the beginning has turned toward an administration which seems still to be based on a casework philosophy rather than being concerned with investigating the applicant's actual need. Intentionally or unintentionally, many suggestions intended to increase the efficiency of the Department have been stalemated.

THE DEPARTMENT'S APPROACH

The Committee questions the approach of the Department to the method used in building case records. If eligibility for General Assistance and the categories depended upon social factors or social surroundings, or other characteristics in which persons or families live, then the building up of voluminous case records has its place. However, due to the provisions in our own law and in compliance with the Federal regulations or the Federal Act, eligibility is based upon need and upon need only. We simply require information as to family composition, income, expenses, and aid from relatives. Surely, then, tremendous case records are not necessary, but proper investigation to determine the need of the person based upon these factors is necessary.

The method of building case records is not only costly, but also takes up a great percentage of the visitor's working hours, thereby detracting from the efficiency of the Department. Unless changed the result will be that the people of the Commonwealth will continue to pay a staggering amount for relief.

There must be another approach to meeting the problem of assistance in Pennsylvania.

Thought should be given to programs designed to aid those on the assistance rolls, not only to relieve the financial burden, but to aid the morale of those men and women who would rather work than subsist on charity. There will always be some men and women who for one cause or another will have to depend upon some kind of assistance to exist, but that should be accepted as the exception and not the rule.

We have always had relief in one form or another but to open our arms and admit that we can do nothing about it will only serve to perpetuate the problem and remove what little "fight" remains to reduce the number of persons on the rolls. This is a challenge to our American way of thinking.

Recent figures released by the Department assume that we have as a permanent part of the General Assistance program nearly 50,000 cases of unemployables[1] in Pennsylvania.

If we accept $371 per case year (the recent average) as a basis for maintaining those men and women as unemployables, we assume immediately a minimum permanent general assistance cost of more than $18,550,000 yearly.

This is in addition to the necessary cost of assisting the blind, the aged and dependent mothers, which is averaging approximately $30,000,000 a year.

The philosophy which has been developed in the effort to keep step with the relief situation in the years of depression and human needs ignores the will of the people as expressed by the legislature and does not reflect local needs.

COUNTY BOARDS HAMSTRUNG

In theory the County Boards of Assistance are set up as the fountainhead from which means of solving the relief problem are to flow. That is provided in the Pennsylvania law.[1] In practice, however, this does not come about. The wishes of the county boards frequently are ignored by the Department. Frequently the boards are circumvented from bringing about remedial changes and more efficient procedure.

It should be recalled that these county boards are composed of volunteers, who are well known citizens, willingly giving time and effort to a civic purpose.

Men and women who serve on these boards must contend with an avalanche of rules and regulations handed down from the Department. In the making of these rules they have usually had no voice. Their advice is seldom sought. They become acquainted with the changes and new orders after their promulgation and not before. That is a definite discouragement to the type of citizen whose services are important to solution of the problem. There are others. One is that the volunteer citizens group is required to work with and through an Executive Director who must be a person acceptable to the Department.

The law[2] provides that the Executive Director shall be appointed by the County Board from those certified by the State Employment Board. The County Board has as one of its main prerogatives the right to remove a direc-

---

[1] See page 6163, Appendix.
[1] See page 6181, Appendix.
[2] See page 6182, Appendix.

tor[2] but this right, when exercised, usually results in the Board rather than the Director going on trial. The result is that only in extreme cases do the Boards seek removal of directors, even though the whole relief problem might benefit. Members of County Boards feel that they have no direct control because the Executive Director receives his or her instructions, directions, rules and regulations and policies from the Department and not from them. This plan cannot but, in the first instance, make the Board feel that it has no power over or direction of the work. It, therefore, soon becomes discouraged in taking an active interest in the work of the Board. In the second place, it does not breed confidence and cooperation between the Boards and the Directors. Further discouragement comes from the fact that the Board's power to appoint a successor is restricted to a list of persons, supplied from the Department, who probably have been previously considered and found wanting. Thus the choice frequently is between the evil of putting up with an inefficient director or drawing a "pig in a poke." And the Executive Director's immediate supervisory assistants must be taken from civil service lists resulting from examinations in which ability to supervise has been subordinated to knowledge of social service history and practice.

COUNTY BUDGETS SHOULD BE ADJUSTED

Members of County Boards, testifying at hearings held by the Committee, have pointed out that waste and inefficiency result because of the methods of constructing the budget for relief administration. They say that there is not sufficient flexibility in the budgets. The present procedure prevents adjusting the budgets to rapidly changing conditions.

As an example one member of a County Board told the Committee that about two weeks time is taken up with preparing the monthly budget for administration purposes. Then the budget is surveyed carefully in the Department and often another two weeks elapses before the budget is put on an operating basis. As a result the budget usually is as much as four weeks behind the conditions in the field, so that either the board is forced to work with a larger staff of visitors than necessary or has an inadequate staff of visitors.

A chairman of another County Board said that if the Boards were allotted a definite sum for administration they would be able to organize their personnel in a way to produce the best results. He believed that the Boards should be restricted only by limits of expenditure and the amounts of the grants. This limitation should not be narrowed to one month but should cover a specific period of time so that it would not be necessary to have the organization in a constant state of flux by month to month changes due to minor fluctuations in the load.

The consensus of opinion seems to be that the Boards should have greater powers to administer the budget, which in turn should be set up to encompass a longer period than at present. Thus the Boards would have increased direction and control of the cost of personnel. Those who have had the experience with actual conditions as faced by the County Boards are of the opinion that in this way there would be brought about a more efficient approach to each local problem.

Members of Boards also have been emphatic in their complaints before Committee members over the fact that control over salaries rests entirely in Harrisburg. These Boards which are best qualified to determine the worth of an employe under their jurisdiction are entirely in the hands of officials in Harrisburg as concerns salary increases. For example, if the Board is convinced that one or more of its employes is deserving of an increase all it can do is to make a recommendation. And frequently that recommendation is not acceptable, although instances of gross discrimination were cited to the Committee. Some more equitable form of rewarding efficient and meritorious service seems highly desirable.

NO LOCAL CONSCIOUSNESS

Experiences of the County Boards are not conducive to developing more local consciousness of the problem, as has been the intent of the Legislature.

The conclusion must be drawn that with few exceptions the tendency has been to remove local consciousness, local consideration and local assistance from solving the problem of relief in Pennsylvania.

The result of removing local consciousness and local effort has been to aggravate the relief problem. It follows that an injustice has been done to those who could and would work and an injustice has been done to those who have been called on to pay a bill beyond what has been necessary. This is the price of bureaucratic folly.

The Committee finds that most everywhere the rank and file of taxpayers of the State generally are under the delusion that relief either is financed by "the other fellow" or that the State, by some secret power to create wealth out of nothing, takes care of the money needs. It is not necessary to mention that relief touches the pocketbook nerve of every person in the State, even to those who have been forced into idleness by excessive taxation and those who pay taxes indirectly on the food they eat, the clothes they wear and the homes in which they live. This divorcement of local recognition of the cost of relief removes a normal and natural pressure upon the alleviation and possible cure for the problem.

Before the centralization of relief administration in Harrisburg, persons were conscious of the process by which money for relief purposes was collected and expended. Since they realized the dollars and cents cost to themselves and could measure the good being done, those individuals were a restraining influence on chiseling, abuses and inefficiencies. Without this local consciousness today we have a paradoxical situation in which many of those who pay the bill seem to applaud, or at least apathetically countenance, their friends and even strangers putting something over on the relief administration.

Everything possible should be done to awaken* not only those who applaud and are apathetic, but also those who apply[1] for assistance, to the urgent need of reducing the cost.

This can only be done with the full cooperation of the taxpayers, the Department, the County Boards, the visitors and the relief applicant and recipient.

---

* See page 6181, Appendix.

[1] In 1939 the Department disposed of 685,826 requests for all types of assistance and authorized assistance in 450,464 cases, or 65.6%. A breakdown is shown on page 6182, Appendix.

There should be more "local consciousness" of the cost of assistance, where the money comes from, and whom it affects.

EMPLOYMENT BOARD

The problem of holding the Civil Service examinations for the Department of Public Assistance has proved to be one of great magnitude. In one examination alone more than 73,000 persons reported to take tests for various kinds of employment in the Department, out of more than 97,000 applicants. In another examination there were over 50,000 examinations given for clerical positions.

The Employment Board follows the "rule of three" by certifying three members for each position, and allowing the employer to select any one of the three.

A research study made by the Employment Board showed that the median age of junior visitors, appointed by the local boards, was 26.88 years; that of those names submitted to the local boards, 51% were males and 49% females; that resultant appointments showed a slight preponderance of females over males; that among the junior visitors, the local boards made appointments of 49.42% of those who had college degrees and 50.58% of those who never had a degree conferred on them.

In general, the study showed a definite preferance by the local boards for those applicants previously employed in the Department. For the position of junior visitor two-thirds of the counties showed an 83.27% perferance for incumbents, as against non-incumbents.

However, the manner in which the Employment Board has classified the positions in the Department has greatly increased the number of individual examinations which have had to be given in addition to affecting adversely the administrative difficulties of the County Boards. These difficulties will be discussed later under the promotion problems. By breaking down the classifications so that there are a number of classifications of supervisors, the Employment Board has required that individuals to be eligible for each of the positions pass the examination for that position. It would have been possible to simplify the classification structure giving fewer examinations and making eligible for promotion two higher salary classifications dependent upon recommendation of the County Board on the basis of proficiency. This would have greatly reduced the cost of the operation of the Employment Board which in 1937-39[1] was $642,929.

Although the law[2] pertaining to the examination of visitors is clear and explicit, little attempt has been made by the Employment Board to cooperate with the spirit of the act governing such examinations.

Prior to the 1939 examinations for State personnel the "social service" angle was the accepted yardstick by which applicants were examined. Several attempts were made by members of the Commission to get the Board to make such changes in the examination questions which would result in the selection of the type of investigators needed to properly determine the eligibility of applicants for assistance.

Shortly before the 1939 examination was held a subcommittee of the Committee on Relief met with the members of the Employment Board again to insure that the questions in the examinations conformed to the legislative provisions.

After conferring on the questions proposed for use in the forthcoming examination, the Board agreed to prepare an examination containing questions based on the sub-committee's proposals.

And while the Board did make some changes in the questions, the examination as a whole did very little to change the "social service" angle.

It is important that we look at the picture objectively. The examinations given by the Employment Board are in effect our first bulwark against inefficient investigating of applicants for relief, and should be insurance against many of the present ills of granting assistance. It must be remembered that the foundation stone of the whole relief setup is investigation.

It is important that the Board follow the intent of the Legislature and prepare examinations which will certify only those persons for positions upon whose judgment the people of Pennsylvania can rely in determining who shall receive relief, how long they shall remain on the rolls, and how much assistance shall be paid them out of the public treasury.

If the examinations do not certify the proper type person all other precautions are an expensive waste of time and money.

Here then is one of the prime factors in the administration of assistance.

TYPE OF EXAMINATION GIVEN

The type of examination given to prospective employes of the Department is a permanent factor in the administration of assistance. The Committee on Relief found that the examinations given for visitors—the men and women who investigate the thousands of applicants for assistance in Pennsylvania—are so compiled and conducted that only those persons with a definite "social service" education or training have a chance for employment.

That may be a little strong. Others do have a chance but the odds are against them. For instance, if you have graduated from college with credits in psychology, or from a nursing school and have had five years experience as a case worker in a large industry, hospital, institution or public health nursing, you would rate 4 times 5, or a grade of 20 in experience.

But if you were a college graduate, had majored in business administration and you had five years of experience investigating credit ratings for small loans—and that means you would have to get out on the street and meet your clients—your rating would be 15, or three times five in experience. And the chances are about two-to-one you would be just the kind of investigator needed to fulfill the requirements as intended by the Legislature.

In other words, business experience and judgment are rated 25% below that of social service training, regardless of your grade in the written test.

The studies of the Committee show that many of those who have been certified and employed as visitors by the Department under the present system of examinations are not properly qualified for the work. There are, of

[1] See page 6182, Appendix.
[2] See page 6183, Appendix.

course, exceptions, but it is disturbing to know that hundreds of millions of taxpayers' dollars are being distributed annually by State employes, many of whom are immature, in age and judgment and who generally lack the experience, the background, and the point of view necessary for the job.

In the examinations for visitors given in October, 1939, an analysis of the 190 questions indicates that only 52, or 28 per cent, could be answered by persons with general knowledge qualifying them for investigations of the type needed. Seventy-four of the questions, or 39 per cent, definitely required social service training or experience. An additional 24 questions, or 13 per cent, required special education or knowledge, obtainable only through medical training or special courses usually given in social service schools. Thus over 50 per cent of the questions may definitely be considered to require special social service education. The remaining 39, or 20 per cent, concerned detailed provisions of public assistance laws and administrative rulings, which presumably any applicant could learn. However, previous experience in the Department would be invaluable in being able to answer those 39 questions.

Here we have an indication, bordering at least on evidence that an emergency activity to assist unfortunates toward self-dependency might have become a state-wide experiment in social economics.

The situation exists in spite of the definite provision in the law, enacted by the Legislature after long discussion, that no "special education" be required for these positions and that the examinations "shall relate to those matters directly bearing on and . . . . test the relative capacity . . . . to discharge the duties."

The Committee on Relief contends that examinations should not be "social service" in structure. Some investigators employed by the Committee could not pass the "social service" examination as prescribed by the Employment Board, yet they discovered that many of those certified for assistance by the Department's visitors were ineligible for assistance.

They found many other things that should have been obvious to the Department's visitors. Of that you shall hear later.

TYPE OF VISITOR QUALIFIED

As has been inferred before, the investigators, or as they are called in the Department, the visitors, are the crux of the whole assistance program.

True, there is the Secretary of the Department, the Department, the County Boards, the supervisors, the executive directors, the typists, the stenographers, the case readers and the janitors, but the hub around which the administration on one hand and the recipients, the taxpayers and the costs on the other, revolve, is the visitor.

Every effort should be made toward obtaining the type of personnel best fitted to determine the eligibility of the applicant for relief. They should be good investigators, mature in judgment and age. This necessitates an emphasis upon investigation of eligibility of the applicant for relief, rather than a study of the social problems involved.

The Committee feels that every effort should be made to rehabilitate those who are receiving assistance where such rehabilitation is necessary. Such social results are best accomplished by planned programs such as vocational training, retraining, job mobilization, and similar efforts, rather than attempting a rehabilitation by the social service workers.

NO PRACTICAL SYSTEM OF INVESTIGATION OR REINVESTIGATION OF CASES

The very fact that the examinations do not produce the "right type" of visitors is an important factor in the administration of assistance, yet there is another factor which must also be considered at the same time.

As the present administration operates the visitor is practically autonomous within his realm. Instead of a practical procedure being provided by which the visitor is guided in making his "investigations," he is left to his own devices which frequently provide a hit-or-miss type of investigation.

There is no absolute time for making re-checks on those persons he or she has certified. That is bad enough.

Instead of visitors being rotated in order that there would be a practical re-check on those persons certified for relief, the same visitor checks his previous decision. That is worse.

But worse than that, there is no definite time limit set on making rechecks on recipients. Of course, there are times when such a time limit would not be practicable. But the Committee's investigators found that in many cases some recipients had not been revisited for four and five months. And in many of these cases the recipients were no longer eligible for assistance.

One feature of the administration of assistance which should be considered is the manner of reinvestigating recipients.

Under the current setup the Department demands that all cases returned for investigation must be given to the original "visitor" for reinvestigation. This is neither efficient nor practical from the Committee's viewpoint. And as investigations in the Allegheny County office[1] proved, it cannot be assumed that the original "visitor" is going to re-check a recipient for relief and constantly find he has made an error. In some cases this might be possible, but that is the exception and not the rule.

Attempts by County Boards, as in the case of the Philadelphia Board,[2] to develop a special investigating unit within its own staff, are generally rebuffed. The Committee fails to understand how the Department can expect to properly administer relief with such an attitude.

MORE CONTROL OF VISITORS NEEDED

The Committee's investigation showed that there is no definite control of visitors to see that a definite number of cases are covered daily. However, a mechanical check is made in district offices once a month to ascertain those cases which have not been visited.

A few D.P.A. case records which were checked indicate that at times the visitor, upon making a revisit, merely again recorded the same information reported on 6069, this report.

[1] See Allegheny County Investigations in Findings, page ———, this report.

[2] See Philadelphia County Investigations in Findings, page 6068, this report.

a previous visit. Many of those cases were the same ones in which the investigating group easily found facts justifying either a downward change in grant or the closing of the case.

It is possible that the amount of paper work which visitors must handle makes it difficult to accomplish as much in the field as they should.

SUPERVISION LAX

A great part of this neglect falls upon the supervisors whose job it is to check the work of the "visitors."

A supervisor, by the very nature of his job, should endeavor to help the visitors perform their work as efficiently as possible.

Instead, supervisors, by lack of attention to the way the work is done, a general fraternizing with the visitors, and in specific cases by telling the "visitors" they were covering too much ground, have not generally helped to alleviate the situation.

In some cases they manage to take up a great share of the "visitors'" time by holding meaningless table conferences, and by individual conferences, when the very thing the "visitor" needs is able and intelligent direction in the field.

In some cases, "visitors" have complained that too much of their time is taken up with "talking over" the case histories with supervisors.

Regardless of the caliber of the "visitors," their work can only be reflected through the help and direction of the supervisors.

Tracing the situation back to the beginning—even though examinations are not right, and the visitors qualified are not the proper type and their attitude is not conducive to obtaining the best results in keeping with the intent of the Legislature, the one hope for the taxpayers should be the supervisors.

Unfortunately, the Committee learned in its investigations that instead of guiding the visitors many supervisors only serve to add more confusion to the already muddled channel of investigation.

UTILIZATION OF VISITORS' TIME

As stated, an important item to consider in the total cost of assistance and which is also definitely related to the administration of relief, is the useless misuse of a greater part of the "visitors'" time.

The general procedure for a "visitor" is to make his visit, write his notes and then after working in the field, return to the office, attend conferences with the supervisor and write up his reports.

Add to this the constant change and rechange in the material needed to complete the forms and you have a "visitor" who spends more than two-thirds of his time in conference and writing reports and a variety of other things beside investigating the cases on his calendar.

Let's take a closer look at the picture.

This is what happens. It prevents the visitor from making the normal amount of visits he should make. In turn this allows many cases that should be discontinued each month to continue on the rolls which naturally results in the spending of many thousands of dollars that otherwise could be saved.

If the percentage of time utilized for office work could be reduced to 25 percent or less, the visitor presumably could do twice as effective work in visiting, and, in some cases, the number of visitors could be reduced.

CHANGE OF VISITING HOURS

Proper coverage of cases cannot be accomplished in a working day as at present defined. There are many cases where members of a family unit might have night jobs. The only way to prove such employment is by contacting the recipient in the evening. Where it is found that an employable member is not home, tactful inquiry should be made in the neighborhood to find out whether such member is employed and where. A contact should then be made with the employer to verify the employment.

As set up now, a person who works at night is usually at home when the visitor calls in the daytime and can and does give the impression, by his very presence, that he is unemployed.

EXPERIENCED INVESTIGATORS

Investigators engaged by the Committee to unearth the facts on the eligibility of those receiving General Assistance in Pennsylvania were selected because of general experience in business or special aptitude for investigating work.

In most cases the minimum wage paid the Committee's investigators was as much or more than the maximum amount paid workers in the Department of Public Assistance.[1]

Their investigations were based on the relief requirements as set up by the General Assembly.[2]

Not content with sampling one locality, the Committee directed its investigators to sample and resample each locality and then checked the work of each investigator by assigning investigators to a different territory.

One pertinent fact we should weigh carefully is that projected by the Committee regarding investigators. In the following pages (under Findings) bear in mind that the facts presented were learned by men who could not pass the Employment Board's examinations for D.P.A. employment.

PROMOTION PLAN

One point the Legislature should consider seriously is the need for providing incentives for employes to render their best service. No plan of systematic promotion or better pay has been initiated for the $90 a month visitor. Nor is there any effective plan of promotion, whereby the capable and efficient enjoy advantages over the inefficient or the indifferent visitor. This has recently caused the County Boards much difficulty with the employment opportunities which are opening up because of the National Defense program.

Reference has been made to the classification instituted by the Employment Board whereby visitors are grouped in original examinations into three classifications; namely, junior visitor, visitor and senior visitor. The work done

---

[1] Investigators used by the Commission were selected to perform a specific type of work on a temporary basis, and were paid a higher compensation than regular investigators known as "visitors" in the Department of Public Assistance.

[2] See pages 6183-6186, Appendix.

by each of these classes of visitors in practice is essentially the same, and yet in order to secure a promotion a junior visitor who has done good work on the job must have passed the examination for visitor and be sufficiently high on the eligibles to merit appointment. Not only would the cost of examination be far less if these three classifications of visitors were consolidated, but there would be a real opportunity for promotion on the basis of proved proficiency. Salaries for the consolidated grade would cover a wider range and the visitor coming into the Department could look for more frequent pay increases, with ultimate higher salary, if these grades were consolidated and promotion made upon recommendation of the County Board. This would help eliminate the rapid turnover now being experienced.

Here again the advisability of the Department giving the County Boards an over-all budget can be discussed.

It is natural to assume that it would be better to have three able investigators on a Board staff and pay them good wages, rather than have five visitors who not only aren't worth what they are paid, but in addition cost the taxpayers money by their indiscriminate certifying of cases for assistance.

In one specific instance a county board suggested certain salary increases, and the Department took the stand that the Board was not judging the "visitors" on the right basis, and set up certain rules to be followed and suggested "if you have any (visitors) which fall in this category . . . we shall be glad to consider them, although I can give you no indication as to what the final action will be in regard to your recommendations."

Surely the Board should be allowed to exercise its judgment concerning salary adjustments with the established scale.

It should be pointed out here that the Employment Board has not followed the recognized policy of the State in reference to the departments under the Administrative Code.

Section 709, (a) and (1) states, "(a) In establishing such standards the Board (Executive Board) may: (1) Take into consideration the location of the work and the conditions under which the service is to be rendered . . ."

UNION OF DEPARTMENTAL EMPLOYES

The personnel of a number of the County Boards have affiliated themselves with labor unions. This is the case particularly in Philadelphia. These unions have not proved conducive to effective operation of the offices, and they have endeavored to take unto themselves the prerogatives of the County Boards and executive directors in policy determination. They have obstructed the orderly processes of administration, their representatives endeavoring to direct the Employment Board in the kind of examinations which should be written; the executive directors in the administrative instructions which they issue; the supervisors in the direction which they give to the visitors; and the visitors in the method of carrying on their work.

Supervisors who must control and rate the work of visitors have been found to be members of the same union as the visitors and, therefore, subject to improper pressure in their relationships to their subordinates. Executive directors, who should have confidential relationships with their board members on problems of administration must dictate comments on their problem with employes' unions to secretaries who are members of the unions.

The introduction of each administrative improvement must not only be "sold" to a representative group of all the employes, but to a special group of union members. Officials have been regularly assailed by publications of the Philadelphia union, in which the members not only made demands but picketed the homes and places of employment of the non-paid board members, in order to achieve their ends.

While we believe that the employes subject to civil service have a right to form any organization which they desire within their own department, we are opposed to the affiliation of such groups with labor unions as they are commonly termed. Civil Service provides their protection.

WORKER'S ALLIANCE

One of the important problems investigated by the Committee was that projected by the union of relief recipients known as the Worker's Alliance.

This organization was formed primarily for the purpose of aiding applicants and recipients of relief. (Many of the leaders of this organization are considered to be Communistic.)

The Committee found that in some cases they have become so powerful that some Boards have set aside a day and time when they hear cases argued by representatives of the Alliance. At these meetings members argue for applicants who have not been certified, and for recipients who feel that they are entitled to additional assistance.

Members of various Boards say they feel that setting aside a special day is the best way to meet this problem. Unfortunately, it only increases the grief later on as it tends to impress applicants that the easiest and quickest way to get on relief is to join the Alliance. And that is what happened in some cases.

This is only another indication of how important "attitude" is in handling the relief problem. It might be significant to point out that to date no such organization has been set up by the recipients to help them get off of relief rolls and on to payrolls.

A REPORT OF THE FINDINGS OF THE COMMITTEE

In the preceding sections the Committee has presented a general picture of various factors which are a part of the administration of relief in Pennsylvania. We still need to know more about the people on relief—the people who receive the benefits of relief spending.

The Committee on Relief made a number of samplings of those on General Assistance rolls. An independent investigation which was concerned with but one thing—FACTS. This sampling and re-sampling was the major topic of conversation in 35 meetings held by the Committee; and unbiased investigations of more than 1,000 cases made in several parts of the State under the Committee's direction provided the FACTS.

Field surveys of the administration of public assistance were made in the offices of eleven representative * county assistance boards. Hundreds of men and women have

* Montgomery, Berks, Franklin, Dauphin, Erie, Fayette, Clearfie'd, Somerset, Butler, Venango and Lackawanna Counties.

testified and recounted information dealing with every important phase of the relief problem in Pennsylvania.

"CHISELING", ONE OF THE ILLS

These thousands upon thousands of words have been tainted with one word which has left its stain on assistance in Pennsylvania. That word is "chiseling." As the assistance rolls increased the talk about chiseling also increased.

Nothing could be farther from the truth to imply that most persons receiving assistance are "chiselers." Nothing could do a greater injustice to those people who have no other means of sustenance.

Nor is it wise to assume that in such a gigantic undertaking that administration and investigation can be 100 per cent perfect, since so much control of the situation is in the hands of the visitor.

The Committee decided that an independent and impartial study of relief cases was imperative. Obviously every case could not be put under the microscope by a limited staff of investigators and with limited funds. But even so, these investigators, with no previous experience in social service work (but with years of business experience) by interviewing recipients, talking with businessmen who were acquainted with the recipients and tapping other available sources of information (the same sources which were available to the Department's "visitors,") developed startling facts. In addition they followed up letters of complaint written by citizens to the Department of Public Assistance and letters from relief recipients themselves.

THE PHILADELPHIA STORY *

What did they find? That 17 per cent, or approximately 150 out of 777 cases taken at random from the files of the Philadelphia Public Assistance office or from letters of complaint from October 23, 1939 to January 27, 1940, which seemed to be ineligible for relief.

And the facts indicate plainly that the State employes might have discovered the same facts, if the visitors had approached the job as the people in Pennsylvania want it done.

Here is what the Committee's investigators found.

One man had been steadily employed since 1935, while his wife was receiving $64 monthly for aid to dependent children. The investigators found another with a checking account of $1,000 in a bank yet he was receiving a general assistance grant of $6.20 a week. There was one case of a man who was certified to receive $19.70 a week of taxpayers' money on a general assistance grant, while earning 52 cents an hour in private employment. Four months after leaving the rolls, one couple purchased a house, making a $1,000 down payment.

These are but samples of what the Committee's investigations found in examining cases certified for relief by the "visitors" of the Department.

Look at the case of "D. N." in Philadelphia. He has what is popularly known as a "snow ball" business. He runs his business from a small push cart. An investigator found that he bought a house in June, 1938, paying $400 down, while receiving $12.10 a week on relief. Yet in July his regular** visitor allowed him an increase in general assistance to $14.10. A few months later, when it was definitely established that he had an income, his case was closed by the visitor. But in March, 1939, his case was re-opened, although he was able to pay his tax bill in advance for a discount benefit.

The investigators "checked" on a private colored school in Philadelphia. The report of the investigator shows that the school was within four blocks of two new city schools, recently erected by the Board of Education. The private school charged for tuition. Text books and school supplies and other essentials had to be provided by the pupils. Yet families on active assistance rolls, who were receiving General Assistance and aid to dependent children, had children enrolled in the private school. The weekly general assistance grant to parents sending children to this school totaled $330.86 and the monthly aid to dependent children in the same circumstances was $748.75. It should be noted that there is no provision in the Department's manual covering such abuses.

Look at the case of "Mrs. G. and M. H." They led the Department's "visitors" a merry chase. But the Committee's investigators found without much trouble that "G." was working at the R. C. A. Company in Camden, N. J., and had been working steadily since 1935, and had missed but one month's work since May, 1938. During the first three quarters of 1939 he had earned nearly $900. And his wife was receiving an A. D. C. grant of $64 a month. He told his employer he was living with his sister. His sister said he had not lived there for two years. Yet neighbors verified that "G." was living with his wife. Naturally his wife denied it.

Some of the "chiselers" use aliases to hide their identity. The "visitors" didn't seem to be able to trace them. But the Committee's investigators did. In the case of two sisters, "L. and C. W.," they found L. working on W. P. A. and C. employed under an alias at the Philadelphia General Hospital. She was earning $47 a month and had been steadily employed during the period she was receiving assistance.

Take the case of Mr. and Mrs. "C.". They first went on relief in 1932. Yet five years later they bought a proper[illegible] for a cash consideration of $1,160, and one week later they were certified for assistance. During the time they were spending more than a $1,000, they were also applying for assistance. He received more than $330 Workmen's Compensation during the time he was receiving General Assistance.

For another example let's take Mr. and Mrs. "A. C." of Philadelphia. It was found that he was selling pretzels during the time he was receiving relief. His income ranged from $25 to $30 weekly. The case was closed and restitution was set-up for entire relief period, June 3, 1935, to June 5, 1939.

Here is one for the books. Take a look at "M. and C. F." He was employed and had Christmas club savings under the name of a club. Restitution in amount of $889.42 for period September, 1936, to September, 1939, covering unreported earnings and $66.22 received as an insurance payment in May, 1939.

Those are just a few of the "chiseling" cases in Philadelphia,* but they are fairly representative of the cases investigated.

Now let's see what happens. The next step was to make

* See page 6184 Appendix.

** The visitor who had originally certified "D. N." for assistance.

* Others are included in the Appendix page 6184.

the information obtained available to members of the County Board and the Executive Director. Accordingly the facts were made available on February 7, 1940.

The Executive Director in Philadelphia has consistently shown the greatest possible interest in the results of the investigation, and has cooperated completely. Without indicating to his staff his reasons, he turned the cases found to be ineligible over to the staff through regular channels for re-investigation. As previously stated the established procedure of the Department is for the same visitor, who has approved the need for assistance, to investigate any complaints as to the eligibility of the person receiving assistance.

The Executive Director in Philadelphia turned the results of those investigations over to be handled in the regular manner.

The reports which he received indicated that the staff did not find any facts different than those they had previously found when they declared the cases eligible.

In May the Executive Director turned the cases over to a special investigating unit which he had formed, the personnel of which was taken from his regular staff by reason of refusal of the Department to approve any different personnel. By August he had not received a complete report from this unit. A preliminary report, however, indicated that, in many cases, they were merely following the procedure the visitors previously utilized and had not been able to develop the facts that were readily ascertained by the Committee's investigators some months previously.

The Executive Director then asked for a more complete and prompt investigation of these cases by this special unit. The final result of this investigation was not completed until December. Manifestly the intervening period of approximately one year made exact check of the results of the local Board's investigation against the Commission's difficult. The re-check indicated some differences based on information available to the Board's staff from its files, which was not available to the Commission's investigators.

However, the results of the Commission's investigation were definitely upheld by this re-check, which indicated that as a direct result of the Joint State Government Commission's investigation 44 cases were closed and grants to 18 cases were reduced. 39 cases had been closed prior to receipt of the information from the Commission, and in 49 cases the information from the Commission had been previously known to the Board but, according to the rules of the Department, all that could be done was to reduce the grants rather than eliminate the cases.

The total of these cases equals 150, out of 691 cases rechecked by the Board, 373 of which had been reported by the Commission's investigators as clearly eligible. In addition to this 150, the Board's investigators classified the cases in which children were attending private school as eligible because the Board feels that the payment of tuition to private schools does not make the relief recipient ineligible under present statutes. This latter situation we feel is one that calls for attention on the part of the Legislature.

"CHISELING" IN PITTSBURGH*

A field investigation was made in Pittsburgh of 283 cases receiving General Assistance. These cases were taken at random from various areas to ascertain whether persons receiving assistance were eligible for such aid. This study was made from February 21, 1940 to April 8, 1940. The investigations revealed a lack of sincere effort on the part of visitors to find the real facts. As an instance, take the case of A. A. His landlady reported to special investigators of the Committee that A. A. had a private income, wore expensive clothes, and had recently purchased a new radio.

The Pittsburgh office insisted that the man wore clothes given to him by friends and that he had borrowed the radio from a friend. How did they obtain their information? They asked the man in question. Is it logical to expect the recipient to give information that would be detrimental to himself?

And there is the case of Mrs. M. P. The investigator's report indicated she had an income and savings in a Pittsburgh bank. What did the Pittsburgh office of the Department of Public Assistance find? They did 't find anything new because they made no attempt to check with the bank. But it was later brought out that the woman in question was taking $66 a month from roomers, and buying a house with the money. Yet she was receiving a General Assistance grant of $3.50 a week. The visitor hadn't checked on Mrs. P. for five months.

And widow "A. D." applied for assistance and mentioned receiving $1,500 in insurance at the time of her husband's death. Yet the Committee's investigator dug around and found that she had received over $2,500. And she had received almost $ 00 just a month before she applied for relief on the 29th of May, 1939.

To cite another instance. "Miss" M. H. was receiving A. D. C. and G. A. while her husband was employed and receiving room and board in addition to a weekly salary.

One of the most unusual instances occurred when one of the investigators checking on "M. C." found her working in a Chinese laundry four or five days a week at $2 per day. Miss "C" told the visitor she was merely doing her own wash at the laundry. The investigator witnessed the laundry operator paying "M C." her salary. She had been employed in the laundry for two years during which time she had been receiving General Assistance.

And "A. J." tried to force his "luck" just a bit too far. He applied for and received Unemployment Compensation and Public Assistance while being employed. He was using his stepfather's truck for hauling coal. He admitted his employment after the facts had been presented.

REACTION OF ALLEGHENY COUNTY STAFF*

In Pittsburgh the staff knew the source of information relative to the cases investigated and, instead of willingly checking their cases, they prepared a defensive rebuttal, which was forwarded by the Executive Director to representatives of the Committee under date of June 20, 1940. On July 18 and 19 a representative of the Committee revisited the Executive Director and the person who prepared the rebuttal, at which time it became evident that many of the cases in Pittsburgh had not been re-investigated after the facts had been given to them by the Committee's investigators, but that the visitor in each case

* See page 6185, Appendix.

* See page 6185, Appendix.

had merely been consulted and a reiteration made of his previous judgment given with the original granting of assistance. A recapitulation[1] of the cases determined as ineligible in Pittsburgh, with the original comments of the Pittsburgh Office thereon, and the later comments based on a further conversation held with the Executive Director, are attached. (There may be a few borderline cases in which there is a difference of opinion as to eligibility.)

RESULTS OF ALLEGHENY COUNTY INVESTIGATION

The Committee's investigators found that 13.8 per cent of those contacted were ineligible for relief, and a follow-up of complaint letters showed that 40 per cent of those cases were ineligible.

And while "chiseling" in its direct effect upon relief costs is staggering, there still remains specific incidents of "chiseling," which are both shocking and degrading; yet these conditions are in effect countenanced by the Department.

SAME CONDITIONS EXIST IN OTHER COUNTIES[2]

And what is true in Philadelphia and Allegheny Counties is just as true in Erie, Fayette, or Montgomery and many other counties. The old story of the rotten apple tainting the barrel is doubly true as it concerns "chiseling" in Pennsylvania.

First of all let's take Montgomery County.

Recipient "C. W." received a supplemental grant for a "part-time" job. But when the Committee's investigators began to ask questions, his own children advised them that their father was regularly employed and they had two roomers, who paid them $25 a month, while a man and his wife paid them $8.00 monthly for an apartment. And to make the story complete, "W" had a boarder who was bringing home the "bacon" in the shape of food staples.

And here is another in Montgomery County. It is the case (an appeal case, by the way) of "R. C." Case history shows that the sons failed to report for work on a W.P.A. job. His wife was accused of selling W.P.A. clothing and other commodities. His son was said to be caddying and selling magazines. The notation on the case as of June 4, 1940, states—"Grant Assistance."

In Fayette County the investigators checked on "P. R." He had been on relief since 1932 and that is about as long as you can be on relief in Pennsylvania. His only reason for not working was "hemorrhoids." And although the "visitors" discussed his condition on many occasions "R." was "agin" having an operation.

In Erie County "J. C." just about covers relief "chiseling" in all its aspects. Since 1932 the State had been supplying him with groceries, clothing, bedding, fuel and cash grants, the sum and total varying as sons and daughters were added to the household. In 1934 it was indicated that a son for whom A. D. C. was paid, was employed. "C." won't work. The mother leaves to live with relatives as soon as she is eligible for Old Age Assistance. A daughter and a child are included in the assistance grant even though she refuses to be helped by her husband. She was getting a divorce which was being financed by a "boy friend." It was later learned that a friend of the family was holding a $1,000 Endowment Policy.

DRUNKENNESS*

One of the most flagrant abuses of relief in Pennsylvania is the purchase of liquor by recipients instead of useing their relief grant for the necessities for which it was provided.

Take for instance the case of "J. B." in Fayette County. He went on relief in 1933, but drinking wasn't mentioned until 1936. In 1937 he got a job, but was fired because of constant drinking. J. B. went back on assistance and a few months later the visitor called to check on him and found him in a drunken stupor. Did the visitor report him? No; he discontinued his interview but continued assistance. And, the next time the visitor called J. B. was again in a drunken stupor and could not answer questions.

Let's look at Erie County and the case of "S. L." In 1932 a vistor wrote that "S. L." will sell his groceries for liquor. Yet "S. L." got assistance and three years later his roommate complained that "S. L." was drunk continuously. He was barred by the Salvation Army. The Employment office sent him on a job but he was too drunk to go to work. His own brother labeled him as "useless." He wouldn't take a cure for his chronic habit. He panhandled his meals and did odd jobs while on the rolls. He isn't a citizen. Finally, in January, 1940, the visitor closed the case, but it was reopened immediately by another interviewer. Why?

And there is the case of "A. D." in Pittsburgh. He worked on W.P.A. for a while, and then began to operate a rooming house principally for men on relief. Even though he has no liquor license, "A. D." sold liquor to his roomers, and then when their relief checks came in he made them sign them and gives them what is left after deducting room rent and bill for liquor.

And at one home in Venango County the Committee's investigator found that four recipients "drank up" their relief grants. In fact, they had been spending all their money for liquor. One had never attempted to get his citizenship papers, another had tried and was refused; yet the State was keeping them in "high spirits."

EXTRA MARITAL RELATIONS*

While cases of habitual drunkenness are frequent and are a flagrant abuse of assistance in Pennsylvania, a shocking situation was uncovered by the Committee's investigators.

They found outright evidence[1] of men and women living together without regard to marital status. Some of these cases must have been sanctioned by the visitors as only a preliminary investigation by the Committee's staff revealed immoral abuses of assistance.

Take the case of Mrs. "M. B." in Philadelphia. It was found that she was receiving $50 a month for Aid to Dependent Children while living with the brother of her husband. Each brother was employed and earning

[1] See page 6187, Appendix.

[2] See page 6191, Appendix.

* See pages 6192, Appendix.

* See page 6193, Appendix.

[1] It is the stated policy of the Department that visitors shall disregard the question of legality of relationship.

$25 a week. Restitution was set up for period December 22, 1938, to February 2, 1940.

In Erie the investigators found that "F. L." was unmarried and had an illegitimate child. The Welfare Bureau there advised the Department of Public Assistance that she admitted she was living with a "boy friend." He was receiving his assistance check at her home. Assistance was discontinued for "F. L." but she was included in the "boy friend's" grant. Shortly afterwards he complained that she had left him for another man. Yet, despite complaints regarding men visitors, parties, women boarding and frequent changes in address, the final notation on the case shows that the visitor in May, 1940, recommended that assistance be continued in the maximum amount.

In Allegheny County the Committee's investigators found the case of "R. L." His niece came North while pregnant. In due course of time she became pregnant by L. They wanted to set up housekeeping so the "visitor" obliged by certifying them for assistance.

The niece then had "L." arrested. "L." was advised to plead guilty. Department of Public Assistance drew in legal aid and the plea was changed to not guilty. "L." went to jail. While there his niece forged his signature on his assistance check. When "L." got out he notified the Board that he was living with his niece again and one month after getting out of jail his grant was increased to include a family of four.

These are only a few of the case histories which amazed and shocked the Committee on Relief.

DELAWARE COUNTY SURVEY*

The survey in Delaware County was based on a different premise than those conducted in Philadelphia and Allegheny Counties, the difference being that in Philadelphia and Allegheny Counties the recipients investigated were on the active lists of the Department of Public Assistance, whereas those in Delaware County have been removed from the lists or refused assistance by authorization of the Delaware County Board of Public Assistance prior to investigations.

The purpose of the Delaware County study was to ascertain how these persons, deprived of assistance, were living without State aid. The period in which this study was made was from February 27, 1940 to April 8, 1940. It should be pointed out that this period embraced one of the most severe winters in recent years.

In all cases interviewed, there was apparently sufficient food, clothing, fuel and housing, and in general, the individuals seemed to be living roughly in accordance with their own long-time standards.

ELIGIBILITY STANDARDS

Since these cases were eliminated from the rolls of the Local Board, despite eligibility as defined by the State Department of Public Assistance, and in spite of pressure of recipients, the indication is that State eligibility standards should be materially changed and the proof should rest on the individual who applies for assistance.

The investigation was made of 105 cases in Delaware County, all of which had been removed from the relief rolls. Eighty-seven of the cases were found to be either employed on regular jobs, engaged in private enterprise, living with relatives and friends, or had moved from the locality. Several of the latter had moved from the State. There were 16 doubtful cases, nine of which had moved and left no forwarding address. Six were neither known nor could be located and one had been receiving relief in another county when application for relief was made in Delaware County.

Of the 105 cases only two actually needed relief which had been given by other agencies.

DELAWARE COUNTY BOARD SETS EXAMPLE*

If other county boards throughout the State would follow the example of Delaware County and make a test by discontinuing aid to those felt to have been on too long, and not to have made an honest effort to get into industry, a very healthy beginning might be made toward solving this phase of the problem.

The investigation of a group of 74 of these 105 discontinued cases, (which were supposedly cases of single recipients between the ages of 18 and 25) provided many interesting facts.

Seven supposedly single men were married and admittedly living with their wives. Eleven were married but divorced or separated. There were, in addition, nine cases of illicit relations.

Four were unknown at addresses given in the Board's case records.

In the remaining group, six were found to have failed to complete their citizenship requirements. There were six cases of conviction for law violations of which four seemed to be of the criminal type and two of the casual violations of law.

EXAMPLES OF CASE STANDARDS

Picking out a few of the 105 cases at random the reports show:

S. K.—Has car, now regularly employed. Earned $10 a week.

G. K.—Wife working steadily. Came from New Jersey in November. Relatives in Alabama.

J. R.—Steadily employed. Living with family who have been on relief for seven years. Buys food and fuel in lieu of rent payments.

M. K.—Mother of applicant advises he has been steadily employed for over two years.

W. C.—Employed by Sinclair Oil Company steadily for 12 years.

E. A.—Now employed. Work only long enough to save some money, then quits.

E. M.—Working for and living with . . . Operates a second-hand furniture store and a rooming house.

The results of these surveys seem to prove that better investigation of assistance cases requires persons of maturity and intelligence who are able to cope with the many intricate situations which arise that require initiative and fast thinking. They should be rotated in assignments.

UNUSUAL CASE RECORD OF MRS. "O" *

One of the most amazing cases in the files of the Department is that of Mrs. "O" of Philadelphia.

* See pages 6193, Appendix.

* See page 6193, Appendix.

* This case history was taken from the files of the Philadelphia County Board.

Her story began on the 9th day of September 1932, when she first applied for assistance. She brought to the Department a letter of introduction from a City Councilman. And from that time until late in August 1940 (last notation on record) Mrs. "O's" record covers some 20 pages of testimony, charges, counter-charges, decisions and appeals, during which time she was "on and off" the assistance rolls so many times that it was difficult to determine her exact status at a given moment.

In order to bring pressure upon the County Board she contacted an imposing array of business and professional men and women in November, after being rejected as a non-resident a well-known jurist called on her behalf and she was granted assistance on the basis that Pennsylvania had accepted her residence here and had permitted her to file suit against her husband for support.

Two months later assistance was discontinued when it was found that she was not living at the address to which her check was being mailed. In fact she had never lived there. (This shows inefficient investigation and follow-up).

During the next two years she drifted to Washington and the south, but applied again in 1935, and again she was granted assistance while her case was being investigated. During this investigation and while she was receiving assistance it was learned that she was approaching ministers for help. She was also treated at a Philadelphia hospital and was later offered a job in the Social Service Department but refused it.

Her case was closed in April 1936, when she obtained work on W.P.A. One year later she was laid off the project, applied for assistance which was granted. But it was difficult to find her. When they finally caught up with her, she wanted two relief checks at one time—so she could take a trip to Washington.

Assistance was again discontinued in November 1937 and in February 1938 she again applied and again she was put on the rolls while being investigated. Before they could complete the investigation she moved, and the visitor finally learned that she had gone to Washington and her mail was being forwarded to her there. Assistance was again discontinued. Mrs. "O" wrote to the visitor complaining about the discontinuance of assistance.

She also wrote to a supervisor asking her to have things "lined-up" so she wouldn't have to wait for her money. She didn't apply but the State heard from her in New York where she had gone and was stranded. In August 1938, she came "home" and again applied and again she was granted assistance. Her first check was sent to an address which proved to be a vacant house. Another address was received but it was later learned that this was just a mailing address. In September 1938, the case was again closed because they could not contact the recipient. But she immediately re-applied stating she had been assigned to a WPA project and needed money until she got her pay. She then was laid off and went again to Washington, returning in April 1939 and applied for aid which was granted, but before the first check could reach her she had re-moved to another address and when the visitor attempted to check her residence at the latter address it was found that she had gone to New York and had instructed the landlady to forward her mail. Assistance was discontinued.

In July 1939 it was decided that should she again apply for assistance a very thorough and careful investigation of her eligibility must be made. (This was nearly seven years after she first received assistance.)

Four months later she re-applied. Application was rejected. Less than one month later her application was accepted and then rejected, after it was learned that she had been in Philadelphia for more than a month before applying for assistance.

She appealed the dicision. The Staff review committee heard the appeal and stamped her case "ineligible." She was advised and immediately applied for Old Age Assistance. No application was taken. She then appealed to the County Board of Assistance. The County Board heard her appeal and while studying her case it was learned that she had applied to the Salvation Army for help to get to Harrisburg to see Secretary of the Department of Public Assistance. A letter was then mailed to the Department advising that the County Board had decided to deny assistance. She then requested a State Board hearing. They also rejected her appeal. But they said she could be considered for Old Age Assistance, on the basis of income and need.

After the passing of many letters and decisions she again re-applied for General Assistance and Old Age Assistance. She presented a letter from the Secretary of the Department saying that her "application might be considered." Temporary General Assistance was granted. In June of this year she received an Old Age Assistance Grant of $30. She then decided to go to Washington and when advised that she would have to ask for permission to leave, requirements for such permission were not met—namely, she did not "show that discontinuance of our grant would cause hardship."

There is more, such as writing to Governor James, and refusing to answer questions, but the above is a review of the amazing story of one woman and how she flaunted the will of the Legislature.

AUDITOR GENERAL SURVEYS

Other spot surveys of relief recipients confirm the general situation revealed by the Committee's investigators in Philadelphia and Allegheny counties.

During 1939 and 1940 the Auditor General developed a special auditing crew to check on relief recipients. This crew visited several counties and the recipients were asked to come in and get their relief checks from a representative of the Auditor General.

This procedure replaced mailing checks to addresses provided by the recipients. And this simple reversal of the accepted manner revealed that from eight to fifteen percent of those who were called in either did not come or sent word that they no longer required relief.

Arguments were advanced that the Auditor General's findings were of little value, because those who did not come in would have been dropped from the rolls.

That may be, yet the fact remains they were on relief when the auditing crew conducted their check-up.

SUPPLEMENTAL ASSISTANCE IGNORED

The fact was established that private agencies sometimes issue supplemental assistance in addition to that granted by the Department of Public Assistance and no cognizance taken of it in the recipient's grant.

There are cases where income from insurance policies

has been withheld from D. P. A. in direct violation of the law.

THE MEDICAL PROGRAM*

Under the act anyone on relief, or included in a family on A. D. C. and G. A. grants is entitled to medical care without an offset to the budget.

Visitors are not permitted to recommend any particular professional person or institution, but are allowed to mention those doctors and others who are already sending invoices to the various county boards.

Important to the efficient carrying out of the program is the checking of signatures on bills for professional services with the signature on the original grant.

Yet in one County Board office in one month 37 invoices were returned for signatures of recipients, because patients were not included in grants, cases were not active at time of treatment and other reasons. Nearly one-third of the charges for medical care were incurred by persons who requested and received treatment to which they were not entitled.

The Committee's investigators also found that in this same office 18% of the physicians, dentists, nurses, etc., were treating 68% of the patients.

And in South Philadelphia the Committee found that two physicians were feeding all prescriptions to one pharmacist who was turning in invoices which totaled over $500 a month for five successive months.

Many of the patients lived miles from the pharmacy. More revealing was the fact that in some cases six to ten items were charged to a single patient in one month.

It should be pointed out that expenditures under this program have exceeded expectations and the Legislature should give thought to providing the facilities of state-aided hospital and clinical services, whenever practicable.

UNEMPLOYMENT COMPENSATION—RELIEF *

In a survey of several hundred cases which reached the relief rolls from the Unemployment Compensation rolls, the Committee found evidence of persons who are employed seasonally, yet fail to lay aside money for slack times. Instead they spend their money in full, go on Unemployment Compensation until that runs out, and then apply for relief.

Local offices of the Department of Public Assistance in Allegheny, Philadelphia, Schuylkill, Dauphin and Luzerne Counties submitted lists of approximately fifty names each taken at random from cases on their relief rolls which had recently come on relief from Unemployment Compensation.

Out of a total of 210 names submitted, it was found, after checking, that 94, or 45%, represented cases where earnings in a single calendar year had been $800 or more; thus, 55% of all cases were relatively low wage earners during the period when they were employed.

Of the 45% earning $800 or more, 43% received relief during a quarter year immediately following a quarter with earnings of $200 or more, suggesting lack of thrift. Extreme cases showed earnings up to $800 during the preceding quarter.

37% received relief during a quarter when earnings were $200 or more, suggesting high earnings during some part of the quarter with unemployment Compensation and immediate destitution before or after high earnings, or chiseling, or faulty work on the part of the case investigator.

20% received relief prior to unemployment compensation when eligible for the latter suggesting that unemployment compensation waiting period is too long, or that the Department of Public Assistance functions more rapidly than the Bureau of Unemployment Compensation.

50% received unemployment compensation during two benefit years and were granted relief during the interim.

FEDERAL AUTHORITY

The relationship between the Federal Government and the State permits the Social Security Board, which controls the distribution of Federal funds for categories, to influence to a considerable degree the thinking and the actions of the Pennsylvania Department of Public Assistance. Consideration should be given to ways in which to preserve the autonomy of the State and to forestall any further centralization.

CO-ORDINATION OF STATE BUREAUS

The studies by the Committee also have indicated a woeful need for an exchange of information between departments and bureaus in the State government dealing with various phases of the relief problem, such as the Department of Public Assistance, Bureau of Unemployment Compensation and State Employment Office. Frequently, information required by one office as a prerequisite to its operations, such as payroll information, is not shared with others, so that chiseling and abuse which thus might become prima facie is left to chance discovery.

MILK ORDERS

The cost of the milk program should also be considered by the Legislature.

Under the existing law and regulations which require that every child under 16 for which State aid is provided receive a pint of milk per day, the State's monthly milk bill amounts to approximately $375,000.

There are other factors that also should be considered. Members of County Boards complain that in some cases the granting of milk has become nothing more than a "milk grab" by some companies. It was also shown that many recipients of milk trade or sell the milk for other commodities or money. However, in thousands of cases the result of the operation of this law has been to build healthier children.

This is an important factor as the Federal government pays no part of the cost of milk grants, whereas similar grants in cash would be borne by both the State and the Federal government on all A. D. C. cases, thereby reducing in some measure Pennsylvania's over-all cost for relief.

PIERSON WORK RELIEF ACT *

Considerable evidence has been presented to the Committee which shows that the tangible results obtained through the Pierson Work Relief Act have been very valuable.

It has been especially effective in keeping track of recipients who might otherwise be working and report their employment.

* See page 6199, Appendix.

* See page 6200 Appendix (Includes charts on individual cases.

* See page 6205, Appendix.

Less than 1% of the number of assignees called upon to report for work under the Act failed to report, and more than 150,000 persons have been called since the law went into effect. (August 1939).

While some Boards are having difficulty in finding enough projects for the personnel, other Boards have more projects than available employables.

One of the deterrents to the program as a whole was for a time the workmen's compensation rates charged for the work. This situation has since been adjusted to some extent by a substantial cut in the rates.

The program in effect under the Act is beneficial because:

1. It keeps relief recipients in the habit of work.
2. It is an indirect method of checking on the recipients who might otherwise be employed.

GENERAL COMMENT

In reviewing the facts in this report, it is important that we look at both sides of the situation which confronts Pennsylvania.

Since human welfare obviously should not be political or a prejudicial question, the area of fairness to all concerned should be thoroughly explored. This area is bounded on one side by fairness to those who pay the taxes and upon the other by the human necessities of the situation.

It is obvious that the problem has gotten out of bounds in recent years. It has reached the proportions where the taxpayers are contributing an excessive amount for the benefit accomplished and those upon relief are being frozen into an uneconomical and un-American status.

It is obvious that the relief problem has grown until today it is far greater and far more serious in its many ramifications than anyone could imagine in the beginning. This, unquestionably, is due to the pressure of the situation from year to year, necessitating concentration upon ways and means of obtaining the money to keep the machinery running.

No legislature has had a similar opportunity to take a constructive, practical view of the situation that has developed in the State since 1932.

We have the opportunity today of removing our thoughts from the money-raising problem and centering them on administrative factors. The relief rolls are at a new low. More and more unemployed are marching back to work in private industry. The emphasis upon the emotional side is less than at any previous time. The way is open for practical adjustments.

However, there is a danger in the new situation. The danger is that the people of the State and the members of the Legislature will fall into the false belief that the relief problem has been solved by present re-employment under the Defense program. Such a conclusion would be a tragic mistake. What is going to happen when the Defense program is completed? Unless met constructively now, when we have the opportunity the relief problem may go back on our doorstep in a month, a year, or some other indefinite time. And it may be larger than it ever has been if we are remiss now.

In any approach to constructive action it is necessary to separate the so-called relief problem into its two component parts. One phase has to do with the blind, dependent children, and aged. Those have been accepted as permanent types of relief. In size and scope this phase is little different than it has been in the past. The difference is that now it is being dealt with on a State basis whereas formerly it was taken care of locally.

We must recognize that there is little latitude for change in this field, except only as administrative functions may be improved. Under the present arrangement whereby the Federal government shares in determining policy and returns tax money to the State treasury the control is practically frozen.

The second phase relates to the problem of unemployment. This is entirely a State controlled, State financed and State operated function. Remember that this is practically a brand new function of the State, within the last nine or ten years. In this phase of the broad problem considerable improvement can be brought about, where savings to taxpayers can be effected and where administration can be made more efficient and more in keeping with the intentions of the people as expressed through the Legislature.

It is here that the Legislature can concentrate most of its attention with the brightest prospects of measurable and important accomplishments.

Almost from the beginning of the administration of relief in Pennsylvania, legislative investigating committees and other investigating committees have pointed out the need for a complete change of emphasis in the administration of unemployment relief. This Commission has been no exception. Those who are entitled to assistance should receive it and those who are not entitled to assistance should not receive it.

To secure the proper expenditure of assistance funds, real investigation of applicants and real reinvestigation of cases are needed. To secure this, real investigators are needed. In investigation, all viewpoints must be subordinated to the basic questions of whether there is need, under the meaning of the law, and whether the applicant for assistance, or the person receiving assistance, has presented the full story of his resources or employment. There is much chiseling, as this report has shown. There are cases receiving assistance in which low standards of morality have been found to be actually encouraged by the manner in which assistance has been granted, as this report has shown. There are many cases in which the unemployed have lived too long upon the county of the State, when other means of livelihood were open had they desired to use them, as this report has shown. However, all these conditions, and many others, are but by-products of one basic condition. Investigation in the Department of Public Assistance is not investigation but visiting. Most of the problems relating to the administration of assistance in Pennsylvania will be solved if investigation becomes real.

The criticisms which the Commission has made of the administration of relief in Pennsylvania should not be allowed to obscure one important fact that is on the credit side of the ledger, which cannot be underestimated in importance. That is the complete absence of politics in the administration of relief. That this condition exists was borne out in many discussions with scores of persons throughout the State. It is to be hoped that this condition will continue. It is important to every person within the Commonwealth.

RELIEF IN PENNSYLVANIA AND TEN OTHER STATES

INTRODUCTION. AND SUMMARY

Relief (in all its forms) is the largest single item of governmental expenditure in Pennsylvania. Few people realize its full magnitude. Looking at the expenditures of one relief agency it is easy to lose sight of the expenditures being made simultaneously by other agencies. The following brief tabulation will perhaps convey some idea of the gross size of relief costs:

	1934	1936	1938	1939
State Funds	$34,335,000	$85,309,000	$109,654,000	$130,330,000
County Funds ..	5,746,000	7,842,000	.....	.....
Federal Funds [1] ..	131,998,000	205,371,000	208,312,000	157,056,000
Sponsor's Share of Fed. Work Programs [2]	5,643,000	12,204,000	32,809,000	30,000,000 [3]
TOTAL	$177,722,000	$310,726,000	$350,775,000	$317,386,000 [2]

[1] Includes only Federal share of special categories and earnings of relief employes on Federal Work programs—does not include other costs such as administration, non-relief labor and materials and supplies on work projects.

[2] There may be some slight duplication in this figure because some projects are sponsored by the state and their share is included under state funds but the main bulk of sponsor's share is provided by units of local government.

[3] 1939 sponsor's share not available. Judging from new W.P.A. regulations requiring sponsors to provide 25% of project cost, this item would probably approximate $30,000,000.

In other words relief in Pensylvania has cost more than $25,000,000 a month in each of the last two years. In 1938 relief expenditures of $350,775,000 amount to $34.53 per capita and to $41.26 for each of the 8,500,000 residents of Pennsylvania not receiving relief. This means that for each family of four persons not on relief approximately $165.00 had to be given up for the support of the unemployed and unemployable.

Relief expenditures in 1938 in Pennsylvania amounted to 5.95% of the total income of residents of Pennsylvania in 1937, the latest year for which income figures are available.

Looking only at the state's share of the total relief expenditures, the picture is equally dark. In 1939 the state paid out over $10,000,000 a month for relief and in the early months of 1940 has paid out only slightly less. If present indications materialize, relief will cost the state of Pennsylvania over $240,000,000 in the current fiscal biennium (June 1939-May 1941), or approximately sixty-five per cent of the receipts of the general fund anticipated in the budget for this period.

COMPARISON OF PENNSYLVANIA WITH OTHER STATES

This study of relief in Pennsylvania and in ten other states was undertaken in order to determine whether the relief problem in Pennsylvania differs materially from that in other states and, if so, whether such differences give any clue as to how the staggering burden of relief in Pennsylvania can be reduced.

In relation to its population, Pennsylvania is not out of line with the other states in the over-all number of cases receiving relief, never ranking higher than third nor lower than seventh. Since the spring of 1938, Pennsylvania has had relatively more general assistance cases than any of the other ten states and its general assistance case load grew throughout 1938 and the first nine months of 1939, while the general trend among the other states was slightly downward. Throughout 1936 and 1937 Pennsylvania was high in relation to population in number of W.P.A. cases, but in the early months of 1938 fell behind most of the states. Since the middle of 1938 Pennsylvania has had a relatively low number of W.P.A. cases—accounting in part for the relatively high number of general assistance cases. The other factor accounting for the high number of general assistance cases, while the over-all case load is relatively not high, is that Pennsylvania had a relatively low number of cases receiving special types of assistance under the special categories, namely, old age assistance, aid to dependent children, and aid to the blind.

Grants per case on general assistance and the special categories and earnings of persons employed on Federal work programs are all relatively high in Pennsylvania, but not excessively so, being generally less than in Massa-

chusetts and New York and only slightly more than in most of the other comparable states.

Pennsylvania varies between second and third place among the states compared in per-capita expenditures for direct relief and in per-capita state and local expenditures for all forms of relief. In per cent of state and local taxes used for direct relief and for all forms of relief Pennsylvania holds a still higher rank, reaching first place in both 1936 and 1938 (the last year for which complete figures are available.)

Pennsylvania is the only one of the states studied in which the state, as contrasted to local government, has assumed the whole burden of both direct relief and the special categories. There appears, however, to be little or no correlation between per-capita costs and the degree of state participation in the cost in the other states.

The sponsorship of Federal work projects is an important part of the total relief expenditures of state and local governments, ranging in 1938 from 21% to 50% of the total. In West Virginia it is such an important factor that the state and local governments pay in sponsor's share of W.P.A. projects more per case employed than they pay per case in general assistance grants.

Viewed solely as a relief program and without any consideration of the values produced W.P.A. provides an extremely expensive form of relief, in the cost of which the state and local governments participate substantially. Pennsylvania provided $32,809,000 as sponsors share of W.P.A. projects in 1938 and the Federal government paid $180,238,000 to project employes. These two items together amounted to $72.50 per month for the average of 244,894 W.P.A. employes as compared with an average general assistance grant of less than $30.00 per case per month. Had the same number of cases been carried on general assistance at $30.00 a month per case, it would have cost $88,-162,000, or $124,885,000 less than it did to support them on W.P.A. With this great disparity in cost, it might be well to reconsider the efficacy of W.P.A. as a relief program and to consider other possible forms of Federal participation in relief.

OTHER STATES STUDIED

The ten states used for comparison with Pennsylvania were selected for one of two reasons; first, that they were in some degree similar to Pennsylvania in industrial development or secondly that they were physically contiguous to Pennsylvania. The states used are:

Illinois	Massachusetts	Ohio
Indiana	Michigan	West Virginia
Maryland	New Jersey	Wisconsin
	New York	

Five of these states border on Pennsylvania and only one state, Delaware, which borders on Pennsylvania is omitted. Of the remaining five states, three, Illinois, Massachusetts and Michigan, are highly industrialized; while two, Indiana and Wisconsin are not so highly industrialized but are included here largely because they were included in a recent study of state tax systems made for the Joint State Government Commission.

This group of ten states, however, includes eight of the first twelve states in order of population (excluding Pennsylvania). Among the first twelve, the four states excluded are California, Texas, Missouri and North Carolina. These four states are not as nearly comparable to Pennsylvania as those used here both because of physical remoteness and because of the different nature of their economic resources which cause them to compete less with Pennsylvania than the states used. The two states included in this study, which are not among the first twelve in population, Maryland and West Virginia, are contiguous to Pennsylvania and Maryland is fairly comparable in per cent of urban population.

Six of the ten states used had as great or greater percentage of urban population than Pennsylvania as shown in the following tabulation:

State	% Urban (1930 Census)	State	% Urban (1930 Census)
Massachusetts	90.2	Pennsylvania	67.8
New York	83.6	Maryland	59.8
New Jersey	82.6	Indiana	55.5
Illinois	73.9	Wisconsin	52.9
Michigan	68.2	West Virginia	28.4
Ohio	67.8		

TREATMENT OF RELIEF STATISTICS

In the past there has been considerable loose thinking and loose talk about relief in one state as compared with another, frequently based on arbitrary spot comparisons of isolated factors. Here for the first time an attempt is made to make interstate comparisons over a longer period of time and with all three major factors in the relief setup[1] considered together as well as separately.

Various state and federal agencies treat different relief factors differently in their statistics. For instance, in its charts and tables the Social Security Board includes in the following order:

1. Special types of public assistance (OAA, ADC & AB)
2. General Relief
3. Relief under Special Programs of F.E.R.A.
4. Subsistence payments certified by the Farm Security Administration
5. Civilian Conservation Corps
6. National Youth Administration—Student Aid
7. National Youth Administration—Work Projects
8. Work Progress Administration—Projects operated by W.P.A.
9. Works Projects Administration—Projects operated by other Federal agencies
10. Other Federal Work and Construction Projects
11. Civil Work Administration

The Pennsylvania Department of Public Assistance drops out of its figures some of the items included by the Social Security Board. Items 3, 4, 6 and 10 are dropped by D.P.A. since eligibility for aid under them is not determined on the basis of need in the same sense that eligibility for general relief (general assistance) is determined. Items 8 and 9 are combined by D.P.A. but under the combined headings D.P.A. includes only wages paid to persons certified as in need of relief, whereas the Social Security Board includes non-relief wages. Under item 11 D.P.A. includes only one-third of the amount reported by the Social Security Board since sample studies indicated that only one-third of the Civil Works employes were taken from relief rolls.

[1] The three major factors in relief are: General Assistance, Federal Work programs (C.W.A. and W.P.A.), and special categories (Old Age Assistance, Aid to Dependent Children and aid to the blind).

In making interstate comparisons in this study, in addition to the items omitted by D.P.A., Civilian Conservation Corps and National Youth Administration expenditures and case aided have been omitted, except in charts 1, 2, and 3, because of the difficulty of getting comparable figures by states. This report, therefore, deals with only the three primary factors in relief—General Assistance (including local and F.E.R.A. work programs), Federal Work Programs (C.W.A. and W.P.A.), and Special Categories (O.A.A., A.D.C. and A.B.)[1] The omission from this study of certain kinds of relief and of some non-relief programs related to relief does not materially affect the relief picture since the omissions are relatively small in amount.

PART I

RELIEF IN PENNSYLVANIA

In the first three charts the history of relief in Pennsylvania is presented from the beginning of 1933 through 1939.

Relief expenditures in Pennsylvania rose from six and one-half million dollars per month in the first quarter of 1933 to almost twenty-seven million in the last quarter of 1938, the latter expenditure being more than four times the former. During this same period the number of cases rose from 395,746 to 615,704, an increase of only 55%. Both increases were more or less gradual and continuous. Persons relieved, on the other hand, rose only 44,403—from 1,814,700 to 1,859,103—and the rise was neither gradual nor continuous; the total mounted to 2,017,683 in the second quarter of 1933, declined to a low of 1,241,118 in the third quarter of 1937 and finally advanced rapidly to 1,888,084 in the first quarter of 1939.

The rapid rise in expenditures in relation to cases and persons in Pennsylvania can be attributed only partially to the increased general assistance grants. To a much greater extent the rise is due to the advent of W.P.A. which paid more than twice as much per case as general assistance even after general assistance grants had been increased. A third factor in the rising costs in relation to persons has been inauguration and continuous expansion of old age assistance and blind pensions where the grant for single person cases is only slightly less than the average grant for general assistance cases which average 2.92 persons per case.

The fourth factor in the increase of relief payments in relation to cases has been the steady reduction in the size of cases. At the beginning of the relief program in Pennsylvania there was a considerable doubling up of families and a proportionate increase in the number of younger members who, finding no work, stayed at home. As the result of these tendencies the average size of case was 4.6 persons in the first quarter of 1933. As the relief grant was increased to include rent and other items in addition to food, the tendency toward unnatural doubling up of families was reversed; also older members appeared as single persons on old age assistance, so that the average size of case has steadily shrunk until it reached 3.29 persons in the last quarter of 1939 (including both general assistance and W.P.A. cases). This trend toward smaller cases causes an increase in relief payments it costs more per person to support single persons or groups of two or three than it does to support larger groups living in one household.

Similar influences were at work in the other states so that in a rough way the composite picture of relief in Pennsylvania presented in these three charts would serve as a picture of the trends and of the relative importance of the various kinds of relief in most of the other states.

RELIEF EXPENDITURES IN PENNSYLVANIA
(Chart 1—Table I)

Relief expenditures in Pennsylvania as shown in this chart divide themselves readily into five periods: the first includes 1933, 1934 and the first three quarters of 1935 and covers what might be called the "emergency relief period"; the second includes the last quarter of 1935 and the first two quarters of 1936 which is a transitional period marked by the introduction and rapid expansion of W.P.A.; the third includes the third quarter of 1936 through the fourth quarter of 1937 and might be called the "recovery period"; the fourth, which might be called the "recession period" coincides with the year 1938; and the fifth or "post-recession recovery period" coincides with the year 1939.

Starting at approximately $6,500,000 a month in the first quarter of 1933 relief in dollars to recipients[a] in Pennsylvania rose to almost $19,000,000 a month in the first quarter of 1935 when the work program of the State Emergency Board was at its height. As the work program was curtailed in the second and third quarters of 1935, general assistance continued to rise, reaching its all time high of $13,752,000 a month in the third quarter of 1935. At the same time, however, the overall relief payments had been reduced $1,500,000 a month and stood at $17,506,000 a month in the third quarter of 1935.

The fourth quarter of 1935 marks the entrance of W.P.A. into the relief scene, pushing the total relief payment over $18,000,000 a month but at the same time reducing general assistance by $2,800,000. In the first and second quarters of 1936 W.P.A. expanded rapidly, reducing general assistance by $5,500,000 a month but pushing up the overall relief payments by $5,000,000 and absorbing a $500,000 shrinkage in C.C.C. and N.Y.A.

Starting with the third quarter of 1936 and continuing through 1937, there was a constant reduction in overall relief payments which dropped from $23,093,000 a month in the second quarter of 1936 to $18,680,000 a month in the fourth quarter of 1937. General assistance, however, reached its low point of $4,206,000 a month in the fourth quarter of 1936 and then ran through 1937, varying between $4,677,000 and $4,996,000 a month. W.P.A. dropped from $14,705,000 in the second quarter of 1936 to $9,457,000 a month in the fourth quarter of 1937. C.C.C. and N.Y.A. payments were also reduced in this period by some $300,000, leaving the special categories as the only relief programs which were not curtailed in this eighteen months period. Special categories moved against the general trend and more than doubled from the second quarter of 1936 at $1,380,000 a month to $2,987,000 in the fourth quarter of 1937.

Overall relief payments rose rapidly throughout 1938. General assistance moved up to $6,306,000 a month in the first quarter of 1938 and held approximately this level

[1] For a detailed statement of sources of data used, see Appendix II.

throughout the rest of 1938, ending at $6,582,000 a month. At least a part of this increase is accounted for by the taking over of 11,000 outdoor relief cases of the poor boards by the Department of Public Assistance under legislation for this purpose effective January 1, 1938. W.P.A. expanded greatly during 1938 with relief wages rising from $10,339,000 a month in the first quarter to $16,228,000 in the fourth quarter. C.C.C. and N.Y.A. increased their payments slightly. Perversely the special, catagories which increased in 1937 when all other programs were receding, were slightly reduced in 1938 from $2,999,000 a month in the first quarter to $2,841,000 in the last quarter. The overall relief payments reached their all time high in the fourth quarter of 1938 at $26,976,000 a month and both the second and third quarters produced monthly averages higher than in any quarter which preceded them.

In 1939 the decrease in overall relief payments was just as precipitate as the increase in 1938 and in the last quarter overall relief payments averaged $18,664,000 a month almost exactly the same figure as the low point in the second and third quarters of 1937 and the lowest since the inauguration of the W.P.A. program in 1935. In spite of the sharp decrease in overall payments, general assistance payments were higher in each quarter of 1939 than in any quarter of 1936, 1937 or 1938.

CASES RECEIVING RELIEF IN PENNSYLVANIA (Chart 2—Table II)

The overall relief case load shows no such advance as the overall relief expenditures. After reaching an early peak of 465,000 in the second quarter of 1933, the overall case load fell below 400,000 where it stayed until the fourth quarter of 1934, when it turned sharply upward, reaching 515,00 in the second quarter of 1935. In the first quarter of 1936, after a slight drop, the case load reached 519,000 but it will be noted that relief payments per month rose from $18,350,000 for 515,000 cases in the second quarter of 1935 to $2,266,000 for 519,000 cases in the first quarter of 1936. In the second quarter of 1936, with only 492,000 cases, overall relief payments reached their pre-recession peak. (See Chart 1.) The overall case load declined steadily from the first quarter of 1936 through the third quarter of 1937 and then turned very slightly upward in the fourth quarter of 1937, when there were 443,000 cases receiving some form of relief.

It should be noted that the advent of W.P.A. in the fourth quarter of 1935 caused no such upsurge in cases as it did in relief payments. It should also be noted that W.P.A. does not carry nearly as large a proportion of the case load as it does of relief payments, because the average earnings of project employes is more than twice the average general assistance grant. Special Categories on the other hand comprise a much larger proportion of the case load than of payments or persons because of the large number of single person cases receiving old age assistance and blind pensions.

Like the overall relief payments, the overall number of cases increased rapidly during 1938. Unlike the relief payments, however, cases did not reach their all time high until the first quarter of 1939 when an average of 629,000 cases received relief. Also, unlike relief payments, the number of cases relieved—while it did decline—not only did not decline to the lowest point since 1935 but rather was higher in the last quarter of 1939 (493,000 cases) than in any quarter of 1937 and the last three quarters of 1936. In the last quarter of 1939 there were approximately one thousand more cases receiving relief than there were in the second quarter of 1936 when relief payments reached their pre-recession high of $23,093,000 a month, despite the fact that relief payments in 1939 had fallen to $18,664,000 a month. This peculiar circumstance—that approximately the same number of cases should receive almost $4,500,000, or 19% less in the last quarter of 1939 than in the second quarter of 1936—is explained by the different internal composition of the case load which in percentages was:

	2d Quarter 1936	4th Quarter 1939	Change
General Assistance ...	36.0	45.8	+ 9.8
W.P.A.	49.0	26.5	—22.5
C.C.C. & N.Y.A.	3.8	3.0	— .8
Special Categories	11.2	24.7	+13.5
	100.0	100.0	.0

In other words, W.P.A., C.C.C. and N.Y.A., each of which pays a high amount per case, were sharply reduced, almost one fourth of the total case load having been moved from these programs to general assistance and special categories where the grant per case is approximately one-half to one-third as much.

General assistance cases were high in relation to general assistance relief payments in the early period since relief grants were small and almost the whole case load was on general assistance. After the third quarter of 1935, general assistance cases follow approximately the same curve as general assistance relief payments. Cases receiving general assistance drop sharply in 1936, reflecting the expansion of W.P.A., and reaching the lowest point in the seven year period covered, at 137,603 cases, in the fourth quarter of 1936. Throughout 1937 general assistance cases remained fairly constant, ranging from 147,000 to 158,000 and standing at 151,821 in the fourth quarter. In the first quarter of 1938 general assistance cases advanced sharply both because of the increased need due to the recession and because of the taking over of some 11,000 cases previously cared for by the local poor boards. During the rest of 1938 general assistance cases grew gradually to 212,000.

With the curtailment of W.P.A., which dropped from 269,000 cases in the fourth quarter of 1938 to 130,000 in the fourth quarter of 1939, general assistance cases turned sharply upward in the first quarter of 1939 and then dropped slightly in the second quarter. In the third quarter of 1939 general assistance cases reached the highest point since 1935 at 265,535 cases. Business recovery began to catch up with the W.P.A. lay-offs in the fourth quarter of 1939 and general assistance was able to drop an average of 40,000 cases in the fourth quarter to stand at 25,889 cases which is still higher than in any quarter of 1936, 1937 or 1938.

PERSONS ON RELIEF IN PENNSYLVANIA (Chart 3—Table III)

The average number of persons supported by some form of public relief reached its all time high in the second quarter of 1933 when 2,017,683 persons were relieved or approximately 20% of the population. Like cases, the persons relieved fell off in the last two quarters of 1933

and then stayed fairly constant until the last quarter of 1934 when they began a sharp increase, which reached its peak at 1,797,000 persons in the first quarter of 1935. From the first quarter of 1935 through the third quarter of 1937 there was a constant decrease in the persons relieved—interrupted only momentarily by slight seasonal increases in the first quarters of 1936 and 1937—which carried the number of persons relieved down to 1,241,000. From this low point persons relieved climbed rapidly reaching a high of 1,888,000 in the first quarter of 1939 and then falling off with equal rapidity to 1,380,000 in the fourth quarter of 1939.

Both W.P.A. and general assistance bulk relatively larger in persons relieved than in cases because they carry roughly 3.5 and 3.0 persons per case, respectively, whereas special categories and C.C.C. include for the most part single person cases.

The curve of persons receiving general assistance follows rather closely the pattern of cases receiving general assistance except that the early part of the persons curve is relatively higher because of the large size of cases (4.6 persons per case) during the early part of the program, which size has gradually diminished throughout the whole period covered here.

As was pointed out earlier the decreasing size of case, the advent of W.P.A. with its larger grant per case, the expansion of the special categories, particularly old age assistance and blind pensions with single person cases, and the increase in assistance grants per case to include rent allowances and to meet increasing food prices have all played a part in creating the anomalous situation in which the number of persons supported by public relief programs in the last quarter of 1939 (1,380,000 persons) is only 68.4% of the number supported at the peak in the second quarter of 1933 (2,017,000 persons) while the monthly relief payments in the last quarter of 1939 ($18,664,000) are 2.34 times as much as in the second quarter of 1933 ($7,971,000). In other words relief payments per person have grown from $3.95 a month in 1933 to $13.52, or 3.42 times the 1933 figure.

PART II

MONTHLY COMPARISON OF CASES AND GRANTS ON THREE MAJOR RELIEF PROGRAMS IN PENNSYLVANIA AND TEN OTHER STATES

CASES PER THOUSAND POPULATION

In order to facilitate comparison of case loads in states of different size, case figures have been reduced to the number of cases for each one thousand inhabitants. Both the cases per thousand population (Tables IV to VIII) and the actual case load for each state (Tables XXIII to XXXIII) by relief programs are presented in Appendix I and a statement of the sources of data used in the tables appears in Appendix II. The tables cover the period from July, 1933 through December, 1939, but in order to make the charts readable, it was necessary to present only the 1936-1939 data in the charts.

On the basis of the combined case load of general assistance, federal work programs and special categories (Chart 3), Pennsylvania has, since January, 1936, maintained an almost median position among the states—never ranking higher than third nor lower than seventh. The relief load in Pennsylvania has, however, been differently distributed among the major relief programs than in most of the other states—particularly during the last half of 1938 and all of 1939. In this eighteen month period Pennsylvania has been relatively high in cases per thousand population receiving general assistance and relatively low in cases per thousand population on the other two major programs, federal work programs and special categories.

ALL TYPES OF RELIEF (Chart 4—Table IV)

Perhaps the most surprising, if not the most important, finding of this study is the high degree of conformity of the general trends in the over-all case load in Pennsylvania with most of the other states. This general pattern to which Pennsylvania conforms so closely during the years 1936 to 1939 breaks itself roughly into four periods.

The first period covers 1936 and the first ten months of 1937, during which the number of cases receiving relief decreased in every state except Illinois. The number of cases per thousand population in Pennsylvania fell from 55.76 to 43.20 or almost one-fourth. In rank Pennsylvania fell from third place 1.16 cases ahead of Massachusetts to fourth place, .18 cases behind New York. In this period Illinois started to follow the general pattern but in the months from July, 1936 through March, 1937 it moved up rapidy from sixth place to first place and then proceeded to follow the general pattern not only for the rest of this period but throughout 1928 and 1939 as well. Wisconsin had an upward surge in over-all cases which carried it from sixth place in August, 1936 to first place in November, but by December, 1936 it was back to fifth place.

The second period extends from November, 1937 through March, 1939 and covers the "recession" increase in relief. During the early months of this period relief cases increased very rapidly in almost every state. Pennsylvania, New York and Maryland, although showing increases, did not increase at as rapid a rate as most of the other states, so that New York, which had been first and second place in the preceding period, was in eighth place by January, 1938, and Pennsylvania, which had been in third and fourth place fell to seventh place by March, 1938. Pennsylvania and New York ended this period in seventh and eighth place, respectively, in March, 1939. Pennsylvania, however, was separated from third place by less than 2.5 cases per thousand population, having 63.42 cases per thousand, while Indiana had only 65.87 to gain third place in March, 1939. Michigan had a heavy increase in cases in the early part of this period, rising from tenth place in November, 1939 to first place by February and reaching a peak in July, 1938 with 79.51 cases per thousand, which was almost two and a half times the November 1938 number. Ohio also showed a disproportionate increase in this period, but Ohio stayed high throughout the remainder of this and subsequent periods while Michigan, after reaching its peak in July 1938, fell back into a close group with Indiana, Massachusetts, Pennsylvania and Wisconsin. In both Ohio and Michigan the disproportionate rise in relief was apparently caused by reduced employment in

the automobile, parts and accessories industries, which are located there.

Six of the eleven states, including Pennsylvania, reached their all time high[1] in case load in March 1939. In only one state, New York, was the March 1939 case load less than the high point in 1936. Three other states, Michigan, New Jersey and Ohio, reached their highest case load in this period but prior to March 1939.

In the third period, from April through September 1939, the over-all case load declined in every state at a very rapid rate. There was very little change in the rank of the states in this period except for Pennsylvania, which in the last two months of the period had a slight rise in cases per thousand population, while all the other states continued to drop except Wisconsin, which had a slight rise in the last month of the period. Pennsylvania ended this period in second place instead of seventh where it started, but was only a fraction of a case ahead of Ohio and Indiana.

In the fourth period, comprising only the last three months of 1939, there was a general upward movement of cases per thousand population in all states, except Pennsylvania which experienced a sharp drop, thus returning it to seventh place among the states. This contra-seasonal drop in Pennsylvania was occasioned in part by the large pickup of employment in the heavy industries coincident with the current war in Europe and in part must be considered a delayed realization of the drop in relief cases experienced in other states in the last two months of the preceding period. Though not included in this study, the case load in Pennsylvania is known to have increased in the early months of 1940 which further supports the contention that the contrary action of the Pennsylvania case load from August to December 1939 results from a slight difference of timing and that over a longer period the Pennsylvania case load will be found much more nearly in conformity with the general pattern.

Attention should be called to the case load in Maryland, which, while it conforms to the general pattern insofar as trends are concerned, is one half as large in relation to population as is the Pennsylvania case load. Explanations for this striking difference, include the recent great industrial growth near Baltimore and a slightly different basic approach to relief problems. However, any adequate explanation of the differences between one state and another in case load, or for that matter any adequate justification of the striking similarity between the states would involve a study of the detailed history of the social and economic environment of the inhabitants of each state of such proportions as to be practically impossible. Explanations of differences between states in this study have, therefore, been confined for the most part to the interaction of relief programs, known differences in eligibility requirements, or similar definite factors.

GENERAL ASSISTANCE (Chart 5—Table V)

The general assistance case load in relation to population which is shown in Chart 5 is subject to two major influences: first, the extent of unemployment; and second, the extent to which other forms of relief carried the load. The general downward trend of general assistance cases in all states during 1936 represents both an improvement in general employment, and a fairly constant employment on W.P.A. which commenced on August 1935 and continued to expand into March 1936 and then, after a dropping off in April and May, held fairly constant throughout the rest of 1936. The levelling off of general assistance cases from July through October 1937 represents improving employment offset by a reduction in the W.P.A. case load through September 1937. When the "recession" set in, unemployment started going up at a faster rate than W.P.A. expanded, so that general assistance cases increased sharply from November 1937 through March 1938. By March 1938 W.P.A. had gained momentum and general assistance cases dropped in most states, except in Pennsylvania, until October 1938. W.P.A. continued to increase its rolls reaching a peak in different states from August to November with the majority in November 1938. With the downward turn of W.P.A. in the fall of 1938 general assistance cases rose until February or March 1939 and then started down again. The downward movement continued through July 1939 when general assistance cases started upward to an unseasonal peak in September which coincides with the low point in W.P.A. cases. In the last three months of 1939, general assistance cases fell back to about the July 1939 level as W.P.A. cases went up again to about their July level.

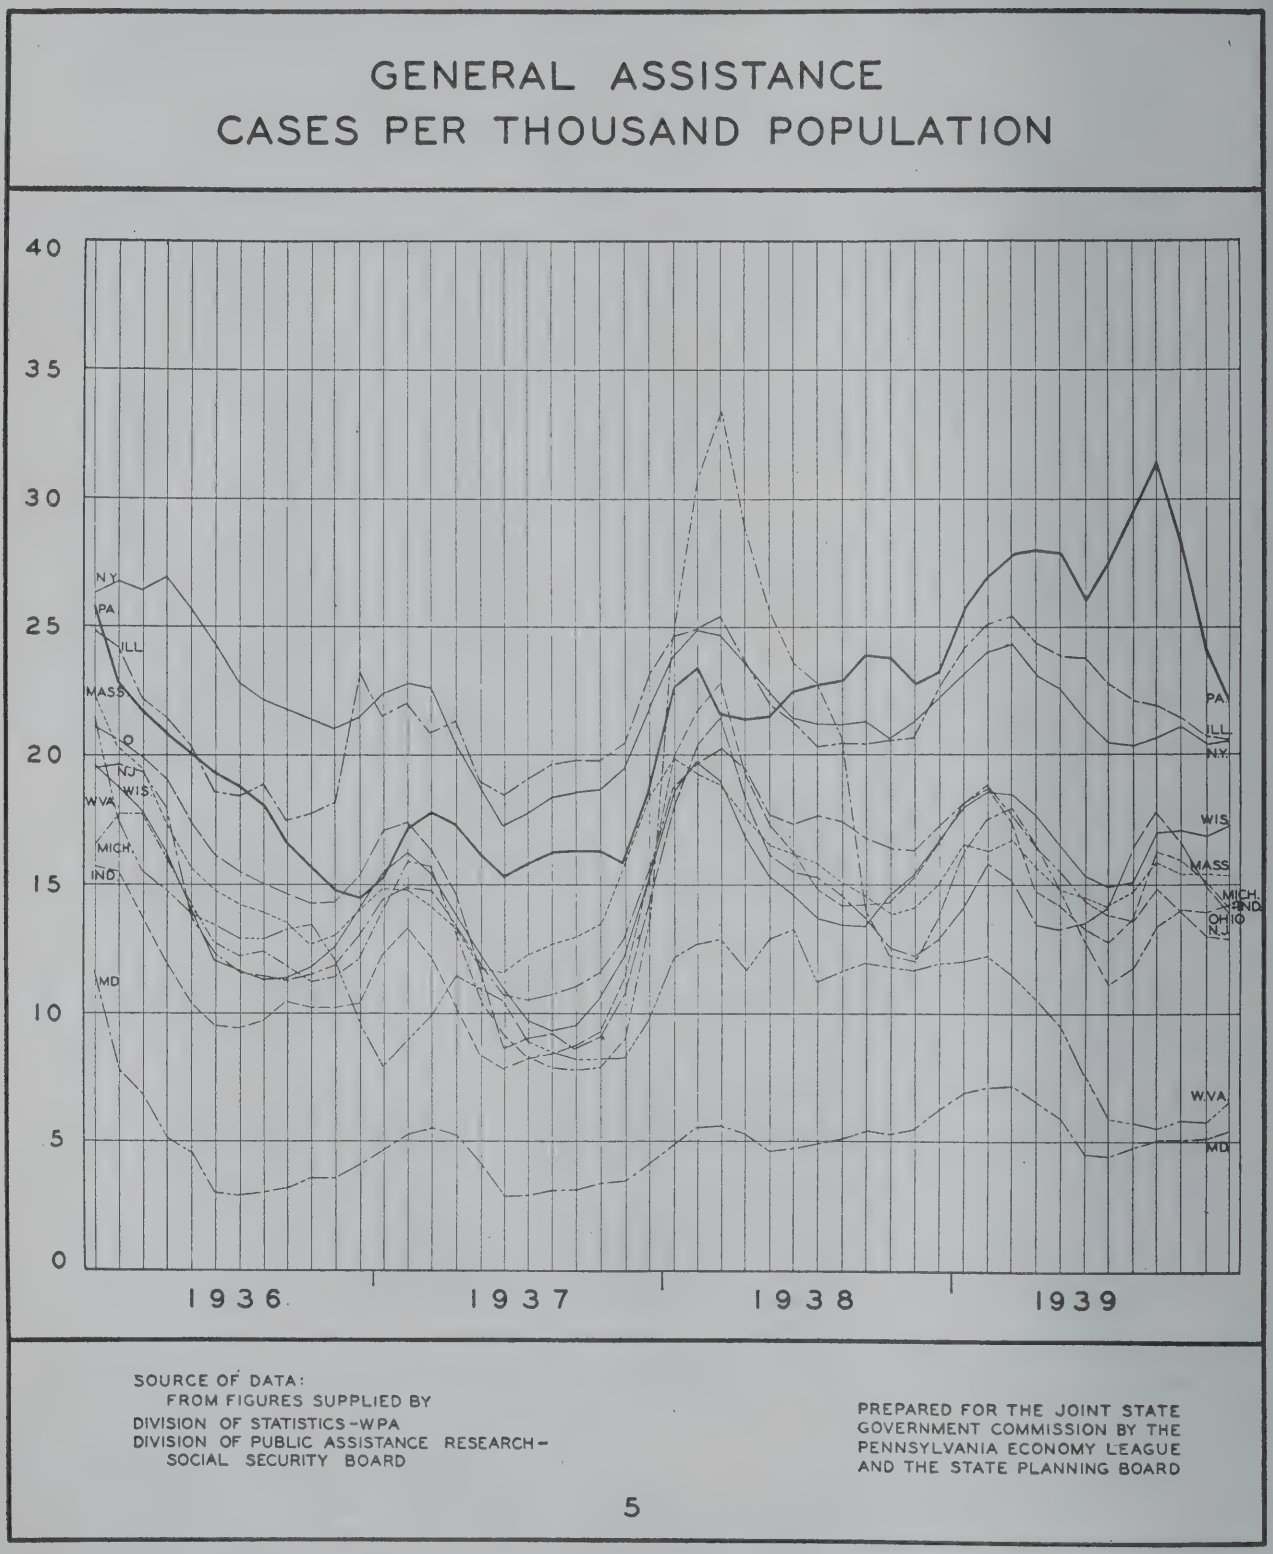
It is interesting to note that there was a very definite winter peak in general assistance cases occuring in every state in each of the three winters of 1936-37, 1937-38 and 1938-39, save only West Virginia, which showed a decided dip in general assistance cases in the winter months of 1936-37. Looking back at the chart of over-all case loads (Chart 4) there is an indication of such a winter peak in the winter of 1935-36, and the increases in the number of cases in the last two or three months of 1939 have set the stage for a similar peak in the winter of 1939-40. On the chart of general assistance case loads these latter two peaks—those of 35-36 and 39-40 are obscured by the sudden upward movement of W.P.A. cases in both periods which absorbed a large number of general assistance cases.

Pennsylvania held roughly to third place among the states in general assistance cases per thousand population, running behind New York and Illinois from January 1936 to March 1938. During this period general assistance cases in Pennsylvania followed rather closely the general trend in the other states.

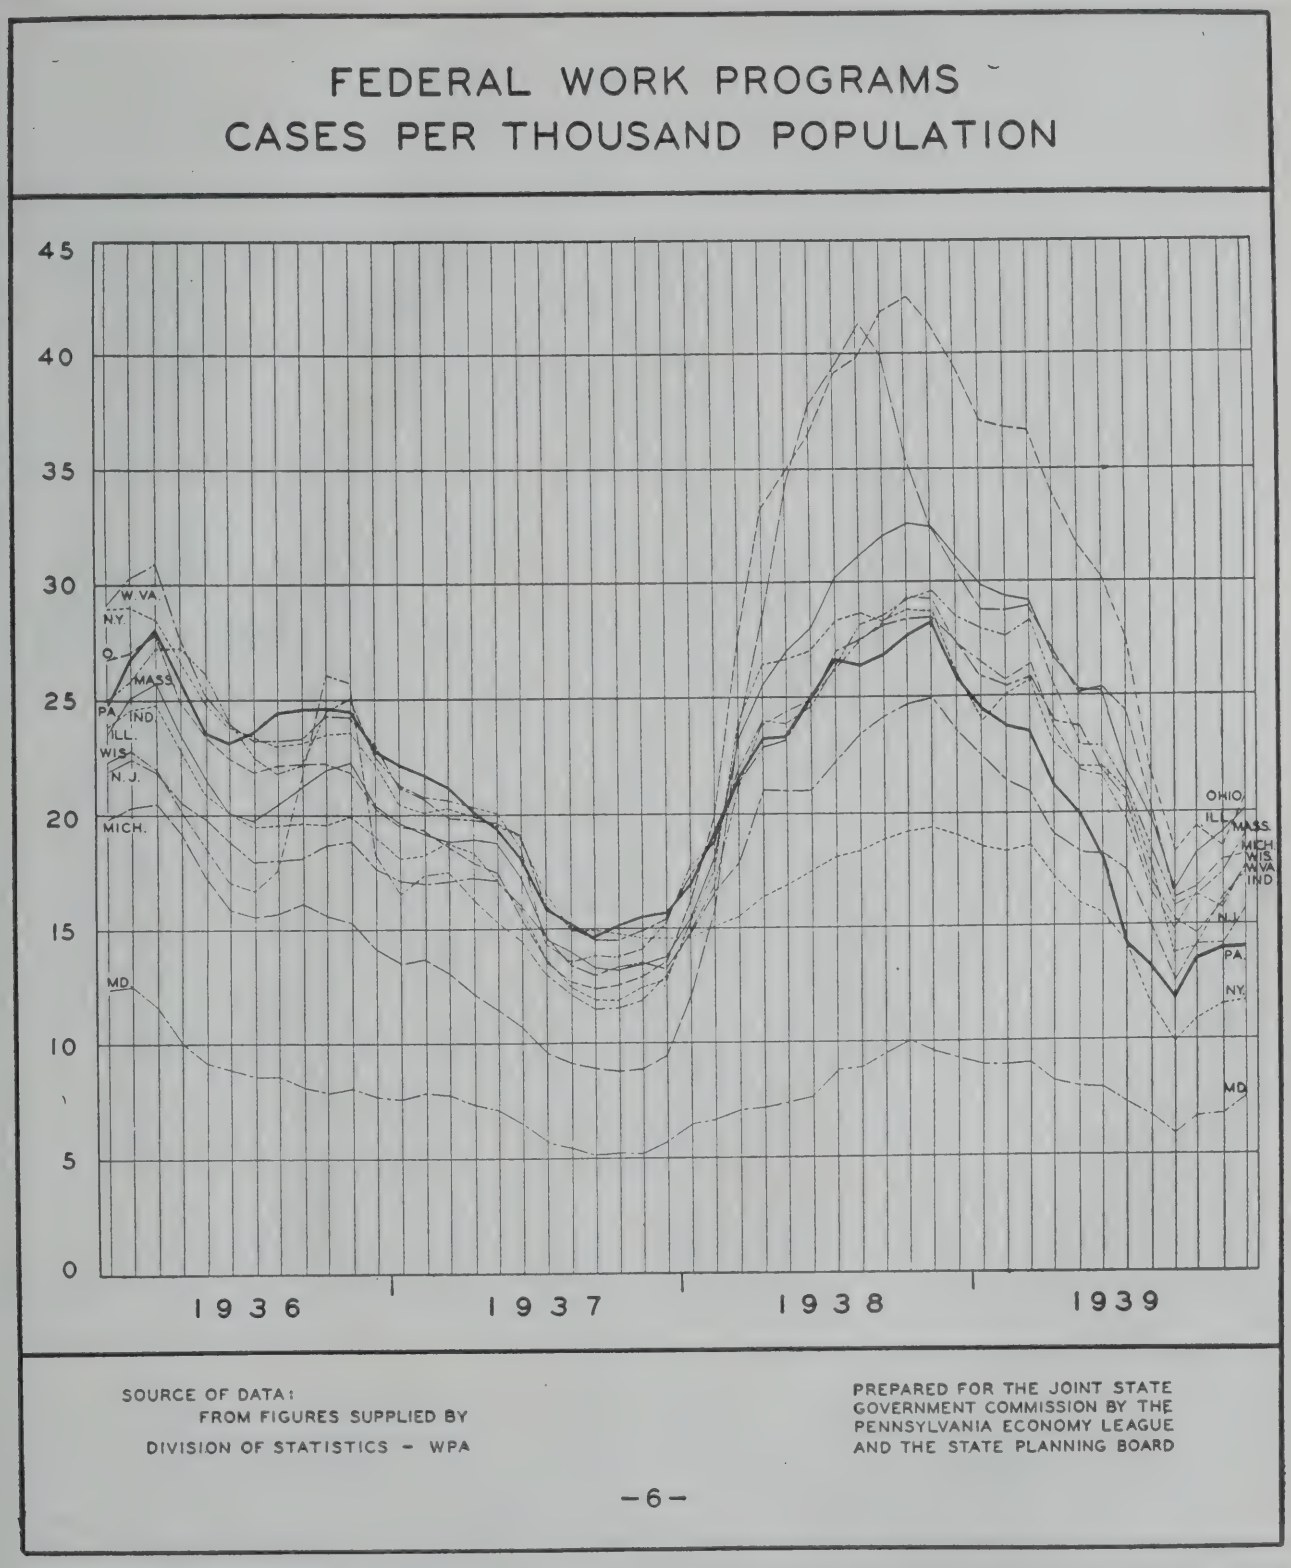
After March 1938, however, Pennsylvania departed from the general trend of the other states and moved rapidly into first place in general assistance cases per thousand population—a position which it had not relinquished through December 1939. In the six month period from April through October 1938, general assistance cases were reduced in every state except Pennsylvania, largely as a result of increased W.P.A. activity. In Pennsylvania, however, general assistance cases continued to increase in this six month period.

Most of the other states, starting from October 1938, had a seasonal increase in general assistance cases, reaching its peak in February or March 1939 and then falling off again to approximately the October 1938 level by June or July

[1] In some states the case load in the early months of 1934 was higher because of large C.W.A. employment but, as was pointed out in the introduction, sample studies indicate that only one-third to one-half of C.W.A. employes were taken from relief rolls so that for practical purposes the full number of C.W.A. cases should not be included in the case load.



1939. Pennsylvania experienced a similar seasonal increase in general assistance cases which reached its peak in March 1939 but unlike the other states it did not fall back to the October 1938 level. After a slight drop in April, May and June, general assistance cases in Pennsylvania increased rapidly to a peak of 31.35 cases per thousand population in September 1939. This peak was approximately 50% higher than the 21.34 cases per thousand in April 1938, when Pennsylvania's general assistance case load first departed from the general trend in other states. A number of the other states experienced an unseasonal rise in general assistance cases from July



to September 1939, as pointed out earlier, which resulted from the very rapid reduction of W.P.A. cases in these months. In the other states, however, the unseasonal peak in September 1939 is substantially below the April 1938 level.

In the last three months of 1939 the number of general assistance cases in Pennsylvania dropped rapidly and at a much faster rate than in any other state some few of which even had slight increases. This reduction in general assistance cases results in part from the increased employment in Pennsylvania's heavy industries coincident with the European war and in part from increased W.P.A.

employment in the 50 months. In Pennsylvania W.P.A. employment returned to the July 1939 level while in no other state was this the case (see Table V).

While the high position of Pennsylvania in general assistance cases can be laid, in part, to its low position in W.P.A. cases after the spring of 1938, one additional factor contributed to that position—namely, the relatively low position of Pennsylvania in cases per thousand population on the special categories, resulting chiefly from the relatively high eligibility age (70 years) for old age assistance then in effect. Had Pennsylvania expanded its old age assistance as did many of the other states—to the point where the cases per thousand population on special categories would have been twenty or more, instead of eleven to twelve—there would have been a substantial reduction in general assistance cases. A reduction of only three or four cases per thousand population on general assistance would have served to bring Pennsylvania below both New York and Illinois in general assistance cases per thousand population throughout most of the period after the spring of 1938. In other words, Pennsylvania would have maintained through 1938 and 1939 the same relative assistance cases that it held throughout 1936 and 1937, despite its relatively low position in W.P.A. cases per thousand population. Since the federal government pays one-half of old age assistance grants this change would have probably saved some money for the state.

FEDERAL WORK PROGRAMS (Chart 6—Table VI)

In number of federal work program cases per thousand population, Pennsylvania, starting in a median position, moved rapidly into a leading position but still not far ahead of the other states and held this position through December 1937. With the general sharp upward movement of W.P.A. employment starting at that time, Pennsylvania began to fall behind and by August 1938 had fallen into a relatively low position which it has held since that time. Only three states have been relatively lower than Pennsylvania in W.P.A. employment since August 1938, namely: Maryland, which is low throughout all four years; New York, which had until late in 1937 vied with Pennsylvania for a leading position; and New Jersey which had been in a low position, ninth of eleve states, for almost the entire four year period.

The most startling fact shown up this chart is that all of the eleven states follow so uniform a pattern in cases per thousand population throughout 1936 and 1937 with nine of the states rather closely bunched—the lowest of the nine being not more than 20% below the highest. While still following a similar general trend throughout 1938 and 1939 these same nine states show a variation of over 50% (from 19.23 cases per thousand in New York to 42.52 cases per thousand in Ohio) in October 1938 and a variation of over 50% in December 1939 (from 11.64 cases per thousand in New York to 20.62 cases per thousand in Ohio).

It should be noted that the change in the relative position of Pennsylvania on W.P.A. cases per thousand population, which takes place with the rapid expansion of W.P.A. employment in the early months of 1938, is the reverse of the change of position in Pennsylvania general assistance cases per thousand which took place at this same time—Pennsylvania having moved into first place in general assistance cases and from first to eighth place in W.P.A. cases despite its very substantial increase in W.P.A. cases.

Pennsylvania, which had more W.P.A. cases per thousand population in October-December 1937 than any other state compared here, had fewer in December 1939 than all save Maryland and New York. This shift appears to be more important when it is noted that Ohio, which received more than twice the W.P.A. aid received by New York from April 1938 through 1939, had only 60 odd per cent as many general assistance cases per thousand population as New York in the same period. The Michigan curve represents another peculiar situation, in that Michigan received relatively less W.P.A. aid than other states save Maryland through January 1938 and by April 1938 had moved to second place and thence to first place for June, July and August 1938 thereafter varying between second and third place with Illinois. It should be noted, however, that on geenral assistance case per thousand Michigan moved from tenth place in October 1937 to first place in January 1938, which it continued to hold until July, thence falling rapidly to tenth place again in October and November 1938. This extreme movement in both Ohio and Michigan no doubt results from the unsettled condition of the automobile and parts business and in the case of Michigan the large W.P.A. case load is perhaps justified by the high general assistance case load but in the case of Ohio, which never rose above sixth place in general assistance cases, there is less apparent justification for the high W.P.A. case load.

PER CENT OF CASES ON FEDERAL WORK PROGRAMS (Chart 7—Table VII)

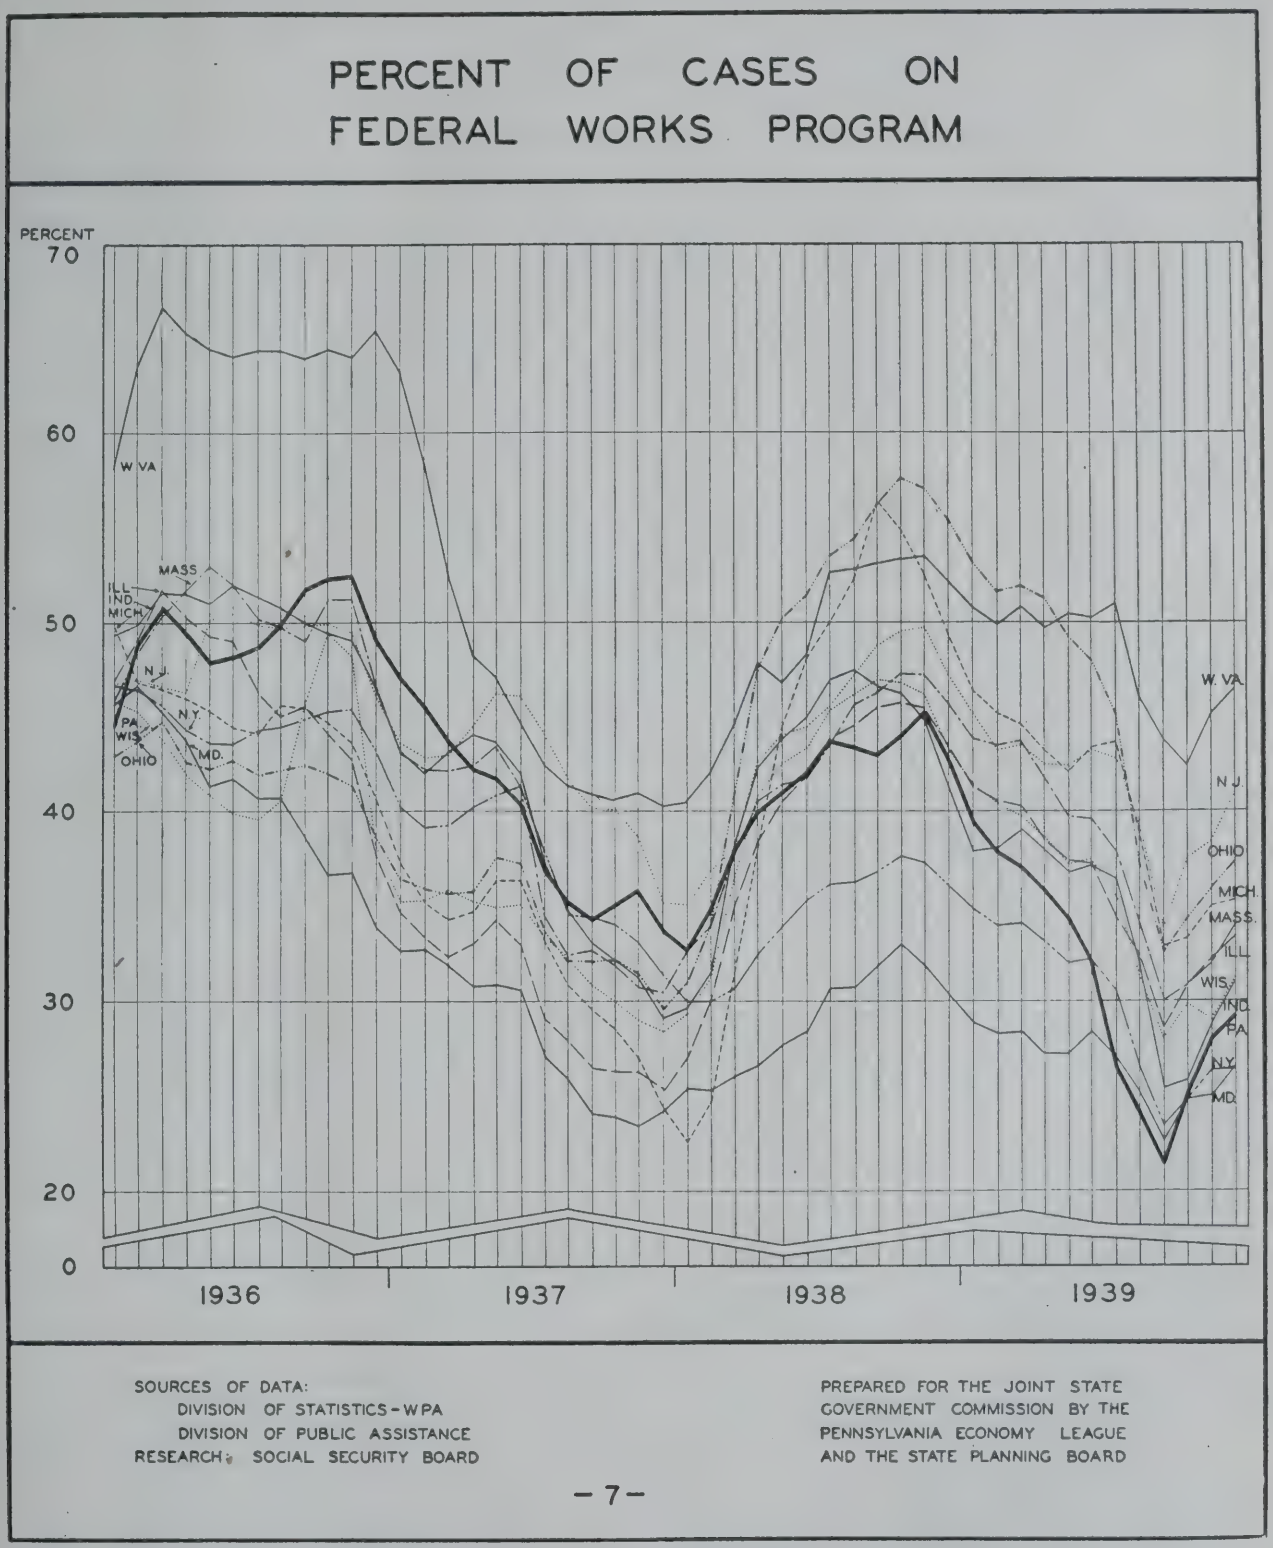
In per cent of the over-all case load carried on federal work programs the story for Pennsylvania is, with minor changes, the same as that in federal work program cases per thousand. Pennsylvania holds a relatively high place in per cent of federal work programs cases through 1936 and 1937, slips back in the early months of 1938 and thereafter holds a relatively low position, falling into eleventh or bottom place in July, August and September 1939 but regaining seventh place in December 1939.

With the exception of West Virginia and New Jersey, which hold a considerable higher rank in per cent of cases on federal work programs than on federal work programs cases per thousand, the states vary very little in either rank or trend on this chart from that shown in the federal work program cases per thousand.

In the period following November 1938 the per cent of cases on federal work programs dropped more rapidly in Pennsylvania than in any other state by a small margin and then recovered more rapidly in the last three months of 1939.

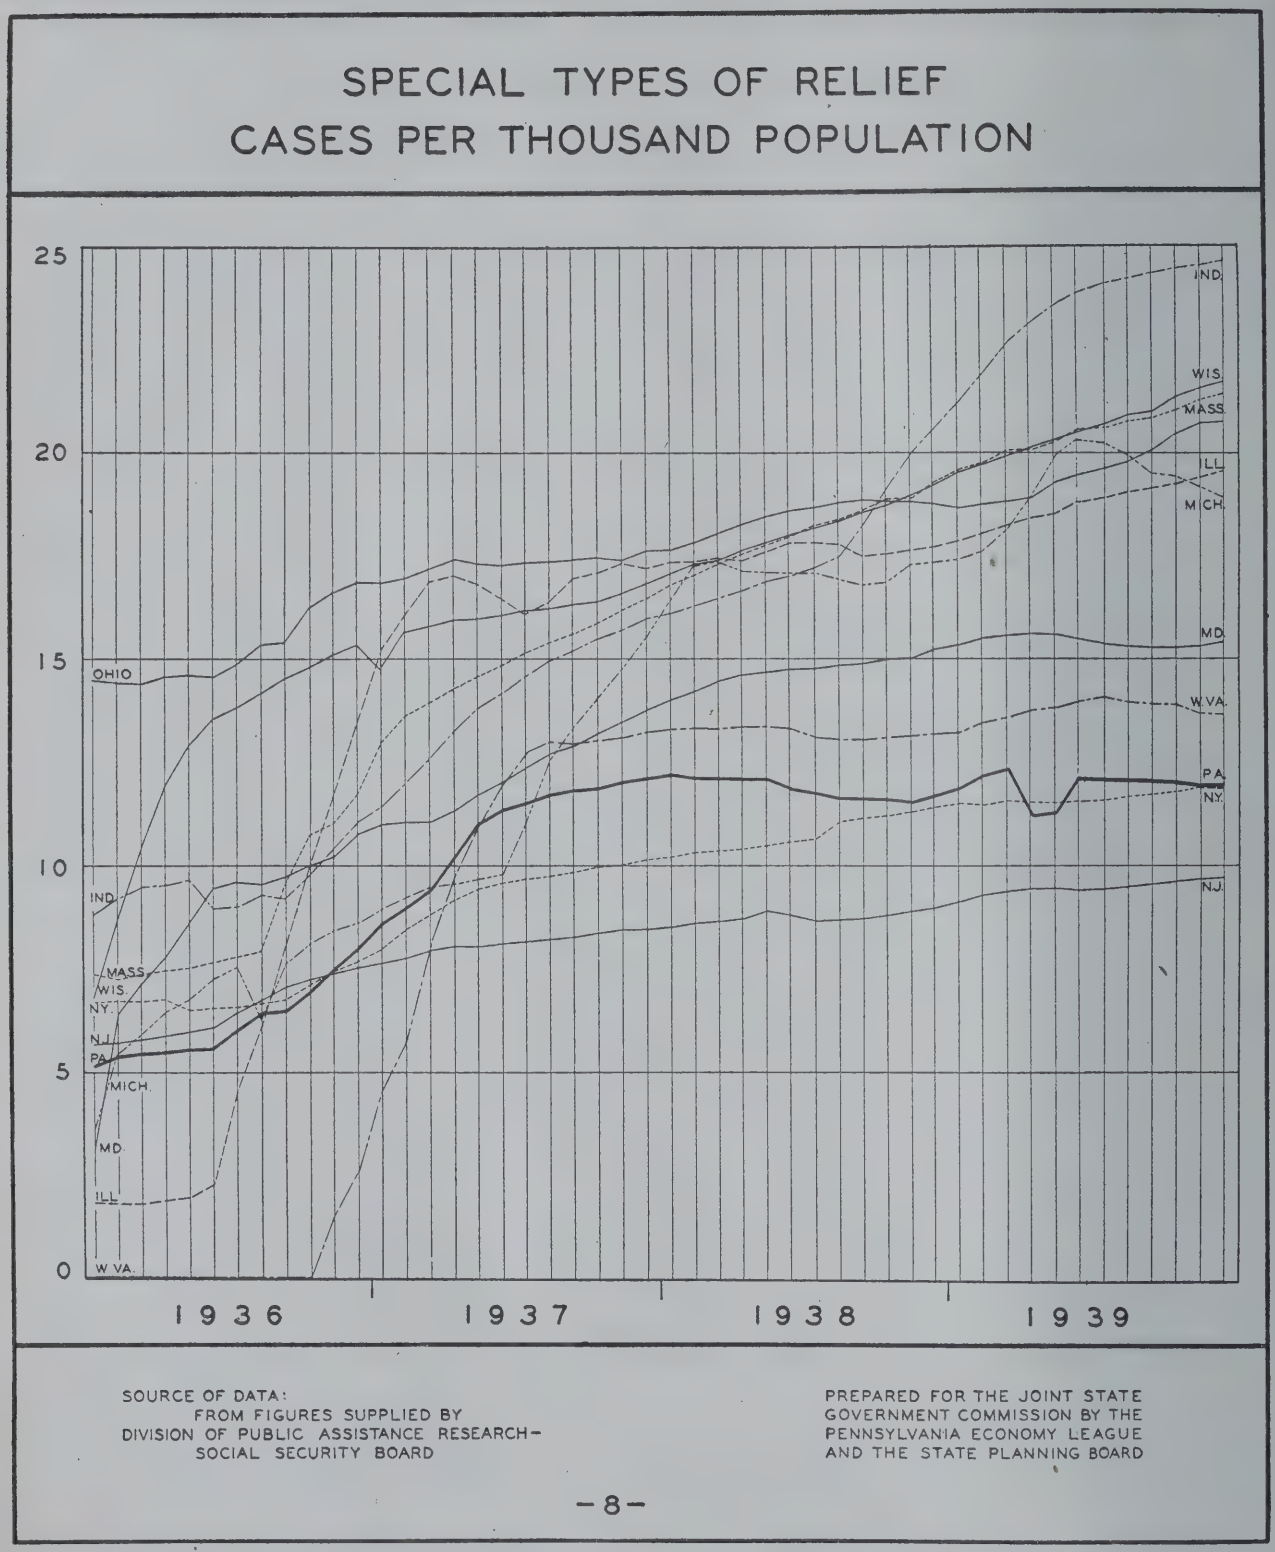
SPECIAL CATEGORIES (Chart 8—Table VIII)

Special categories—old age assistance, aid to dependent children and aid to the blind—have on the whole increased rather markedly in the four years covered by Chart 8. In Pennsylvania the number of cases more than doubled in this period and at the close of the period are about one-half of the general assistance case load and two-thirds of the federal work case load. In spite of this, however, only three states had less actual increase in these forms of relief than Pennsylvania and of these three Ohio started with almost three times the relative case load of Pennsylvania. With the change in age limit for old age assistance, eligibility from 70 to 65 years and a broadened elig-



ibility for aid to dependent children, which went into effect January 1, 1940 and September 1, 1938, respectively, the number of cases receiving special types of relief in Pennsylvania will rise rather sharply both from new cases taken on and from the transfer of some 25,000 cases from general assistance to one of the special types of relief. If the other states continue their present trend when the full adjustment in the Pennsylvania case load is made sometime in 1940, the Pennsylvania case load will approach that of Maryland and will occupy a median position among the states.

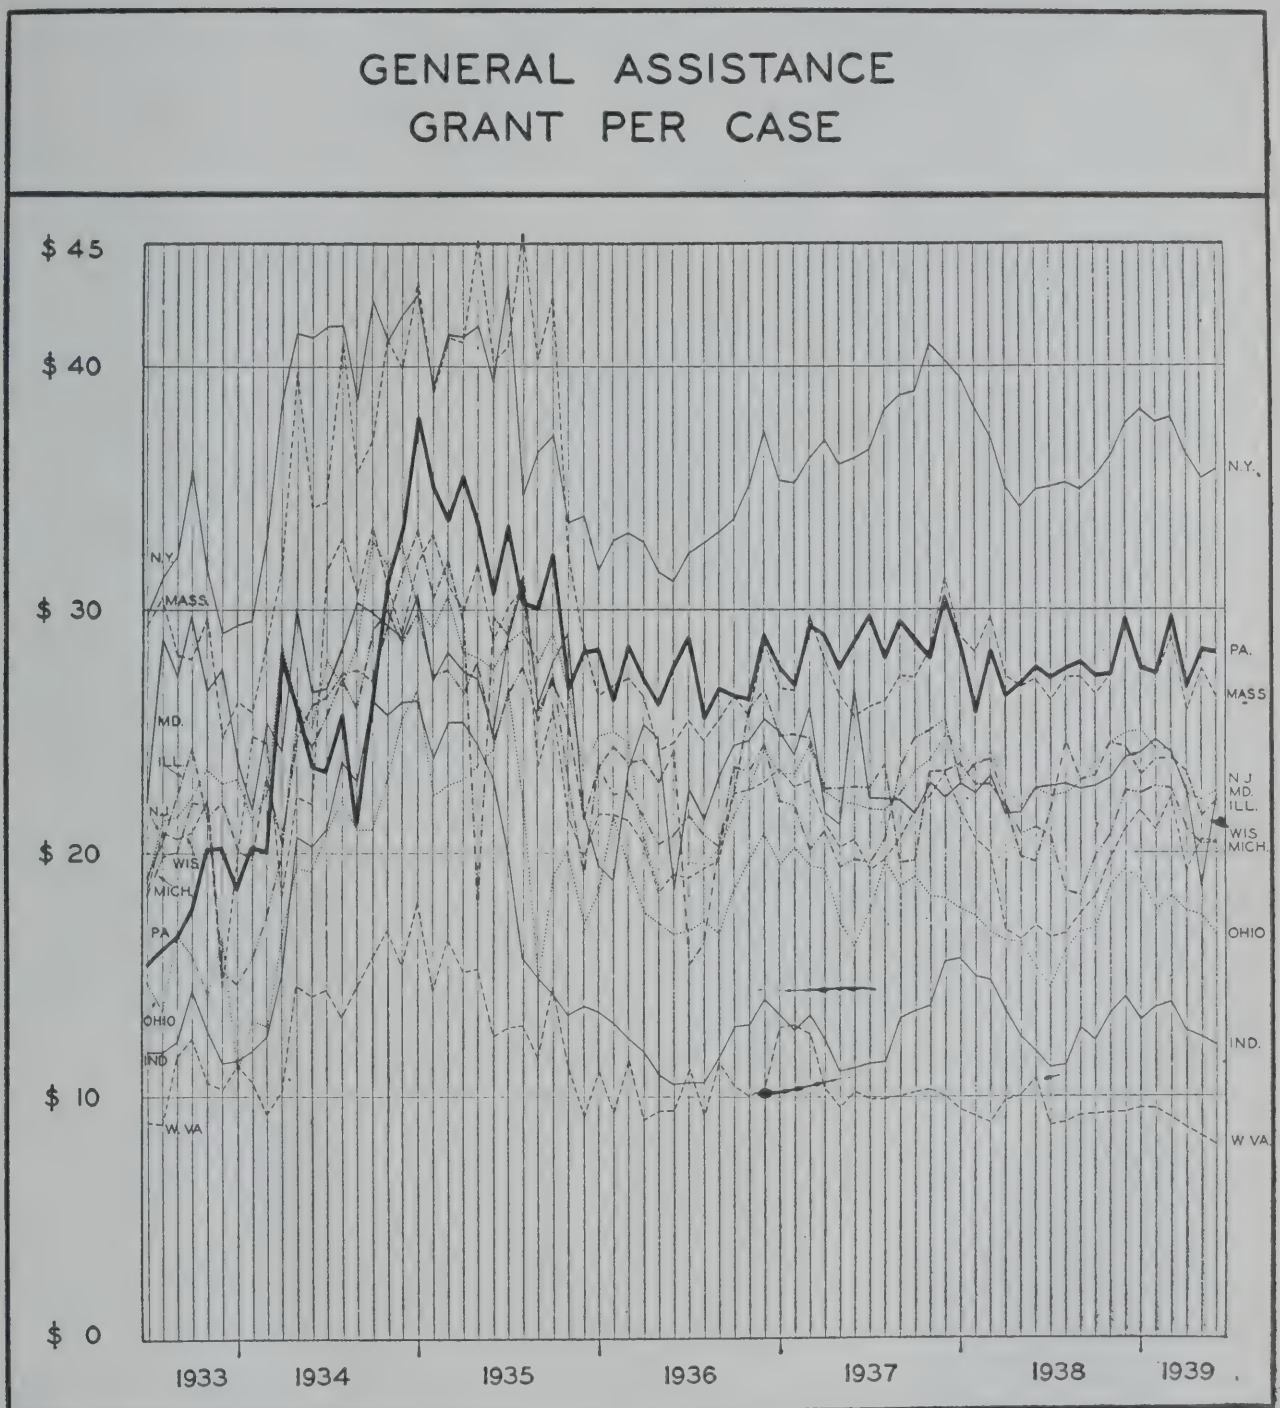
Since the Federal government pays one-half of old



age assistance and aid to the blind[1] and one-third of aid to dependent children,[2] the practice in some states of carrying as many cases as possible on special categories and as few as possible on general assistance may have some merit from the point of view of holding down state costs. In Indiana for instance 41% of the total case load is on special categories and only 20% is on general assistance as compared with Pennsylvania with 21% on special categories and 47% on general assistance.

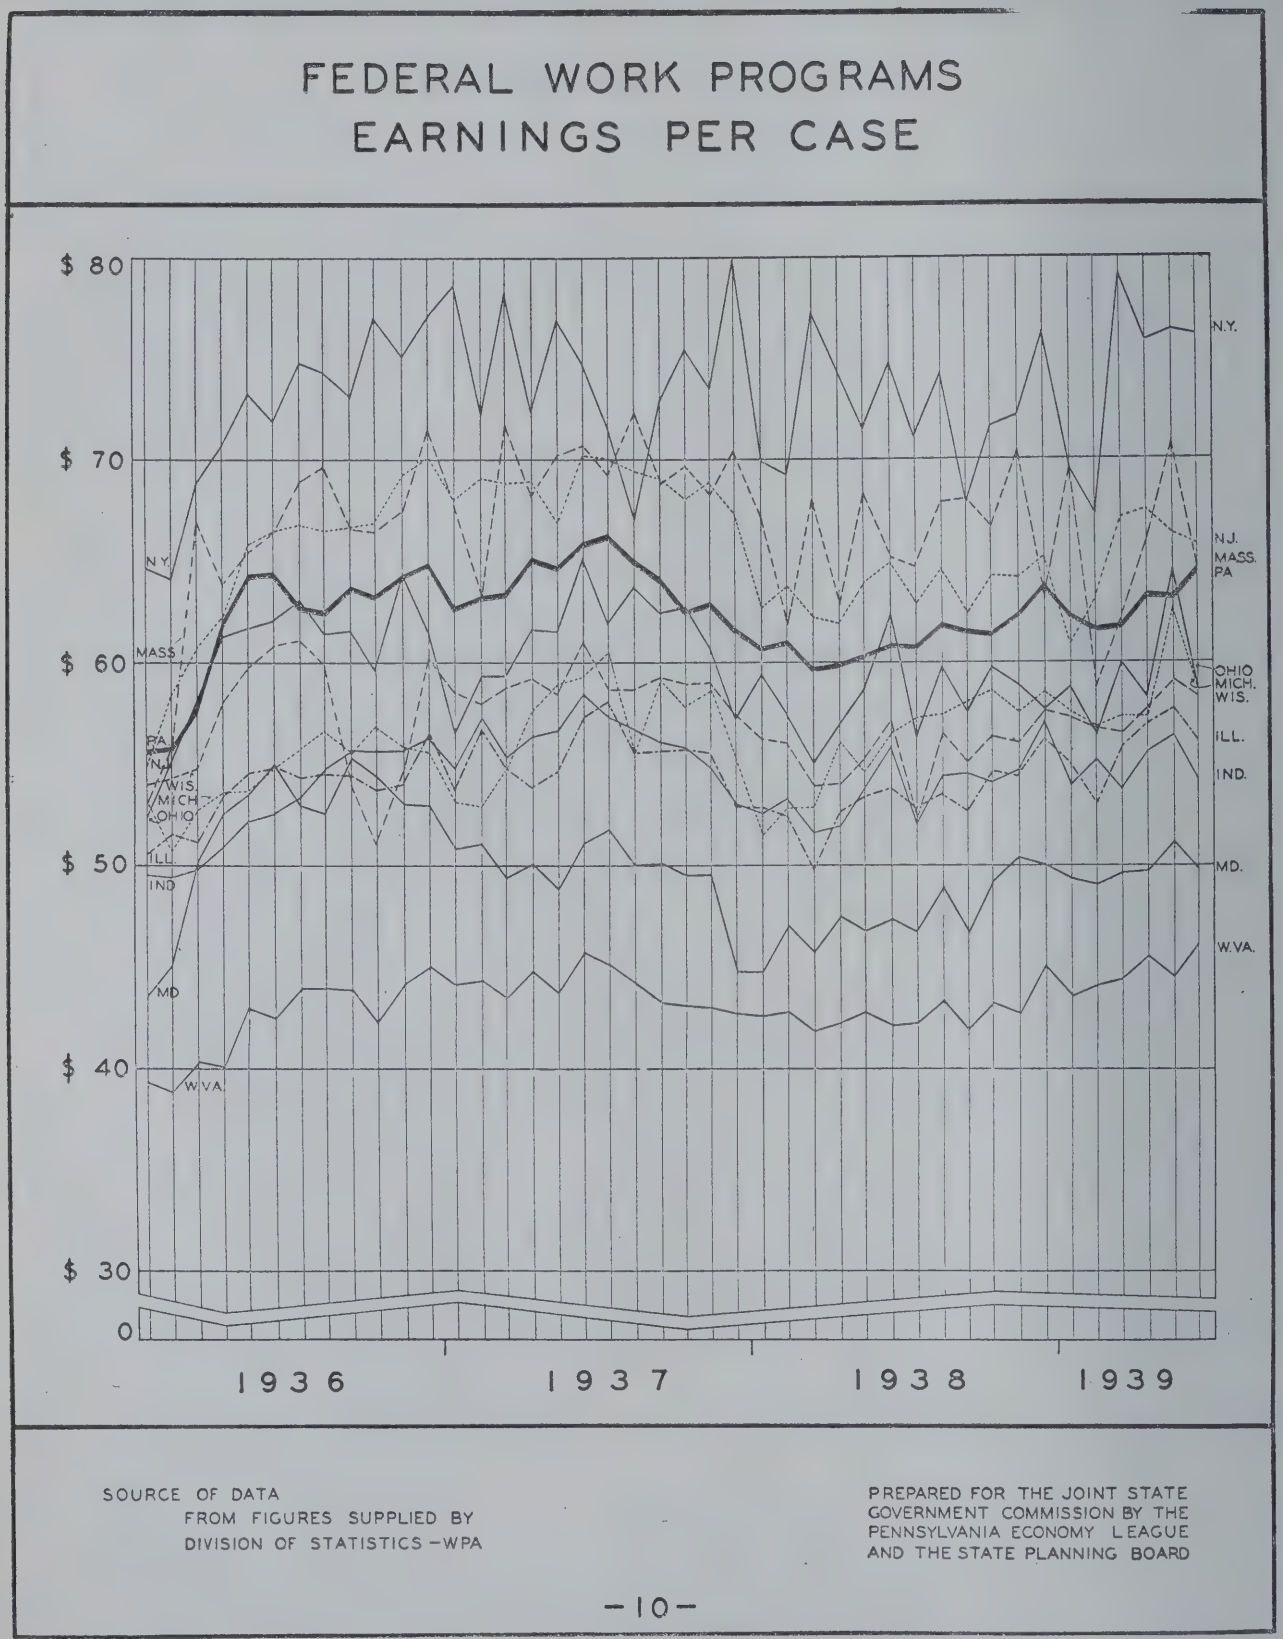
[1] In Pennsylvania aid to the blind is not given on a need basis and the federal government does not pay any share of the cost.

[2] Increased to one-half as of January 1, 1940.



GRANT PER CASE

The grant per case figures shown in charts 9, 10, and 11 have been computed from the case and expenditure figures reported in tables XII to XXXIII. As explained in Appendix II the case count figures available are somewhat overstated and fluctuate with the rate of turnover of cases,



particularly on the general assistance program which accounts for the oscilating nature of the lines in Chart 9. The grant per case charts and the tables from which they are plotted cannot, therefore, be used as an accurate determination of the grant per case, but rather as an indication of the relative grants from state to state and from time to time.

GENERAL ASSISTANCE GRANTS (Chart 9—Table IX)

The trend of general assistance grants per case in these states, as shown in Chart 9, is upward in 1933 and 1934, slightly downward in 1935 and practically constant thereafter. Pennsylvania follows this general pattern but the upward movement in 1933 and 1934 is sharper than in most states. Pennsylvania moved from eighth place to third place by January 1935 and, since that time, has varied between second and third place with Massachusetts.

Starting with a food allowance only in 1932 relief grants in Pennsylvania were increased from time to time during 1933 and 1934 by the inclusion of allowances for shoes, clothing, fuel, rent and public utility services. In addition there was in increase resulting in two peaks, the first coinciding with the taking over of the federal C.W.A. work projects by the local works division of S.E.R.B., followed by a slight drop as the work program was curtailed, and the second coinciding with the starting of the work relief program of S.E.R.B. which entailed a twenty per cent bonus over the ordinary relief grant for those who worked. With the advent of W.P.A. in the fall of 1935, local work relief stopped and the general assistance grant was stabilized at approximately its present level. At the end of 1939 New York was high in grant per case on general assistance at approximately $36.00 a month per case, with Pennsylvania and Massachusetts well behind at from $27.00 to $28.00 a month per case. Five states are closely bunched between $20.00 and $24.00 a month per case, while Ohio, Indiana and West Virginia are far behind.

Two items should be mentioned, which have had a share in increasing the general assistance grants in Pennsylvania and in many of the other states. First, rent has come to be recognized as a relief need and a rent allowance has been included in the relief grant, which was not included in the early months of 1933 in most states. Prior to the inclusion of rent allowances landlords to a large extent absorbed the rent loss and in a sense were thereby specially taxed for the support of relief clients. The second item contributing to the large increase in general assistance grant per case has been the expansion of old age assistance and aid to the blind which removed substantial numbers of single person cases from the general assistance rolls, leaving the larger and higher grant cases on general assistance.

FEDERAL WORK PROGRAM EARNINGS (Chart 10—Table X)

The earnings per case on federal work programs are of little interest except to show that the rank of the states is approximately the same as in general assistance grants and that the earnings are on the whole more than twice as much as the general assistance grant per case while the average size of case is only slightly greater. It should also be noted that federal work program earnings bear no relation to the size of case so that single persons receive just as much as five and six person cases on this relief program.

Pennsylvania ranks roughly fourth in federal work program earnings per case as compared with second or third in general assistance grants and third in grant per case on the special categories.

SPECIAL CATEGORY GRANTS (Chart 11—Table XI)

In average grant to cases on the three special categories Pennsylvania ranks third, behind New York and Massachusetts, but is not so far ahead of the states immediately below it on this score as it is ahead of these same states in general assistance grants. Only two states have an average grant of over $25.00 a month per case on the special categories while six, including Pennsylvania, have an average grant between $20.00 and $25.00 per month. The decrease in Pennsylvania for a few months during 1939 was due to changes in the state's payment procedure made during those months and does not represent any real change in the amount of grants to individual cases.

PART III

COMPARISON OF ANNUAL STATE AND LOCAL EXPENDITURES FOR RELIEF IN PENNSYLVANIA AND TEN OTHER STATES

In the following charts an attempt has been made to compare the state and local expenditures for direct relief (including administration, special programs, materials and supplies, non-relief labor and other costs of the emergency relief program) for participation in the special categories and for federal work programs by years from 1933 through 1938. Comparable figures are unfortunately not yet available for 1939.

STATE AND LOCAL EXPENDITURES FOR ALL FORMS OF RELIEF (Chart 12—Table XXXIV)

State and local relief activities, including state and local share of expense for direct relief, special categories and sponsorship of federal work programs, cost $4.09 for each man, woman and child in Pennsylvania in 1933. This cost has risen constantly since that time; it was $4.62 in 1934; $5.31 in 1935; $9.35 in 1936; $10.30 in 1937; and $13.40 in 1938. In this calculation the cost of special categories has been excluded in the year 1933, 1934 and 1935, since comparable data is not available for the other states, but even had it been included there would still have been a sharp increase throughout the period. High as this cost may appear—and rapid as has been the rise—Pennsylvania has never ranked higher than third among the eleven states compared in this report in per capita state and local expenditures for all forms of relief. New York has throughout the period had a per capita expenditure from two to six dollars per annum higher than Pennsylvania. Massachusetts had higher per capita expenditures in five of the six years shown and, over the whole period, averaged two dollars per capita more. Illinois has had higher per capita expenditures in three of the six years. In 1938 five states spent more than $13.00 per capita, two being higher than Pennsylvania and two, only slightly less. The upward trend of the per-capita expense in Pennsylvania is followed rather closely by all but four states, one of which is Massachusetts, which began far above Pennsylvania, the other three being Maryland, West Virginia and Indiana—probably the three states least comparable to Pennsylvania in industrial development.

STATE AND LOCAL EXPENDITURES FOR DIRECT RELIEF (Chart 13—Table XXXV)

In per-capita state and local expense for direct relief alone, Pennsylvania ranks relatively higher, indicating chiefly that the other states spent a relatively larger share of their total relief funds for special categories and sponsorshop of federal work programs. This indication is also borne out by the earlier consideration of cases per thousand population on various types of relief. Pennsylvania never approaches New York in state and local direct relief expenditures per capita and was exceeded in three years by Massachusetts and in two years by Illinois.

For all the states the increase in direct relief expenditures per capita has been at a much less rapid rate than the increase in state-local expenditures for all form of relief. This result reflects the growing importance of the special categories (considered permanent) in the relief field and the growing proportion of state and local funds for relief which have gone into the sponsorship of federal works program.

Viewed solely as a relief program—and taking no account of the value of the work done—federal work relief is not the free gift to the states and municipalities which it is so often considered. Of the $798,489,000 state-local expenditure for all forms of relief during 1938 in the eleven states covered by this report, $230,462,000 or 28.8% was spent for the sponsorship of W.P.A. projects. The percentage of total state-local funds spent for W.P.A. sponsorship in the various states was:

Illinois	32.0	New Jersey	43.1
Indiana	42.8	New York	21.0
Maryland	28.1	Ohio	36.5
Massachusetts ...	27.1	West Virginia ...	50.4
Michigan	29.9	Wisconsin	34.9

PENNSYLVANIA.... 24.1

It cost either the state or local governments $11.16 per month for each case receiving federal work relief in Pennsylvania during 1938 as compared with an average general assistance grant of approximately $28.00 or roughly it cost the state or local governments forty cents for each dollar of general assistance saving effected by placing cases on federal work relief. In the states with considerably lower general assistance grants per case the situation becomes more and more apparent until the final absurdity is reached in West Virginia where the state and local governments pay $10.89 per month for each W.P.A. case and give an average grant of only $9.50 per month to cases on general assistance. With the eleven states covered by this report spending from 21 to 50% of the funds available for relief in the sponsorship of federal work relief, it seems that the time is ripe for a reconsideration of the afficacy of federal work relief as a relief program and that the state as an entity—as well as the federal government—has a vital interest in the conclusions reached. Such a reconsideration should include: (a) the social, economic or moral justification for giving those fortunate enough to get on the federal works programs from two to five times as much relief as is given to similar cases on general assistance; (b) a study of the value of physical assets produced by federal works programs to determine whether the value produced justifies the excess of cost over a reasonable general assistance program; and (c) even though the values produced justify the increased expenditures for work programs in the abstract, whether those values are present necessities or are luxuries that could be done without for the present in order to pay the butcher, the baker and candlestick maker. It should be made clear, however, that there is in this report no attempt at such a reconsideration nor has such data as appears in this report bearing on the subject been carefully analyzed in respect to any possible use in such a reconsideration. A subsequent memorandum on some of the financial aspects of a choice between general assistance and W.P.A. will be presented.

On further consideration, of particular importance in Pennsylvania where the state pays the whole cost of general assistance, is that the sponsor's share of federal works program is for the most part provided by units of local government. With 24% of the total state local relief expenditure going for sponsorship it is probable that the local units are through such sponsorship providing at least 20% of the total state-local relief expenditure rather than none as is widely believed.

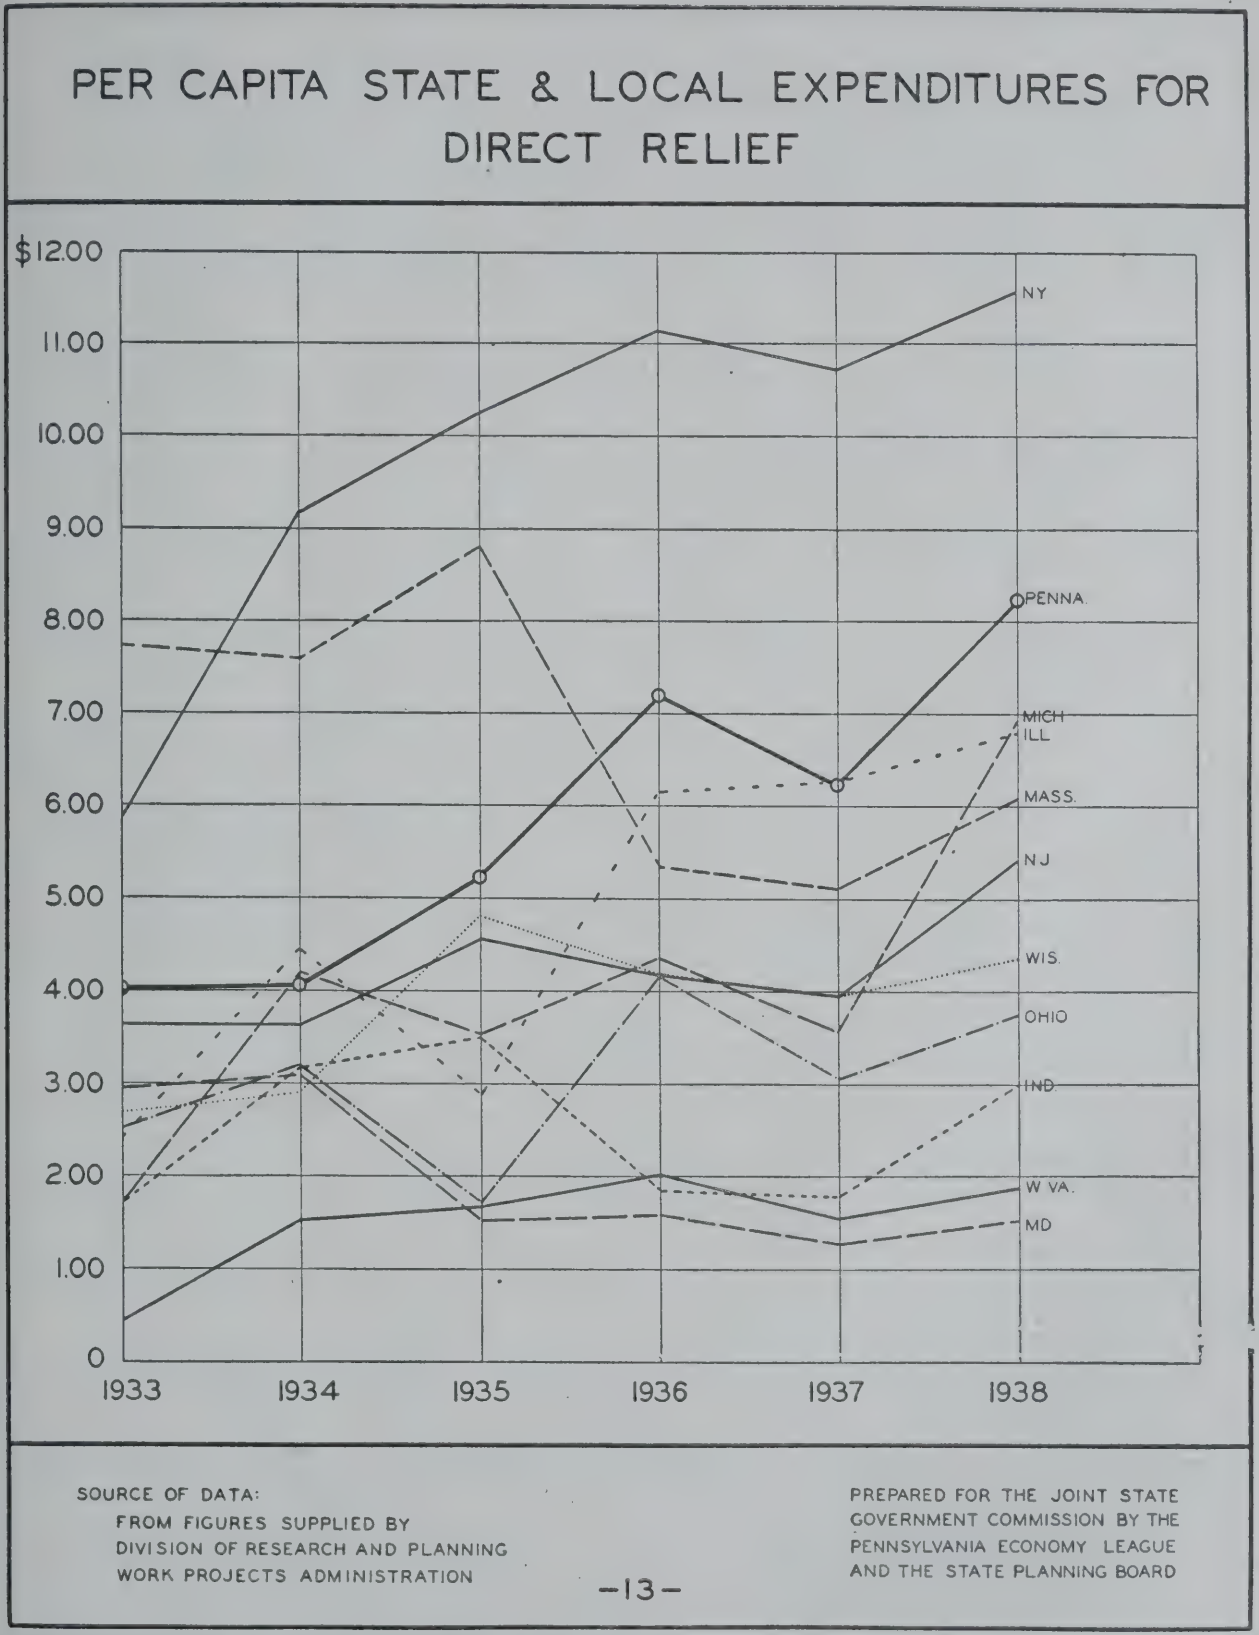
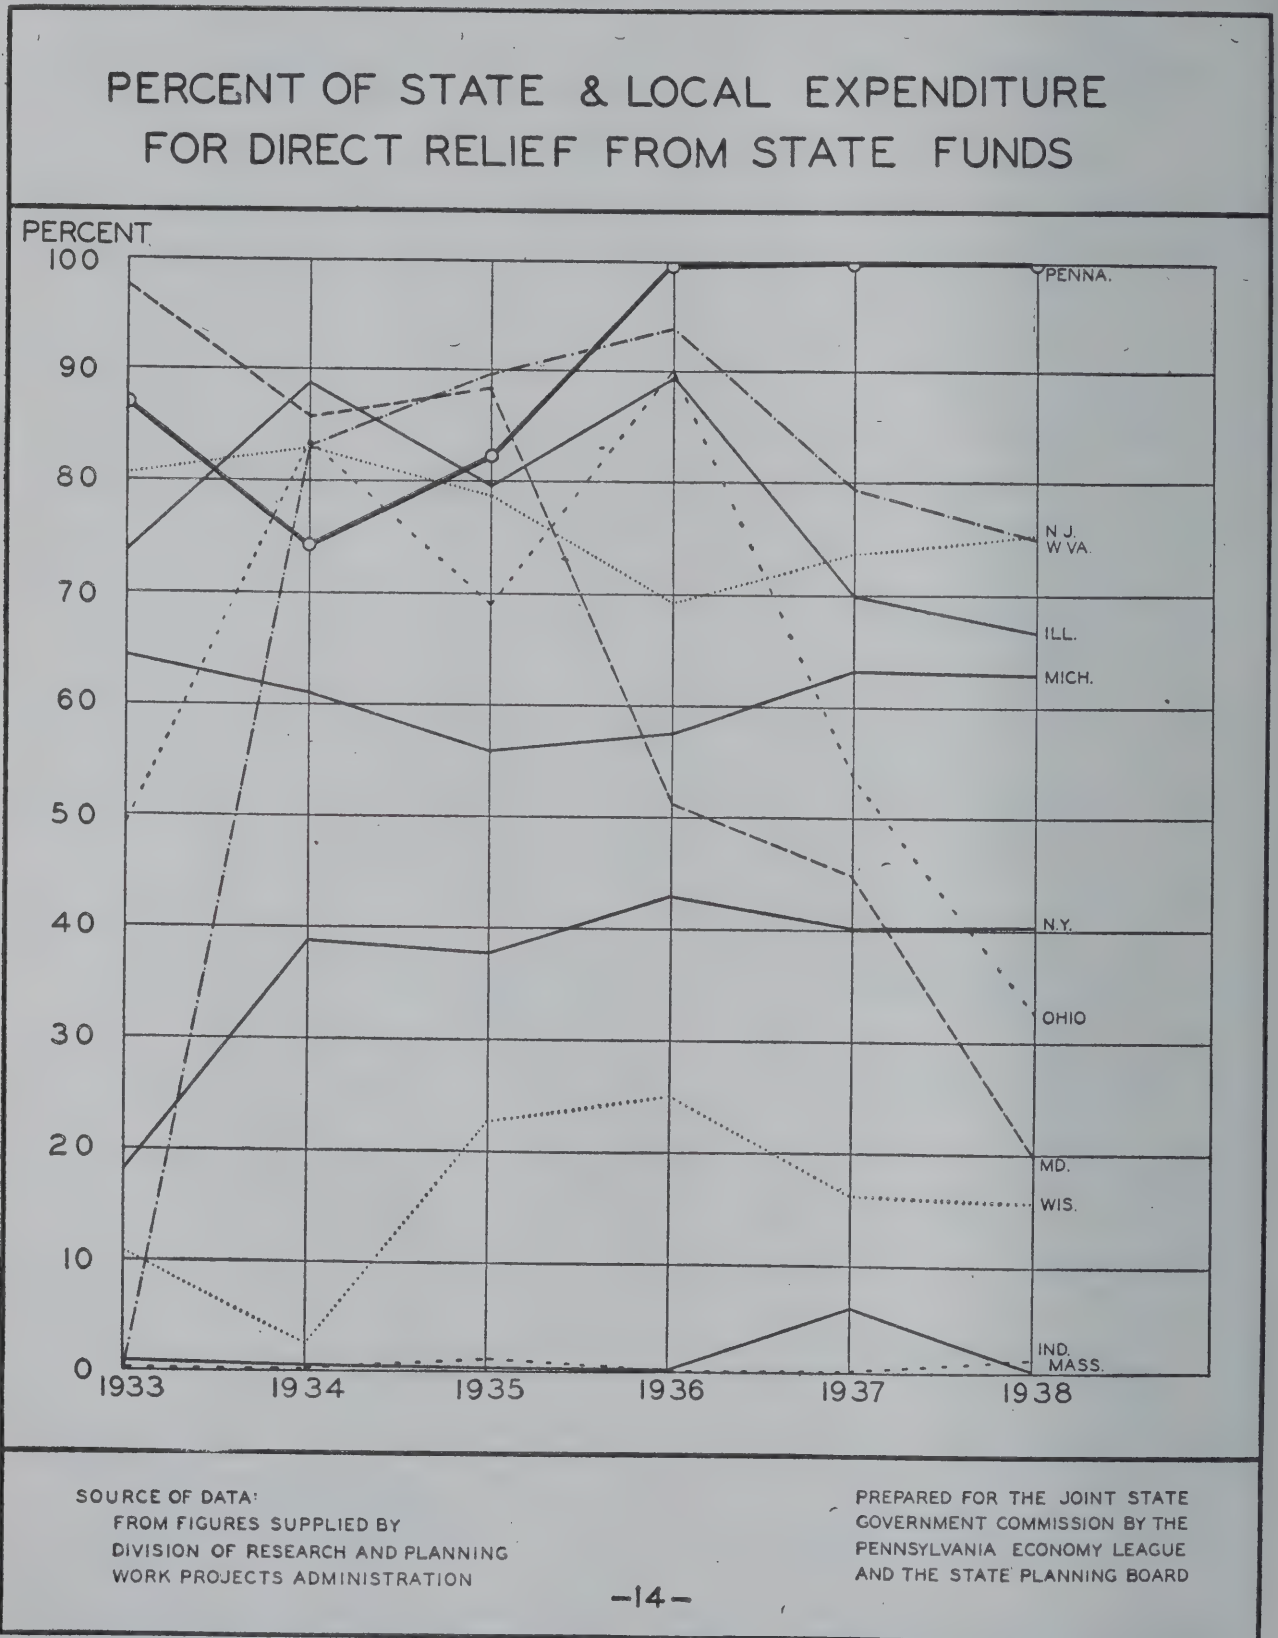
-12-

PER CENT OF STATE AND LOCAL EXPENDITURE FOR DIRECT RELIEF FROM STATE FUNDS (Chart 14—Table XXXV)

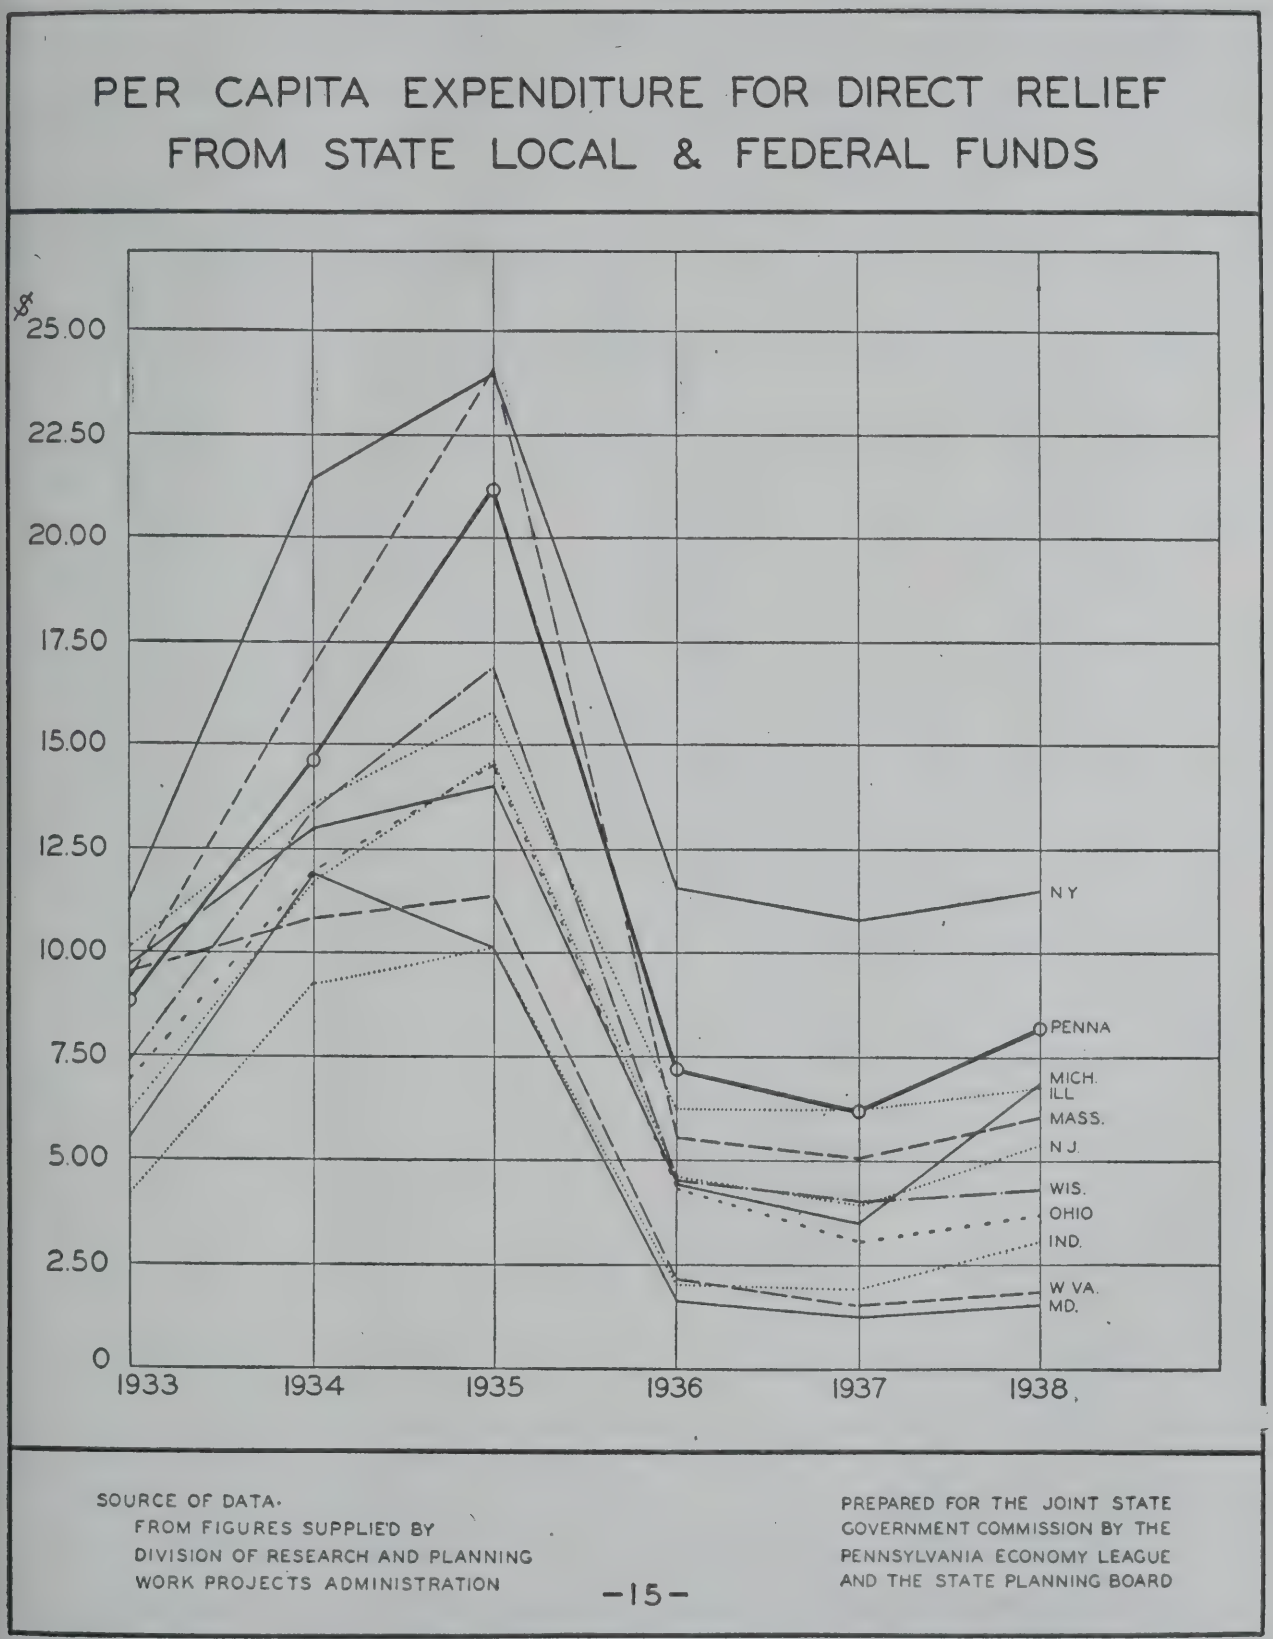
Pennsylvania is the only one of the states compared which has assumed the whole state and local cost of direct relief. It is not entirely safe, however, to attempt to draw



accurate comparisons between the states as to the division of direct relief costs between state and local governments from the date available because of the effect on the data of relatively unimportant changes of policy from state to state and from time to time. For instance, Massachusetts, which appears on the chart to have placed the

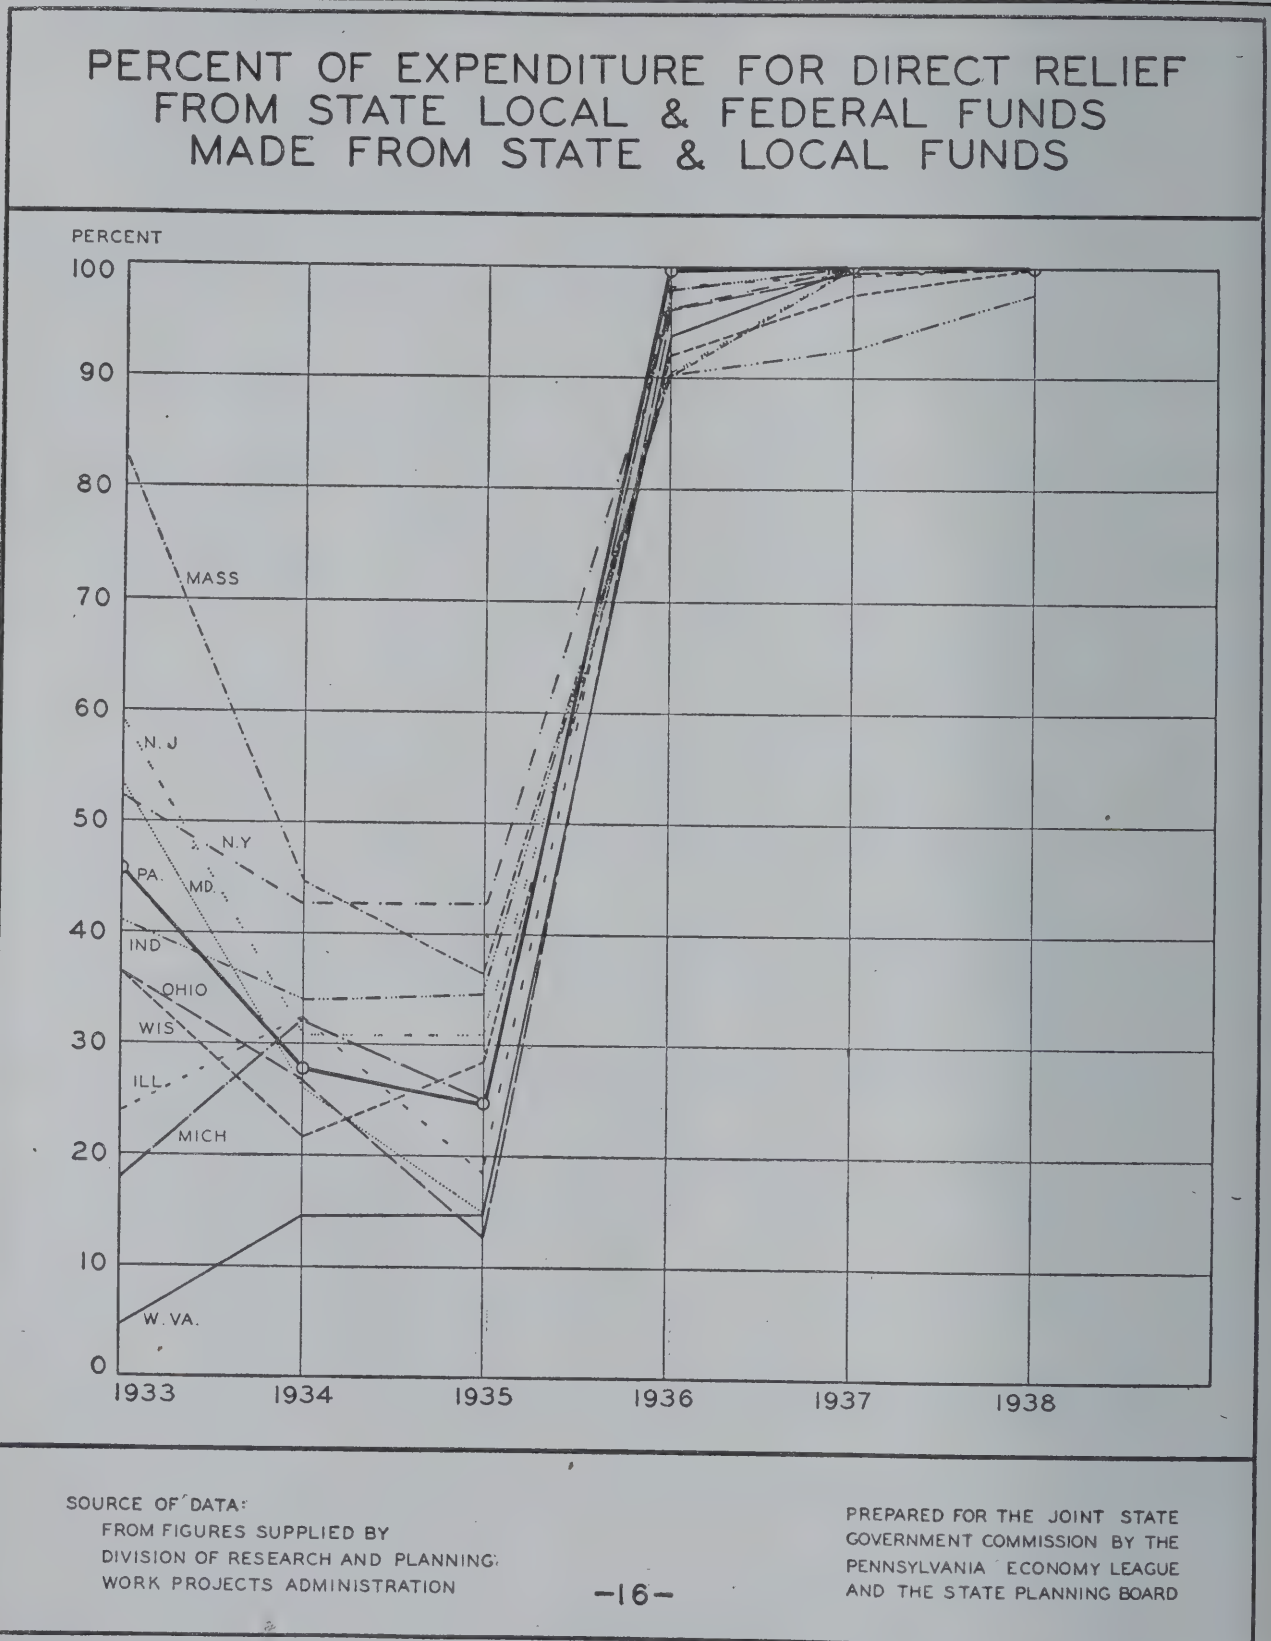


whole burden of relief on the municipalities, has in fact carried a large share of the burden through a state income tax, the proceeds of which are returned to the municipalities. Similarly in Ohio the state has reduced the proportion of direct relief paid from state subsidies but has at the same time greatly increased both the amount and pro-



portion of state taxes which are returned to local governments.

This chart does not reflect the degree of state control of direct relief. In New York where the state pays roughly 40% of the cost, relief is locally administered but under very strict state supervision as to eligibility of recipients,



amount of grant per case, et cetera, under pain of losing the state reimbursement. In Ohio, on the other hand, where the state has paid much more than 40% of the cost, the degree of state control over eligibility and grants appears to be negligible.

There is no apparent correlation between the state share and the per capita state and local expenditure for direct relief. Never less than five, and during most of this period,

seven states paid a greater share of state and local cost than did New York, which had the highest per-capita cost. Pennsylvania, however, which ranks high in state share, also ranks high in per-capita, but Massachusetts, which on the whole has a higher per-capita expenditure than Pennsylvania, ranks very low in state share of expenditure.

EXPENDITURE FOR DIRECT RELIEF FROM STATE, LOCAL AND FEDERAL FUNDS (Chart 15—Table XXXVI)

In chart 15, the per-capita expenditure for direct relief from state local and federal funds is shown. The sharp rise in direct relief expenditures from 1933 to 1935 reflects the entrance into the direct relief field of the federal government through F.E.R.A. and the sharp drop from 1935 to 1936 results from the withdrawal of the federal government from direct relief coincident with the inauguration of the present W.P.A. program late in 1935. During the years 1933-35 the disparity in per-capita state and local direct relief expenditures (Chart 13) between Pennsylvania, New York and Massachusetts is greatly reduced when federal funds are included, indicating that Pennsylvania in this period received a greater proportion of federal funds than the other two states. Likewise, when federal funds are included, Pennsylvania exceeds Illinois and Michigan in per-capita expenditures for direct relief in 1934 whereas on the basis of state and local funds Pennsylvania was below them in 1934.

In per-capita expenditures for direct relief from state, local and federal funds Pennsylvania starts in sixth place among the states in 1933, moves into third place for 1934 and 1935 and then into second place in 1936. It fell to a very close third in 1937 and then moved back into second place in 1938. For all the states 1936, 1937 and 1938, with only very slight variations, are the same on this chart as the 1936, 1937 and 1938 portion of Chart 13—"Per Capita Expenditure from State and Local Funds."

The range between the states in per-capita expenditures for direct relief from state, local and federal funds is astonishing. In New York, ranking first, the expenditures were from two to eight times as much per capita as the state ranking eleventh in various years and in Pennsylvania expenditures were from one and a half to more than five times as much per capita as in the low state. At the high point in 1935, in three states, New York, Massachusetts and Pennsylvania, expenditures were more than twice as much per capita as in the two lowest states, Maryland and Indiana.

PERCENT OF EXPENDITURES FROM STATE, LOCAL AND FEDERAL FUNDS MADE FROM STATE AND LOCAL FUNDS (Chart 16—Table XXXVI)

This chart expresses the division of cost between state, local and federal as a percent of total expenditure and at the same time reflects the wide divergence of federal participation in direct relief expenditures from state to state.

On this chart Pennsylvania occupies a middle position. Over the three year period 1933-35 when F.E.R.A. was active, Pennsylvania paid a greater portion of its direct relief bill than did West Virginia, Michigan, Illinois, Wisconsin and Ohio but paid a smaller portion than Massachusetts, New York, New Jersey and Indiana.

The divergence between states is however very substantial. In 1933 the range is from Massachusetts, where state and local governments paid 82.3% of all direct relief, to West Virginia, where they paid only 4.6% in that year. In 1934 Massachusetts again led, state and local governments paying 44.7% and West Virginia is low, state and local governments paying only 14.2% of all direct relief, a difference of 30.5%. 1935 tells a similar story, but with different states at the extremes—New York and its political subdivisions provided 42.7% of direct relief costs, while Ohio and its local units provided only 12.6%, or a variation of 30.1%. There appears to be no reason for the wide differences between the states in the percent of direct relief expenditures made from state and local funds in 1933, 1934 and 1935. Pennsylvania, for instance, paid a smaller percentage of its total direct relief cost than either Indiana or New Jersey which had lower per-capita costs but it also paid less than Massachusetts and New York which had higher per-capita costs.

The fact that a few of the states continued to spend federal money for direct relief in 1936, 1937 and 1938 resulted from balances of previously allocated funds being available and not from any further contribution by the federal government.

PART IV

RELIEF EXPENDITURES IN RELATION TO TAX RECEIPTS

In the previous section of this report annual relief expenditures of the states have been compared on a per-capita basis. In this section the comparison is somewhat changed, the states being compared on the basis of the relation which relief expenditures bear to total tax collections. Like all computations based on two variables the percent of taxes used for relief may be high in any state either because of large relief expenditures or because of small tax collections. The tax collections used here are the sum of state and local tax collections and the relief expeditures include both state and local expenditures.

PERCENT OF STATE AND LOCAL TAXES USED FOR DIRECT RELIEF, SPECIAL CATEGORIES AND W.P.A. SPONSORSHIIP (Chart 17—Table XXXVII)

The precent of total state and local taxes used for categories and sponsorship of W.P.A. projects has a much smaller variation between the states than does the percent used for direct relief. As a result the inclusion of categories and W.P.A. tends to bring the states much closer together.

	1938 % Used for Direct Relief	Rank	% Used for Categories and W.P.A.	Rank	% Used Total	Rank
PENNA.	14.1	1	8.9	9	23.0	1

RELIEF EXPENDITURES FROM DIVISION OF STATISTICS WORK PROJECTS ADMINISTRATION

PREPARED FOR THE JOINT STATE GOVERNMENT COMMISSION BY THE PENNSYLVANIA ECONOMY LEAGUE AND THE STATE PLANNING BOARD

Difference between 1 & 9	8.1	3.4	6.2

The rank of the states in percent of taxes used for special categories and W.P.A. sponsorship in 1938 is almost the reverse of the rank in percent used for direct

relief. The four high ranking states in percent used for Direct Relief have in each case a lower rank in percent used for Categories and W.P.A. and, with the exception of Illinois, all rated in the lower half in percent of taxes for Categories and W.P.A. Two states hold the same rank at 5 and 8 but all the others in the lower half in percent used for direct relief have higher ranking in percent used for categories and W.P.A. Pennsylvania ranks first in percent of taxes used for direct relief and ninth in percent used for categories and W.P.A. in 1938, again emphasizing the fact that most of the other states have put proportionately greater emphasis on special categories and W.P.A. sponsorship than has Pennsylvania.

Pennsylvania has shown a consistent upward trend in total taxes used for all forms of relief except for the year 1937. If the shift in fiscal years in relation to calendar years, discussed in connection with percent of state and local taxes used for direct relief (Chart 18), is made, the sharp upward movement from 1935 to 1936 would be toned down and the slight downward movement from 1936 to 1937 would be eliminated so that the trend would show an almost constant upward movement with some acceleration from 1935 to 1936 and 1937 to 1938.

All of the eleven states had an increase in percent of taxes used for direct relief, categories, and W.P.A. from 1933 to 1938—some at a greater rate than Pennsylvania, and others at a lesser rate. Pennsylvania, however, has never ranked lower than third and in all but one year ranked first or second. If, however, tax collections were adjusted to meet more closely the period for which expenditures are shown, Pennsylvania would probably rank first only for the year 1938.

PERCENT OF STATE AND LOCAL TAXES USED FOR DIRECT RELIEF (Chart 18—Table XXXVII)

The rank of any state on this chart may be very greatly affected by fiscal and other policies not involved in relief. For instance, Pennsylvania may hold its high rank either because relief expenditure is high or because its tax collections are relatively low. On the other hand, New York State, which also ranks high on the chart, is known to have a considerably higher tax collection than Pennsylvania but its rank is still raised above normal by the policy followed in financing the local share of relief from bond issues which increases the relief expenditures without increasing the tax collection.

The sharp dip in the Pennsylvania curve for the year 1937 needs a further word of explanation. There are two elements involved—(1) a reduction in relief expenditure for the calendar year 1937 and (2) a large increase in tax collections for the 1936-37 fiscal year, the first year of emergency taxes. The fiscal year 1936-37, however, more closely approximates the calendar year 1936 when relief expenditures were high. If state tax collections are backed up one year—using 1936-1937 state tax collections against 1936 relief expenditures and similarly for other years, we get the following results:

PERCENT OF TAXES USED FOR DIRECT RELIEF

	As plotted in Chart 18	As Adjusted	Fiscal years collection used in adjustment State	Local
1933	9.2	9.6	1933-34	1933
1934	9.8	9.5	1934-35	1934
1935	11.9	10.9	1935-36	1935
1936	14.9	12.4	1936-37	1936
1937	10.8	10.7	1937-38	1937
1938	14.1	14.9	1938-39	1938

In other words, the data for relief expenditures and for taxes are not for identical periods and some degree of distortion results in every state except Ohio where the fiscal year is the calendar year for which relief expenditures are reported.

In spite of the limitations on the accuracy of the computations on which this chart is based it is apparent that since 1933 Pennsylvania has consistently spent a large and growing proportion of its total state and local tax receipts for direct relief, in spite of a rapid increase in taxes. Of the eleven states used here Pennsylvania ranked:

1933—second	1936—first
1934—third	1937—second (tie with Illinois)
1935—second	1938—first

Nine of the eleven states spent a higher percentage of state and local taxes for direct relief in 1938 than they did in 1933. Four of these nine states, Ohio, Indiana, Wisconsin and New Jersey, had only very slight increases and a fifth one—West Virginia—while it had an increase, made the whole increase from 1933 to 1934 and has held constant since that time. All five of these states spent a comparatively small part of their tax receipts for relief both at the beginning and end of the period. They ranked, of the eleven states:

	1933	1938
Indiana	9	9
Ohio	5	6
New Jersey	7	8
West Virginia	11	10
Wisconsin	8	7

indicating that all except Ohio fell in the lower half in both periods.

The four remaining states of the nine which show increases in percent of taxes for direct relief—Pennsylvania, New York, Illinois and Michigan—had relatively sharp increases in the percent of taxes used for direct relief despite the fact that all save Michigan had relatively great increases in tax receipts.

Two states, Maryland and Massachusetts, showed an actual decline in percent of taxes used for relief. In Massachusetts the drop was from first place at 11.8% to fifth place at 8.3% and in Maryland from fourth place at 6.7% to eleventh place at 2.9%. In both states the reduction of percent of taxes for direct relief is accompanied by a sharp curtailment of relief expenditures, rather than by any sudden change in tax receipts although both states did have a steady increase of tax receipts throughout the period.

* Case load estimated through January 1939 by dividing estimated expenditure by the dollars per case average of the five months February to June 1939 for which case data was reported by the State Emergency Relief Board. July to October 1939 estimated in Social Security Bulletin. November and December 1939 similarly estimated.

† Federal participation commences.

APPENDIX II

SOURCES OF DATA

TABLES I, II, AND III

The figures from which these tables were prepared were furnished by the Bureau of Research and Statistics of the Department of Public Assistance. In the preparation of these tables we have taken the average of the monthly figures for each quarter in order to simplify the plotting of the charts (Nos. 1, 2 and 3) based on this information. Two inconsistencies in the figures in these tables should be noted. Table I includes expenditures on N.Y.A. work projects (but not student aid) while no corresponding case or person figures are included in Tables II and III. Table I, under the heading Local Work Programs, includes expenditures for materials and supplies as well as wages of relief labor in the second and third quarters of 1934, whereas all other figures in Table I include only the amount received by the relief recipient either in cash or in kind. Since the preparation of Table I and Chart I, the Department of Public Assistance has revised its figures on Local Work Programs to show only the relief wages. This adjustment would reduce the figures shown in the table for local work programs during the two quarters affected as follows:

Year	Quarter	Figure Quoted	Relief Wages Only
1934	2	3,993,796	2,565,872
	3	1,632,543	1,192,763

TABLES IV-XXXIII

Tables IV to XI, inclusive, are based on computations made from the information contained in Tables XII-XXXIII. Tables XII to XXII show the expenditures by states and by months for General Assistance (including Local Work Programs, if any), Federal Work Programs, and Special Categories. The expenditures used here purport to be the amount of relief granted, excluding the cost of administration, materials and supplies, burials, medical aid and other incidentals. Tables XXIII to XXXIII show by states and by months the number of cases receiving relief under any of the programs covered here.

General Assistance expenditures for the period, July, 1933 through December, 1935, were taken from an undated publication of the Federal Emergency Relief Administration, prepared under the direction of T. E. Whiting, entitled "Statistical Summary of Emergency Relief Activities January, 1933, through December, 1935," Table 6 of which is headed "Amount of Obligation Incurred for Emergency Relief Extended to Cases Under the General Relief Program, by States, July, 1933 through December, 1935." Case figures for this period were taken from the same publication Table 4 of which shows "Number of Cases Receiving Emergency Relief under the General Relief Program' by States, July 1933 through December 1935." Data on General Assistance for the period, January 1936 through March 1937, was taken from tabulations prepared by the Division of Statistics, Works Progress Administration, dated June 6, 1939. The figures in these tabulations are a final revision of those originally published in April 1938 under the title "General Relief Statistics for the Fifteen Month Period, January 1936 through March 1937." These tabulations, entitled respectively, "Obligations incurred for General Relief Extended to Cases in Individual States, by Sources of Funds, January 1936 through March 1937" and "Number of Cases Receiving General Relief in Individual States, by Months, January 1936 through March 1937." It should be noted that these latter titles say "General Relief" instead of "Emergency Relief Under the General Relief Program," and are therefore somewhat more inclusive than the earlier tables. For an explanation of the differences see the foreword to the publication covering the 1933-35 period. For the period from April 1937 through December 1938, General Assistance figures were supplied by the Division of Public Assistance Research, Bureau of Research and Statistics, Social Security Board in the form of typed tables dated September 18, 1939 and apparently on the same basis as the 1936-37 figures supplied by the Works Progress Administration. For the year 1939 General Assistance figures were taken from the monthly tables published in the Social Security Bulletin, a publication of the Social Security Board.

Throughout, the expenditure figures are reported on

the basis of obligations incurred rather than on the basis of the date the bills were actually paid. The case figures represent in each instance the whole number of cases receiving relief at some time during the month rather than the average number receiving relief during the month. This causes an overstatement of the relief load at all times and the degree of overstatement varies with the case turnover.

The Federal Work Programs figures for the period from November 1933 through July 1934 were taken from "An Analysis of Civil Works Program Statistics" published by the Works Progress Administration in June 1939. The case figures differ from others used in the accompanying tables in that they are the number of persons employed during the week ending nearest the middle of the month rather than the average number employed during the month or the total number of different persons employed at any time during the month. This case count is not closely geared to the earnings of persons employed under the program as evidenced by wide and in some cases preposterous fluctuations of earnings per case per month and in several cases reported earnings with no reported employment. In this latter case an employment figure has been supplied by taking average monthly earnings for the state during months where both employment and earnings are reported and dividing it into the reported earnings.

For the period from August 1935 through September 1939 the Federal Work Programs figures were taken from mimeographed tabulations distributed by the Work Projects Administration showing the earnings of persons employed on projects operated by W.P.A. and the average number of persons employed on such projects during each month. Three factors need comment in connection with these figures:

1—Both the employment and earnings figures include some amount of non-relief labor which properly should be excluded from the tables but which cannot be segregated from any figures available. The figures do not, however, include any administrative personnel or expense.

2—The figures are restricted to projects operated by W.P.A., whereas there are in most states a few projects operated by other Federal Agencies with W.P.A. funds which should be included in the tables. It can only be hoped that this exclusion roughly offsets the inclusion of non-relief labor already mentioned.

3—The employment or case figures used here are the average number employed arrived at by averaging the number of employes appearing on each payroll for a pay period ending within the month. These figures are not therefore overstated as are the General Assistance and Special Categories cases. There is, however, the possibility that more than one person from the same family or general assistance case is employed under the Federal Works Program at the same time which would tend to overstate the W.P.A. case load in terms of comparable units and perhaps to some degree offset the known overstatement of the general assistance case load.

For the three months, October through December 1939, exactly similar figures were supplied in a typed tabulation dated February 27, 1940, prepared by the Work Projects Administration, Division of Statistics.

Special Categories payments to recipients were supplied by the Division of Public Assistance Research, Bureau of Research and Statistics, Social Security Board for the period from January 1936 through December 1938 in the form of typed tabulations. During this period payments are reported whether the state plan was approved for Federal participation or not. Case figures for the period from February 1936 through June 1938 were taken from the appendices to the First, Second, and Third Annual Reports of the Social Security Board where, however, cases are reported only for those states and categories in which there was Federal participation. Cases from July 1938 through December 1939 and payments for the year 1939 were taken from the monthly tabulations appearing in the Social Security Bulletin published by the Social Security Board. The Social Security Bulletin reports only those states and categories approved for Federal Participation. As a result of the method of presentation by the Social Security Board, payment figures for the year 1939 for some categories in some states are not available. In another section of the Social Security Bulletin, headed Statistics by States, there is an estimate to the nearest thousand of the cost of all three special categories even though not approved for Federal participation. This figure has been used as the total for the special categories where any category was not otherwise reported and if only one category was not otherwise reported, the difference has been taken between this total and the reported categories as the amount of payments for the unreported category except in the case of Pennsylvania where the actual state reported figure for Blind Pensions is used to supplement the categories reported in the Social Security Bulletin. In the section of the Social Security Bulletin, headed Statistics by States, are found estimates of the case load on categories not approved by the Social Security Board which have been used for the year 1939 except in Illinois for the period February to June 1939 where what appeared to be a better figure is found in the State Emergency Relief Board reports, and Pennsylvania where the figures were supplied from tabulations prepared by the Department of Public Assistance. For the period prior to 1939 wherever case figures are not reported the number of cases has been estimated by applying to the reported payments the average payment per case of the first six months for which cases are reported.

Many states had one or more well-developed categories prior to 1936 but it was found necessary to exclude all categories prior to 1936 since it was found to be impossible to get any reliable figures by months for either payments or cases in enough states to make comparisons of any value.

TABLE XXXIV

The Direct Relief expenditures used in Table XXXIV were supplied by the Division of Statistics W.P.A. in typewritten tables dated September 11, 1939 and September 28, 1939. According to the footnote on those tables the figures include "relief extended to cases under the general relief program, cost of administration and special programs: beginning April 1934 these figures also include purchases of materials, supplies, and equipment, rental of equipment, earnings of non-relief persons, and other costs of the emergency relief program."

The Special Categories expenditures were estimated by

taking the total payments to recipients for each year as set forth in Tables XII-XXII and deducting the payments from the Federal treasury for Federal participation in payments to recipients as reported in the Annual Reports of the Social Security Board. The annual reports, however, cover only the period down to June 30, 1938 and for the remaining six months the Federal participation has been estimated on the basis of the participation during the first six months of 1938. For an explanation of the omission of categories prior to 1936, see the comments in this appendix on Tables XII-XXXIII.

State and local expenditures for the sponsorship of Federal Work Projects were furnished by the Bureau of Research and Statistics of W.P.A., in the form of mimeographed tables entitled "State by State Comparison of State and Local Funds Used for Direct and Work Relief—," comprising tables 7-12 of a larger but unnamed report, with a covering letter dated September 11, 1939.

TABLES XXXV AND XXXVI

The Direct Relief expenditures shown in Tables XXXV and XXXVI were taken from the tabulations supplied by the Division of Statistics W.P.A. used as the source of Direct Relief expenditures in Table XXXIV.

TABLE XXXVII

Direct Relief expenditures used in this table are the same as those used in Tables XXXIV-XXXVI and the expenditure for direct relief, categories and share of W.P.A. is the amount arrived at in Table XXXIV. Tax collection figures used here are estimates published by the National Industrial Conference Board for the years 1933-37, inclusive. For 1938 tax collections were estimated, based on the method of distribution between state and local taxes used by the Conference Board applied to collection figures obtained from state financial reports and the December 1938-January 1939 issue of "Tax Policy" published by the Tax Policy League, 309 E. 34th Street, New York City. (Vol. VI Nos. 2-3). Collections of local taxes are not available for the year 1938; from the 1937 local collections reported by the Conference Board, there was deducted the state collected locally shared taxes of 1937 and then the 1938 collections of the same taxes were added back to secure the figure used for 1938 local collections. For Massachusetts neither state nor local collections are available for 1938 and the 1937 collections were repeated.

GENERAL NOTE ON POPULATION FIGURES

Throughout all of the tables wherever population figures are used they are estimates published by the census bureau. For each of the years 1933-37, inclusive, the estimate as of July 1 of the respective years was used for the whole year. Since July 1, 1937 the census bureau has made no new estimates by states and, therefore, the July 1, 1937 estimate was used for all subsequent years.

RELIEF IN THREE SOUTHERN STATES COMPARED WITH PENNSYLVANIA

In an earlier study, "Relief in Pennsylvania and Ten Other States," a comparison was made of eleven states east of the Mississippi River. All but Maryland and West Virginia were north of the Mason-Dixon line. It was the intention at that time to make comparison with neighboring and industrially competitive states. It has often been recognized that the relief problem in the south is not properly comparable with that in the north. The question of the extent and nature of the diversity in relief in the south as compared with the north has been raised and it is in reply to that question that this supplemental study has been made comparing relief in Alabama, North Caroline, and Texas with relief in Pennsylvania.

The comparisons made here are similar to those made in Part II of the earlier study. The sources of data and the treatment of the data are identical with the sources and methods used in the earlier study.

ALL TYPES OF RELIEF—CASES PER THOUSAND POPULATION

In overall case load per thousand population, the three southern states used here follow the general pattern found in the overall case load of eleven northern states but at a lower level. Texas shows a sharp increase in relief cases from the spring of 1936 to the spring of 1937 similar to that in Illinois, but contrary to the general downward trend.

The total case load per thousand population at the low point in the summer and fall of 1937 was 9.4 in North Carolina, 12.8 in Alabama, and 26.4 in Texas, as compared with 42.7 in Pennsylvania. At the high point late in 1938, the overall case loads per thousand population were: North Carolina 29.6, Alabama 30.7, and Texas 38.6, as compared with Pennsylvania which had 63.04 cases per thousand population. If the three southern states were added to Chart 4 of the earlier report, both Alabama and North Carolina would appear consistently below the Maryland line which was the lowest on that chart, and Texas would appear from 5 to 7 cases per thousand above the Maryland line, but below that of any other state shown in the chart.

GENERAL ASSISTANCE—CASES PER THOUSAND POPULATION

In general assistance cases per thousand population, the southern states show a still greater variance from Pennsylvania than in overall cases per thousand. Alabama and Texas show sharp decreases in the number of general assistance cases per thousand population during the first six months of 1936, occasioned apparently by the transfer of cases to the special categories and particularly to old age assistance. North Carolina shows a similar decrease for the same reason, but not until the third quarter of 1937. After the special categories got under way in these three states, the number of cases per thousand population receiving general assistance never exceeded 2.6 as compared with a range of from 14.76 to 31.35 cases per thousand population in Pennsylvania during the same period. Since July 1936 the general assistance cases in Alabama have exceeded one case per thousand population in only two months—July and August 1938—when it rose to 1.4 and 1.3 respectively. Since August 1937, the general assistance cases per thousand population in North Carolina have ranged from 1.4 to 2.2. The range in the state of Texas was from 1.4 cases to 2.6 cases per thousand population in the period from July 1936 through December 1939.

The general assistance case loads in all three of the southern states studied have been so small that it is virtually impossible to tell from an ordinary chart whether the minute variations from month to month follow the

general trends shown in the comparison of relief loads in the northern states. Comparison on a logarithmic chart showing the rate of change from period to period would establish the similarity or dissimilarity of the trends but such a comparison becomes meaningless when it is realized that an increase of 2,600 cases, or from 0.4 to 1.4 cases per thousand population, from August 1937 to August 1938, represents more than a trebling of the general assistance case load in Alabama, while in Pennsylvania during the same period there was an increase of 68,000 cases, or more than 6.5 cases per thousand population, but that this increase amounts to only 40% of the August 1937 case load.

FEDERAL WORK PROGRAMS—CASES PER THOUSAND POPULATION

In W.P.A. cases per thousand population the three southern states conform very closely to the general pattern found in the previous study of eleven northern states, but on a generally lower level. The W.P.A. cases per thousand in the three states here under consideration, if plotted on the similar chart (6) in the earlier study, would fall in the area between the Maryland line and the lowest of the ten other states except for Alabama, which exceeded New York after August 1938, and Pennsylvania after July 1939; and Texas, which exceeded New York after August 1939.

The following tabulation shows the W.P.A. cases per thousand population in the three southern states, as compared with Pennsylvania, New York, and Maryland for January of each year since W.P.A. started, plus September 1939, the recent low point of W.P.A. employment, and December 1939:

	Jan. 1936	Jan. 1937	Jan. 1938	Jan. 1939	Sept. 1939	Dec. 1939
Alabama	16.8	9.8	9.7	20.6	12.9	17.8
Texas	16.5	12.1	10.0	17.1	10.8	14.4
North Carolina	12.3	7.9	7.2	13.7	9.1	11.6
Pennsylvania	24.8	22.1	17.0	24.4	11.8	14.0
Maryland	12.4	7.6	6.4	9.0	6.0	7.5
New York	29.0	20.5	14.6	18.5	9.9	11.6

In must be remembered in connection with this tabulation that both New York and Pennsylvania shifted from top rank to a low rank among the eleven northern states in the early months of 1938, as shown in a previous study. It is not surprising, therefore, to find states which had been substantially behind Pennsylvania and New York in W.P.A. cases per thousand population catching up with them in 1939, not so much because of an increase in cases in the southern states as because of the decrease in Pennsylvania and New York.

PER CENT OF CASES ON FEDERAL WORK PROGRAMS

In per cent of the total case load carried by W.P.A. the three southern states start in a very high position because of the almost complete absence of cases on general assistance and the special categories. Alabama continues in this very high position throughout the years 1936 to 1939 inclusive and exceeds any of the eleven northern states included in the previous study. Texas with the very rapid development of old age assistance in the summer of 1936 falls below Pennsylvania in per cent of cases on W.P.A. by the fall of 1936 and thereafter follows the general course of the northern states, catching up with Pennsylvania in the spring of 1938 and going ahead of Pennsylvania in November 1938. North Carolina continued high in per cent of cases on W.P.A. until the summer of 1937 when it very rapidly expanded the special categories. By December 1937, cases on W.P.A. in North Carolina were less than 40% of the total case load and thereafter the per cent of cases of W.P.A. follows that of the higher of the northern states, ranging roughly from five to ten per cent higher than Pennsylvania.

SPECIAL CATEGORIES—CASES PER THOUSAND POPULATION

In both general assistance and W.P.A. cases per thousand population, the three southern states stay fairly close together. In the special categories, however, this is no longer true. Alabama, which had more special category cases per thousand population than the other two in January 1936, has, since December 1937, had considerably fewer. The increase in special category cases per thousand population in Alabama has been relatively slight, (from 3.1 in January 1936 to 8.4 in December 1939), and in December 1939 there were fewer cases per thousand population than in any of the northern states previously studied. North Carolina had almost no special category cases prior to July 1937 (0.1 cases per thousand population), but by July 1938 had 11.3 cases per thousand, and in December 1939 had reached 13.0 cases per thousand population, which is more than the 11.92 in Pennsylvania, 11.86 in New York, and 9.68 in New Jersey. Texas, like North Carolina, had only 0.1 special category cases per thousand population from January to June 1936, but with the advent of old age assistance in July 1936, jumped to 9.8 cases in that month and increased rapidly to a peak of 21.1 cases per thousand population in May 1937. This peak in May 1937 was more than twice the Pennsylvania figure of 10.22 cases per thousand population and was considerably above any of the northern states previously studied. From the peak in May 1937, the number of special category cases per thousand population in Texas receded to 18.0 in March, April and May 1938, to be exceeded by Ohio, and then grew again slowly to 19.6 cases per thousand in December 1939, which was equalled by Illinois and exceeded by Indiana, Massachusetts, Ohio, and Wisconsin. The December 1939 number of cases per thousand on special categories in Texas was approximately 65% larger than the number in Pennsylvania.

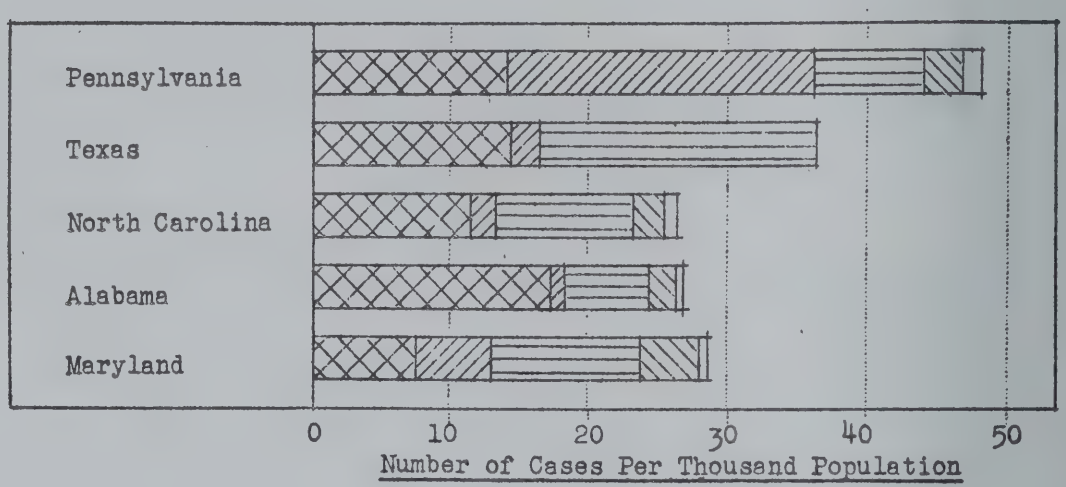
In all three of the southern states, old age assistance stands out as the most fully developed of the special categories. The following tabulation illustrates the relative development of the various categories, as of December 1939:

	Old Age Assistance Cases per 1000 Population 65 years and over	Aid to Dependent Children Cases per 1000 Population 16 years and under	Aid to the Blind Cases per 100,000 Population
Alabama	167	16	19
North Carolina	251	16	56
Texas	423	*	0
Pennsylvania	126	24	124

*Not a federally approved program—there are estimated to be only 103 cases which would be a very small fraction of a case per 1,000 population under 16.

RELIEF CASES PER THOUSAND POPULATION*

December 1939



* Based on estimated population July 1, 1937.

GENERAL ASSISTANCE GRANTS

General assistance grants per case in the three southern states are relatively low. Since 1936, when grants in all the states began to be relatively stable at or near their present levels, the monthly grants have exceeded $10.00 only in one month in one of the three southern states. The grants in North Carolina, since January 1936, have ranged from $5.00 to $6.50 per month, ending at $6.17 in December 1939. In Alabama and Texas the fluctuations have been somewhat greater for the most part between $7.50 and $10.00 per month per case, with an average grant in December 1939 of $9.11 in Alabama and $7.59 in Texas. The Alabama and Texas grants approximate those in West Virginia but are slightly less on the whole,

and are very considerably less than in any of the other northern states, all but two of which had average grants of over $20.00 per month.

FEDERAL WORK PROGRAM EARNINGS

In federal work program earnings per case, the three southern states stay very close together on a level substantially below that in any of the northern states. The earnings per case on W.P.A. have shown a slightly upward trend throughout the whole period 1936-1939. The following tabulation shows the earnings per case in January of each year and December 1939 in the three southern states, in Pennsylvania and in West Virginia, the lowest of the eleven northern states previously studied:

	Jan. 1936	Jan. 1937	Jan. 1938	Jan. 1939	Dec. 1939
Alabama	$26.80	$34.73	$32.65	$35.55	$40.12
North Carolina	24.98	29.46	29.82	33.57	41.10
Texas	27.98	26.85	29.62	32.65	41.01
Pennsylvania	55.64	62.79	60.80	62.35	56.13
West Virginia	39.35	44.12	42.63	43.54	48.81

SPECIAL CATEGORY GRANTS

Grants per case per month on the special categories are, like general assistance grants and W.P.A. earnings, lower in the southern states than in any of the northern states. Alabama and North Carolina have stabilized their grants at about $11.00 per month. In Texas the grants have been approximately $14.00 per month except for the last three months of 1939 when the average grant fell to $8.60 a month.

SUMMARY

In summary it appears that the southern states have fewer cases per thousand population receiving relief than the northern states and that the grants per case are less. In general assistance the southern states are far behind the northern states both in cases per thousand population and in grant per case. In W.P.A. the southern states are behind in cases per thousand population and in earnings per case, but in per cent of the total case load carried by W.P.A. they are higher than the northern states because of the absence of any sizeable general assistance program. Special category grants are lower in the southern states but one of the three southern states compares favorably with the leading northern states in number of special category cases per thousand population, while another equals Pennsylvania. In all three of the southern states the emphasis has been on old age assistance rather than either of the other special categories.

* Federal participation commences.

FEDERAL SURPLUS MARKETING ADMINISTRATION

When certain types of farm products are produced in such excess as to force prices down to extremely low levels, both farmers and consumers stand to lose.

In an effort to benefit both the farmer, the consumer, and in addition help states provide for their needy citizens, in Pennsylvania the distribution of such commodities is handled through the Department of Public Assistance.

The program began operation in Pennsylvania in 1933 and during the past three years, 1938, 1939, to October 31, 1940, forty-four commodities with a retail value of more than $15,000,000 have been distributed by the Department.

Under this program surplus foods are purchased by the Federal department at points where surpluses exist and are transported and furnished free of charge to the states for distribution to eligible persons certified by the Department.

During the same period (1938-1940) the Department spent more than $750,000 to defray the cost of distribution, with nearly 400,000 D.P.A. cases participating including schools, public institutions, and demonstration projects.

Under the Food Stamp plan which is now operating in several Pennsylvania localities, 50 cents worth of blue stamps are given free for each $1.00 worth of orange stamps purchased by eligible persons.

With the single present exception of Philadelphia (only D.P.A.), both D.P.A. and W.P.A. eligibles are permitted to buy food under the stamp plan in the various sections where it is operating.

FROM DENT REPORT—1939

"The conclusion the commission draws from this section of its report is that the burden of corporation state taxes, and particularly on the capital of corporations, is heavier than in most other states, that this burden adds to the difficulties of operating industries in Pennsylvania at a profit, tends to eat up the working capital of business, retards the development of industries located here, and acts as a deterrent to the location of new industries in this state."

PRELIMINARY REPORT OF THE JOINT COMMITTEE TO INVESTIGATE THE DISTRIBUTION OF PUBLIC RELIEF THROUGHOUT THE COMMONWEALTH PURSUANT TO HOUSE RESOLUTION No. 110, 1935

LOCAL CONTROL

One of the chief defects in the present system, is the lack of responsible, efficient control in a local board or director in each of the several counties or areas in the State. Employment relief in these areas has been conducted under various branches such as the Division of Direct Relief, the Works Relief Division, the Financial Division, Disbursing Office, the Employment Bureau, etc. In the past there has been a lack of coordination between these divisions each operating separately under various rules and regulations promulgated from Harrisburg and Washington and without any one locally having authority to bring them into cooperation. As the conditions in the several counties and areas differ widely it is wholly impossible for uniform rules to apply satisfactorily. The result is necessarily confusion, inefficiency and waste, and what was intended for equality becomes gross inequity. One of two examples may be sufficient to illustrate this condition. For instance, relief checks have been mailed to persons for weeks after such recipients have been reported by employers or others to have been given employment. This is due to the fact that such information must go around-about course from system of files and cards so that a long time elapses before the paymaster obtains the knowledge which stops the taxpayers' money from going where it is not needed.

Again by reason of the fact that a uniform budget system is set up applying to all counties or areas, persons on farms or small tracts of land or in other favorable situations may be given the same relief as those without the aid which these circumstances might have afforded if properly used. Even in the same county, different sections produce different conditions which cannot be met by any standard set of rules.

Relief administration, therefore, in the opinion of a majority of the Committee should be decentralized to a much greater extent than at present and the local boards should be given authority to make such rules as will provide reasonable relief at a minimum of expense to the taxpayers. With such powers there would go, of course, a responsibility for which the boards would be held accountable.

CHISELING

The subject of chiseling was one that was brought to the attention of all the committees appointed to investigate the administration of relief. This term in its narrow sense may be limited to those who deliberately accept relief while having money in bank or elsewhere and those who receive relief checks while fully employed in private business. In its broader sense it may apply to all those who take more relief than needed, to those who fail to aid themselves by planting their farms and gardens and those who in work relief fail to render the service reasonably to be required for their pay.

The number of chiselers in the narrower sense the Committee feels is not so large as indicated in certain of the testimony. However, it is sufficiently large to take a considerable amount of money unlawfully. A few prosecutions of the flagrant offenders in each area should have a wholesome effect in discouraging this form of cheating the public.

The other form of chiseling to which we have referred is more serious in its lasting results. The giving of relief in itself has demoralizing features attached to it. The recipient at first reluctant to accept aid soon comes to feel that the State owes him a living without undue effort on his part. We feel that the attitude of the professional social worker too often encourages the relief worker to assume a position of dependence upon the State. More efficient local control with the employment of investigators who discourage giving relief to all who can help themselves, will have a salutary effect in stopping all forms of chiseling.

SOCIAL WORKERS

In the investigation by the Committee, no criticism occured more frequently than that relating to the type of employes administering relief. Under Federal rules and regulations, the administration of relief has passed to a large extent into the hands of professional social workers and conducted from their point of view. The testimony of the Assistant Administrator of Direct Relief showed the large measure of free play given to the social influence in the whole administration of relief.

Unfortunately many of these persons have been salaried men and women who do not have the viewpoint of the taxpayer who conducts a business with great difficulty to avoid insolvency or who only by most strenuous efforts is able to save himself and family from going on the relief rolls. Everyone desires, of course, to uplift the standard of living of those in want but the danger today from the enormous increase in the cost of relief, is that the whole of society will be precipitated into the same ruin so that the standard of all will be eventually lowered.

The Committee feels that the minimum of relief that will reasonably support the unemployed and take from the overburdened taxpayer as little money as possible in this emergency is the best solution at this time. As the comprehensive report of the House Investigating Committee for Allegheny County puts it "The taxpayer cannot perpetually support one-fourth of the population as a social workers' experimental laboratory."

A common cause of complaint by recipients of relief was the rule requiring that investigators must have a college or high school education and in some cases must pass an oral examination by a "social welfare" supervisor. It was urged that many of those on relief would make better investigators and would save money for the

taxpayers by being taken from the rolls. The Committee feels that too much stress has been laid on the social training qualification and that sound judgment in business and family training qualification and that sound judgment in business and family affairs is more important than a course in college, and that a policy should be adopted for the administration of relief on a basis of sound common sense rather than on a social basis.

WORK RELIEF

Considerable evidence was presented to the Committee indicating that the tangible results obtained through Work Relief were extremely expensive from the taxpayers' point of view. For example, several of the County Relief Investigating Committees presented evidence showing that Public Works Projects in their Counties were costing four to five times the amount of money which private contractors would have charged for the same work. Members of the unemployed groups appearing before the Committee complained about the method of administering such work and themselves pointing out that many of these projects were costing too much money.

Some of the reasons for this were pointed out by one of the auditors in the State Auditor General's Department. He produced evidence to show that on certain Works Projects in Berks County the overhead was running as high as forty per cent of the total cost of the project and that one of the reasons for this high overhead was the fact that foremen, timekeepers, etc. were on a straight salary basis instead of a per diem basis and were paid whether they worked or not. As few of those in a supervisory position come from the relief rolls, these high costs seem to be unjustifiable.

It is hoped that the Auditor General's Department may continue its audits with reasonable promptness as the moneys spent for relief purposes are larger in amount than the expenditures for all other purposes. We recommend that an appropriation be granted sufficient for this work.

The members of the Committee feel that relief projects would be more effective in their accomplishment and work done and in real benefit by submitting the same to contractors to be performed in accordance with general business rules.

As heretofore stated in this report, the committee has not completed its work. We submit this report at this time so that the General Assembly may take further action if it so desires on the whole subject at this Session.

Respectfully submitted,

COMPARISON BETWEEN LOCALLY SUPPORTED WELFARE COSTS OF 1936 AND 1939

IN 1936		
Counties expended for Welfare	$8,577,000	
Poor District expended	14,082,000	
Producing total locally-supported expenditures for welfare of	$22,659,000	
However, counties and poor districts earned and received ..	2,137,000	
Thus, the welfare cost that was locally supported amounted to		$20,522,000
IN 1939		
Counties expended for welfare	$6,655,000	
Institution Districts expended ..	9,808,000	
Producing total locally-supported expenditures for welfare of	$16,463,000	
However, counties and institution districts earned and received	1,766,000	
Thus, the welfare cost that was locally supported amounted to		$14,697,000
FROM 1936 TO 1939		
LOCALLY SUPPORTED WELFARE COSTS DECREASE		$5,825,000

COPY OF LETTER FROM EARLE SURVEY COMMITTEE

Harrisburg, Pa.,
December 16, 1937.

Honorable George H. Earle
Governor, Commonwealth of Pennsylvania
Harrisburg, Pennsylvania

Sir:

Complying with your directions of November 16, 1937, appointing us as a special committee, we have made an investigation of the Department of Public Assistance as to its administration and the provision of relief in accordance with the law of the Commonwealth; also to determine if the expenditures of the department will exceed the amount appropriated by the legislature for the biennium ending May 31, 1939 and, if so, the reason therefor.

We met the day following receipt of your instructions and planned as extensive an inquiry as the allotted time would permit.

We appreciate the significance and importance of this survey, as the administration of relief constitutes one of the most important problems confronting Pennsylvania at the present time. Our investigation was conducted with sincerity and thoroughness and the conclusions, based on the findings of the survey, represent our unbiased and impartial opinion.

Respectfully submitted,

(s) D. M. Livingston
D. M. Livingston, Chairman
Public Utility Commissioer

DEPARTMENT OF PUBLIC ASSISTANCE CLASSIFICATION OF "EMPLOYABLE"

Relief recipients are considered employable by the Department of Public Assistance as classified and registered as employable by the State Employment Service at the time of their application for assistance. However, as pointed out in previous studies of this nature, employability does not lend itself to iron clad definitions. It is virtually impossible to determine the exact point at which the factors of age temperament or apparent handicaps pass from relative disadvantages to complete barriers to employment. In addition, all of these factors which affect a worker's chances of reemployment vary from industry to industry with economic conditions, duration of unemployment, opportunities for retraining and employment rehabilitation. Local and individual characteristics playing an important part. Likewise, the elements of supply and demand in specific labor markets, a factor rapidly assuming a large significance in today's expanding national defense machinery determine to a large extent the employability of an individual worker. Thus, in some areas a surplus of labor may make it impossible for elderly persons with little or no training to obtain employment, whereas in others an expanding industry may create a demand which will absorb the same type of workers. These considerations must be kept in evaluating the possible reduction in the state's relief roll, assistance with increasing employment opportunity.

ADMINISTRATION OF GENERAL RELIEF*

Prepared by

Council of State Governments

Chicago, Ill.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
ALABAMA	State Dept. of Public Welfare	Both State and local funds used for general relief. State and local governments share expenses for relief to unemployables and employable persons on a 50-50 basis.	County departments of public welfare administer general relief under supervision of State Department of Public Welfare. Supervision exercised through visits by field representatives, audits of accounts, and required reporting. Standards of personnel are maintained on both State and county level through qualifications set up by State Board.	Cash relief predominates since State matches only cash payments. Grocery orders sometimes given.
ARIZONA	State Dept. of Social Security and Welfare	State funds used for all general relief except hospitalization and medical care, which must be provided from county medical funds. Amount of local funds used for these services not known.	State Department of Social Security and Welfare administers general relief through its branch county units, which are supervised through visits by field representatives. All records for reports and auditing maintained in State Office. State Commissioner approves appointments of personnel made by county board under merit system. State Commissioner, appointed by State Board, selects the State staff from the three highest on merit rating lists. State prescribes standards of relief. County boards of supervisors administer hospitalization and medical care without State supervision. These agencies do not submit reports to the SDSSW.	Cash relief and relief in kind.
ARKANSAS	State Dept. of Public Welfare	State funds used for all general relief payments except burials, and, in a few instances, small amounts of relief paid by county judges from county funds. Amount of local funds expended not known. State funds allocated to counties are calculated roughly at $6 per case receiving relief during previous month.	County departments of public welfare administer general relief under supervision of State Department of Public Welfare. Supervision exercised through visits by field representatives audits of accounts, and required reporting. County directors appointed by county boards subject to approval of State Board. County judges do not submit reports on relief administered from local funds.	Cash relief to employable persons from State funds; forms of relief to unemployable persons vary among counties.
CALIFORNIA	State Relief Administration and State Dept. of Social Welfare	Both State and local funds used for general relief. Only State funds used for relief to employable persons; only county "indigent" funds used for relief to unemployable persons. April 1939: State funds—80 per cent Local funds—20 per cent of total general relief extended to cases.	State Relief Administration supervises and administers through its local branch offices all general relief to employable persons. Payments made from central office. Supervision exercised through visits by State field representatives, audits of accounts, and required reporting. County boards of supervisors or agencies established and supervised by them adminis-	Cash relief to employable persons from State funds; forms of relief to unemployable persons vary among counties.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
			ter all general relief to unemployable persons without State supervision. County boards of supervisors exercise complete authority with respect to general relief to unemployable persons under terms of State law which provide that counties shall be responsible for aid to "all incompetent, poor, indigent persons and those incapacitated by age, disease or accident." State Department of Social Welfare adjusts residence problems among counties and collects reports from county agencies which administer relief to unemployable persons.	
COLORADO	State Dept. of Public Welfare	Both State and local funds used for general relief. Counties levy taxes for relief purposes and the funds thus obtained must first be used for ADC and AB. Remaining funds may be used for general relief or other purposes, such as tuberculosis assistance, State makes allocations within limits of State funds, pro-rated on basis of county needs estimated from previous months' case load and average grant. Source of funds not available.	County welfare departments administer general relief under supervision of State Department of Public Welfare. Supervision exercised through visits by field supervisors, audits of use of State funds, and required reporting. Directors of county departments are appointed by county boards from lists approved by State board, which prescribes local standards of personnel and gives final approval of appointments by county boards.	Cash relief, grocery orders, and commissary supplies.
CONNECTICUT	Office of Commissioner of Welfare	Both State and local funds used for general relief. Only local funds used for relief to settled cases. State funds used to reimburse cities and towns for relief in cases lacking local settlement in State. Cities and towns bill State quarterly for these cases. April 1939: State funds—25 per cent Local fund—75 per cent of total general relief extended to cases.	Local units administer relief through an elected board of selectmen, a charity commissioner, a superintendent of charities, an elected overseer of the poor, or an appointed town agent. Office of the Commissioner of Welfare supervises administration of relief to cases lacking settlement and must approve bills from cities and towns for reimbursement for these cases, but exercises no supervision over local administration of relief to settled cases. State has no authority over standards of relief and personnel in local units, but many local units have retained workers and budgets established under ERA, which had such standards. State staff selected under civil service rules.	Relief in kind predominates. As a rule only relief in kind is reimbursed under State law. In some instances, cash relief is reimbursed upon special application of towns.
DELAWARE	Old-Age Welfare Commission	Both State and local funds used for general relief on a 50-50 basis.	State Old-Age Welfare Commission administers general relief. No personnel standards for employees are prescribed by State Commission.	Relief in kind in form of grocery orders predominates. Some cash relief given to unemployable persons.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
FLORIDA	State Welfare Board	Only local funds used for general relief.	Local agencies administer general relief. In majority of counties relief is administered by elected county commissioners in some larger counties, by city or county agencies whose administrative officers are appointed by city or county commissioners; in two counties, funds are turned over to county unit supervisor of State Welfare Board. No standards of relief or personnel are maintained. State Board collects general relief reports from local agencies.	Relief in kind predominates.
DISTRICT OF COLUMBIA	Board of Public Welfare	All funds are from Congressional appropriation.	Board of Public Welfare administers general relief through its public assistance division. Director and staff are appointed by commissioners of District from Federal Civil Service registers.	Cash relief predominates; grocery orders sometimes given.
GEORGIA	State Department of Public Welfare	Only local funds used for general relief.	Local agencies administer general relief. In a majority of counties county departments of public welfare are responsible. In these counties personnel is appointed by county boards, subject to qualifications set up by State board and subject to approval by State department. Standards of relief based on uniform budget are maintained. In other counties relief is administered through county ordinaries. No standards of relief or personnel are maintained, but most of these counties submit reports to State Department of Public Welfare.	Cash relief predominates; grocery orders sometimes given.
IDAHO	Department of Public Welfare	Only local funds to be used for general relief after transfer of responsibility to the counties.	Early in 1939 responsibility for general relief being transferred to the counties. Complete transfer and withdrawal of State support not effected by July, 1939.	Cash relief from State funds; emergency relief orders sometimes given from local funds.
ILLINOIS	Illinois Emergency Relief Commission.	Both State and local funds used for general relief. To qualify for State-aid, each local unit must levy a tax of 30 cents per $100 assessed valuation of all taxable property for relief purposes. State allocation is based on assumption that about 75 per cent of this levy is available for year, but if monthly amount is not sufficient to cover relief needs, which are estimated on monthly basis by local unit, State makes up as much of deficit as possible from State funds, the latter being limited to $2,900,000 per mo.	Local units administer general relief under limited supervision of Illinois Emergency Relief Commission. In 84 or 102 counties in State, there are 1,406 townships in which elected township supervisors are responsible for administration of relief. In 17 counties, county commissioners are responsible, and generally appoint one of their members as overseer of poor. In Cook County, commissioner of relief is appointed to administer relief in city of Chicago through Chicago Relief Administration. In 30 townships of Cook County outside Chicago township	Cash relief predominates in Chicago; relief orders predominate in all other local relief units.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief†
			supervisors are responsible. State supervision exercised through staff of financial examiners who are responsible for financial and statistical reports to IERC and through staff of auditors who examine local records for mechanical imperfections IERC does not prescribe standards of relief, personnel, or methods of administration.	
INDIANA	State Unemployment Relief Commission	Only local funds used for general relief. Although a $2,000,000 State appropriation was made, it has never been used.	Township trustees administer general relief without State supervision. Consultation services on problems of administration of general relief is available to townships through State unemployment Relief Commission. General relief reports are prepared by members of SURC staff.	Relief in kind, mostly in form of grocery orders predominates; a few towns have commissaries.
IOWA	State Board of Social Welfare	Both State and local funds used for general relief. As of April, 1939, State Funds —32 per cent; Local Funds —68 per cent of total general relief extended to cases.	About July 1, 1939, the IERA which formerly had responsibility for general relief was combined with the SBSW. No other information available.	Relief in kind, in form of grocery orders predominates; some cash relief; largest county (Polk) has commissary.
KANSAS	State Board of Social Welfare	Both State and local funds used for general relief. Counties advance all funds for relief to cases and are reimbursed for 30 per cent of approved expenditures from State funds. In addition, State funds allocated to counties for emergency purposes amounting to approximately 20 per cent.	County boards of welfare administer general relief under supervision of State Board of Social Welfare. Supervision exercised through visits by field representatives, audits of accounts, and required reporting. County directors are appointed by county boards and county personnel is subject to State approval.	Cash relief and relief in kind in most counties; in one or two counties, relief in kind only.
KENTUCKY	State Department of Public Welfare and Kentucky Emergency Relief Administration (KERA)	Only local funds used for general relief.	Fiscal courts administer general relief in most counties through elected county judges but county is not always administrative unit. In larger cities private agencies and public welfare departments under direction of appointed officers administer relief. A limited number of towns and municipalities also administer relief. State Department of Public Welfare has, by law, authority to supervise administration of general relief, but exercises this supervision only by collection of statistics from most of local units. Kentucky Emergency Relief Administration collects and compiles statistics from a few selected local units.	Relief in kind, in form of groceries and clothing always given except in urban areas.
LOUISIANA	State Department of Public Welfare	Only State funds used for general relief.	Information not available.	Cash Relief

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
MAINE	State Department of Health and Welfare	Both State and local funds used for general relief. Only local funds used for cases with local settlement, except in towns financially unable to support their poor in which State funds are used, principally for support of unemployable persons. Local units advance funds for cases without settlement and are reimbursed quarterly or monthly by State on basis of receipted bills. April, 1939, State Funds—30 per cent; Local Funds—70 per cent for total general relief extended to cases.	Local units administer general relief through overseers of the poor, welfare departments, town managers, except in towns financially unable to support their poor, where State administers relief through Emergency Aid Commission (Emergency Aid Commission was established by order of Governor and Council for this purpose.) Expenditures for unsettled cases which are reimbursed from State funds are supervised through an audit of accounts on basis of which reimbursement is made and through visits by field staff members. No local standards of relief or personnel are maintained. Local officials are elected or appointed State personnel is employed by Commissioner of Health and Welfare with approval of Governor and Council. State Personnel Board, established by Legislature of 1937, will make up lists from examinations from which to draw future employes. State Department of Health and Welfare collects general relief reports from all local officials.	Relief in kind predominates; some cash relief; a few cities have commissaries.
MARYLAND	State Department of Public Welfare	Both State and local funds used for general relief.	Beginning October 1939, in order to receive State funds, general relief must be administered through the local welfare boards, under the supervision of the SDPW.	Cash relief predominates; grocery orders sometimes given.
MASSACHUSETTS	State Department of Public Welfare	Both State and local funds used for general relief, local funds are used for granting aid to all cases regardless of legal settlement status. State funds are appropriated annually to reimburse cities and towns for amounts of aid previously granted to unsettled cases. Cities and towns also claim reimbursement from other cities and towns in which recipients of aid have legal settlement. Fiscal year ended June 30, 1939; Estimated State Funds—23 per cent; Estimated Local Funds—77 per cent for total general relief extended to cases.	In most local units a selectman, a member of the board of welfare, or an agent appointed by the board administers general relief. In some larger cities, a commissioner is appointed under Civil Service. State Department of Public Welfare exercises nominal supervision over cases having legal settlement by collection of monthly and annual reports on operations. State department exercises supervision of cases having no legal settlement through certification and authorization after investigation and through audit of bills submitted annually. No attempt is made to establish a standard budget, but one is available to be used as a guide. State personnel and personnel in certain cities are under State Civil Service.	Cash relief in cities; grocery orders predominate elsewhere; two cities have commissaries.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
MICHIGAN	State Department of Social Welfare.	Both State and local funds used for general relief. State funds for general public relief are allocated monthly to the counties on the basis of the need for relief funds in the county during the past year, the current financial resources of the county, and the amount spent by the county for relief purposes during the preceding month. In no instance however, is the county to receive less than it spent out of its own funds during the preceding month for general public relief.	On the State level, the Department of Social Welfare, under the supervision of a State director, administers general public relief. The county board has assumed the powers and duties of the former county emergency welfare relief commissions, the superintendents of the poor, and such duties of the county welfare agents as pertain to relief. The duties of the county boards are to appoint the heads of institutions under their supervision such as county infirmaries and juvenile detention home; to administer, in cooperation with the State department, relief problems of the county, including general public relief; to extend relief to destitute persons lacking settlement; to assist the probate courts in making investigations; and to extend temporary relief to non-residents. The county board also has charge of and responsibility for the burial of indigent persons. Eligibility for public assistance has been re-defined in the new act, insofar as general public relief involving only county and State funds is concerned. To receive relief other than temporary emergency relief, an applicant must be a resident of the State of Michigan.	Cash Relief and Relief in kind.
MINNESOTA	State Department of Social Security.	Both State and local funds used for general relief. April 1939: State funds—81 per cent; Local funds—19 per cent of total general relief extended to cases.	Information not available.	Relief in kind predominates.
MISSISSIPPI	State Department of Public Welfare.	Only local funds used for general relief.	County boards of supervisors administer general relief except in counties where responsibility of disbursement of general relief funds has been delegated to private agencies. No standards of relief or personnel are maintained. County supervisors are elected; administrators of private agencies are appointed by officers of such agencies. State Department of Public Welfare collects general relief reports.	Cash relief predominates; grocery and merchandise orders frequently given.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
MISSOURI	State Social Security Commission.	Both State and local funds used for general relief. State and local units are to share cost of general relief on 60-40 basis. State sets maximum amount which each county may spend from State funds, and this amount is expected to be supplemented by an additional local share of 40 per cent. In actual practice, all counties cannot supply required amount and some counties supply no local funds. In a few counties, small amounts of local funds are administered by local officials for general relief. April 1939: State funds—97 per cent Local funds—3 per cent of total general relief extended to cases.	County social security offices administer general relief in majority of counties under supervision of State Social Security Commission State commission exercises supervision through visits by field representatives and required reporting, prescribes standards of relief and local personnel, and appoints local directors. In some counties providing local funds, funds are turned over to social security offices by county courts; in others, funds are retained by courts to be drawn upon by social security offices. In a few counties small amounts of general relief from local funds are administered directly by county courts without supervision of either State Commission or county offices. These county courts do not submit reports to SSSC.	Relief in kind from State Funds.
MONTANA	State Department of Public Welfare.	Both State and local funds used for general relief	County departments of public welfare administer general relief under limited supervision by State Department of Public Welfare. Statistical reporting is mandatory and supervision is exercised through visits by field representatives. Case workers in some counties make recommendations regarding eligibility and size of grant in others, county commissioners, either directly or through the clerk and recorder, give relief orders without investigation or recommendation of trained staff.	Cash relief in larger counties; cash relief and disbursing orders given in other counties. In two counties, county commissioners grant relief by verbal orders to merchants. (Since June 1938 all counties grant relief in cash or on disbursing orders.)
NEBRASKA	Department of Assistance and Child Welfare.	Only local funds used for general relief.	County assistance director, appointed by county assistance committee, administers general relief in most counties. Department of Assistance and Child Welfare collects general relief reports.	Relief in kind in form of grocery orders predominate; some cash relief; the largest county (Douglas) has a commissary.
NEVADA	Emergency Relief Administration.	Both State and local funds used for general relief. State funds usually used for relief to employable persons, and county funds for relief to unemployable persons: All State Funds handled through an agent of Nevada. Emergency Relief Administration under general supervision of State Board of Relief, Work Planning, and Pension Control.	County commissioners administer general relief to unemployable persons in all counties except three in which a supervisor of relief, who is appointed by commissioners to represent them, is responsible. Nevada Emergency Relief Administration administers general relief to employable persons with advice of State Board of Relief, Work Planning, and Pension Control which, by law, has power to "supervise the administration of poor relief—within the several counties of the State." Representatives of NERA in each county coordinate with local administrators.	Relief in kind in form of grocery or rent orders from State funds; cash relief from local funds in all but exceptional cases.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
NEW HAMPSHIRE	State Department of Public Welfare.	Only local funds used for general relief.	State Agency ceased to exercise supervision as to standards of personnel and relief upon withdrawal of financial participation on June 30, 1938.	Relief in kind predominates although cash grants are encouraged.
NEW JERSEY	Financial Assistance Commission.	Both State and local funds used for general relief (largely State funds). Total collective share to be borne by municipalities is determined by State legislature; individual share of each participating municipality is determined by Financial Assistance Commission through formula based on tax collections, and balance is met from State funds granted to municipality.	By law enacted April 30, 1938 local assistance boards appointed by chief executives of municipalities were established. These boards appoint welfare directors, who may or may not be overseers of the poor. Municipalities failing to establish such boards are not eligible to receive State funds. Integration of the FAC with the State Department of Institutions and Agencies is pending.	Relief in kind predominates; some cash relief.
NEW MEXICO	State Department of Public Welfare.	Both State and local funds used for general relief. State funds disbursed by State department in accordance with need and case load in counties and amount of State money available. Amount of local funds used is small. April 1939: State funds—82 per cent Local funds—18 per cent of total general relief extended to cases.	State Department of Public Welfare administers general relief through its branch county offices. Supervision exercised through visits by field representatives and required reporting . . . Appointments of local personnel are made by State department, which also disburses all State funds directly and prescribes plan under which county funds are expended.	Relief in kind.
NEW YORK	State Department of Social Welfare	Both State and local funds used for general relief, State funds used to reimburse local welfare departments for 40 per cent of relief extended to cases with settlement in any welfare district in State and for 100 per cent of following special items: (a) cost of relief to cases having no settlement in any welfare district in State, and (b) cost of relief to New York State Indians who live on reservations. Local funds initially used for all purposes, subject to above reimbursement procedures.	Town, city and county welfare departments administer general relief under supervision of State Department of Social Welfare. Supervision exercised through visits by field representatives, audits of accounts, and required reporting. Each local welfare district (town, city, or county) is responsible for immediate care of persons in district but districts are later reimbursed for cases with settlement elsewhere in State by State. County welfare departments administer all relief for which towns or cities are not responsible. County welfare departments administer all relief for which towns or cities are not responsible. County departments with legislative permission of towns and cities in county, may assume entire responsibility for general relief. State prescribes standards of relief and personnel. Town public welfare officials are appointed by town boards. City public welfare officials are generally appointed, although a few cities have elected officials or citizens' boards. County public welfare officials	Cash relief predominates in terms of case load, although relief in kind in form of grocery and other orders is provided in majority of welfare districts.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
			are selected in all counties except Albany, Erie, Hamilton, Jefferson, Monroe, and in New York City. In these areas officials are appointed for varying terms.	
NORTH CAROLINA	State Board of Charities and Public Welfare	Only local funds used for general relief.	County departments of public welfare, under direction of superintendent appointed by welfare board and county commissioners, administer most general relief. Municipal and private agencies administer some general relief. State has no actual supervisory powers, but most county departments administering general relief also administer special types of public assistance affording opportunity for State field representatives to make suggestions and to instruct on methods of handling general relief. State Board of Charities and Public Welfare collects general relief reports.	Relief in kind in form of grocery orders predominates; some cash relief.
NORTH DAKOTA	State Board of Public Welfare	Both State and local funds used for general relief. State funds allocated on basis of formula which considers financial conditions of counties, relief loads, and other factors.	County welfare boards, headed by an executive secretary, administer general relief under supervision of State Public Welfare Board when financed in whole or in part by State funds. Supervision exercised through visits by field supervisors, audits of accounts, and required reporting. Board of Public Welfare establishes and recommends standards of relief and approves all appointments of professional staff and board members to local agencies.	Relief in kind in form of grocery, rent, and medical orders. Cash relief.
OHIO	State Department	Both State and local funds used for general relief on a 50-50 basis. State funds are distributed monthly to each local relief area in an amount equal to but not exceeding 50 per cent of the obligations incurred during the preceding month by each local relief area from poor relief funds, provided that the total amount of State funds for any calendar month does not exceed the monthly percentages of the total State appropriation set up in the Act. In case one-half of the total amount of obligations incurred by the local relief areas is in excess of the amount of State funds that may be distributed during the month, the amount of State funds distributed to each local area is reduced proportionately.	State Department of Public Welfare collects general relief reports. General relief administered by counties and municipalities without any State supervision whatsoever. The county commissioners in the county local relief areas and the proper board or officer of the cities in the city local relief areas are responsible for the administration of poor relief. The city may by agreement reunite with the county area for the administration and or financing of poor relief. It is also possible for a county and city or cities to enter into an agreement whereby a city administers relief for other cities and the county local relief area. "The State Director may conduct investigations of the eligibility of the relief of recipients, but such investigations do not in any way take the place of routine investigations by the local relief	Relief in kind in form of grocery orders predominates; some cash relief and commissary supplies.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
			authority. The State Director in effect is responsible for maintaining a degree of uniformity in the relief programs being conducted by all relief authorities in the State." (Analysis of Amended Substitute House Bill No. 675 Providing for the Administration of Poor Relief prepared by the Ohio State Department of Public Welfare.)	
OKLAHOMA	State Board of Public Welfare.	Both State and local funds used for general relief. State funds allocated to counties on basis of need, which is judged by size of case loads for past month. Counties must, by law, levy a tax of 0.8 of a mill for their "poor indigent" funds.	State Board of Public Welfare supervises and administers general relief from State funds through its branch county welfare boards, which are made up of county commissioners and county health officers in 47 counties and consist of administrators in other 30 counties. State supervision of local branches exercised through visits by field representatives, audits of accounts, and required reporting. State Board prescribes standards of relief and employes personnel for all its local units. (In Oklahoma county a single agency administers both State and local funds. Director and most of personnel are employed by county commissioners). County Commissioners in all counties administer county funds for relief over which State has no authority. County Commissioners do not submit reports to SBPW.	Commodities from State Commissaries and small amounts of cash to unemployable persons; cash for work relief to employable persons.
OREGON	State Welfare Commission.	Both State and local funds used for general relief. Prior to March 1939, State and local units shared expenses for general relief on a 50-50 basis in accordance with need and available State funds, except that relief to non-residents, other than transportation and meals en route is paid entirely from State funds. Effective March 1939, full payment of administrative cost of general relief from State funds; all general relief extended to cases shared equally by State and counties. April 1939: State funds—50 per cent Local funds—50 per cent of total general relief extended to cases.	County public welfare departments administer general relief under rules and regulations established by SPWC. Supervision exercised through visits by field representatives, audits of accounts, and rerequired reporting SPWC approves all county administration and prescribes local standards of personnel. State personnel is appointed by administrator, in accordance with published standards, with approval of SPWC.	Cash relief predominates; some relief in kind in form of relief orders.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
PENNSYLVANIA	State Department of Public Assistance.	Only State funds used for general relief.	County boards of assistance administer general relief as agents of State Department of Public Assistance. State treasurer makes all disbursements of State funds for general relief. State department, with approval of State Board of Public Assistance, established rules, regulations, and standards as to eligibility and nature and amount of relief, prescribes forms, records and reports, and supervises local units through field representatives. Employment board for State Department of Public Assistance, in acordance with specifications determined jointly by Employment board and State department, conducts civil service examinations and establishes civil service registers from which the secretary of public assistance selects State personnel and county assistance boards select county executive directors and other county personnel.	Cash relief.
RHODE ISLAND	State Department of Public Welfare.	Both State and local funds used for general relief.	Information not available. This department, however, is responsible for old-age assistance and aid to dependent children under plans approved by the Social Security Board and also responsible for general relief. Recent consolidation.	Cash for work relief; usually relief in kind for direct relief.
SOUTH CAROLINA	State Department of Public Welfare.	Both State and local funds used for general relief. State and local governments share expenses for relief to unemployable persons on a 50-50 basis in all counties participating in program of State department. State bears entire expense of relief to needy employables. In counties not participating, only local funds used. April 1939; State funds—54 per cent Local funds—46 per cent of total general relief extended to cases.	In those counties which participate in State program county departments of public welfare administer general relief under supervision of State Department of Public Welfare. Supervision exercised through visits by field representatives, audits of accounts and required reporting. State department prescribes standards of relief and local personnel. In a few counties elected county commissioners administer "poor relief." These counties submit reports to SDPW.	Cash relief in counties under State program; cash relief and relief in kind in other counties.
SOUTH DAKOTA	State Dept. of Social Security	Only local funds used for general relief.	Boards of county commissioners administer general relief, except insofar as they have delegated their authority to county social security offices. This delegation of authority varies from reference and clearance of applications, to complete administrative responsibility, subject to approval of the commissioners. State Department of Social Security collects general relief reports.	Relief in kind in form of grocery orders predominates; very little cash relief; one county has a commissary.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
TENNESSEE	State Dept. of Public Welfare	Only local funds used for general relief.	State Department of Public Welfare collects general relief reports from local agencies which administer public funds.	Cash relief predominates; some relief in kind; Knoxville and Memphis have commissaries.
TEXAS	State Dept. of Public Welfare	Only local funds used for general relief.	New department established in Sept. 1939 to be responsible for the adaptation of policies, rules and regulations governing the administration of the special types of public assistance, general relief and the distribution of Federal surplus commodities.	Relief in kind.
UTAH	State Dept. of Public Welfare	Both local and State funds used for general relief. State pays total amount expended by county depts. of public welfare and is later reimbursed for 15% of total counties. Only county funds used for hospitalization and medical care administered by county commissioners.	County depts. of public welfare administer general relief under supervision of State Dept. of Public Welfare. Supervision exercised through visits by field representatives, audits of accounts, and required reporting. State department prescribes standards of relief and personnel. County commissioners appoint local boards with approval of State board. County commissioners also administer from local funds only some general relief for hospitalization and medical care without supervision of State dept. These agencies submit reports to SDPW.	Cash relief and clothing orders to unemployable persons; disbursing orders for emergency cases and to employable persons.
VERMONT	State Department of Public Welfare.	Only local funds used for general relief.	Information not available.	Relief in kind predominates.
VIRGINIA	State Department of Public Welfare	Both State and local funds used for general relief. State allocations made on basis of population. County boards of supervisors, city managers, or mayors apply to State Dept. of Public Welfare for their proportionate share, at the same time signifying willingness to provide sixty cents of local funds for each dollar of State funds and to set up local administrative unit. April 1939: State funds 49 per cent Local funds 51 per cent of total general relief extended to cases.	In 115 local units, local departments of public welfare administer general relief under supervision of State Dept. of Public Welfare. Supervision exercised through visits by field representatives, audits of accounts, and required reporting. State does not prescribe standards of relief, but attempts to raise standards by an educational program. Local superintendents are appointed by local governing bodies, subject to aproval by the State. Superintendents in cities are appointed by city managers or councils, with or without approval of State. All superintendents are subject to control by local governing bodies, but extent of this control varies widely among counties.	Relief in kind in form of grocery orders predominates; some cash relief.
WEST VIRGINIA	State Department of Public Assistance.	Both State and local funds used for general relief. State funds allocated to counties on basis of need, after local funds of 15% of total county tax levies	County departments of public asistance administer general relief under supervision of State Dept. of Public Assistance. Supervision exercised through visits by field repre-	Cash relief predominates; Relief in kind in form of grocery orders for emergency and short-time cases.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
		have been expended for welfare and relief purposes.	sentatives, audits of accounts, and required reporting. State Dept. prescribes standards of personnel. County directors are appointed by county councils from certified registers. Amendment passed in last session of legislature authorizing SDPA to certify employable cases to the State Road Commission; if employable person refused work, relief was discontinued. (Began operation July, 1939).	
WASHINGTON	State Department of Social Security	Both State and local funds used for general relief. The counties provide funds by means of a tax upon the assessed valuation of the taxable property at a rate not less than 3 mills to discharge their responsibility for general assistance. If any county finds that proceeds of the 3 mill levy are inadequate is empowered to submit to the Director and committee a request for a special grant-in-aid of State funds.	Counties are charged with the responsibility, by and through their respective boards of county commissioners for the administration of the 3 special types of public assistance and general relief but they are subject to State supervision. The Department of Social Security serves as a single State agency to supervise the administration of public assistance and general relief. In order to secure grants-in-aid, it is incumbent on the counties to maintain such records pertaining to expenditures and to conform to such other requirements in respect thereto as may be prescribed by the Department of Social Security. (Excerpted from Social Security Laws of State of Washington as of April, 1939).	Cash relief predominates; relief in kind in form of grocery orders and other relief orders.
WISCONSIN	State Department of Public Welfare	Both State and local funds used for general relief. State funds allocated to local units on basis of need and fiscal capacity of local units to carry their own burdens. State appropriation is made to Emergency Board which makes monthly releases to Public Welfare Dept. for allocation to localities. April 1939: State funds 10 per cent; Local funds 90 per cent of total general relief extended to cases.	Local units administer general relief under supervision of State Public Welfare Dept. in 34 counties relief is administered by county relief depts. with appointed administrators; in 28 counties, by elected township chairmen or overseers; and in 9 counties, by appointed administrators of groups of townships. In 32 counties State maintains agency for purposes of certification and central application services. State supervision exercised in all these local units through visits by field representatives and required reporting. State law provides that standards of relief shall be local responsibility, even when State funds are expended.	Cash relief and relief in kind in form of grocery orders.
WYOMING	State Department of Public Welfare	Both state and local funds used for general relief. State makes up difference between relief needs and relief funds available in	County depts. of Public Welfare administer general relief under supervision of State Dept. of Public Welfare. Supervision exercised through	Cash relief and relief in kind in form of grocery orders.

* Material in this Table is assembled from information compiled by the Bureau of Research and Statistics, Division of Public Assistance Research, Social Security Board.

† The information in this column is from a Study completed by the Social Security Board in December, 1937.

State	State Agency Reporting	Financial Responsibility	Administrative Responsibility	Form of Relief †
		counties.	visits by field representatives, who review cases four times a year to determine compliance with State standards and to suggest improvements in case work methods; audits of accounts; and required reporting. State prescribes standards of relief and personnel.	

THE COUNCIL OF STATE GOVERNMENTS

Regional Conferences on Subject of Relief

The Council of State Governments held during the year 1940 a series of regional conferences in Chicago, New York, Atlanta, Denver, and San Francisco, on the subject of relief, attended by State legislators and relief administrators. The relief problem was discussed from the administrative and legislative points of view. In these conferences information was developed that showed the number of persons who were dependent in some degree on public assistance at the end of 1939 was 17,695,000, comprising 6,183,000 separate households. In more than 43% of these cases, the funds were derived from federal sources almost exclusively. In about 34% of these cases, federal funds matched almost dollar for dollar the funds raised within the states for relief purposes. In the remainder of the cases, slightly less than 25% of the total, the funds were entirely from sources within the states. It was agreed that the goal of the Federal Works Programs—to provide for all employable persons on the relief rolls—had never been even approximated.

It was agreed that there was throughout the United States a lack of coordination between the W.P.A. and the general relief programs within the states and inasmuch as these two programs deal with the same group, that this lack of coordination became exceedingly important.

The conferences agreed that the present Federal Works Program and the general relief programs should be financed by grants in aid to the states and supervised by the Social Security Board or a similar agency.

The representatives of the states were in general agreement that the whole relief program required reconsideration at the present time in order that changes in policy and administration may be clarified.

It was agreed that a continuing relief program was inescapable and should be a matter of concern to the state, federal, and local governments, and that all areas of government should to some extent participate in the planning and financial support of the future program.

There was general agreement on the advisability of an over-all relief program which would merge the present public assistance catagories with the work relief and general relief programs and provide it solely on the basis of need, and that federal, state, and local governments should participate in the financing of necessary relief services.

In general it was agreed that the various aspects of relief should be administered by those which could manage them most effectively and efficiently, and a very large number of those present at the conference expressed a preference for the administration of general assistance at the local level of grovernment.

ESTIMATED NUMBER OF EMPLOYES IN NON-AGRICULTURAL ESTABLISHMENTS[a]

Source: U. S. Department of Labor, Employment and Payroll June 1940

State	June 1940	June 1939	Per cent change
Illinois	2,192,000	2,101,000	4.4
Indiana	760,000	717,000	6.1

RECOMMENDATIONS OF THE STATE JOB MOBILIZATION COMMITTEE

(The recommendations which follow are those of the Report Committee and of the Job Mobilization executives. They are presented in the hope that they are of sufficient merit to warrant further study by State officials and the people of Pennsylvania.)

There is a definite need in Pennsylvania for a more complete placement service in the local or county offices of the Department of Public Assistance to supplement the work of the State Employment Service. Under the present set-up there is no agency charged with promoting jobs exclusively for employable relief recipients. These men and women frequently suffer in the labor market competition. The State Employment Service's policy requires that the best fitted person be referred for a job and thus sub-standard registrants may not benefit unless a labor shortage develops. But results could be obtained through local or county placement service, consisting of one or more qualified persons, selected from the present staff, where possible, and receiving merit rating on the basis of placements made.

Stress should be placed on securing employment for the relief recipient rather than focusing major attention on the purely administrative detail of disbursing assistance funds.

It is recommended that the Department of Public Assistance, with cooperation of the Departments of Public Instruction, and Commerce, and the State Employment Service of the Department of Labor and Industry, direct immediate attention to continuing the occupational train-

ing and retraining programs which are obviously an authentic relief reduction measure. Seventy requests for Woodside Act vocational training and retraining projects made to the Department of Public Instruction or reported to Job Mobilization headquarters are pending, each a possibility for early reduction of relief costs.

Because there has been an over-supply of teachers and much criticism has been leveled at the 14 State teachers colleges for continued capacity output, it is recommended that the Commonwealth consider the inclusion in each of these institutions of one, and two year advanced, technical training courses, so complete as to qualify the trainees for jobs. As an alternative, it is recommended that the State convert from three to six of the State teachers colleges into junior vocational colleges. Millersville, California and Cheyney now specialize in the preparation of industrial arts teachers and could be so continued. It is suggested that the Governor and the Superintendent of Public Instruction confer on the establishment of a commission to make an immediate and thorough study and report on this recommendation.

The Department of Labor and Industry should inaugurate a field service to facilitate and expand the Pennsylvania Apprenticeship Council and to encourage the reopening of apprenticeship training opportunities within industry. It is recommended that steps be taken within the Departments of Labor and Industry and Public Instruction better to coordinate the activities of the two existing Pennsylvania Apprenticeship Councils (one on standards and one on education), or to merge the two councils so there may be no confusion in the operation of an adequate State program of apprenticeship training.

It is recommended that the State Employment Service consider immediately the addition of an occupational information and counseling section to serve youth, a project that should develop into the establishment of a Junior Employment Service to function in close cooperation with the public schools. This service should be equipped to provide current information on occupational trends and opportunities, vocational training and retraining opportunities, and provide for vocational guidance, placement and follow-up.

A complete retraining study of employables on relief is highly desirable. Also, a study should be made of all youth and adults currently on relief and classified as unemployables (the unemployables representing about two-thirds of the total number of persons on relief, of which total the number of adults is unknown) in order that as many as possible might be rehabilitated for employment.

The Department of Public Instruction is urged to take advantage of the headway that was made in the campaign to reduce relief and the great pool of the unemployed through efforts directed toward:

1. Appointment of a chief of an occupational information and guidance service to assist local school districts in handling occupational adjustment problems with the cooperation of a similar service recently established in the United States Office of Education; half of the salary can be paid from Federal funds.

2. Encouragement of local occupational surveys by school districts in cooperation with local representatives of the State Employment Service, and application of results to possible revisions of the school curriculum.

3. Encouragement of reasonable expansion of in-school vocational training for youth and the training and retraining of out-of-school youths and adults under State and Federal financial aid provisions.

4. Early attention to promotion of part-time cooperative industrial education projects with industry, particularly in industrial communities where school shops are not now available; also promotion of retail sales training under the George-Deen Act of Congress, and promotion of household service training.

5. Stimulating of schol district cooperation for vocational educational facilities in any buildng expansions that are contemplated, and encouragement of General State Authority and Work Projects Administration cooperation, with the approval of the State Council of Education, in building and financing new vocational school buildings where the need exists. Consideration should be given in such cases to a revision of the school curriculum, looking forward to a reallocation of funds now used for less important phases of education.

6. Continuation of efforts to obtain the cooperation of the Pennsylvania State Nurse's Association and the Pennsylvania State Board of Examiners for the Registration of Nurses, to the end that adequate instructional courses and services be made available for the training of "household aides," workers who are equipped to provide elementary care for invalids and convalescents in low income families.

The problems of unemployment, relief, occupational retraining, vocational education and the providing industry with an available labor supply are so intimately related as to require for efficient control and direction the establishment of a centralized State administrative agency to determine policy, procedure, and necessary funds in carrying on the program. Through a State Employment Council the necessary uniform policies can be determined and correlated with existing services of State departments to meet the needs of labor and industry. Such a council could be composed of the Secretaries of Labor and Industry, Commerce, Public Assistance and Superintendent of Public Instruction, who could be authorized to appoint county and local employment councils of private citizens, together with representatives of the respective State departments.

The purpose of such a council would be to stimulate employment through increased business, the development of new business and industry, compile and publicize information regarding the available labor supply, develop programs of occupational adjustment and take other steps looking toward a permanent solution of unemployment, and to serve as a clearing house for all ideas relating to employment and relief.

SUMMARY OF TURNOVER OF RELIEF CASES IN 1939

The total number of different cases (families or unattached persons) receiving State general assistance during some part of 1939 aggregated nearly 521,000 and included approximately 1,711,000 different men, women, and children or nearly 17 per cent of the State population. At no one time, however, did the number aided exceed 275,000 cases, containing 835,000 men, women and children or about 8 per cent of the State population.

Total gross additions to and separations from general assistance rolls during the year exceeded 848,000. With an average case load level during the year of slightly below 250,000, and existence of a volume of turnover of such magnitude indicates the rapidity and extent of changes in the composition of the rolls.

Half of the gross total of 434,000 cases going off general assistance rolls during the year had received assistance for less than three months.

Half of the gross total of 414,000 cases coming on general assistance rolls during the year either had never before received assistance or were receiving grants for the first time in over a year.

Only 75,000 cases (185,000 persons) out of the year's 521,000 different cases (1,711,000 persons) received grants throughout the year. These constituted about 15 per cent of the year's different cases and represented about one third of the cases on the rolls at the beginning of 1939. This total of 75,000 cases, forming what might be termed the "hard core" of the 1939 general assistance load, may be compared with an estimated total of approximately 65,000 cases containing no employable members which studies show to have been a fairly constant portion of the case load throughout the year.

In addition to the 75,000 cases staying on the rolls for the entire year, there were 446,000 cases, or 85 per cent of the

year's different cases, involved in turnover—going on or off the rolls one or more times during the year. In short, for every case receiving general assistance for the whole of 1939, there were six cases receiving aid for only part of the year.

Approximately four-fifths of the 434,000 cases going off general assistance rolls during the year were discontinued under circumstances definitely indicating employability, such as securing employment or increased earnings in private industry or on WPA projects, or receipt of unemployment compensation.

Nearly seven-eighths of the 414,000 cases coming on general assistance rolls during the year were accepted for assistance for reasons directly associated with employability and recent employment.

APPENDIX

LAW GOVERNING POWERS OF COUNTY BOARDS

The Act of June 24, 1937, P. L. 2051, as last amended by the Act of June 26, 1939, P. L. 1091, Section 7, provides:

Each county board of assistance shall have the power, and its duty shall be:

(a) In accordance with the laws regulating employment in the Department of Public Assistance, to appoint, transfer, lay off, suspend and remove its employes, which employes shall, on behalf of the board and under the supervision of the Executive Director, provide assistance in the territory under its jurisdiction, in accordance with law: Provided, however, That the county board may recommend to the Governor that any person employed by it be suspended or removed without regard to the laws regulating employment in the Department of Public Assistance. Upon receipt of such recommendation the Governor shall have power to suspend or remove such employe if he deems the same to the best interests of the public service.

(b) To appoint and remove an executive director without regard to the laws regulating employment in the Department of Public Assistance. But every such executive director shall be appointed only from among those certified by the Department of Public Assistance as having qualified for appointment through an unassembled examination conducted by the Employment Board of the Department of Public Assistance or its successor.

(c) To conform to the rules, regulations and standards, established by the Department of Public Assistance, as to accounting, and as to forms, records and reports.

(d) To submit assistance and administrative budgets to the Department of Public Assistance as the basis of the allocation of funds to the several assistance programs and for administrative costs.

(e) To hear and determine appeals from actions of its employes affecting the right of those applying for or receiving assistance. Any person applying for or receiving assistance of any type covered by the public assistance provisions of the Federal Social Security Act, may appeal to the Department of Public Assistance from any decision of the board, refusing or discontinuing his assistance, in whole or in part, in every such appeal, an opportunity for a fair hearing shall be granted, and the decision of the department on such appeal shall be final. All such appeals shall be in accordance with rules and regulations established by the department, with the approval of the State Board of Public Assistance.

(f) To supervise the administration of and promote any other public function related to assistance, or to the work of the Department of Public Assistance, or of the county board of assistance, which shall be committed to the board by a political sub-division of the Commonwealth, with the approval of the State Board of Public Assistance;

(g) To receive and spend contributions from any source for purposes related to assistance, or to the work of the Department of Public Assistance;

(h) To make recommendations to the Department of Public Assistance as to rules, regulations and standards as to eligibility for assistance, and as to its nature and extent;

(i) To study report and interpret its policies, problems and work, to the Department of Public Assistance, and to the public;

(j) To establish policies and practices as to the amounts of assistance granted in individual cases, but no grants may exceed the maximum amounts for which families of a given size and of given circumstances are eligible, as established by the Department of Public Assistance, with the approval of the State Board of Public Assistance.

(k) To appoint committees of the county board or of local citizens in various communities of the county, as circumstances may require, to cooperate with the county board in (1) supplying information as to the eligibility of persons for assistance; (2) recommending local policies; and (3) stimulating local employment; and, on petition of fifty or more residents of any community, it shall be mandatory upon the board to appoint a committee to function in such community.

(l) To encourage employable recipients of assistance to accept full or part-time employment, by providing that such recipients will again be granted assistance upon the termination of such employment, if in need thereof; and any rule or regulation of the Department of Public Assistance or of the State Board of Public Assistance or of the county board of assistance heretofore or hereafter adopted, contrary hereto, is hereby avoided.

(m) To appoint labor review committees, composed of representative citizens of the county, who shall serve without compensation and whose duty it shall be to pass on the eligibility of any applicant for or recipient of general assistance who shall refuse an offer of employment and whose case shall be referred to such a committee by the county board.

(n) As need may require, to employ the services of commercial credit rating agencies for the purpose of determining eligibility for general assistance.

(o) To make available for inspection and examination during office hours, to any taxpayer, in such manner as the county board of assistance may prescribe, the names, addresses, and amount of assistance granted to all persons then receiving general assistance.

The Act of June 24, 1937, P. L. 2003, Sec. 2504A, subsection b-1 provides ". . . examinations for employment which shall be practical in their character and so far as may be possible shall relate to those matters directly bearing on and which shall fairly test the relative capacity and fitness of persons examined to discharge the duties of the service into which they seek to be appointed but no applicant shall be required to have any scholastic education in social service work nor to have had any other special scholastic education or special training or experience . . ."

CITIZENS' COMMITTEES OF COUNTY BOARDS OF ASSISTANCE

Act 384, 1939, P. L. 1091, Sec. 7(k), authorizes county boards "To appoint committees of county board or of local citizens in various communities of the county, as circumstances may require, to cooperate with the county board in (1) supplying information as to the eligibility of persons for assistance: (2) recommending local policies; and (3) stimulating local employment; and, on petition of 50 or more residents of any community, it shall be mandatory upon the board to appoint a committee to function in such community."

Sec. 7(m) Authorizes county boards "to appoint labor review committees, composed of representative citizens of the county, who shall serve without compensation, and whose duty it shall be to pass on the eligibility of any applicant for or recipient of general assistance who shall refuse an offer of employment and whose case shall be referred to such a committee by the county board."

Even before passage of the Van Allsburg Act, county

boards had taken the initiative in appointing citizens' committees for various purposes.

TYPES OF CITIZENS' COMMITTEES

1. Citizens' Advisory Committees
   Citizens and Board members
   a. Community Service Committees—to develop and make available welfare services
   b. Employment Coordinating Committees—to coordinate the activities of such departments as commerce, Labor and Industry and Public Instruction, in county planning for job placement and retraining.
   c. Committees to provide information in certain types of cases on matters of eligibility and policies.
2. Appeals—Case Review—Policy
   Board Members and Citizens
3. Reviewing Board
   All citizens
   Adjudicate appeals of applicants or recipients
4. Labor Review Committees
   Must have outside citizens and may have board members—Duties Sec. 7(m) of Act 384, 1939 P. L. 1091

In larger areas—Philadelphia and Allegheny Counties—all types have been utilized. In other areas, functions are combined or the board members perform the work. In more rural areas, "one-man committee" and farmers' committees are sometimes appointed, the first to provide information or eligibility etc., the second to provide information on eligibility and to assist local recipients.

Citizens' committees, in general, have been used extensively, some being temporary ad hoc committees, others operating on a continuing basis.

LAW GOVERNING POWERS OF DEPARTMENT OF PUBLIC ASSISTANCE

The act of June 24, 1937, P. L. 2051, as last amended by the act of June 26, 1939, P. L. 1091, Section 4, provides that the Department of Public Assistance shall have the power, and its duty shall be:

(a) To allocate to the several assistance programs funds with which to provide assistance and funds for administrative expenses, and as may be needed, from time to time, to keep reasonable emergency funds in the hands of local boards, which shall be used by the executive director for the furnishing of assistance and pensions respectively in emergency cases, upon application to him, or under direction of any member of the local board;

(b) To establish, with the approval of the State Board of Public Assistance, rules, regulations and standards, consistent with law, as to eligibility for assistance and as to its nature and extent;

(c) To supervise the local boards, and to establish for such boards, rules, regulations and standards consistent with law;

(d) To cooperate with other agencies, including any agency of the United States or of another state, in all matters concerning the powers and duties of the department under this act, and particularly in projects for child welfare, for the relief of persons in areas of special need, and for the care of transient and homeless persons, and to make such reports, in such form and containing such information as the Social Security Board of the United States Government, or any other agency of the United States may, from time to time, require, and to comply with such provisions as such board or agency may, from time to time, find necessary to insure the correctness and verification of such reports;

(e) To receive and to supervise the disbursement of funds, provided by the Federal Government or from any other source for use in this Commonwealth, for assistance;

(f) To gather and study current information constantly, and to report, at least annually, to the Governor, as to the nature and need of assistance, as to the amounts expended under the supervision of each local board, and as to the work of each local board, and to cause such reports to be published for the information of the public;

(g) To report, at least annually, to the Governor, as to the cost of living in the various counties, as related to the standards of assistance and the amounts expended for assistance and to cause such reports to be published for the information of the public;

(h) To collect and report, to the Governor, and to cause to be published for the information of the public, information as to the work of the department;

(i) To direct and supervise the liquidation of the affairs of the Boards of Trustes of the Mothers' Assistance Fund, the Boards of Trustees of Pension Fund for the Blind, and the State Emergency Relief Board;

(j) Whenever the department deems it necessary and advisable to purchase credit reports and other services, on a fee basis, for the purpose of supplementing the investigation of eligibility for assistance;

(k) To recommend to the Governor that any person employed by the department be suspended or removed from service. Upon receipt of such recommendation the Governor shall have power to suspend or remove such employe if he deems the same to the best interests of the public service.

ELIGIBILITY REQUIREMENTS FOR GENERAL ASSISTANCE

A. CITIZENSHIP

An alien who applied for assistance on or after June 26, 1939, is ineligible for General Assistance unless he has filed declaration of intention to become a citizen sometime after December 31, 1937. If he filed declaration of intention earlier than that date, he must again file declaration of intention to be eligible for General Assistance.

No alien applicant will be eligible for General Assistance after January 1, 1940, unless he has filed declaration of intention to become a citizen. Such declaration must have been filed after December 31, 1937. Accordingly, after January 1, 1940, only those alien applicants who have filed declaration of intention between January 1, 1938 and January 1, 1940, will be eligible for General Assistance.

The above provisions do not apply to aliens who were active General Assistance recipients as of June 26, 1939. The provisions of the said Act are not retroactive but apply only to persons who filed application on or after June 26, 1939.

B. AGE

There are no age requirements for General Assistance applicants.

C. RESIDENCE

The DPA may not grant General Assistance to any applicant unless he has a legal settlement in Pennsylvania and has resided here for two years immediately prior to application

The requirement period of two years' residence must be continuous, but short and temporary absences in the nature of visits will not vitiate residence requirements.

The Department may continue to authorize return of indigents to Pennsylvania, when legal settlement in Pennsylvania has been established. However, such persons may not receive General Assistance unless they satisfy the residence requirements of the amended law, that is, have residence in Pennsylvania for two years immediately prior to application, having been absent only temporarily for short periods.

The above provisions apply only to persons who filed application for General Assistance on or after June 26, 1939, the effective date of Act 384, amending the Public Assistance Law. They do not apply to active assistance recipients as of that date.

D. INSTITUTIONALIZATION

An inmate or resident of a public institution other than a hospital is ineligible for assistance while residing in the institution.

An individual who is living in a "private" institution, and who is eligible in all other respects, is eligible for General Assistance if he is not receiving maintenance in return for a consideration or contract basis; that is, if as a condition for admission and maintenance in the institution he paid a sum of money, transferred or conveyed real or personal property, or paid dues to an organization which supports the institution and provides such care for its members. A person entitled to such maintenance does not become eligible for assistance by withdrawing so long as the contract remains effective.

Note: A "public" institution is an institution supported wholly or in part by funds raised by taxation. County Homes and Institutions receiving subsidies from the Commonwealth are "public institutions."

A "private" institution is an incorporated non-profit institution which receives no subsidy from the Commonwealth or from any political subdivision.

E. INCOME

The "adjusted" income of an applicant may not exceed the "C-D" allowance schedule. The total gross income minus all permissible deductions is termed "adjusted" income. Gross income includes any cash received by a member of the applicant group, as earnings, profits, rent from boarders or lodgers, compensation, etc.

F. PROPERTY RESOURCES

An applicant is considered indigent, and may thus be eligible for assistance, if he has no property resources which can be converted into cash to provide for sub-

sistence necessaries. Such property resources include all types of property (cash, bonds, real estate, etc.) except the following:

1. Resident property which is not of substantial or unusual value so as to raise the question of need.

2. Household goods and personal belongings which are not of substantial or unusual value. This refers to the usual household articles, (furniture, refrigerator, radio, etc.) and ordinary personal effects.

3. Automobiles or similar property required and necessary for employment purposes to transport water, to market goods, or to provide transportation in the absence of other facilities.

4. Frozen assets, which refers to personal property (such as stocks, bonds, mortgages, etc.) on which no cash can be realized, and real property which is actively offered for sale on the open market but cannot be sold for a sum approximating the present value of the property.

5. Trust funds, if, and so long as, the principal of the fund cannot be utilized for current needs.

6. Compensation or damages required and specifically designated for medical care or treatment, to the extent only that such compensation or damages must actually be so expended.

INSURANCE

Insurance may constitute a resource which applicants must utilize within certain limits. The continuation of insurance while receiving assistance constitutes an investment which must not be permitted beyond certain limits. Therefore assistance recipients over sixteen years of age will be allowed policies of term or whole life insurance not exceeding a face value of approximately five hundred dollars, and assistance recipients under sixteen years of age, a face value not exceeding approximately three hundred dollars.

EXCEPTIONS TO THE POLICY: When insurance policies other than the types allowed, (term or whole life) have no cash loan values, assistance may be granted without adjustment of the policies for a period not to exceed one year. Then the adjustment will become mandatory, if the case has not been discontinued.

When an applicant or recipient can prove that he is uninsurable. Under these conditions, the applicant must agree to make the policy payable to his estate.

Adjustment of insurance is not required if, under the terms of the policy, the policy is unadjustable.

H. EMPLOYMENT

When it has been determined that an employable member of the applicant or assistance group has, without justifiable cause, refused work or failed to report for work on a governmental project or in private industry, assistance is denied or discontinued.

An applicant group is not eligible for assistance if the chief wage-earner is working full-time in private employment, unless the group contains other employable persons who either are employed part-time or are unemployed.

All employable persons, (over sixteen years of age and not in school or needed at home) must be registered with the State Employment Office before Assistance is granted.

Every member of an applicant group who has had earnings since January 1, 1937, from employment in an occupation covered by U. C. Law, must present evidence that he has filed a claim for compensation before assistance may be granted.

Every employable member of an assistant group should have in his possession a Social Security Card and his Social Security Number should be entered in the DPA record. It is important as a means of identification, especially in securing information on Unemployment Compensation, and in the future, on Old Age Benefits.

INVESTIGATION OF CASES IN PHILADELPHIA

A. G. H., wife M. was located on the payroll records of R.C.A. Steadily employed since 1935 has missed but one month's work since May, 1938. Earnings for first three quarters of 1939 totaled nearly $900. Address given employer that of his sister who advised he has not lived there for two years. Gave 16th Street address as his residence. Neighbors verified George Hayes residence as the 16th Street address. Mrs. Hayes, receiving a $64.00 monthly A.D.C. grant, denied his being there.

Receving compensation from B. & O. Railroad, earning $5.00 weekly at an Italian-American Club. Saving $3.00 weekly in a Christmas Club. Owns home clear of encumbrances. M. F. receiving G.A. grant of $6.20. Other former relief recipients, removed from relief rolls during 1939, and identified by club records and cancelled checks were:

Name	Amount Savings	Case Closed	Reason
P. M.	$71..	7/12/3..	Non-legal settlement
E. & V. R.	..0	3/13/39	Private employment
G. R.	3.0	5/1.../39	W.P.A.

L. on W.P.A. C. employed, as an A.. at the Philadelphia General Hospital, earning $47.00 monthly (and so employed steadily since January 193..) during the period of relief assistance.

Purchased home for $4200 (mortgage $3200) four months after leaving relief rolls.

A private colored school within about four city blocks of two new schools erected by the Board of Education within the last two years. Charges are made for tuition and text books. Carfares are required in many instances. School supplies and stationery must be provided by the pupils. A check of pupils' names, against relief rolls, revealed 39 families on active assistance rolls receiving G.A., A.D.C., or a combination of the two. In addition, there were 19 more names cases of which were closed in 1939. The weekly G.A. grant to families sending children to this private school totaled $330.86. The monthly A.D.C. grant, in the same circumstance, $742.75.

Has truck for huckstering and push cart for "snow balls." Bought house, deed shows cash consideration of $400, on 6/17/38 and on 7/5/38 the visitor granted a G.A. increase from 12.80 to $14.10. Case closed in November, 1938, when his private enterprises were definitely established, but case was re-opened in March, 1939, even though he had been able to pay his tax bill in advance for a discount benefit. Case in Legal Department 10/24/39. Mrs. T. wishes to revoke her reimbursement agreement.

One of a concerted family group who were certified for relief at the same time, September 1932. Have received clothing, bedding, medication and hospitalization, in addition to cash grants. Title to property in name of G. C., wife of G., taken in March, 1937, with a cash consideration of $1.30. One week later, request for reopening of case is made because of loss of W.P.A. job. In September, the visitor requested that case be discontinued "so that future restitution may be avoided" after learning that C. was receiving both G.A. and compensation.

An A.D.C. grant of $49.30. Receives $16.00 per month from a tenant. Son 20, earning $1..00 weekly, $10.00 of

which is given to his mother. Daughter's husband, two in family, earns $40.00 to $45.00 weekly. Another son, married, also employed.

Was receiving grant for two but wife left for Virginia. Now expects $4.80. Is employed "part time" in South Seventh Street store, several miles from home, ostensibly earning but $3.00 per week.

Husband's parents on relief. Case begins when T. returns from C.C.C., is married, has a child and begins housekeeping in two unfurnished rooms on a G.A. grant of $8.20. (Rent $11.00 monthly.) In 1935 they find he had been working while receiving relief. They move to new quarters, acquire new furniture and now pay $13.00 monthly rental. Complaints that he is again engaged in private enterprise. On W.P.A. In 1936 a new baby is expected and layette is requested. G.A. now $8.80. To new apartment that rents for $14.00 monthly, plus charge for gas and electric. G.A. is increased to $10.30, later to $11.20. 1937 and the family move again, rent is now $18.00. plus gas and electricity charges of nearly $3.00 monthly. They buy a car. On 3/12/37 they buy a home in the name of R's father, with a cash consideration of $300, and begin alterations. Another baby is expected. Carrying charges are now $20.00 monthly. G.A. grant is now $13.40. Caught working on a truck. Grant is decreased for a while but goes back to $13.40 and so remains.

INVESTIGATION OF CASES IN PITTSBURGH

Daughter at home and employed. D.P.A. office not advised.

Complaints are numerous, but little attention has been paid to them by the Pittsburgh Office. Wife found working in Chinese Laundry four or five days a week at $2.00 per day salary. Salary paid in presence of investigator. Case record shows this woman was employed by George Toy during 1937 and 1938, despite which there is his denial.

At husband's demise she received insurance totaling $2538.00 as follows:

Metropolitan Life Insurance Co.	$1500.00
John Hancock Life Insurance Co.	863.00
United States Government	100.00
Allegheny County	75.00

Application for assistance on 5/29/39 mentions only $1500.00. Nearly $700.00 was received one month prior to application, for which there is no "breakdown" or accounting.

Married in February. Husband employed as a steward, receiving room and board in addition to weekly salary. Marriage not reported. A.D.C. and G.A. now discontinued. Family received assistance for which they were ineligible.

Complaints that:

2/15/40 Julian receiving unemployment compensation and public assistance while being employed. 2/23/40 using step-father's truck for coal hauling. Admission of employment after investigation. Most recent finding relates to a business partnership of buying and selling coal.

Received $500.00 check damages for truck injuries that was not reported until after investigation.

Tenant of J. N. Uses aliases of P. and M., apparently to avoid detection by relief offices. Found he was employed as S. M. from 6/27/38 to 3/20/40.

Engaged in private enterpise, car washing, since January, 1939, but not "found out" until March, 1940.

G.A. grant of $2.40. Gets small basement apartment free for services and, in addition, by his own admission, earns $5.00 to $6.00 weekly as porter or clean-up man in apartment owner's meat market.

Obtained job, through S.E.O., as clerk for the Surplus Commodities Commission at $82.00 a month, but continued to receive relief of $4.40 weekly.

Receiving board, room and small salary caring for invalid sister, while on G.A. grant.

Employed as painter, earning 75c per hour, working 40 hours a week while on relief.

Widower, living with one of his daughters, receiving $7.50 G.A. Engaged in private enterprise as a painter.

ANALYSIS OF REPORTS OF COMMITTEE'S INVESTIGATORS IN PITTSBURGH, ACTION TAKEN BY PITTSBURGH OFFICE THEREON AND COMMENTS

On July 18 and 19, visit was made to the Pittsburgh Office of the Allegheny County Board of Public Assistance to:

Review supposed discrepancies in the Joint State Government Commission's investigation report of April 8, 1940, as expressed by Executive Director, George P. Mills, in his letter of June 20, 1940, regarding follow-up of these cases by his office.

Conferences

Discussions were held with Messrs. Mills and McCullough (an Assistant County Supervisor) of the Department of Public Assistance, and Mr. Boyle, an operator of the investigating group.

Findings

Contrary to the statement contained in Mr. Mills' memorandum of June 20, "On ten of the twenty-six cases the District had not received information as a result of your investigation" was Mr. Mills' admission that individual reports had been submitted, or the cases personally reviewed, for each name as shown.

The gist of some findings by the investigators was lost when the Executive Director's letter to the visitor failed to take into consideration all of the details of the investigators' expositions.

Visitors, in their re-investigation, went no further than usual routine—invariably examining questionable situations directly with the recipients.

Despite the evident importance of a letter from the Executive Director, and the need for promptness, quite a number of cases are still in process of re-investigation, even though several months' time has elapsed. Even the agitation of a "second reminder", via telephone, failed to elicit response.

ANALYSIS OF REPORTS OF COMMITTEE'S INVESTIGATORS IN PITTSBURGH. ACTION TAKEN BY PITTSBURGH OFFICE THEREON AND COMMENTS

Mr. Mills assented to this lack of efficiency.

The comparative analysis itself was not an analysis by Mr. Mills, the Executive Director, but the work of an assistant county supervisor, whose attitude, in relation to outside investigations and their value, is derisive, inharmonious and factious.

Mr. Mills concurs that their analysis, by its statements, depreciates the work of the investigators, while setting too high a value on their own examinations.

Despite a feeling that "hearsay" was accepted as "factual information", and that the moral aspects of a case were too deeply defined by the investigators, the Executive Director admits they accomplished much.

Furthermore, Mr. Mills feels that similar groups of outside investigators, operating as did the Commission's group, should be made a part of the Department of Public Assistance. Such a group would, in his opinion, overcome the limitations of visitors.

While thirty-two cases were listed as "Non-eligible cases developed during survey and still active", only twenty-six were compared in the Pittsburgh office summary.

Explanations relating to those recorded in the Mills' survey are shown.

As to the remaining six, it was assumed that the Department was in agreement with the report. A test check, however, was made of two such cases, explanation of which is shown.

RECAPITULATION OF CASES DETERMINED INELIGIBLE IN PITTSBURGH, ORIGINAL COMMENTS OF PITTSBURGH OFFICE

Rept. No.	Date Contact	Date Mills' Letter	Date Visitor's Reply	Principal Facts of Joint State Gov. Com. Investigation	Remarks in Mills' Letter of 6-20 relating to the Commission's Report	How Handled by the Pgh. Office	Learned at July Conference and from Case Records	Resulting Comments
14	3-18-40	3-26-40		Landlady advised an independent income, a radio purchase, expensive clothes, and political affiliations	Frequents saloon, old friend of bartender. Wears hand-down clothes; radio loaned by friend.	Recipient consulted.	Feel that landlady has been "kidded".	Why wasn't the landlady consulted by the visitor? It is not expected that the recipient would be detrimentally expressive to himself.
12	3-17			Recipient working.	An overpayment has been established but not by independent report.	No verification as to emplmt.	Recipient objects to too many hours on RWP. Objects to Reimbursement Agreement. Office attitude is that RWP employment would keep him from private enterprise.	His supposed part-time employment not verified. In view of prior experience as to "overpayment" should not a more detailed investigation be made?
1	4-5	4-10	4-17	Employed, as is daughter.	Daughter was in home for short period but has left. Possibility of overpayment for two weeks. Being investigated.	Recipient and daughter at home and by telephone.	Visitor advised "We did not know daughter was at home". She had been home and working several weeks. Won't say how she manages. Admittedly, case needs further investigation.	Commission's report did show daughter was at home, employed and still part of the household.
15	3-21	3-26	4-5	Employed at pool-room.	Previous employment known & verified. Picks up change occasionally but never more than $1 weekly.	Contact with pool-room proprietor.	Proprietor says earnings don't average over $1 weekly. This information felt to be sufficient.	Earnings are stated to be within maximum allowance for relief continuance.
18	3-22	3-27	4-2	Employed in Chinese laundry.	Many complaints, all by father-in-law; All information previously known and quite thoroughly investigated.	Recipient & Chinaman questioned.	Mills advises visitors not capable of further checking employment. Record shows recipient employed by Toy during 1937 & 1938 but on 8/4/39 he denies her employment during prior 2 years. Complaints are numerous but little attention has been paid to them. Letter supposedly written by Toy, when checked with recipient's signature in case record shows similarity of writing.	Misrepresentation as to employment already in case history. Verification of employment by Pittsburgh Office staff not thorough enough.
38	3-8			Application for 1st citizenship papers after deadline to qualify for assistance.	No indication of overpayment.	No remarks.	Mills says there is nothing that can be done at present but should recipient ever go off relief he could not get back on rolls again.	No follow-up of citizenship status in case record after his advice that application had been made in August and for which he had no receipt.

RECAPITULATION OF CASES DETERMINED INELIGIBLE IN PITTSBURGH, ORIGINAL COMMENTS OF PITTSBURGH OFFICE

Rept. No.	Date Contact	Date Mills' Letter	Date Visitor's Reply	Principal Facts of Joint State Gov. Com. Investigation	Remarks in Mills' Letter of 6-20 relating to the Commission's Report	How Handled by the Pgh. Office	Learned at July Conference and from Case Records	Resulting Comments
37	3-15	3-29	4-15	Insurance of $2538.	Receipt of other insurance not reported. Further investigation being made.	Apparently not at all.	Application of 5/29/39 shows receipt of $1500 only. Nearly $700 was received 1 month prior to application for which no receipts. No verification of additional $1038 insurance.	Case has appearance of a "build up" by brother. Incorrect statements definitely made and accounting of insurance funds has been evaded.
39	3-9			Naturalization.	No indication of overpayment.	No remarks.	Case discontinued 6/5/40 private employment.	Investigator's comments dealt with citizenship.
46	3-20	4-10	4-16	Immoral activities.	Morals questionable; managing ability of family not very acceptable but no indication of ineligibility.	Neighbors report interest in Mr. A. B.	Mr. A. B. is a recipient. No check-up on son's earnings. Case is one of bad repute.	Supervision attitude is still "forget the moral aspects". Visitor's investigation too casual.
10	3-11	3-26	3-29	Using truck for hauling coal.	No evidence of income from truck.	Recipient questioned.	Admits hauling coal solely for own use. Truck now being repaired.	Would a truck be maintained solely for purpose of hauling one's own fuel.
43	3-11			No proof that men were living at this address.	Recipient arrested for pandering 12-27-39.	Visited.	Record of recipient not in office.	A crowd of the same ilk, living in a "flop house."
9	3-11			Employment in Mt. Washington.	No overpayment discovered as result of investigator's report.	No reference made.	Case record shows that recipient worked while receiving assistance. Was getting $4.40 weekly relief and $12.50 weekly salary plus room and board.	Employment mentioned in investigator's report not followed up, despite prior record of income while on relief.
11	3-18			Contributions by the father of an illegitimate child.	No ineligibility established.	Nothing.	Divorced in 1925. Support order on husband in 1926. In 1935 expecting help from F. Criminal court order of $3 weekly considered at time of grant. A.D.C. grant considers court order of $13 monthly. Had husband in court 6-20-40 but did not get support. Older son army deserter and accused of paternity.	Here is an emphasis by the Department on what may be granted rather than how much can be cut.

RECAPITULATION OF CASES DETERMINED INELIGIBLE IN PITTSBURGH, ORIGINAL COMMENTS OF PITTSBURGH OFFICE

Rept. No.	Date Contact	Date Mills' Letter	Date Visitor's Reply	Principal Facts of Joint State Govt. Com. Investigation	Remarks in Mills' Letter of 6-20 relating to Commission's Report	How Handled by Pittsburgh Office	Learned at July Conference and from Case Records	Resulting Comments
4	4-2			Her recent marriage.	Marriage known and assistance discontinued prior to investigator's report.	Visits.	Married husband earning $16 week. A.D.C. and G.A. discontinued 4-11-40. Family received assistance during month of March and also a G.A. grant from 2-8 for which they are ineligible. Would not let son go to CCC.	Actual discontinuance was not effective until nine days after date of investigator's rept.
20	3-26	3-29		Employment in private industry.	Employment reported by family. To date not able to establish that D.J. and A.J. are same.	Waiting for employment information.	Advice of employment on 4-11-40. Case history shows: 2-15-40 complaint that J. was receiving U.C. and assistance while employed. 2-23-40 complaint using step-father's truck. 3-7-40 D.P.A. 78 reports earnings of $76.66 for P.J for period 1-1—1-31-40. This is amount reported by investigators. Requested Mills to check employment situation at once and learned that Al and Pete J. are in partnership of buying and selling coal.	Undoubtedly employed while receiving assistance. Further evidences of employment still being found.
35	3-26	4-2	4-5	Cash settlement of accident claim makes recipient ineligible.	District has been aware of possibility of settlement. Case probably would not be settled before September 1940.	Another attorney located.	After report check of 3-29-40 was held. Received $500 on 3-8-40 but not reported until 4-8-40.	D.P.A. did not learn of settlement until after investigator's report was submitted.
34	3-4	4-4	4-26	Paramour and private income.	M. in home as roomer. Separate living quarters maintained. Mrs. L. has a friend who owns house boat but would not consider living on one herself.	Recipient and M. interviewed.	Re-application for relief 2-26-40. Granted 3-4-40. Admit lease signed in name of Mr. and Mrs. M. but office attaches no significance to such arrangement. Visitor asked lawyer to evaluate stock. Had intended to rent house boat. No community contacts.	Since only recipients were interrogated, D.P.A. investigation is not completed. Also this is a too willing acceptance that Mr. and Mrs. arrangement is solely for purpose of renting house.
2	4-5	4-10	4-24	Odd jobs. Also regular employment of tenant.	Man received $2.00 for small repair job, discovered as result of investigator's report.	N. came to dist. office in April.	Odd job of Cabin Pie Co. verified. As to P., two aliases. Found he worked as S.M. from 6-22-38 until 3-20-40. Evidence of pay while on relief. Restitution to be begun at	D.P.A. admits to N.'s part-time employment. Tenants earnings as reported by investigators' report, also verified by D.P.A. office.

RECAPITULATION OF CASES DETERMINED INELIGIBLE IN PITTSBURGH, ORIGINAL COMMENTS OF PITTSBURGH OFFICE

Rept. No.	Date Contact	Date Mills' Letter	Date Visitor's Reply	Principal Facts of Joint State Govt. Com. Investigation	Remarks in Mills' Letter of 6-20 relating to Commission's Report	How Handled by Pittsburgh Office	Learned at July Conference and from Case Records	Resulting Comments
							once. (4-19-40) Aliases apparently used to avoid detection by relief offices.	
31	3-13	3-26	4-3	Morals, selling milk, etc.	Relationship with S. nothing more than a friend. Mrs. O. states that all milk received is used for the children's needs.	Usual visit.	Case has been active since 1933. Frequent reports of her interest in P.S. for several years. Juvenile Court supervising children at home Cash grant increased without a home visit after birth of P. No visits after 4-3.	No attempt to verify conditions beyond visit with recipient. Contributions by the various sires should be thoroughly digested. Isn't there a relationship between P.S and the child P.?
32	3-18	3-26	4-3	Income and savings.	State's interest amply protected by Reimbursement Agreement.	Bank not checked. No attempt to verify son's employment.	6 rooms, pays $66 monthly. $55 to HOLC Supposedly living on remaining $11 plus G.A. grant of $3.50 weekly. No visit between 11-15-39 and 3-29-40.	Is this family able to live on approximately $22 monthly remainder? Is the son employed to any extent?
41	3-28	4-4	4-16	Clerk in "numbers" store.	Have been unable to establish that P. works there or is engaged in number writing himself. Factual information very difficult to obtain.	Proprietor of store questioned.	Came to office 3-26-40 to report he was being investigated. Pay, supposedly only candy and tobacco for opening store and sweeping place. Proprietor is known as "numbers" writer or pick-up man. P. not in store since investigation.	A known number writer's statement can hardly be expected to be true.
13	3-12			Employment.	Family apparently eligible with no indication of overpayment.	A visit.	Was a supplemental grant on a salary of $30.33 mo. contrary to advice of investigators' report that mentions $10 weekly. No visit between 10-9-39 and 4-9-40. No check-up with former employer as to where she might be presently employed. Mother on blind pension	Visitor's investigation should have gone further than just an interview with the recipient.
25	3-30	4-5	4-12	Painting jobs.	Employment reported by recipient. Landlady reports employment has been promised S. but he has not worked during period of assistance.	With the recipients.	On 4-1 (day after investigator's contact) S. reported work to start 4-8. Case history shows that Mrs. S. sued husband even though not separated, as she thought he was earning more than he was leading her to believe.	It is to be noted particularly that even the wife has questioned S's actual earning. Also, this recipient reported his intention to start work the day following Commission's investigations.

Not on D.P.A. Pittsburgh Office Analysis

6	3-7	3-11	3-26	Washing cars.
42	3-6			Committed to jail.

Car-washing job verified. T. admits that car-washing has been going on since January 1939, but claims maximum is $2 weekly. Over-payment summary covering the period 1-27-39 to 3-29-40 submitted to claims settlement.

A sordid mess. Niece comes North pregnant. Niece pregnant second time by L. L. and M. see visitor, want to set up own household Mrs. L. and children continue on assistance. Mr. L. on WPA. Mrs. L. has her paramour arrested. All arrested on charges of adultery. Social worker in Morals Court says moral condition was being sanctioned and encouraged by the D. P. A. Advised to plead guilty, the D.P.A. draws in legal aid when plea is changed to "not guilty." All in jail or detention for 37 days ending 3-13-40 M. back with L. Case record shows:
2-29-40 assistance discontinued.
3-14-40 out of jail day before.
3-15-40 expected assistance for himself, M. and their child. M. cashed his check of 2-9-40 after forging signature; assistance resumed for $4.40 and urgent partial requested.
4-19-40 L. reports he and Mrs. P. are living together again and want their checks combined.
4-22-40 budget increased to include Mrs. and 2 children 4-26-40.

INVESTIGATION OF CASES IN OUTLYING COUNTIES

A supplemental grant for a "part time" employe. Children advise he is employed regularly from Monday until Friday. Have two roomers paying $6.50 weekly. A man and his wife were also paying $8.00 monthly for an apartment. One boarder, a chef, also supplies food.

Earning $14.00 weekly at woolen mill and has Plymouth car. Mother also received assistance while the father was "away." Boasts that she wouldn't "sign over" her insurance for adjustment and just "strung them along" knowing she wouldn't need relief after a couple of weeks anyway. Father is also employed, earning $21.00 weekly.

Father employed by construction company and, in addition, earns $8.00 as janitor in local theatre. S. and her illegitimate son, live with her mother and father.

A summary of January 1934 mentions: A very complaining type Employer states "he is not a good worker." Doctor remarks that these people demand unrequired medical attention. (These remarks are supplemented in 1937 with "L. not anxious to work—no serious health condition.)" Recently; i.e., July, 1940, it is found that wife is away from home and a tenant, supposedly removed, is still continuing residence.

On rolls since 1932. Only apparent reason for not working is "hemmorrhoids." Won't have the operation that is discussed many times.

Employed on truck several days weekly, receiving maximum grant of $4.40 weekly. Has completely furnished five room apartment, even though single, rent for which is $16.00 monthly. On the rolls since 1933, has enjoyed every form of relief.

Groceries, clothing, bedding and fuel, in addition to cash grants since 1932, varying as sons, daughters and mother are added to household. As early as 1934 record shows complaints and, too, evidence of son working while included in grant. Father won't work Mother leaves, to live with other relatives, as soon as she receives old age assistance. Daughter and her child included even though she won't take support from husband. Planning a divorce, the cost of which is to be borne by a boy friend, Intends to keep earnings for herself if she gets a job. Numerous instances for failures to report for assignments by various members of the family. At time of last application for assistance, following W.P.A., it was learned that a $1000.00 endowment insurance policy had been turned over to a friend.

A 46 year old Russian, in America since 1913. No record of citizenship application. Has been on relief, the majority of time, since 1930. Mention is made 4-16-36. "Large part of weekly earnings go for beer." Had received, and failed to report, compensation of $114.27 while on a G.A. grant. Last entry in case folder, 3-19-40, mentions a failure to report for a relief work project.

Application 11-2-39. Had received relief in Mercer County until 11-1-39. Wife failed to report to assignments given her by S.E.O. Accepted for assistance even though Mercer County report was not received. (Mercer County report not favorable to the Harshmans). Nothing done about complaints of "sign painting" and "peddling" while on relief, even though verified.

Groceries, prenatal clinic, shoes, extra milk, rent payments by outsiders, bed, spring and mattress, food com-

modities, and clothing orders are additional to cash grants. Known to relief agencies since 1930. Many instances of moving. Quarrels with landlords. Left owing rent. Would not "work out" obligations. Constant improvement in surroundings. Wifes' belongings sold by, and clothing orders spent by, the husband Admission of ocasional odd jobs. Not satisfied with clinical attention for latest pregnancy, wants own physician. Found working for grocer while on relief. Claim for restitution. Complaints of drunkenness, thievery, feigned illnes, boarders, etc. W.P.A. provides a housekeeper.

Case record in Erie County office indicates a "single man." A native of Argentina, has been married 13 years. Visitor has not been near for several months. Recalled by General Electric in July, 1940, but refused job because he vanted something easy to do. Wife has no idea how bad his "heart condition" is, but he goes out all day. Doesn't know where he goes. She receives Mothers Assistance of $38.30. He receives $1.60 weekly for his own use.

Old age assistance of $20.00 per month since April, 1939, prior to which the grant was $17.50 since March, 1937. Son operates plumbing business and is in possession of $19,000 worth of real estate with no record of encumbrances. Net income from properties estimated as nearly $900.00 and earnings $600.00. Son refused to assign piece of property, where mother resides, in order for her to sign a reimbursement agreement.

G.A. case—$11.25 weekly. After visitor requested reimbursement agreement signature, because of property interest, a judgment note was made in favor of a sister and entered against E. The agreement was then signed. Review Board justified this evasion and permitted the grant to remain unchanged, even though appealed by the visitor.

Appeal case. Notation of 6-4-40 says "grant assistance." Case history shows: Failure of son to report for W.P.A. assignments. Doctor's notation—"This family will resist the idea of work." Threats of warrants against the relief board. Constant writing "Get busy or I'll go higher, etc." Complaints of the wife selling W.P.A. clothing and surplus commodities. Complaints of the son caddying and selling magazines.

Mother advises that C. never asked for or received relief, as his employment, as helper in A. Shoe Repair Shop where he has been the past two years, is sufficient. An apartment is sub-let for $10.00 monthly Case record shows a supplemental grant because of limited earnings.

Over-payment reported June 1, 1939. Insurance received in amount of $322.20 against which were funeral expenses of $150.00. No restitution of the difference.

Woman works in store and could be regularly employed but for the time consumed in getting relief. Won't marry father of illegitimate child for fear relief will cease. Assistance finally discontinued 5-11-40.

CASES OF HABITUAL DRUNKENNESS

Proprietress of six houses containing 29 old age assistance cases, 6 W.P.A. workers and 13 physically handicapped G.A. cases. Her biggest problem is "boozing" Drinks are mostly "moonshine."

Case begins in 1930. Excerpts from the running case history show: During 1937—referred to private job but doesn't want heavy work. Re-applies for relief. Advise that Seasock drinks up W.P.A. earnings and makes trouble. Grocer says "All Seasock does is drink." Battered, drunken brawl. Sister tells visitor if S. gets relief he would drink it all. During 1938—still spending money for liquor. M is an habitual drunkard. Upon making several collateral visits, visitor advised that M. drinks heavily, and is usually drunk.

Case begins in 1933 but drinking is not mentioned until 1936. Case record shows:

2-4-37	Drinks heavily and for this reason has lost his job.
11-1-37	Visitor finds him in a very drunken condition. In such a drunken stupor they paid no attention. Because of their being intoxicated, interview was not continued. Case continued.
9-13-38	W.P.A. earnings paid a back store account, balance for current expenses and drinking. Case re-opened in office.
11-19-39	Visitor suspects manufacture of "illegal alcoholic beverages."
9-25-39	Not a citizen.
7-8-40	B. under influence of liquor. Mr. B. was in prostrate condition and could answer no questions.

Lives at a tourist home, where his own quarters are provided in the rear. Receives, all his meals. Is caretaker for the lawn and chickens. Only purchase he makes for food is for balogna. Receives his relief check on Saturday morning and gets drunk regularly each Saturday.

As early as 1932 visitor comments "will sell his groceries for liquor if the case is approved." In 1935: Room mate complains that L. has been drunk almost continuously. Barred at the Salvation Army. An employer has work for him if he stays sober long enough. Gets $1.00 an hour when employed. Separated from wife who is also on relief. Later: He thinks he must keep on drinking. Employment office sent him to job, electric welders are needed, but he is too drunk to go. Admits earnings have been as much as $121.00 weekly. Not in accord with the idea of "taking a cure." Brother feels S. is utterly useless. Made no effort to support his family, was living with another woman. Not a citizen. Panhandled meals and hauled rubbish and ashes, earnings 50c to 75c daily, while receiving relief. Visitor closed case 5-1-40 but it was almost immediately re-opened by an interviewer.

Many complaints. Charges and counter-charges by husband and wife, as to intoxication, disorderly conduct, cashing mate's relief checks, etc.

Father-in-law of S. C. known to various relief agencies, churches, missions, etc., for years. Came in while Cr. was being interviewed, drunk and requesting that his relief check be cashed. Impressions are that he is always drunk.

Lives with sister. A habitual drunkard. Uses his money for liquor.

Came from Rickeyville, Washington County, Pa., in 1936. Is a Slav, married at least twice. Arrested in 1939 on assault and battery charge. Worked on W.P.A. as laborer until year and a half ago. Has since been operating rooming houses, principally for men patrons on relief rolls. at 40 Fernando Street and 1036 Fifth Ave. Usually

has between 15 and 20 roomers. Doing volume of business from sale of liquor at Fernando St. address. Sells it by drink or bottle. Has no liquor license. Reliefers at 1036 Fifth Ave. admits getting relief checks on Friday a. m., out of which De. takes room rent, plus whatever amounts are owed him for liquor. D. keeps mail box under lock and key and himself distributes relief checks to tenants. Pays rent for both addresses promptly by means of properly endorsed relief checks and cash. Patrons are drunk on Fridays and Saturdays. On subsequent days are out on streets panhandling for enough to eat to sustain them until following Friday.

One of 4 residents in the same house. Case record shows: To America 1905, no citizenship papers. Associates with whiskey drinkers. Drunk for days. Buy rubbing alcohol to drink. A bum. Quarrelsome and a trouble maker. Drinks constantly. On relief and W.P.A. for number of years.

Known also as Gdwish and Gdwrys. Case record shows: Spends scrip for liquor. Prosecuted for "breaking, entering, attempted burglary." Found working while on relief. Not a citizen—to America 1907. More mention of drinking

As early as 1935 case history mentions a two week drinking spree. Shows also: Request for citizenship denied 9-12-38. Drunk. Ill from drinking. Sick again from drinking rubbing alcohol. Had priest in to see him.

Question as to his residence in 1935. Used address to receive scrip. Asks landlady to elope with him. Refused job. Uses scrip for liquor-demands more scrip. Works on project but still requests scrip. Woman advises 6-29-36 he is working on her farm, getting room, board and $15.00 monthly pay while on relief. Uses scrip for bootleg liquor. Report again in 1937 as to his employment while on relief. Cross at suggestion he go to work. "Wants relief." Drinks up all his money. Did not report for review board meeting but food and clothing granted notwithstanding. Never applied for citizenship. Drunk with the rest of the boys.

CASES IN WHICH EXTRA MARITAL STATUS WAS FOUND

Receiving A.D.C. grant of $50.00 monthly. Living with brother of husband. Both brothers employed steadily by Scott Brothers and each earning nearly $300.00 a quarter year period.

Formerly received a G.A. grant of $4.80. Moved in with woman and three small children, supposedly his, and relief grant is now $12.10.

Receives $1.70 weekly supplement to laundry work. Is doing just so much and won't look for additional customers. Lives with daughter and daughter's three illegitimate children. Court order of $2.00 weekly on father of youngest child. Daughter receives $36.70 Mothers' Assistance. Won't take jobs, don't want their grants reduced. Inferred that relief office suggested they not work at all, but stay home and continue on relief.

Unmarried, has illegitimate child. Child Welfare Bureau advises D.P.A. of L's admission that she is living with a boy friend. He too has been receiving his relief checks at her home. Relief is to be discontinued for the woman but she will be included in the man's grant. Complaint by paramour that she left him and is living with another man. Despite complaints of frequent male visitors, parties, women boarding and the frequent changes of address, the final case message notation, of 5-15-40, reads "Recommends assistance be continued," Maximum budget allowance.

One son, L. now in Morganza Reformatory for theft. Second son apparently headed in same direction. Interest now centered in an A.B. who is also a relief recipient.

Posing as man and wife with a Mr. M. and house lease signed as Mr. and Mrs.

Receiving A.D.C. of $48.30 for four children sired by different fathers. Alleged father of youngest child, Paul, is a P.S. employe. Juvenile Court is supervising the children at home.

Niece came North while pregnant. Second time pregnant by L. L. and M., the niece, want to set up own household. Mrs. L. and children continue on assistance. Mr. L. on W.P.A. Mrs. L. has her own lover arrested. All arrested on charge of adultery. Social worker in Morals Court says "moral condition was being sanctioned and encouraged by the D.P.A." Advised to plead guilty, D.P.A. draws in Legal Aid and plea is changed to "not guilty." All in jail or detention for 37 days ending 3-13-40. M. back with L. Case record shows:

3-15-40	Out of jail on the 13th. Expected assistance for himself, Mamie and child. M. cashed his check of 2-9-40 after forging signature. Assistance resumed.
4-19-40	L. reports he and Mrs. T. are living together again.
4-22-40	Budget increased to include Mrs. T. and the two children.

Son employed by dental laboratory. Unmarried daughter has baby 17 months old. Receiving grant of $9.80. Daughter has court order on child's father, despite which visitor offers A.D.C. grant.

SURVEY OF CASES DENIED OR REMOVED FROM GENERAL ASSISTANCE IN DELAWARE COUNTY

Introduction

During the calendar period September 1939 to February 1940, the Delaware County Board of Public Assistance authorized:

1. The cancellation of relief aid to single men between the ages of eighteen and forty-five years without dependents
2. The rejection of new requests for relief assistance in the same category.
3. The non-acceptance of re-application of the same category.

The assumption was that these men could, through diligent application, earn an amount equivalent to what a weekly relief check would be.

Four hundred twenty-two cases—September 1, 1939—February 1, 1940—were refused after being reviewed, some so evidently undeserving that no office records were kept. In 25 per cent of these cases, records were kept. They were the persistent ones.

Seventy-four cases, however, were set aside to be investigated for later approval, or disapproval, of the action of refusal.

The division of these cases is as follows:

Division	No. of Cases	Percentage
1. Active cases discontinued	1	1.4
2. New, or first, requests Never before on relief	24	32.4
3. Re-applications		
a. Former recipients	45	60.8
b. Previous application but never recipients	4	5.4
Totals	74	100.0

These cases were investigated during the period February 27 to March 26, 1940.

In addition, thirty-one more investigations were made during the week April 1 to April 8, 1940, inclusive.

This second group covered cases, regardless of sex, age, marital status and the like, that had been arbitrarily discontinued because the Delaware County Board felt "the people had been on too long and had not made an honest effort to get into industry."

It is interesting to note that, while these cases were on relief rolls for one year or longer, some as long as three years, there has been no reaction of any kind since they were dropped.

Results of Survey

Group No. 1

Of the first group, i. e., seventy-four supposedly single men, eighteen to forty-five years of age:

a. Thirty-two cases, or forty-three per cent, were in the City of Chester. The balance were distributed throughout the County.
A geographical distribution of cases, according to case record addresses, is attached to this report as Appendix I.

b. The cases, of which forty-three were of the white race and thirty-one of the colored race, were located at residences graduated from filthy hovels to clean, well-established homes.

c. Ten cases showed changed names, to wit:

As Recorded	Actual or Other	Our Case No.
Miller	Mlynarszek	96
Tindale	Tingle	64
Farmer, James	Farmer, Lee	28
Margio	Marge	52
Davidson	Davis	76
John	Johnson	56
Templin	Tempelton	85
Pompur	Pompey	82

No consideration has been given to names of step-parents.

d. Seven, supposedly single men, were married and, admittedly, living with their wives:

Name	Race	Our Case No.
Miller	White	96
Turner	Colored	4
Trawick	Colored	5
Ryder	Colored	6
Kennedy	Colored	7
Connelly	White	8
Smith	Colored	15

Eleven were married, but divorced or separated.

There were, in addition, nine cases of illicit relationships.

e. There were nine men whose ages, admittedly, were in excess of the forty-five year old maximum as follows:

Name	Our Case No.	Ages in Years
Schrader	24	60
Seagraves	9	49
Smith	75	55
Wilhems	11	50
Margio	52	57
Evans	53	60
Burns	39	63
Maraz	62	62
MacIvor	70	60

f. Seven, now on relief, W.P.A. or N.Y.A., are:

Name	Our Case No.	Race	Remarks
Miller	96	White	On relief in Scranton
Bowers	97	White	W.P.A.
Collins	98	White	W.P.A.
Hackett	99	Colored	W.P.A.
Wilson	100	White	N.Y.A.
Rooks	101	Colored	N.Y.A.
Johnson	102	Colored	N.Y.A.

g. Four were unknown, at addreses given in Board's case records. Their names follow:

Name	Our Case No.	Race	Informants
Orysczak	90	White	Tenants in apartment and store at residence address.
Shorts	92	Colored	Present tenant and postman.
Graves	91	Colored	Next door neighbor and corner grocer.
Myers	93	Colored	Three tenants of same building and white neighbor next door.

Group No. 2

The second group, twenty-one of which are residents of Chester, were divided, according to race, as follows:

Sex	White	Colored	Totals
Male	14	7	21
Female	2	8	10
Totals	16	15	31

Here again were instances of:

a. Variances in names—

As Recorded	Actual or Other	Our Case No.
Rush	Szatkowski	16
Maguire	Higgins	17
James Berry	Warden Berry	20
Edward Maloney	Elwood Maloney	103

b. Men who failed to complete their citizenship requirements:

Name	Nationality	No. of Years In America	Our Case No.
DePase, Louis	Italian	20	42
Petryk, John	Ukranian	..	46
Tartaglio, Nicholas	Italian	30	71
Kanuka, Steve	Lithuanian	29	72
DiPaulo, Gaetano	Italian	..	89
Sepcich, John	Croatian	30	63

c. There are six cases of conviction for law violations of which four seem to be of the criminal type and two of the casual violations of law.

d. Nine cases of illicit relationship are specified in the individual reports.

General

For individual discussion of the cases, see Appendix II. The following summary of the combined results of the two groups investigated is recapitulated as follows:

	No. of Cases	Percentage
1. Not at present in need of relief in Delaware County	87	83
a. Employed on regular jobs	23	
b. Engaged in private enterprise	26	
c. Living with relatives	11	
d. Moved from locality	8	
1. To Philadelphia (1 with kin) (1 with friend) (1 not known)	3	
2. To Shamokin (With kin)	1	
3. To Scranton (With friends)	1	
4. To New York (With kin)	1	
5. To Concordville (Employed)	1	
6. To Georgia (With kin)	1	
e. Not living with relatives, Families able to support	3	
f. On W.P.A. or N.Y.A., Arrangements questionable	6	
1. Hackett, landlady would give no information.		
2. Collins, former inmate of Elwyn Training School living with attendant of the same school.		
3. Wilson, grandfather left $1600 insurance.		
4. Rooks, does odd jobs, stepfather can provide.		
5. Lawrence, quit part-time job for sewing project assignment.		
6. Johnson, mother refused to assign her house for "widow's pension."		
g. Living with friends	10	
2. Doubtful Cases	16	15
a. Moved and left no forwarding address	9	
b. Were not known or could not be located	6	
c. On relief in Lackawanna County when application was made. (Eligibility there questionable. See Miller Case No. 96)	1	
3. Remainder, both need relief (Bowers on W.P.A.—Maloney in jail, wife receiving Prison Aid)	2	2

Appendix III is briefly expressive of each of these foregoing classifications, and Appendix IV gives a chronology of the investigation.

Remarks

This survey of 105 cases divided into the two groups of 74 supposedly single person cases and 31 cases arbitrarily discontinued because the Board felt the recipients had not made an honest effort to get into industry, was made for the primary purpose of answering one question "How were these people presently living?"

In all cases interviewed there was apparently sufficient food, clothing, fuel, and housing and, in general, the individuals seemed to be living roughly in accordance with their own long time standards.

In this report no attempt has been made to present personal impressions, except as to living conditions. The reports of individual cases record only what transpired at the time of inquiry.

25	McKone, James	Son employed at the Sun Ship Co. Applicant—with substantial family background—now does odd jobs. Admits to earning of $5 weekly Has applied for job six times in three months.
26	Mabus, Jack	Drives car. Has occasional work. Family, with whom he has roomed for 15 to 18 years, made no demands for payments of board.
27	Curtis, Raymond	Lives with grandmother. Father, living in Philadelphia, is on relief. Mother's residence, job, etc. questionable.
28	Farmer, James	Former constable who will not look for work. Meals and rooming quarters supplied by Hotel proprietress.
29	Blow, Wesley	Was on relief on W.P.A. for 5 years. Now doing odd jobs.
30	Carney, Dawson	No evidence as to manner of employment other than driving men to work in own car. Boasts he is living better than when employed in industry.
31	Brown, John	Lives at fire house, rent free. Father pays for meals this son charges at restaurant. Earns $6 to $10 weekly playing pool.
32	Upjohn, Horace	Living with woman employed as school janitress at a salary of $13.50 weekly. He earns about $5 weekly. Part of their apartment is subletted for $20 monthly. Woman's son at Broadmeadows.
33	Mitchell, Richard	Got relief as married man while living with woman. Relations live in immediate neighborhood.
34	Scheffmeye, Walter P.	Made request for relief while employed as cook at the Eddystone Hotel. Compensation was $10 weekly, plus room and board.
35	Majors, William	Son on W.P.A. Wife lives with a "Saunders" at Leipers Quarry. Majors pays no rent, drives car, does odd jobs. Living with woman and her children.
36	Fontaine, Morris	Living on a vacated estate with woman caretaker. Does odd jobs and farming. No definite amount paid for board.
37	Tyler, Howard	Lives with aunt who receives old-age pension. Quit his job in Charlottesville, Va., to come North.
38	Sample, John	Has car. Brother, unemployed, came from Virginia for sinus treatments at the Philadelphia General Hospital.
39	Burns, John	On relief since 1934. Has sister who is "well-fixed"—other close relatives nearby who can aid.

Case No.	Name	Remarks
40	Hayward, Malcolm	Former C.C.C. enrolee, has been on both relief and W.P.A. assignments. Owes no back rent for room. Has Postal savings. Doesn't bother to look for a job.
41	Crawley, Paul	Really lives in Philadelphia. Two brothers and sister, all employed, live in Philadelphia. Does some odd jobs, but is really "laying around."
42	DePase, Louis	A gambler and heavy drinker. Owns home—taxes are paid Living with woman Two children are in an Italian Home. One child lives with relatives. Rents rooms. Has only 1st citizenship papers.
43	Nelson, Naomi	Has roomers who pay also for laundry and cooking. Started on relief in 1932.
44	Jones, Willie	Lives with his paramour. Junks for a living
45	Jackson, Sylvia	Doing housework few days a week. Never had a day's work, for about 4 years, while on relief.
46	Petryk, John	One son in prison, another is employed as messenger boy, and the third son is epileptic. Not a citizen. Is doing odd jobs paperhanging.
47	Ruffiings, Margaret	Does housework. Living with a Sam Williams.
48	Farrell, William	A "rummy." Does huckstering. Has son, earning $30 weekly, who lives with his mother in Essington. Produce broker for local merchant.
49	Miller, Joseph	On relief since 1933. Moving to Philadelphia through the assistance of the Media Community Centre. Combined earnings of Miller and his two sons amount to $13 weekly.
50	Harkness, John	Lives at married sister's home. Father living and pensioned.
51	Traband, Chas.	Mentally deficient. Only employment he has ever had was a two year W.P.A. assignment. Lives at one brother's home. Has another brother and a sister.
52	Margio, Antonio	Has own living quarters adjacent to son's home. Came from Pittsburgh year ago.
53	Evans, Felix	Man of sixty whose sister just recently moved in after 13 years of family separation. Evans has daughter in North Carolina. Owns house.
54	Wilson, Bradford	Lives with sister. Came from Maryland three years ago. His only jobs were on W.P.A. projects. Brother-in-law works at General Chemical Co. and has son on N.Y.A.
55	Brown, Harry	An epileptic. Lives with cousins. Was recently in Philadelphia for about five months. Father in the county home, sister's husband is on W.P.A.
56	John, William	Correct name Johnson. Returned to step-father's home. Was living with other relief recipients.
57	O'Neill, Leonard	Living with mother who owns her own home—has boarders and lets a two-room apartment.
58	Smith, Ella	Son at C.C.C. camp sends $22 monthly. Receives $2 for support of daughter's illegitimate child. Brother, separated from family, lives in same community.
59	Wiggins, John	Left uncle's home to get relief assistance. Now living with aunt since her husband's death. Not trying very hard to find work.
60	Mastracola, Dominick	Has son and daughter living at home who are working. Two other adult children. Owns own home.
61	Woelfel, Ralph A.	Has good family capable of assisting. Lives, rent free, at firehouse. A painter, he gets odd jobs occasionally.
62	Moraz, Frank	An old man whose family can provide for him without inconvenience to themselves.
63	Sepcich, John	In America for thirty years. Never got second papers of citizenship Rents rooms occasionally Family well able to provide for him Arrests in 1919 and 1933 on "speakeasy" charges.
64	Tindalie, Francis C.	Owes $23 for relief chiseling. Won't work!
65	Swetko, John	Lost citizenship papers for falsifying marital status. A Russian, he has lived in America for 30 years.
66	Bradford, Henry	Drives an old DeSoto car. Presently employed by a cleaner. Doesn't hold jobs long. Was pipe fitter on W.P.A. projects.
67	Meekins, Jacob	Apparently the only man in house full of women. $2.00 room rent also gives him the privilege of eating with the rest of the guests.
68	Carter, James	Living with a Hattie Williams. Has a wife at another address. Consort still receiving $1.70 weekly as her relief allowance.
69	Adams, Ernest	Has lived here since recent release from jail. Has a family and a girl friend—a Pearl Gibbs. Pays nothing for rent and can stay indefinitely.
70	MacIvor, Walter	Living in own basement apartment with a friend who is steadily employed at Brills. Has two unmarried daughters, and a son, living in St. Louis.
71	Tartaglio, Nicholas	Lived in this country since 1901 but made no application for citizenship until 1937. Stays here, at friend's home, can continue indefinitely.

Case No.	Name	Remarks
72	Kanuka, Steve	An alien, from Lithuania, has lived with Annie Wallen for 14 years. Have 20 chickens, a cow; and Mrs. Wallen has a son who is working. Too, she owns property.
73	Anderson, Edward	Remained at this address for only a few weeks. Was employed regularly, as garage mechanic, after the first week of residence.
74	Kohn, George	C.C.C. enlistment expired in December 1939. Now living in Philadelphia with the father who is regularly employed.
75	Smith, Horace	Recently separated from wife. Now purportedly living in Philadelphia. Was believed, by neighbors, to have some "means." Didn't work.
76	Davidson, Herbert	Used the name of Davis. Recently separated from wife who is living with another man. Now in Shamokin with married sister. Was living with relief recipients.
77	Carie, Lovey	Has moved to New York City with family. Sister, still living at this address, conducts a private school with an enrollment of 58 colored children. Most of the parents of these pupils are on relief. Charges for tuition is 25 cents weekly.
78	Dugan, Mary	Moved to Scranton in June 1939. Planned to continue to New York City. Has a brother living in Scranton.
79	Jillard, Samuel	Was on relief from 1933 until December 1938. Has been living with a Mrs. Beaumont. Gives five different addresses.
80	Wells, Henry	Family moved back to their kin in Georgia.
81	Magee, Howard	Moved after rooming at this address about six months. An irresponsible fellow.
82	Pompur, Julius	Lived with Patterson, a W.P.A. employe. Received unemployment compensation of $100. Owes credit clothing house for suit on which only two payments were made.
83	Beck, Irving	Moved from this location several months ago.
84	D'Ambrosia, Carmen	Left this rooming house recently, owing for room rent. Would not look for work.
85	Templin, Albert	Name really Tempelton.
86	Tucker, Hughie	Moved, no forwarding address.
87	Wippert, Albert	Former C.C.C. enlistee. Has sister and two aunts living near northeast Philadelphia.
88	Ayres, Alfred	Left this rooming house in December 1939.
89	DiPaulo, Gaetano	Not a citizen. Moved the summer of 1939 from this house.
90	Orysczak, William	No one knew of this individual.
91	Graves, Preston	Never heard of.
92	Shorts, Howard	Postman did not know, in addition to present tenants.
93	Myers, Elsworth	Does not live here and is unknown.
94	Thomas, Bertha	Information refused by this arrogant woman and her daughter. Has been on relief for 5 years.
95	Johnson, Albert	Duplicate addresses. Not located at either house.
96	Miller, John	Applied for relief in Chester while on rolls in Scranton. Has been earning, in addition, substantial amounts doing odd jobs. Brother, on W.P.A., rents rooms and sells homemade quilts. Name really Mlynarzyek.
97	Bowers, James	On W.P.A. Has 18 year old son. Last job, other than W.P.A., was at Seaford, Delaware, last fall.
98	Collins, Verden	Former inmate of Elyzon Training School. Was "adopted" by school attendant with whom he is living. Has been on relief eight or nine years. Has a car which is used to drive fellow W.P.A. workers for which he receives $1.50 weekly.
99	Hackett, Francis	Recently started on W.P.A.
100	Wilson, Thomas	Never completed first grade education even though he went to school for nine years. Grandfather left $1600 insurance for his upkeep. Is getting $18 monthly through N. Y. A. Has always been able to earn a few dollars delivering circulars and groceries working at the various markets, etc.
101	Rooks, James	Doing "odd jobs" and on N. Y. A. Was at a C.C.C. camp for eighteen months. Step-father employed by General Chemical for twenty-six years.
102	Johnson, Russell	On N. Y. A. since October. Mother refused to assign her house to get "widow's pension."
103	Maloney, Edward	Husband at Broadmeadows on larceny arrest. No steady job since he was married. Wife now getting $8.00 relief.
104	Lawrence, Ida	Owns house. Gave up occasional domestic jobs to go on W.P.A. sewing project. Has about 15 chickens.
105	Weaver, John	Living with friends named Soifer.

APPENDIX III

NUMERICAL AND CLASSIFIED INDEX OF CASES

1. Employed—regular jobs

Case No.	Name	Where Employed

3. Living with relatives

Case No.	Name	With Whom Living
50	Harkness, John	Father and married sister
51	Traband, Charles	Brother
52	Margio, Antonio	Son
53	Evans, Felix	Sister
54	Wilson, Bradford	Sister
55	Brown, Harry	Cousin
56	John, William	Mother and step-father
57	O'Neill, Leonard	Mother
58	Smith, Ella	Daughter and grandchild
59	Wiggins, John	Aunt
60	Mastracola, Dominick	Wife, son and daughter

4. Families able to support

Case No.	Name
61	Woelfel, Ralph A.
62	Moraz, Frank
63	Sepcich, John

5. Living with friends

Case No.	Name
64	Tindalle, Francis C.
65	Swetko, John
66	Bradford, Henry
67	Meekins, Jacob
68	Carter, James
69	Adams, Ernest
70	MacIvor, Walter
71	Tartaglio, Nicholas
72	Kanuka, Steve
105	Weaver, John

6. Moved from locality

Case No.	Name	New Residence
73	Anderson, Edward	Concordville, Pa.
74	Kohn, George	Philadelphia, Pa.
75	Smith, Horace	Philadelphia, Pa.
76	Davidson, Herbert	Shamokin, Pa.
77	Carey, Lovie	New York, N. Y.
78	Dugan, Mary	Scranton, Pa.
79	Jilliard, Samuel	Philadelphia, Pa.
80	Wells, Henry	Georgia

7. Moved and left no new address

Case No.	Name
81	Magee, Howard
82	Pompur, Julius
83	Beck, Irving
84	D'Ambrosia, Carmen
85	Templin, Albert
86	Tucker, Hughie
87	Wippert, Albert
88	Ayres, Alfred
89	DiPaulo, Gaetano

8. Were not located

Case No.	Name
90	Orysczak, William
91	Graves, Preston
92	Shorts, Howard
93	Myers, Elsworth
94	Thomas, Bertha
95	Johnson, Albert

9. On relief agencies

Case No.	Name	Agency
96	Miller, John	On relief in Scranton
97	Bowers, James	On W.P.A.
98	Collins, Verden	On W.P.A.
99	Hackett, Francis	On W.P.A.
100	Wilson, Thomas	On N.Y.A.
101	Rooks, James	On N.Y.A.
102	Johnson, Russell	On N.Y.A.
103	Maloney, Edward	Prison Aid
104	Lawrence, Ida	On W.P.A.

APPENDIX IV

CHRONOLOGY OF INVESTIGATIONS

Investigation Nos.	Dates
1 to 19	February 27 to March 5, 1940
20 to 41	March 6 to March 12, 1940
42 to 61	March 13 to March 19, 1940
62 to 74	March 20 to March 26, 1940
A1 to A31	April 1 to April 8, 1940

CASES IN WHICH MEDICAL SERVICE IS BEING RECEIVED DESPITE QUESTIONABLE RELIEF STATUS

Case closed 4/, re-opened 4/29/40. Received medical treatment 4/5 to 24.

Application for assistance, dated 9/14/39, never signed by Mrs. F. or her husband.

Signature on medical invoice of $13.00 is as L. and at

variance with signature in the case record. (Various spellings of last name.)

Bond bears an "X" mark without exposition. Authorization for information on finance bears an "X" and notation "her mark." Neither are witnessed. Doctor's invoice bears a signature, as does also the application of 11/28/39.

SURVEY OF RELIEF CASES COMING FROM UNEMPLOYMENT COMPENSATION WITH EARNINGS OF $800 OR MORE DURING A SINGLE CALENDAR YEAR

County	Original No. of Selected Cases	Number With Earnings of $800 or More During a Single Calendar Year	Per Cent
Allegheny	50	18	36.0
Philadelphia	37	18	48.6
Schuylkill	49	35	71.4
Dauphin	24	6	25.0
Luzerne	50	17	34.0
TOTAL	210	94	44.8

Classification of the 94 Cases with earnings of $800 or more during a single calendar year

	No.	Per Cent
1—Received relief during a quarter year immediately following a quarter with earnings of $200 or more	40	42.6
2—Received relief during a quarter year immediately following a quarter with earnings plus U.C. totaling $200 or more	9	1.0
3—Received U.C. during two benefit years and granted relief during the interim between the two series of U.C. payments	47	50.0
4—Received relief prior to U.C. when eligible for the latter, and when only one U.C. benefit year was involved	19	20.2
*5—Received duplicate payments (Relief and U.C.) during one or more months of a quarter year	35	37.2
6—Received relief during a quarter year with earnings of $200 or more	35	37.2

*Duplications within a single month of any one quarter for Schuylkill and Dauphin Counties are not determinable from available records. Size of total income from all three sources during a single quarter, however, suggests duplication and is checked as such for these counties.

UNEMPLOYMENT COMPENSATION-RELIEF

Wages for 1937 were as follows: $390 for the first quarter, $380 for the second quarter, $460 for the third quarter, $440 for the fourth quarter. Wages for the first quarter of 1938 were $90 plus U.C. of $50. Wages for the second quarter of 1938 were $340 plus U.C. of $50. Wages for the third quarter of 1938 were $275 plus U.C. of $25. Wages for the last quarter of 1938 and for the first three quarters of 1939 averaged $334. Wages for the last quarter of 1939 were $370 plus U.C. of $25. U.C. was also received in the first quarter of 1940 amounting to $150 plus wages of $50. In the second quarter of 1940 U.C. amounting to $40 was received, plus relief of $40.

Worked steadily through 1937, 1938, and 1939. His earnings, however, show progressive decline, varying per quarter from $770 to $250. During the first quarter of 1939, he earned $390. The following quarter his total income of $230 comprised $110 wages, $70 U.C., and $50 relief. During the fourth quarter of 1939, wages plus U.C. amounted to $310. The following quarter $90 relief was granted which, together with $30 U.C., and $100 wages, made his income total $220. His relief grant for the second quarter of 1940 amounted to $29.12 and for the first month of the third quarter (July 1940) it was $28.19.

In the year 1937 and first half of 1938 he had earned over $1400. Earned $240 during third quarter of 1938 and was granted $25 relief during the following quarter. Earned over $200 in first quarter of 1939 but again received relief in that and following quarter, despite U.C. payments in second quarter of 1939.

Wages for the years 1937, 1938 and 1939 averaged $1627 per year, with a low for the three years of $110 for the first quarter of 1937 and a high of $600 for the fourth quarter of 1937. Unemployment compensation of $190 was received in the first quarter of 1940. In the second quarter of 1940 U.C. amounting to $40 was received, together with $80 relief.

In 1937 earned wages in every quarter in amounts ranging from $100 to $300—total wages over $800. Total relief payments during that year nearly $500. In 1938 earned wages in four quarters. Received relief payments totaling $250 in two quarters. Total income in 1938 including U.C. payments $1040. In 1939 received over $400 wages in first quarter and over $300 wages in second quarter and was put on relief in third quarter.

Quarterly wages earned during 1937 and 1938 and the first quarter of 1939 varied from $190 to $440, average about $250. After earning $290 during the first quarter of 1939, he was granted $10 relief during the following quarter. Wages were $140, making his total income $150 for that quarter. During the third quarter of 1939, wages plus U.C. amounted to $240. He was granted $50 relief, which raised his income for that quarter to $290. Again, during the first quarter of 1940, income from three sources totaled $220—$75 in U.C. benefits, $40 in wages, and $105 relief. Relief grants for the second quarter of 1940 totaled $68.72. Relief was discontinued May 10, 1940.

Has received payments in ten of the last fourteen quarters, despite wages of over $1,000 in 1937, $880 in 1938, and $1300 in 1939, and U.C. payments of approximately $135 in 1938 and the same amount in 1939.

During the second quarter of 1937, he earned $250 and was granted $150 relief, making a total income of $400 for that quarter. Earnings for the second quarter of 1937 were $290. He was granted $60 relief making a total income of $350 for that quarter. $130 relief was granted for the third quarter of 1938 after earnings of $240 for the second quarter of that year. During fourth quarter of 1938 earnings were $350 and he was granted $80 relief, making total income of $430. The following quarter, wages amounting to $290 and U.C. payments of $150 brought his income up to $440. During the quarters immediately following $180 relief was granted. Wages were only $20. Wages amounting to $300 plus $130 relief brought his income up to $430 for the first quarter of 1940. Relief payments for the second quarter of 1940 amounted to $184.56, and for the first month of the third quarter (July 1940) $66.72 in relief was granted.

Wages for the third quarter of 1937, fourth quarter of

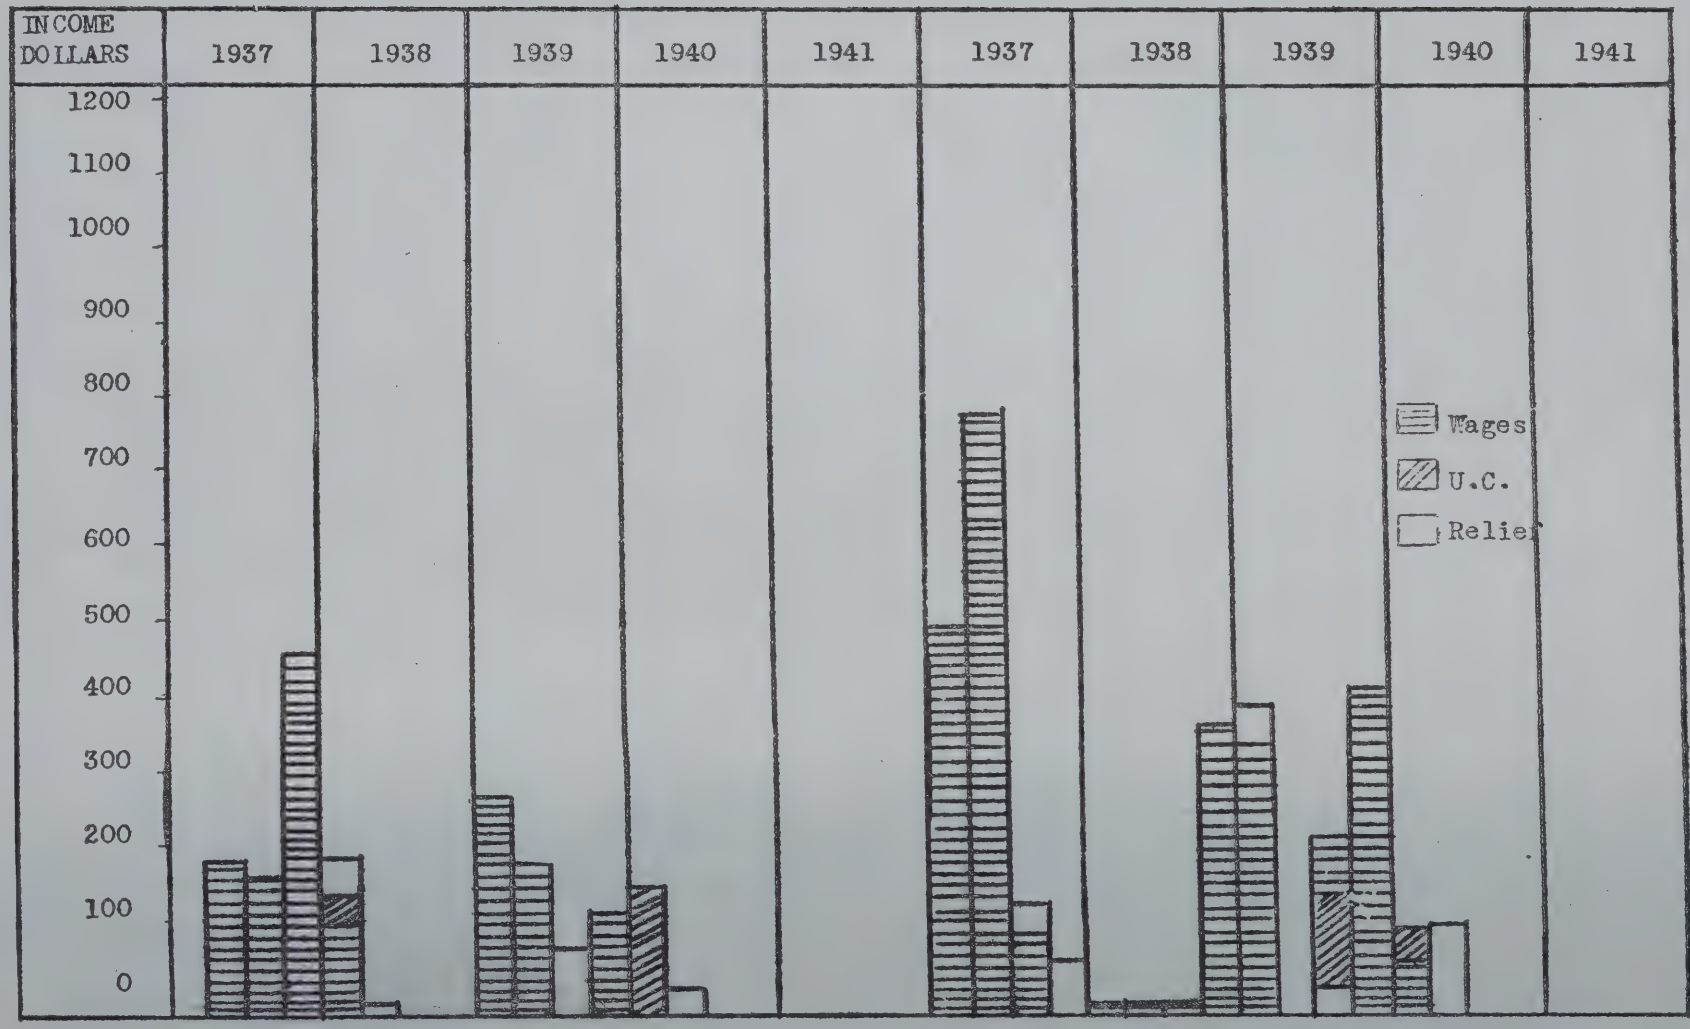
S.S. NO. 180-09-8900



,1937, and first quarter of 1938 were $225, $375, and $325. $40 relief was granted during each of these quarters. $10 relief was also granted during the third quarter of 1938, which followed wages of $350 during the preceding quarter.

Earned $430 in wages during the fourth quarter of 1937 and was granted $50 relief during the first quarter of 1938, which was in addition to $50 U.C. and $110 in wages in that quarter. Again, during the first quarter of 1939 he earned $300 and second quarter he earned $210 and was granted $90 relief the third quarter, prior to securing his U.C. insurance which he did not take until the next year.

Quarterly earnings held consistently at about $250 per quarter for the years 1937 and 1938, and the first half of 1939. During the second quarter of 1939 his income from three sources, totaling $220, was made up of $190 wages, $10 U.C. and $20 relief. He is now unemployed and was granted $128.30 relief during first quarter of 1940. During the second quarter of 1940 $69.72 was granted for relief, and during the first month of the third quarter (July 1940) he received $36.06. It appears that U.C. payments were scattered over four quarters for his first benefit year. He is eligible now for U.C. payments covering a second benefit year. Relief was discontinued July 31, 1940.

Wages averaged better than $300 per quarter for the four quarters of 1937 and $150 for the first quarter of 1938, followed by U.C. and $200 in wages (total) for three quarters in 1938. In first quarter of 1939 he earned $100 per quarter and was given relief in excess of $150 during each of these quarters. Total income for these quarters (first and second 1939) was $290 and $310 respectively. During the third quarter of 1939 he earned $310 and received $50 relief, totaling $360. He had no income during the last quarter of 1939 but received U.C. during the first and second quarters of 1940. He went on relief again during the latter quarter receiving $120. This man's income, 1937 to June 1940, completed two cycles in the following sequence—wages, U.C., relief.

Wages for the second quarter of 1937 were $807, but in spite of that fact he was granted $15 relief during the following quarter. Wages during the latter quarter were $155, making a total quarterly income (wages plus relief) of $170. Wages for last quarter of 1939 were $390. Was granted $50 relief during that quarter following in spite of earnings during that quarter amounting to $370. Total income for first quarter of 1939 (wages plus relief) was $420.

Earned $530 in wages during the second quarter of 1938. Total income during the following quarter was $240 and came from three sources—$110 wages, $25 relief, and $105 U.C. Relief amounting to $20 was granted during the third quarter of 1939, which together with $275 in wages, brought his income up to $295. Total income for the quarters immediately preceding and succeeding the above quarter was $175 and $190 respectively.

Wages for second quarter of 1938 were $340. Was granted $25 relief during the following quarter which, together with $225 earned during that quarter, brought his income up to $250.

Earned $525 for four quarters in succession—last of 1937 and first, second, and third of 1938. Was granted $20 relief during fourth quarter of 1938 which together with wages of $350, brought his income for that quarter up to $370. Received $195 U.C. first quarter of 1939, following which he went on relief for remainder of the year, followed by second series of U.C. payments in 1940.

10TH BIENNIAL BUDGET OF THE COMMONWEALTH OF PENNSYLVANIA
FOR THE FISCAL BIENNIUM JUNE 1, 1941, TO MAY 31, 1943
Submitted to the
GENERAL ASSEMBLY
By ARTHUR H. JAMES, Governor
February, 1941

TABLE OF CONTENTS

GOVERNOR'S BUDGET MESSAGE

SUMMARY OF THE BUDGET BY FUNDS

SECTION ONE

General Fund, Showing Summary of the General Fund Budget; Deficiency Appropriations for 1939-1941 Recommended by the Governor; Appropriations for 1941-1943 Recommended by the Governor; Revenues and Receipts to the General Fund

SECTION TWO

Motor License Fund, Showing Summary of the Motor License Fund Budget; Appropriations Recommended by the Governor; and Revenues and Receipts to the Motor License Fund

SECTION THREE

Other Special Funds, Showing Revenues, Receipts, Balances, and Appropriations Recommended by the Governor from (1) the Operating Special Funds; (2) the Custodial Special Funds; and (3) the State Stores Fund

SECTION FOUR

The Sinking Funds and Public Debt as of December 31, 1940; and The General State Authority Building Programs

NOTE

Statements of the Actual Classified Operating Expenditures of the State Government by Departments and Appropriations from June 1, 1933 to May 31, 1940 are presented in a Supplement to the Budget under Separate Cover.

See also Supplement to the Budget for the Custodial Special Funds except the Sinking Funds.

COMMONWEALTH OF PENNSYLVANIA
EXECUTIVE CHAMBER
HARRISBURG

February 3, 1941

To the Honorable, The General Assembly of the Commonwealth of Pennsylvania:

In compliance with Article VI of the Act of April 9, 1929, P. L. 177, I have the honor to lay before the General Assembly the State Budget for the fiscal biennium from June 1, 1941 to May 31, 1943.

Allow me to review the finances and financial management of the State Government during the first biennium of this administration. When I came into office two years ago I pointed out in my first budget message that the outstanding facts in the State's finances for the two ensuing years were as follows:

"First, there is now a deficit of $50,000,000 in the General Fund of which amount $42,000,000 must be paid out of, and constitutes a direct lien upon, the funds of the next biennium: secondly, there are $487,000,000 of General Fund obligations before us, including the deficit and new obligations imposed by law during the present biennium if we were to continue on the same scale of spending as I found when I came into office, and third, estimated revenues for the next two years, assuming the reenactment of all the Earle emergency taxes, amount to $365,550,000—$121,450,000 short of the obligations. This shortage we propose to try to make up by economies in government and by other means without adding any new taxes."

The deficit which I mentioned at that time to be a $50,000,000 deficit turned out to be a $58,000,000 deficit and instead of taking $42,000,000 out of the funds of this biennium to pay off that deficit we had to take $50,000,000. We would have had to take $58,000,000 out of the funds of this biennium had it not been for the fact that immediately after coming into office we began to economize and between the time I took office and May 31, 1939 we had taken care of $8,000,000 of the deficit.

Immediately after I came into office W. P. A. began to fall down in meeting its proper obligations in helping to carry the relief burden in this State. Prior to this administration W. P. A. was carrying well over 200,000 cases, going up as high as 276,425 in November, 1938, the time of my election. By the time I took office that number had gone down to 248,570. Thereafter the decline was rapid, going down to a low of 120,137 in September, 1939.

Due to the failure of W. P. A. to meet its proper obligations in helping to carry the relief burden in this State the Department of Public Assistance had to pay out at least $37,000,000 which it would not otherwise have been called upon to do. On the one hand we had to provide for a $58,000,000 inherited deficit and on the other hand we had to provide $37,000,000 for Public Assistance which should have been provided by the Federal Government. These two together make $95,000,000 that we had to provide which should not have been charged up against this administration.

You will recall that two years ago I recommended no new taxes and no new taxes were enacted. Due to the fact that we had to provide for a $58,000,000 deficit and due to the fact that the Department of Public Assistance had to pay $37,000,000 which should have been provided by the Federal Government our Public Assistance appropriation proved to be insufficient. This explains the necessity for the Special Session of the Legislature and the additional appropriation of $71,850,000 for Public Assistance.

We found in making the budget two years ago that to avoid new taxes drastic reductions had to be made. We postponed obligations of $20,350,000 and made reductions amounting to $17,500,000 in the General Fund alone. Had it not been for these reductions there would have been a new tax program in operation during this two-year period amounting to many millions of dollars.

Before entering upon a discussion of the budget for the next two-year period let me say that the State is in better financial condition than it has been for many years. There is no need for new taxes for the next biennium. Under the budget the inherited deficit is wiped out—provision is made for all the State services and essential expansion of these services and for the relief needs which present prospects indicate. Successful completion of this program will set the stage for a huge tax reduction program. Had it not been for the obligations amounting to $95,000,000 unduly imposed upon this administration I would now be recommending a tax reduction program in approximately that amount.

At the time of the Special Session of 1940 an appropriation of $71,850,000 was made for Public Assistance which was the total amount that could be made available without new taxes. It now appears that this amount will be insufficient to carry Public Assistance to the end of the biennium. According to present predictions the current appropriation will be exhausted by March fifth. A supplemental appropriation will be necessary and I am recommending an appropriation of $14,500,000 at the present time with the funds provided as follows:

An additional transfer of $6,400,000 from the Motor License Fund to be repaid in June, 1941, an increase of $5,000,000 in the estimate of revenue for the current biennium, and estimated additional lapses amounting to $3,000,000.

Due to the rapidly changing conditions it is impossible at this time to know what the final requirements for Public Assistance will be to complete the biennium. If this appropriation which I am recommending does not complete the biennium another appropriation will be necessary. This appropriation at any rate will carry public assistance to the point where we can know definitely the outcome of public assistance requirements and also we shall then know what the revenue prospects are in relation to the estimate.

Now, turning to the budget for the next biennium, I have kept in mind a number of aims in preparing the budget for the next two-year period: First, to provide adequately for State services but only enough for good economical administration. Adequate provision for Relief, Welfare and Health Institutions with increased patient population, rehabilitation, occupational disease claims, for the public school system, for increasing salaries of teachers in fourth class districts, and for increased work due to the National Defense Program, means a considerable increase, as you can see in the Budget, over the amounts for the present two-year period.

Still another aim has been to provide adequately wherever necessary for the State's participation in the Defense Program. In the Budget you will notice that appropriations recommended for a number of departments have been adjusted for that purpose.

Another aim has been to avoid any new taxes in the next two-year period. This aim is especially strong when the burden of Federal taxes is increasing by leaps and bounds and any increase in State taxes would be a hardship indeed.

A fourth aim has been to place the General Fund in such a condition that there can be a real tax reduction program at the end of this next biennium.

I am mentioning these aims because I believe they will be a guide to you in your study of the Budget which I am presenting to you.

In the preparation of this Budget there are some very favorable factors. In the first place, through the economies which have been put into effect, the cost of the State Government is many millions of dollars less than it otherwise would have been; secondly, the Public Assistance burden has greatly declined from what it was when the last Budget was prepared; and third, we can expect increased receipts from existing taxes during the next two-year period.

I have already explained to you that had it not been for the Earle deficit of $58,000,000 and the default of W. P. A. in the amount of at least $37,000,000, I would now be recommending to you a huge tax reduction program. But, since we had that deficit to cope with, it was necessary for us to incur new obligations which must be repaid out of the funds of the next biennium. This is what causes whatever difficulty there is in making our Budget for the next two-year period.

Special Fund Transfers

Provision has been made in the Budget for the repayment to the several special funds during June, 1941, of the amounts borrowed by the 1940 Special Session and the amount recommended to be borrowed in this Session. These amounts are as follows:

Motor License Fund	$ 43,400,000
Liquid Fuels Tax Fund	11,000,000
Liquor License Fund	7,250,000
Fire Insurance Tax Fund	2,300,000
State School Fund	2,000,000
Total	$ 65,950,000

These temporary loans have made it possible to finance the required Assistance appropriations without additional taxation.

The 1940 Special Session borrowed $37,000,000 from the Motor License Fund which I am recommending be increased by $6,400,000, making a total transferred of $43,400,000. The sum of $15,000,000 has been transferred to date representing essentially money which the Department of Highways has saved in its operations. It will go into roads next summer. The remaining $28,000,000 is money the Motor Fund will receive during March and April from license fees. The Department of Highways cannot use it then, but it will be able to use it three months later. By that time it will have been repaid to the Motor License Fund.

You will recall that at the last Regular Session I recommended the postponement of the effective dates of a number of laws which would increase the cost of Government beyond the funds available at that time had they become eflective then, and the Legislature accepted my recommendations in that respect. It is necessary again for me to ask for the postponement of the effective dates of these acts because there are still no funds available without new taxation for them to go into effect. Therefore, I recommend that the effective dates of the following acts be further postponed for a two-year period:

Public Instruction:

Number of	Date of Act	Relating to
485	July 1, 1937	Supervisors of Special Education
483	July 1, 1937	Transportation
141	May 7, 1937	High School Tuition

Welfare:

21	Sept. 29, 1938	The Commonwealth taking over County Mental Hospitals (Postponement to apply to all except Philadelphia State Hospital)
25	Oct. 11, 1938	Relieving the counties of payments for maintenance of Indigent Insane, Feeble-minded and Epileptics in State Institutions

There are some increases which are necessary and cannot be avoided. There is an increase of $4,400,000 for school purposes over the amount originally appropriated two years ago. The Welfare Institutions will require $3,050,000 additional for patients taken in at the new Welfare buildings. $1,246,00 will be needed for additional patients in the Tuberculosis Sanatoria.

For the next biennium estimated revenues amount to $413,396,357. From this amount must be deducted the $65,950,000 of obligations to special funds which must be repaid in the next biennium and deficiency appropriations of $4,950,171, leaving a total of $342,496,186 available for appropriation for the next biennium. In view of the outlook for increased employment it appears that an average of $5,000,000 per month should be sufficient for relief for the next two-year period or an appropriation of $120,000,000. This then would leave $222,496,186 available for appropriation. My recommendations are that $211,-102,407 be appropriated for the departments and for all other purposes. There is then a balance of $11,393,779 unappropriated. I suggest that you include this amount as a safety item in your appropriation for Public Assistance, making an appropriation of $131,390,000. However, I want to point out here that if an additional appropriation is necessary for Public Assistance for the current biennium beyond the $14,500,000 I have recommended or if any other appropriations are made beyond those recommended the amount of $131,393,778.50 will be reduced accordingly.

In comparing the amount of $211,102,407.50 for all de-

partments other than Public Assistance with the amount for 1937-1939, you should take into consideration the fact that in the $211,102,407.50 for 1941-1943 there is $17,600,000 provided for obligations and services which were not present in 1937-1939. In other words, were it not for these obligations and new services, the amount I would now be recommending to you for all departments other than Public Assistance would be $193,502,407.50.

I want to call your attention to some appropriation comparisons which appear in the budget on pages 6207 and 6208. You will notice that the total General Fund appropriation for 1939-1941 amounts to $413,794,178.13 when the recommended Public Assistance deficit of $14,500,000 and other deficiencies amounting to $4,950,000 are added thereto. There is, therefore, a decrease of $2,284,000 below the appropriations for 1937-1939. But this does not show a true comparison. In the amount for 1939-1941 there is included $12,350,000 for new obligations not present in 1937-1939. Had it not been for these new and additional obligations the total amount of appropriations for 1939-1941 would appear as $401,444,178.13.

The total appropriations recommended for the 1941-1943 biennium amount to $341,492,407.50. This is $73,586,309.20 below the appropriations for the last biennium of my predecessor. This shows in what measure the finances of the Commonwealth are being improved.

Revenues

In view of the financial situation which I have outlined to you I recommend the continuance of the present taxes.

The increase in business activities has brought about an increase in revenues during the current biennium and on the prospects of a further increase in business activities in the two years ahead a considerable increase in revenues can be expected.

Public Assistance

Our relief situation is much brighter than it was two years ago. At that time the State was providing for 240,000 general assistance cases, which number went up to a high of 275,000 during the two-year period. As of January 18, 1941, there had been a decline to 139,429 cases being provided for. As you well know, it is extremely difficult to estimate relief needs very far in the future. Who knows what the situation will be two years hence or even one year ahead? At the present time expenditures for all purposes are slightly over $7,000,000 per month. Employment is still on the increase. Estimates have been made by some in the Federal Administration that unemployment will be practically wiped out during this present year. It is reasonable to predict that Public Assistance requirements will drop to an average of $5,000,000 per month. I recommend that you make this appropriation of $131,390,000 for Public Assistance. As I have already explained, if an additional appropriation is necessary for Public Assistance for this biennium the amount will have to be taken from the $131,390,000 mentioned above.

Auditor General and Treasury

The Auditor General and State Treasury have presented requests for large increases in their appropriations. In the case of the Auditor General the request was for an increase of $100,000, or 6.7 per cent, and the request for the State Treasurer an increase of $264,000 or 40 per cent.

In the budget I have recommended appropriations in the same amounts as for the present biennium. There has been practically no change in the duties of these offices and I can see no reason for increased appropriations.

Agriculture

I recommend an appropriation of $1,400,000 for Animal Indemnities in connection with the work of testing for tuberculosis and Bang's Disease. This will enable the department to continue that important work on the same scale as during the present biennium.

Health

More funds will have to be provided to care for additional patients in the Tuberculosis Sanatoria. During the forthcoming biennium we estimate that 1,600 additional patients will be admitted. In the budget we have provided an increase in appropriation of $1,246,000 for the maintenance costs of those patients.

There will be a number of construction and improvement projects which need to be undertaken principally in connection with the new buildings amounting to about $1,100,000 which will be undertaken by the General State Authority. For the department I am recommending an increase in appropriation of $547,000. This increase is for the purpose of matching federal funds for drugs and serums for pneumonia control work, for expanding the venereal disease control program, for improvement of the service of the Department of Health to cope with health problems arising from the national defense program, and for handling the greatly expanded volume of work in the Bureau of Vital Statistics which has come about from requirements under various defense activities.

It is estimated that additional revenue from the Bureau of Vital Statistics for the forthcoming biennium will amount to $113,000.

Justice

I am recommending an increase appropriation for parole supervision in the Department of Justice amounting to $99,000. Parole supervision in Pennsylvania, in my opinion, needs improvement. This increased appropriation will permit the employment of a number of additional parole agents with their accompanying expenses. This should do much to strengthen the parole supervision system throughout the State.

In accordance with the recommendation made in my former message, I am recommending an appropriation to the Department of Justice for the investigation of subversive activities. This aid in the National Defense Program I deem to be especially important.

Labor and Industry

For the Department of Labor and Industry I am recommending an appropriation of $2,600,000 for salaries and general expenses, which amount represents an increase of $100,000 over the original amount appropriated for the biennium 1939-1941, or an increase of $175,000 over the appropriation for that department as it now stands.

The larger part of this increase would be used for the Boiler Inspection Division in the employment of additional boiler inspectors. The department estimates that from

the additional activity in this field additional revenue of about $200,000 will be derived.

The balance of the increase will be used for the employment of additional workmen's compensation referees. The Workmen's Compensation Board feels that in order to give the litigants the service intended by the Workmen's Compensation Act a referee at no time should have more than one hundred (100) undecided cases on hand. Because of the increase in work two additional referees are necessary in order to accomplish this objective. The Board expects, too, a continuing increase in work due to the increased employment under the National Defense Program.

I am recommending an increase in the appropriation for rehabilitation amounting to $184,000. This increase is being recommended to match the larger amounts of Federal monies which are available to this State and this whole amount will be needed for rehabilitation work. For the year ending July 1, 1940, seven hundred fifty (750) cases were rehabilitated. On the basis of this appropriation which I am recommending, it will be possible to rehabilitate a maximum of 1,300 or 1,400 cases annually.

I am recommending an appropriation of $600,000 to pay occupational disease claims. Claims amounting to $350,000 have already accumulated and estimated claims for the 1941-1943 biennium amount to $250,000.

Military Affairs

Due to uncertainties which surround the activities of the Department of Military Affairs, the question of the appropriation for that department for the next two years presents a difficult problem. The National Guard will be in the Federal service for at least eight and one-half months of the next biennium, but who knows whether or not they will be there longer. The armories will not be used for the National Guard over a period of at least eight and one-half months in the next biennium but if a Home Guard is to be developed the armories, or at least some of them, will be needed for that purpose. Some expenditures will be necessary at the Military Reservation including the purchase of additional land. I am recommending that you make the same appropriation for the next biennium as for the present less $40,000 which I recommend be appropriated immediately for the purchase of land at the Military Reservation. I recommend, too, that the language of the Appropriation Act be broadened to allow us to cope with defense conditions as they may arise.

Mines

For the Department of Mines I am recommending an increase from an original appropriation of $80,000, and an existing appropriation of $72,000, to $90,000. This increase makes provision for the payment of the salary of the Bituminous Deputy Secretary already appointed and for necessary expenses in connection therewith.

I have recommended an increase of $37,000 for the salaries and expenses of inspectors to permit the employment of new mine inspectors. Coal production has been steadily increasing in the bituminous region and there is every reason to believe that production will continue to increase during the coming biennium. This situation makes necessary additional mine inspectors.

Property and Supplies

For Salaries and General Expenses in the Department of Property and Supplies I am recommending an appropriation of $1,880,000 which is an increase of $95,000 above the original appropriation for the biennium 1939-1941, an increase of $115,000 above the present appropriation.

This increase is primarily for the purpose of allowing the department to bring its janitorial and mechanical forces up to the requirements imposed upon the department by the acquisition of the new Finance Building and other new demands upon the department.

Public Instruction

In accordance with the recommendation made in my message at the beginning of the Session, I am recommending an appropriation of $3,000,000 to give teachers in Fourth Class Districts a minimum salary of $1,000. For other subsidies and vocational education, I am recommending a considerable increase over the amount originally appropriated two years ago, and in this connection I want to call attention again to my statement in my former message concerning the need for study of the school system. To show the importance which I attach to this, I am recommending an appropriation of $50,000 for such a Study Commission.

A considerable increase is recommended for the State Teachers' Colleges. This increase has been made necessary primarily by increased costs arising from the new buildings which are being put into operation. For the State-aided educational institutions, I am recommending the same amounts as those in the current biennium.

I have already mentioned certain postponements affecting the Department of Public Instruction which I am recommending be made. If these postponements should not be made an additional amount of $8,957,450 would have to be appropriated to the Department of Public Instruction.

State

A large new appropriation is found to be necessary for the Department of State to provide for the costs involved in enabling soldiers to vote. It is estimated that this cost for the next two-year period will be $300,000.

Welfare

In the Department of Welfare a number of necessary increases are recommended, primarily for the purpose of providing for new patients who will be admitted to the institutions during the next two-year period.

The increase of $1,000,000 recommended for Penal and Correctional Institutions is primarily for the maintenance of the new institution at White Hill. The increase of $1,750,000 for the Hospitals for the Insane provides for the Western State Psychiatric Hospital and for many additional patients to be admitted.

The increase of $400,000 for the Institutions for Feebleminded and Epileptics will provide for many new patients.

For State-aided Hospitals and Homes, I am recommending amounts which are the same as present appropriations.

I have already made some recommendations for postponements affecting the Department of Welfare providing for postponement of the law under which the State would have taken over county mental institutions and a postponement of the act relieving the counties of payment for their patients in State institutions. Should these post-

ponements not be made there would need to be an additional appropriation of $4,900,000 to the Department of Welfare, and, on the other side, there would be loss of revenue in the amount of $6,500,000. In other words, if these postponements should not be made it will be necessary to find $11,400,000 of additional funds.

Deficiency Appropriations

In addition to the appropriation of $14,500,000 for Public Assistance which I have recommended, deficiency appropriations totaling $4,951,171 will be needed. Of this, $4,665,281, will be needed for school subsidies. Other amounts are small. They will be found on the appropriate page in the Budget.

Motor License Fund

The revenues of the Motor License Fund during 1941-1943 are estimated to be $176,660,000, or $7,000,000 greater than the estimated revenues of $169,600,000 for 1939-1941.

The total available for budgeting ($195,300,000) during 1939-1941 is $14,000,000 greater than estimated during 1941-1943 because of a larger estimated cash balance at the beginning of the 1939-1941 biennium and the repayment of a $17,500,000 loan by the General Fund during 1939-1941.

Against the total of $195,300,000 available during 1939-1941, the 1940 Special Session has enacted a loan of $37,000,000 and the present budget recommends a further loan of $6,400,000. This total of $43,400,000 represents principally receipts from license fees during February, March, and April, 1941. Only $15,000,000 accruing from current budget savings will be transferred until these license fees are collected. Even if the General Fund had not borrowed this $43,400,000, it would not have been possible for the Department of Highways to spend it until after June 1, 1941. During June, 1941, the General Fund will return the whole amount borrowed and it will then go into roads. The Department of Highways' road programs have not been interrupted or delayed by this action in borrowing to finance relief.

In my message to you at the beginning of the Session I made certain recommendations concerning aid to Philadelphia and Pittsburgh to eliminate traffic bottlenecks on through highways. Such aid as you may give will come from an amount of $67,300,000 which the budget shows to be available during 1941-1943 after present construction programs financed from the budget of the present biennium are paid for.

Appropriations and allocations to departments other than the Department of Highways for such purposes as interest on road bonds, expenses of Department of Revenue in collecting motor fund monies, and expenses of the Pennsylvania Motor Police, to name the important ones, are recommended in about the same amount as at present appropriated and do not need comment.

Respectfully submitted,

ARTHUR H. JAMES.

SUMMARY OF THE BUDGET FOR THE BIENNIUM 1941-1943

FUNDS AVAILABLE		
General Fund (See page 2)		$353,846,357.00
Motor License Fund (See page 44)		181,470,981.00
Fish Fund (See page 52)		1,577,527.00
Game Fund (See page 53)		3,284,680.00
Banking Department Fund (See page 54)		1,381,413.00
Milk Control Fund (See page 54)		262,578.00
State Farm Products Show Fund (See page 55)		213,635.00
Flood Control Fund (See page 55)		507,321.00
State Forests and Waters Fund (See page 56)		350,778.00
TOTAL FUNDS AVAILABLE FOR THE BIENNIUM 1941-1943		$542,895,270.00
Less: Funds Available in Special Funds Estimated to be Unexpended at May 31, 1941 (See pages 52 to 56)		675,583.00
TOTAL FUNDS AVAILABLE FOR 1941-1943 ESTIMATED TO BE USED		**$ 542,219,687.00**
APPROPRIATIONS FOR 1941-1943 RECOMMENDED BY THE GOVERNOR:		
General Fund:		
To repay the Motor License Fund additional amount to be borrowed in 1939-1941 (See page 2)	$ 6,400,000.00	
For Deficiency Appropriations Postponed until June 1, 1941 (See pages 2 and 3)	4,950,171.00	
For General Governmental Operation and Subsidies	211,102,407.50	
For Public Assistance	131,390,000.00	$353,842,578.50
Motor License Fund:		
Appropriations in Specific Amounts (See page 45)	$ 20,791,799.55	
Continuing Appropriations (1929 P. L. 1046) (See page 46)	160,672,000.00	181,463,799.55
Fish Fund:		
Appropriations in Specific Amounts (See page 52)	$ 5,000.00	
Continuing Appropriations (1929 P. L. 451) (See page 52)	1,540,000.00	1,545,000.00
Game Fund:		
Appropriations in Specific Amounts (See page 53)	$ 19,100.00	
Continuing Appropriations (1929 P. L. 444) (See page 53)	2,691,300.00	2,710,400.00
Banking Department Fund:		
Appropriations in Specific Amounts (See page 54)	$ 28,050.00	
Continuing Appropriations (1929 P. L. 809 and amendments) (See page 54)	1,326,000.00	1,354,050.00
Milk Control Fund (Act 37, 1933 Special Session) (See page 54)		262,578.00
State Farm Products Show Fund (1929 P. L. 823) (See page 55)		173,000.00
Flood Control Fund (Act 46, 1936 Special Session) (See page 55)		507,321.00
State Forests and Waters Fund (1935 P. L. 639) (See page 56)		350,000.00
TOTAL BUDGET OF THE COMMONWEALTH FOR THE BIENNIUM 1941-1943		**$ 542,208,727.05**

SECTION ONE

GENERAL FUND

SHOWING SUMMARY OF THE GENERAL FUND BUDGET; DEFICIENCY APPROPRIATIONS FOR 1939-1941 RECOMMENDED BY THE GOVERNOR; APPROPRIATIONS FOR 1941-1943 RECOMMENDED BY THE GOVERNOR; AND REVENUES AND RECEIPTS TO THE GENERAL FUND.

SUMMARY STATEMENT OF CASH AND LIABILITIES

GENERAL FUND

1939-1941 BIENNIUM

CASH:			
Cash Balance, June 1, 1939			$ 3,157,422.76
Actual and Estimated Revenue for the Biennium:			
Normal Taxes		$ 161,086,328.00	
Special Emergency Taxes of the 1939 Session		167,235,496.00	
Liquor Store Profits		32,000,000.00	
Licenses, Fees, Institutional, and Other Income		28,197,176.00	388,519,000.00
Temporary Borrowings from Special Funds authorized by the 1940 Special Session to be Repaid after June 1, 1941:			
Motor License Fund		$ 37,000,000.00	
Liquid Fuels Tax Fund		11,000,000.00	
Liquor License Fund		7,250,000.00	
Fire Insurance Tax Fund		2,300,000.00	
State School Fund		2,000,000.00	59,550,000.00
Receipts Appropriated for Special Purposes			58,821,493.00
TOTAL ESTIMATED AVAILABLE GENERAL FUND FOR 1939-1941			$ *510,047,915.76
APPROPRIATIONS:			
1939 Regular Session		$ 323,750,352.13	
1940 Special Session:			
Additional Appropriations for 1939-1941	$ 73,082,905.00		
Reductions in Appropriations made by the 1939 Session	5,909,000.00	67,173,905.00	
Allocation for Interest on Series ET, FT, and GT Tax Anticipation Notes		3,418,750.00	
Receipts Appropriated for Special Purposes		58,821,493.00	
Unexpended Balances (liabilities) June 1, 1939 on account of appropriations made for prior bienniums (includes $27,250,000 borrowed from Special Funds prior to June 1, 1939)		61,148,999.80	
		$ 514,313,499.93	
Appropriation Lapses, Actual and Estimated, for Appropriations up to May 31, 1941, deducted		12,386,210.37	
Net Liabilities applying against the Estimated Available General Fund for 1939-1941			$ *501,927,289.56
GENERAL FUND SURPLUS, MAY 31, 1941, ON ACCOUNT OF APPROPRIATIONS NOW IN EFFECT			$ 8,120,626.20
Deficiency Appropriations for 1939-1941 Recommended		$ 19,451,171.00	
Deduct: Deficiency Appropriations to be postponed until June 1, 1941		4,950,171.00	14,501,000.00
ADDITIONAL FUNDS NEEDED UNTIL MAY 31, 1941			$ 6,380,373.80
Temporary Additional Transfer from the Motor License Fund proposed			$ 6,400,000.00

*Tax Anticipation Notes amounting to $155,000,000 are excluded since they were both issued and redeemed in 1939-1941.

1941-1943 BIENNIUM		
CASH:		
Estimated Revenues from present tax laws and other sources	$ 228,820,857.00	
Estimated Revenues from Reenactment of present Emergency Tax Laws	184,575,500.00	
TOTAL GROSS REVENUE AVAILABLE FOR 1941-1943	$ 413,396,357.00	
Deduct: Repayments due Special Funds under present acts	59,550,000.00	
TOTAL NET GENERAL FUND REVENUE AVAILABLE FOR APPROPRIATION FOR 1941-1943		$ 353,846,357.00
APPROPRIATIONS RECOMMENDED BY THE GOVERNOR FOR 1941-1943:		
To Repay the Motor License Fund additional sum to be borrowed in 1939-1941	$ 6,400,000.00	
For Deficiencies postponed until June 1, 1941	4,950,171.00	
For General Governmental Operations and Subsidies	211,102,407.50	
For Public Assistance	131,390,000.00	
TOTAL APPROPRIATIONS RECOMMENDED FOR 1941-1943		$ 353,842,578.50

GENERAL FUND DEFICIENCY APPROPRIATIONS RECOMMENDED FOR THE BIENNIUM ENDING MAY 31, 1941

Department and Appropriation	Detail	Departmental Total
TO BE EFFECTIVE IMMEDIATELY UPON FINAL ENACTMENT		
DEPARTMENT OF PUBLIC ASSISTANCE		
Public Assistance	$ 14,500,000.00	$ 14,500,000.00
LEGISLATIVE MISCELLANEOUS AND COMMISSIONS		
Expenses of Electoral College	$ 1,000.00	1,000.00
TOTAL—Effective Immediately		$ 14,501,000.00
TO BE EFFECTIVE JUNE 1, 1941		
DEPARTMENT OF FORESTS AND WATERS		
Control of Forest Fires	$ 50,000.00	$ 50,000.00

Administration — State Emergency Relief Board 1933 to June 30, 1937 (See Note)	200,000.00 M 323,696.21 N 104,598.69	P 2,287,296.36 Q 1,703,789.31 R 4,815,190.27	S 483,460.68	....	
Allocated from Lump Sums *	90,000.00	.....	.....	.....	
Total Governmental Operations other than Subsidies	$ 1,274,351.10	$ 9,698,875.94	$ 19,961,515.68	$ 20,315,464.00	$ 1,020,000.00

Note: It has been the practice, in making appropriations for Emergency Relief, Aid to Dependent Children, Mothers' Assistance, Pensions for the Blind, and General Assistance, to make lump sums covering both administrative costs and grants (subsidies). In this Statement, portions of appropriations which were spent for administration are shown under Administration and the remainder of the appropriation is shown under Subsidies. In each column the amounts prefixed by the same letter must be added together to show the total amount of appropriation.

During 1933-1935 and part of the biennium 1935-1937, before the establishment of WPA work relief, the Federal Government participated in meeting the Emergency Relief cost and much of the cost of administration was paid from these Federal funds.

During 1933-1935 and 1935-1937 the counties paid part of the administrative cost of Mothers Assistance, Old Age Assistance and Pensions for the Blind. County expenditures are not shown.

* See Note under Department of Property and Supplies.

† Includes estimated expenditures to May 31, 1941.

Continuing, to Pennsylvania Motor Police		8,070,000.00	
Continuing, to Pennsylvania Motor Police for 1937-1939 Commitments		920,000.00	
		$ 192,012,373.56	
Liabilities estimated to lapse deducted		1,510,000.00	$ 190,502,373.56
1941-1943 BIENNIUM			
CASH:			
Estimated Unobligated Cash Balance, June 1, 1941			$ 4,810,469.34
Revenue, including Federal Aid, estimated for 1941-1943			176,660,512.00
TOTAL AVAILABLE CASH, 1941-1943			**$ 181,470,981.34**
APPROPRIATIONS RECOMMENDED:			
In Specific Amounts to Departments other than Highways		$ 12,291,799.55	
In Specific Amounts to Department of Highways		8,500,000.00	
Continuing, to Department of Highways		147,250,000.00	
Continuing, to Pennsylvania Motor Police		8,070,000.00	
Continuing, to Department of Revenue		5,207,000.00	
Continuing, to Treasury Department, Board of Finance and Revenue		145,000.00	
TOTAL APPROPRIATIONS IN SPECIFIC AND CONTINUING AMOUNTS RECOMMENDED FOR THE BIENNIUM 1941-1943			**$ 181,463,799.55**

NOTE: The sum of $43,400,000 representing money borrowed from the Motor License Fund for the General Fund ($37,000,000 borrowed by the Special Session of 1940 and $6,400,000 recommended to be borrowed by the present regular Session) will be repaid immediately after June 1, 1941. Meanwhile it has been budgeted by the Department of Highways and programs calling for its expenditure during the 1941 Construction season are in course of preparation. This borrowing has not interfered with the routine financing of Department of Highways operations.

* Indicates deduction. The total maintenance and operation costs of plant, equipment, and stores are distributed to and included in the various functions for which the equipment and stores are used.

NOTE: The sum of $43,400,000 representing money borrowed from the Motor License Fund for the General Fund ($37,000,000 borrowed by the Special Session of 1940 and $6,400,000 recommended to be borrowed by the present regular Session) will be repaid immediately after June 1, 1941. Meanwhile it has been budgeted by the Department of Highways and programs calling for its expenditure during the 1941 construction season are in course of preparation. This borrowing has not interfered with the routine financing of Department of Highways operations.

* An appropriation of $400,000 is available in the Motor License Fund for transfer to the credit of this appropriation. This apparent over-draft results merely from the fact that up to May 31, 1940 no transfers had been made from the Motor License Fund, since the General Fund Appropriation of $230,000 was sufficient to care for all cash payments to that date.

See Administrative Miscellaneous and Commissions this period.

‡ Allocation from Lump sum appropriation for State Owned Medical and Surgical Hospitals.

Note: For 1935-1937 see also allocations from lump sum appropriation for Major Building and Equipment Repairs presented in a later statement.

Note: See also schedule of actual and estimated patient days service and per capita per diem costs presented in a later statement.

Note: Lump sum appropriation for all State Owned Medical and Surgical Hospitals amounted to $2,800,000 in 1937-39, from which $2,761,493 was allocated, the balance of $38,507 being lapsed together with separate lapses indicated for each institution. For 1939-41, the total appropriation was $2,900,000, all of which has been allocated.

* Represents an allocation from the lump sum appropriation for the Mental Hospitals.

Note—Lump sum appropriation for all Mental Hospitals amounted to $10,230,000 in 1937-39, from which $10,195.701 was allocated, the balance of $84,299 being lapsed, together with separate lapses indicated for each hospital. For 1939-41 the total appropriation was $15,250,000, all of which has been allocated.

† This institution taken over by the State in October, 1938. These expenditures cover the period October, 1938 to May 31, 1939.

ELMER S. STANIER, Treasurer, Pittsburgh, Pa., January 1st, 1941

REPORT OF THE SECRETARY OF PUBLIC ASSISTANCE TO MEMBERS OF THE HOUSE OF REPRESENTATIVES IN ACCORDANCE WITH HOUSE RESOLUTION NO. 2, ADOPTED FEBRUARY 4, 1941

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF PUBLIC ASSISTANCE

Harrisburg, February 10, 1941.

The Honorable Thomas J. Callahan
Chief Clerk
House of Representatives
Harrisburg, Pennsylvania

Dear Mr. Callahan:

I have the honor to submit, herewith, for the information of members of the House of Representatives, copies of a "Report on the Property Liability Provision of the Support Law and Methods of Obtaining Reimbursement of Assistance Granted to Property Owners."

This report, which was submitted to the Senate February 3, 1941, in accordance with resolutions adopted in the Senate May 16, 1940, and January 27, 1941, covers the general subject on which the House of Representatives requested information in Resolution No. 2, adopted February 4, 1941. It is, therefore, submitted in partial compliance with House Resolution No. 2.

In further compliance, the following statement furnishes information on the six specific points enumerated in House Resolution No. 2 with respect to bonds or reimbursement agreements signed by assistance recipients acknowledging the liability of their property for repayment of assistance:

"(a) The number of bonds on which judgment has been entered"

As of December 31, 1940, reimbursement agreements (and equivalent documents) filed as judgments against real property of assistance recipients totaled 56,762. (See page 6436 in attached report for discussion of legal basis of current reimbursement regulations and page 6439 for estimate of extent of real property ownership by assistance recipients.)

"(b) The total cost of entry of such bonds"

Analysis of Department records indicates that costs totaling $75,532 were incurred in connection with the filing of the 56,762 reimbursement agreements (and equivalent documents) recorded up to December 31, 1940, or an average of $1.33 per agreement.

"(c) The total amount collected on such bonds"

As of December 31, 1940, payments totaling approximately $217,500 had been paid to the Commonwealth as reimbursement of assistance in connection with 1,323 individual judgment liens obtained by agreement. (See page 6440 in attached report for discussion of comparative legal costs of different methods of establishing claims and probable eventual collections on reimbursement agreements now filed.)

"(d) The total cost expended in order to effectuate such collections"

Estimated legal costs in connection with filing the

reimbursement agreements (or equivalent documents) on which payments had been made up to December 31, 1940 totaled $1,760. No estimate is possible of the pro rata share of general administrative costs of the Department which might be chargeable to the handling of these collections, since most of the work is done by employes principally occupied with other duties.

"(e) The number of bonds and judgments necessary to be revived within the next year"

There will be no need to revive any judgments secured under the reimbursement agreement procedure until 1944.

"(f) The cost necessary to revive such judgments"

On the basis of present statutory provisions, it is estimated that legal cost will average about $6.00 for each judgment lien revived. This necessary cost could be eliminated by legislation permitting Executive Directors of County Boards of Assistance to file a "suggestion of non-payment" as a means of reviving the judgment lien.

Sincerely yours,
HOWARD L. RUSSELL,
Secretary.

REPORT ON THE PROPERTY LIABILITY PROVISION OF THE SUPPORT LAW AND METHODS OF OBTAINING REIMBURSEMENT OF ASSISTANCE GRANTED TO PROPERTY OWNERS

Submitted by the Secretary of Public Assistance to members of the Senate in accordance with Senate Concurrent Resolution, Adopted in the Senate May 16, 1940, and Senate Resolution Adopted January 27, 1941.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF PUBLIC ASSISTANCE

Harrisburg, February 3, 1941.

The Honorable George Holmes
Secretary of the Senate
Commonwealth of Pennsylvania
Harrisburg, Pennsylvania

Dear Mr. Holmes:

I have the honor to present, herewith, for the information of the members of the Senate, a "Report on the Property Liability Provision of the Support Law and Methods of Obtaining Reimbursement of Assistance Granted to Property Owners."

This report is based on a study and investigation undertaken last year in accordance with the request contained in Senate Concurrent Resolution No. 104, adopted in the Senate May 16, 1940. The report complies with that resolution, which was not concurred in by the House, and also with the resolution adopted by the Senate January 27, 1941.

Sincerely yours,
HOWARD L. RUSSELL,
Secretary.

PREFACE

On May 16, 1940, the Senate adopted Senate Concurrent Resolution No. 104, as amended, which read as follows:

"Whereas, The rule or regulation of the Department of Public Assistance requiring relief recipients to execute a bond as a condition precedent to receiving relief has been a source of controversy; and

"Whereas, The General Assembly regards home ownership as one of the highest forms of good citizenship and wishes to encourage it in every conceivable manner; therefore be it

"Resolved (if the House of Representatives concur), That the Secretary of Public Assistance is hereby directed to make a study and investigation of:

"(1) The relative advantages and disadvantages to all concerned of the present rule or regulation requiring relief recipients to execute a reimbursement agreement as a condition precedent to qualifying for relief.

"Resolved, That the Secretary of Public Assistance shall make a report of such study and investigation to the General Assembly at its next regular session, together with his recommendation, for its guidance on this subject."

This resolution was not concurred in by the House of Representatives. Following adjournment of the Legislature, however, the Department of Public Assistance instituted the requested study and investigation, the principal findings of which are contained in the present report.

The report is divided into three parts. The first summarizes the history of the legal liability of property owned by persons receiving public support and the background of the Reimbursement Agreement currently required of property owners. The second deals with alternative

methods of obtaining reimbursement of assistance and findings of the Department's study of such methods. The third reviews briefly the extent to which the reimbursement principle is applied in other comparable states.

For reasons of space, much documentary material used in the preparation of this report has not been reproduced but is available in the files of the Department.

PART I

HISTORY OF LEGAL LIABILITY OF PROPERTY AND BACKGROUND OF CURRENT REIMBURSEMENT REGULATIONS

LEGISLATION PRIOR TO SUPPORT LAW OF 1937

The first Act requiring reimbursement from the property of persons receiving public aid was the Act of March 29, 1819, which provided, in part:

"That whenever any person is chargeable on any township, county or city, the overseers of the poor, or directors of the poor house, in any county, as the case may be, shall, and they respectively are hereby authorized to sue for, recover and collect, any money due, or property belonging to such person, to be applied in defraying the expenses of keeping such pauper";

Subsequent acts dealing with the same subject were adopted in 1836, 1877, 1889 and 1913. The Act of June 25, 1913, stated the principle of property liability later incorporated in the Support Law of 1937, in the words:

"The real estate of any pauper shall be liable for the expense of his support, maintenance and burial incurred by any poor district, whether owned at the time such expenses were incurred or acquired thereafter."

This was followed by the General Poor Relief Act of May 14, 1925, which made liable the "personal estate" (as well as the real estate) "of any pauper" and codified various previous statutes on the subject.

All of the above acts concerned poor relief, as distinguished from unemployment relief, aid to dependent children and old age assistance, which were administered prior to the Public Assistance Law of 1937 by the State Emergency Relief Board and Mothers Assistance Fund or Old Age Assistance Fund Boards. The various acts relating to unemployment relief and aid to dependent children before 1937 did not contain any provision making property of recipients liable for reimbursement.

The first provision of this nature in old age assistance legislation was included in the Act of June 25, 1936. The Department of Welfare, which was responsible for supervising administration of this Act at that time, established a procedure for collection of claims against former old age assistance recipients who owned property and received assistance after the effective date of the Act. This procedure was based upon advice given by former Deputy Attorney General Adrian Bonelly. With the passage of the Public Assistance Law of 1937, responsibility for the collection of such claims was assumed by the Department of Public Assistance. In December, 1937, the Secretary of the Department wrote former Deputy Attorney General John P. Wanner asking for confirmation of the advice given by Mr. Bonelly and received a reply stating, "Whenever a beneficiary received assistance under the Act in effect prior to June 25, 1936, and continued to receive assistance subsequent to June 25, 1936, it was the clear purpose and intention of the Assembly to make the estate of such beneficiary liable for repayment of such assistance grants."

Supreme Court Ruling

It is noteworthy that efforts made by the Department to establish claims against property of former old age assistance recipients in accordance with Deputy Attorney General Wanner's ruling led eventually to a legal challenge of the State's right to secure reimbursement of assistance granted before passage of the Act of June 25, 1936, which contained the first mention of reimbursement of old age assistance, As a result, an appeal was taken to the Supreme Court in the case of William Waits, 336 Pa. 151 (1939), and the Court held in its opinion, written by the late Justice Barnes, that the retroactive application of the Act was constitutional, and that "at common law there is an implied duty on the part of a recipient of public assistance, or his estate, to make reimbursement." Further, "it seems to us that although the Act of 1934 (the first old age assistance law) made no express provision for reimbursement, there is an implied condition attached to every payment of assistance funds, that the recipient would repay the Commonwealth when able to do so, and that his estate should be subject to the same liability."

SUPPORT LAW OF 1937

Liability of property for repayment of public aid, regardless of type, was first enunciated in the Support Law, Act of June 24, 1937, Section 4 of which read, in part:

"Section 4. Property of Indigent Persons Liable for Expenses Incurred for Support and Assistance.—(a) The real and personal property of any indigent person shall be liable for the expenses of his support, maintenance, assistance and burial, incurred by any public body or public agency, whether owned at the time such expenses were incurred or acquired thereafter. Any public body or public agency may sue for moneys so expended, and any judgment obtained shall be a lien upon the real estate of such indigent person, and be collected as other judgments";

As first enacted, the Support Law followed the provisions of the earlier poor laws in making property liable, even though acquired after a person ceased to receive assistance. While forced sale of property to provide for immediate reimbursement was not mandated, there was, at the same time, no assurance to a home owner that his home would not be sold to effect reimbursement while he and his family needed it. The Department and the State Board of Public Assistance at first took the position that the law was discretionary and no effort was made to apply it to recipients of general assistance and aid to dependent children, although claims continued to be set up against the property of old age assistance recipients who died or who were removed from the assistance rolls for any other reason.

In January, 1938, the Secretary of the Department asked the Attorney General whether, under the recently enacted Support Law, reimbursement was required for blind pensions, aid to dependent children and general assistance and, further, whether it should be required for assistance granted prior to passage of the Support Law as had been ruled in the instance of old age assistance paid before the Act of 1936. An affirmative reply from former Deputy Attorney General Wanner stated, "Whenever assistance grants are made to relief beneficiaries who are property owners, the claim should be immediately established." The Department questioned Mr. Wanner's decision with

respect to reimbursement from blind pensioners and it was later ruled that the Support Law referred only to assistance and not to pensions.

During 1938 the State Board of Public Assistance devoted considerable attention to possible administrative measures to comply with the Support Law. In July of that year the State Board approved the use of a judgment bond as the only practicable method of compliance and accordingly the necessary administrative procedures and forms were prepared by the Department. However, on December 1, 1938, actual institution of a bond requirement was postponed at the direction of the State Board which asked that additional and final interpretation be requested from the Attorney General as to whether the Support Law was mandatory or discretionary with respect to aid to dependent children and general assistance and as to whether a judgment bond should be used to make the law effective.

Attorney General's Opinion

In January, 1939, just before leaving office, the former Attorney General Guy K. Bard rendered an opinion stating that administrative measures to enforce the reimbursement provision of the Suport Law were mandatory with respect to all types of assistance and that the State Board might lay itself open to charges of nonfeasance if not malfeasance if some action were not taken. The opinion approved the proposed use of a bond in the words, "It seems to be highly important that the Department of Public Assistance should expedite collections from relief recipients by requiring them to furnish bonds containing a clause for the confession of judgment, thereby eliminating the necessity of bringing suit against relief recipients." In March, 1939, the Secretary of Public Assistance requested Attorney General Claude T. Reno to review the opinion previously rendered and to advise whether he concurred in its findings. The Attorney General referred the request to Deputy Attorney General M. Louise Rutherford who wrote the Secretary March 28, 1939, that the Department of Justice concurred in the findings of the earlier opinion. Accordingly, effective April 1, 1939, a regulation, approved by the State Board of Public Assistance, went into effect requiring all assistance recipients and applicants to sign a form of bond in the amount of $5,000 to insure repayment of assistance from property which might be owned or acquired.

In conjunction with initiation of this bond requirement, the Department recommended to the legislature, which was then in session, that the Support Law of 1937 be modified. In anticipation of such modification plans were developed for institution of a simplified reimbursement agreement procedure.

SENATE CONCURRENT RESOLUTION

On May 16, 1939, the Department suspended use of the $5,000 bond in accordance with the request contained in Senate Concurrent Resolution No. 4, which read as follows:

"Whereas During the last Administration Act No. 397 was passed which provides in Section 4 as follows:

'Section 4. Property of Indigent Persons Liable for Expenses Incurred for Support and Assistance. (a) The real and personal property of any indigent person shall be liable for the expenses of his support, maintenance, assistance and burial incurred by any public body or public agency, whether owned at the time such expenses were incurred or acquired thereafter. Any public body or public agency may sue for moneys so expended and any judgment obtained shall be a lien upon the real estate of such indigent person and be collected as other judgments'; and

"Whereas, The State Board of Public Assistance, on April 6, 1938, submitted to the Attorney General for approval a procedure for the enforcement of the act above quoted and on July 7, 1938, by resolution adopted a form of bond to be filed as a lien against the real property and

"Whereas, The use of said bond was thereafter temporarily suspended; and

"Whereas, The former Attorney General suggested that the Department of Public Assistance should expedite collections from relief recipients by requiring them to furnish bonds containing a clause for the confession of judgment, thereby eliminating the necessity of bringing suit against relief recipients and bringing about the saving of large sums of money, which opinion was concurred in on March 28, 1939, by the present Attorney General; and

"Whereas, Pursuant to the suggestion of the former Attorney General, the Department of Public Assistance, effective April 1, 1939, issued instructions that applicants for all forms of assistance, excepting blind pensioners, be required to file bonds, which procedure is now in effect; and

"Whereas, The present Department of Public Assistance has recommended and, pursuant to said recommendations, a bill has been introduced to amend the Act of 1937 so that only the real and personal property of recipients owned at the time relief is granted, or acquired during the period of said grants, is liable for such repayment, and providing also that any judgment obtained for the repayment of relief shall not be enforced against the real and personal property of the recipient comprising his home and furnishings during the lifetime of such recipient; and

"Whereas, The Department of Public Assistance proposes, upon the enactment of said act, to abandon the use of said bond and to substitute in lieu thereof an agreement carrying out the provisions of said proposed amended act; now therefore be it

"Resolved (if the House of Representatives concur), That the Secretary of Public Assistance, in view of the above facts, be directed to immediately discontinue the use of said bond."

It will be noted that this resolution makes specific reference both to the anticipated changes in law and to the proposed use of "an agreement carrying out the provisions" of the amended law.

Act 168, approved June 9, 1939, amended Section 4 (a) of the Support Law so as to (1) exempt from liability any property acquired after a person ceased to receive assistance, and (2) protect the home owner by privading that no judgment against a recipient's property comprising his home and furnishings could be executed to effect reimbursement during his lifetime or the lifetime of his surviving spouse or dependent children.

In September, 1939, with the approval of the State Board of Public Assistance and the Attorney General, the Department put into effect the present reimbursement agree-

ment procedure, requiring adult owners of real property to sign an agreement form acknowledging eventual liability of their property and authorizing the entering of a judgment for the amount of assistance received up to a maximum of $2,000. A copy of the Reimbursement Agreement form is attached.

PART II

ADVANTAGES AND DISADVANTAGES OF ALTERNATIVE METHODS OF OBTAINING REIMBURSEMENT

From the foregoing, it seems clear that the liability of property owned by indigent persons receiving any form of public aid is a matter of law; that measures of some kind to make the law effective are mandatory and not discretionary and that the reimbursement obligation in the law has been emphasized by the Supreme Court in the Waits decision regarding old age assistance, as well as by rulings and advice given the Department of Public ssistance by the Attorney General.

Therefore, if the reimbursement principle and its effects are questioned, the proper remedy appears to lie in further amendment of the Support Law.

It is recognized, however, that alternative administrative methods of making the existing law effective are possible. In the paragraphs following, the major findings of the Department's study of these methods as they apply to real property are presented, together with certain observations which seem pertinent.

In general, the measures which can be adopted to bring about reimbursement of assistance granted to real property owners fall in one of two broad classifications:

(1) Agreements signed at the time assistance is granted, required as a condition of eligibility, and filed as a lien against the property.

(2) Court actions entered at the time assistance is discontinued in order to obtain a judgment against property (automatically constituting a lien); or claims filed against the estate of a property owner who dies while receiving assistance, thereby establishing the Commonwealth as a creditor of the estate.

The methods included under the second classification are mentioned in Section 4 of the Support Law in the following terms:

". . . Any public body or public agency may sue for moneys so expended, and any judgment obtained shall be a lien upon the real estate of such indigent person, and be collected as other judgments, except as to the real and personal property comprising the home and furnishings of such indigent persons, which home shall be subject to the lien of such judgment but shall not be subject to execution on such judgment during the lifetime of the indigent person, surviving spouse, or dependent children.

"(6) Any claim for the expenses of support, maintenance, assistance and burial of an indigent person, held by any public body or public agency, shall have the same force and effect against the real estate of a deceased indigent person as other debts of a decedent, and shall be ascertained and recovered in the same manner."

Although the law does not refer to the first classification, namely, the obtaining of an agreement (with the same force as a lien), this method was adopted by the Department of Public Assistance in accordance with specific advice of both the present and former Attorney General, as previously noted.

AGREEMENT METHOD

The term "agreement," as used here, is to be understood as including any equivalent documents obtained for the same purpose as the printed Reimbursement Agreement form attached to this report.[1]

Under current regulations of the Department of Public Assistance, adult owners of real property are required to sign a Reimbursement Agreement as a condition of eligibility for assistance.

Points of particular importance in evaluating the agreement method, as compared with the alternative of taking some form of legal action, include the following:

1. The Reimbursement Agreement in no way creates a new or additional liability against the signer's property. It is limited to an acknowledgment of the liability already specified in the law.

2. The judgment provided for in the Agreement gives the Commonwealth no rights or claims which would not be equally obtainable through court suit. For example, the statutory privilege of a "debtor's exemption" is unimpaired.

3. Although the Agreement specifies the sum of $2,000 (since the naming of a definite figure is necessary), the actual liability, or amount for which judgment may be executed, is limited to the amount of assistance received. Whenever assistance is discontinued, the Department agrees to furnish a stipulation to be filed with the Prothonotary, setting forth the amount of assistance for which the property is liable, if this amount is less than $2,000. Thus, the encumbrance represented by the Agreement and stipulation may never exceed the encumbrance which would be created if a court suit were entered to obtain judgment at the time of discontinuing assistance.

4. So long as liability of property is mandated by law, the required signing of an agreement is advantageous in that it insures that all property owners and their interested relatives will realize in advance that receipt of public assistance creates a statutory liability against property. Prior to adoption of the agreement regulation, many property owners were apparently completely unaware of this liability. In this connection it is noteworthy that, following passage of the Old Age Assistance Act of 1936 which contained a reimbursement clause, the Department of Welfare for a short time required applicants and recipients to sign a form acknowledging their understanding of the liability of property. This requirement not only caused some recipients voluntarily to leave the rolls but resulted in a number of applicants' withdrawing from the old age assistance "waiting lists." Presumably in these cases, as in more recent analogous cases associated with initiation of the present Reimbursement

[1] An example of an equivalent document is the $5,000 bond required for a short period after April 1, 1939. Where such bonds had already been filed, the signers were informed in writing that only those provisions which were contained in the modified Reimbursement Agreement would be applicable.

Agreement, the individuals concerned and their relatives found some means (possibly with considerable sacrifice) of avoiding resort to public aid and thereby keeping property clear to be passed on through inheritance.

3. The agreement method appears to be more equitable than other procedures since, without an agreement, there is nothing to prevent a property owner from receiving assistance for a period of time and then selling, transferring or encumbering his property before any effective steps can be taken to secure recognition of a reimbursement claim. In this manner, one person could evade, intentionally or otherwise, a statutory provision which would have to be enforced in the case of another person whose circumstances might be identical, except for the fact he retained rather than disposed of his property.

COURT ACTIONS AND CLAIMS AGAINST DECEDENTS ESTATES

Methods coming within the above classification are alike in that the action involved cannot be taken before or during the time a property owner receives assistance but must necessarily be taken when the grant has been discontinued and the total amount of assistance reimburseable has been determined. (Although it would theoretically be possible to institute periodic civil suits against persons still receiving assistance in order to obtain successive judgments for aid granted during a preceding period, the impracticability of such a procedure from the standpoint of expense alone requires no comment.)

Court Actions

In any appraisal of the use of court action as a means of making the property liability provision of the Support Law effective, the following points demand consideration:

1. The legal cost of a court action is invariably added by the court to the amount of the reimbursement claim, increasing the judgment against the property accordingly. Thus (if the equity in the property is sufficient) eventual settlement of the claim requires a substantially larger payment than would have been necessary if the liability had been acknowledged by agreement. The actual extent of these added costs for a group of representative cases is shown on page 6440.

2. Because of the mandatory nature of the reimbursement principle as interpreted by both the Attorney General and the Supreme Court, a decision to substitute court action for the agreement method would necessitate civil suit each time a property owner ceased to receive assistance. Statistical studies of the Department have repeatedly confirmed the fact that the assistance population, particularly the group receiving general assistance, is subject to constant turnover. Intermittent employment and intermittent ability of relatives to aid in support result in the discontinuance and resumption of grants in large numbers of cases.[2] The administrative burden imposed upon the Department by abandonment of the agreement method would thus involve considerably more than institution of a single suit to obtain a judgment in each case where assistance is discontinued. In a number of cases, it is probable that even before judgment against property for past assistance could be obtained the individual concerned might again require aid. In other cases alternating self-support and assistance over a period of years might result in several successive court actions, each adding legal costs as well as additional reimbursement liability to the claim against property. It is impossible to estimate the increase in personnel and administrative costs which would result under these circumstances. It seems clear, however, that the Claim Settlement Division of the Department would have to be greatly expanded to handle the work of preparing and following up claims, maintaining records and referring cases to the Department of Justice for suit. Additional investigation and referral duties would also be placed on the staffs of the County Boards of Assistance.

[2] A study of general assistance in 1939 showed that 85% of the different cases during the year were added to or removed from the rolls one or more times. Only 15% remained on the rolls continuously.

Claims Against Estates

The filing of a claim against the estate of a deceased assistance recipient does not of itself entail legal costs such as are incurred in court actions. This method of assuring reimbursement from property is, however, limited in its application to cases in which the property owner dies while receiving assistance. (Not only would it be administratively impossible to keep track of property owners who have left assistance rolls in order to file claims against their estates at time of death, but there would be every incentive for the owner to dispose of his property during his lifetime, knowing that otherwise it would become liable for reimbursement.)

Other points requiring consideration in connection with the claims-against-estates method include:

1. As in the instance of court actions when assistance is discontinued, the filing of a claim at the time of an assistance recipient's death does not eliminate the possibility that a property subject to reimbursement will not have been previously sold, transferred or encumbered.

2. Frequently, when an assistance recipient dies, leaving only a home which is willed to his spouse or children, the heirs do not wish to go to the expense of taking out letters of administration. Yet, unless an administrator has been appointed, it is not possible for the Department to file a claim. Insistence on settlement of the estate may work definite hardships on the family.

3. Wherever it is not possible to file a claim against a decedent's estate or where such a claim, though filed, has not been settled within a year, court action to obtain a judgment becomes necessary as the only remaining recourse.

FINDINGS OF SPECIAL ADMINISTRATIVE STUDY

In order to obtain specific facts on the operation of the Reimbursement Agreement procedure and alternative methods, the Department conducted a special administrative study during the three-month period August 1-October 31, 1940.

This study and later supplementary surveys provided information on the extent of real property ownership among assistance recipients; the extent to which property owners refused to sign agreements; amounts of assistance reimbursable and collected in a group of 424 reimbursement claims which were settled in full during the three months; comparative legal costs of collections by various methods; and probable eventual collections on all reimbursement agreements now filed.

Extent of Real Property Ownership

In the period April 1, 1939, when the first bond requirement became effective, through December 31, 1940, reimbursement agreements (and equivalent documents) filed against real property of assistance recipients totaled 56,762.

On the basis of this figure and data available on turnover in assistance rolls and number of different cases aided at one time or another, it is estimated that slightly more than 7 per cent, or roughly 1 in 14, of all cases receiving general assistance, old age assistance and aid to dependent children involve ownership of real property subject to reimbursement. Stated differently, for every case affected by the law and regulations relating to reimbursement, there are 13 cases not affected because no real property is owned.

In relatively few instances, assistance recipients own non-resident real property which has been offered for sale and cannot be sold at a fair approximation of its value. Such non-resident real property does not prevent eligibility for assistance if its liability has been acknowledged by agreement. In the great majority of instances real property owned consists of a home.

Extent of Refusals to Sign Agreements

During the period August 1-October 31, 1940, County Boards of Assistance offices maintained a record of all refusals to sign Reimbursement Agreements. In these three months, 10,028 assistance applicants and recipients were asked to sign agreements. Of the total, approximately 6 per cent, or 638, refused to sign. This group consisted of 462 applicants and 176 recipients, the latter being persons who had received assistance since before the initiation of the agreement regulation[a] or who had been granted assistance provisionally pending clearance of questions of property titles, etc.

Since information is not available on the number of persons who refused to sign (and were therefore denied assistance) but who subsequently changed their minds, it is not possible to estimate accurately, the so-called deterrent effect" of the existing law and regulations in causing persons to find some means of support other than public aid, rather than encumber their property. It must be recognized also that in some instances applicants refusing to sign agreements might subsequently have been found ineligible on some other grounds.

[a] It was not possible for county staffs to contact all recipients owning property immediately after the regulation went into effect. When such persons were contacted, particularly in the case of old age assistance recipients, considerable time was allowed for "Thinking the matter over" and consulting friends or relatives before actual signing was required.

Collection Experience in a Representative Group of Reimbursement Claims

As previously noted, regulations requiring Reimbursement Agreements (or equivalent documents) as a means of making the Support Law effective date back to April 1, 1939. However, there have been a number of instances during the subsequent period in which assistance recipients owning property have died or have had their assistance terminated for other reasons before an agreement acknowledging property liability could be secured. Such cases are referred to the Department's Division of Claim Settlements for filing of claims against decedents' estates or court actions to obtain judgments, under procedures similar to those followed in old age assistance cases after 1936.

It thus happens that the Department is able to present a comparative analysis of cost and other factors in connection with each of the alternative methods of effecting reimbursement from real property discussed on previous pages. Since such an analysis, to be significant, must be based on reimbursement claims which have been finally settled by payment, regardless of the method originally used to establish liability, the Department undertook a study, between August 1 and October 31, 1940, of all cases in which payments were made on reimbursement claims and then segregated those in which the payment had been accepted in final settlement. During the three months, claims falling in the latter category totaled 424, of which 345 had originally been established by agreement, 65 by court action and 14 by filing with the administrator of an estate.

The total group of 424 claims studied represented an aggregate of $131,359.49 in assistance grants subject to reimbursement because of property ownership. As would be expected, the amount of payments accepted in full settlement fell considerably short of this figure, totaling $89,575.45, or 68.2 per cent, the unpaid balance reflecting instances in which the unencumbered value of property was less than the amount reimbursable.

The tabulation below shows findings of the study with respect to average amounts reimbursable and paid, classified according to method of establishing claim.

Method of Establishing Claim	Number of Claims	Average Amount of Assistance Reimbursable	Average Amount Paid in Full Settlement	Amount Paid as Per Cent of Amount Reimbursable
Agreement	345	$274.22	$194.12	70.8%
Court Action	65	456.69	286.04	62.6%
Filed with Administrator of Estate	14	505.00	286.64	56.8%
Total	424	$309.81	$211.26	68.2%

The fact that the highest percentage collection occurred in the group of claims established by agreement is probably traceable primarily to the smaller average amount reimbursable in this group, although in the long run this

finding would be expected regardless, since the other methods provide no safeguards against encumbrance of property subsequent to receipt of assistance.

A more detailed analysis of collection experience with the entire group of claims, regardless of the method of establishment, follows:

Classified Amount Reimbursable	Number of Claims	Average Amount Reimbursable	Average Amount Paid in Full Settlement	Amount Paid as Per Cent of Amount Reimbursable
All Claims	424	$309.81	$211.26	68.2%
Under $100	169	42.60	42.19	99.0
100-199	69	145.35	134.71	92.7
200-299	38	249.14	218.95	87.9
300-399	28	349.80	250.06	71.5
400-499	23	451.29	317.73	70.4
500-599	21	544.36	433.52	79.6
600-699	12	653.76	406.43	62.2
700-799	17	749.56	458.25	61.1
800-899	15	841.01	571.55	68.0
900-999	9	942.53	570.61	60.5
1000-1199	10	1,107.74	847.34	76.5
1200-1399	5	1,252.94	655.41	52.3
1400-1599	3	1,500.47	586.48	39.1
1600-1799	2	1,606.65	559.66	34.8
1800-1999	2	1,842.00	192.48	10.4
2000 and over	1	2,630.52	25.00	1.0

Examination of the above table reveals that the great majority of claims settled during the period studied involved reimbursable amounts of less than $500, with more than half under $200. It may be assumed, however, that as time goes on, there will be a tendency toward more relatively large claims, representing longer cumulative periods of receiving assistance.

Of considerably greater significance than the finding concerning amounts reimbursable is the fact that a fairly low "ceiling" seems to exist with respect to amounts which can be paid under any circumstances. The two right-hand columns of the tabulation would appear to show that the unencumbered value of real properties of assistance recipients may not be expected to exceed a few hundreds of dollars and that payments in full are not to be expected where amounts reimbursable rise higher.

Comparative Legal Costs

Legal costs (i. e., prothonotary, court and attorney fees) involved in establishing liability of property were reported in connection with each of the 424 claims studied. The 14 claims established by filing a claim with the administrator of a decedent's estate required no expense of this type. Findings with respect to the other 410 claims revealed:

In the 345 cases where the agreement method had been used, legal costs incurred came to $258, or $.75 per claim. The legal cost for each $100 collected in payments on claims was $.38.

In the 65 cases in which court action was taken, legal costs amounted to $3,307, or $50.87 per claim. The legal cost for each $100 collected in payments on claims was $17.79.

A recapitulation of these findings follows:

Method of Establishing Claim	Number of Claims	Amount of Legal Costs Incurred	Legal Costs Per Claim	Legal Costs Per $100 Collected
Agreement	345	$258	$.75	$.38
Court Action	65	3,307	50.87	17.79
Claim filed with Administrator of Decedent's Estate	14	0	0	0
Total	424	$3,565	$8.41	$3.98

As pointed out on page 6438, legal costs of court actions are invariably added by the court to the amount of assistance to be repaid, increasing the judgment accordingly. These added costs must, therefore, eventually be paid by the former assistance recipient or his estate, if the unencumbered value of property is sufficient to permit.

Probable Eventual Collections on Agreements Now Filed

As previously noted, 56,762 Reimbursement Agreements (or equivalent documents) were recorded against the real property of former or current assistance recipients in the period April 1, 1939-December 31, 1940. To date, payments totaling $217,500 have been collected in connection with 1323 of these liens. On the basis of this figure and the findings of the Department's three-months' study of reimbursement collections, it is estimated that somewhat more than $12,000,000 may eventually be collected from the aggregate of 56,762 agreements.

CONCLUSION AND RECOMMENDATION

In view of all available experience and evidence with respect to alternative methods of giving effect to the mandatory principle of reimbursement as now contained in the law, there seems little room to question that the present method of obtaining advance agreements is the most practical, economical and advantageous to all concerned.

It is, therefore, the considered judgment of the Department of Public Assistance that no change should be made in the policy of requiring reimbursement agreements from owners of real property as a condition of eligibility for assistance. It is the recommendation of the Department that, if the reimbursement principle and its effects are questioned, consideration should be given, as suggested earlier in this report, to some further amendment of the Support Law.

PART III

LAWS AND PRACTICES IN OTHER STATES

In any consideration of the law and practices with respect to property owned by assistance recipients in Pennsylvania, interest naturally attaches to the measures in effect in other states.

As part of its general investigation, the Department of Public Assistance last summer directed inquiries to relief agencies in seventeen other states selected because of comparability to Pennsylvania in one or more respects. The states included were: California, Connecticut, Illinois, Iowa, Indiana, Louisiana, Maryland, Massachusetts,

Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Washington, West Virginia and Wisconsin. The following is a summary of the findings of this survey.

In all but two (Michigan and Missouri) of the seventeen states, statutory provisions exist for reimbursement from property in the instance of one or more of the four main types of public assistance (general relief, old age assistance, aid to dependent children and to the blind). New York, however, is the only state having statutory provision for reimbursement of all four types of public assistance.

Among the fifteen states with statutory provisions, reimbursement of general assistance is required in seven states besides New York (California, Connecticut, Iowa, Massachusetts, New Jersey, Washington, and Wisconsin); reimbursement of old age assistance is required in twelve states besides New York (Connecticut, Illinois, Iowa, Indiana, Louisiana, Maryland, Minnesota, New Jersey, Ohio, Washington, West Virginia and Wisconsin); reimbursement of blind assistance is required in seven states besides New York (Connecticut, Iowa, Indiana, Louisiana, Maryland, Washington and West Virginia). New York is the only state reporting a reimbursement requirement in connection with aid to dependent children.

Methods of effecting reimbursement from property varied considerably in detail. However, in twelve (California, Connecticut, Iowa, Indiana, Maryland, Massachusetts, Minnesota, New Jersey, New York, Ohio, West Virginia, Wisconsin) of the fifteen states with statutory provisions for reimbursement from property, the law also provides for the use of an advance judgment form which can be filed as a lien to assure reimbursement. In eight of the states of this group, the method provided for by law and used in administration involves obtaining the property owner's signature to the form as a condition of eligibility. In Iowa, Indiana, Minnesota and Wisconsin, the administrative agency is empowered to file a certificate of lien against the assistance recipient's property without obtaining his signature.

The three states (Illinois, Louisiana and Washington) which have a provision for reimbursement in their laws but no statutory provision for obtaining advance judgments as a condition of eligibility have not adopted such a measure by administrative regulation. These three states apparently obtain reimbursement only when it is possible to do so by filing claims against the estates of recipients who have died. It should be noted, however, that the laws of Illinois and Louisiana require no reimbursement from general assistance and none of the three states has a reimbursement provision affecting aid to dependent children.

Considerable variations appear to exist in the extent to which the measures cited above apply to different types of assistance in the same state. There are also variations in the discretionary authority left to the administrative agency in applying provisions of law.

Although the Department's survey covered only such information as could be encompassed in a fairly simple questionnaire, it is possible on the basis of the facts gathered to conclude the following:

1. Pennsylvania is by no means unique with respect to requiring reimbursement from property owners receiving assistance.

2. More states require reimbursement of old age assistance than of any other type of aid.

3. New York, most nearly comparable to Pennsylvania in terms of scope and adequacy of assistance services, is the only state besides Pennsylvania requiring reimbursement of all types of assistance.

4. Most of the state laws dealing with reimbursement also provide in the statute itself for a procedure similar in its effect to the reimbursement agreement procedure in Pennsylvania.

5. The states without statutory provision for advance filing of judgments have property liability laws which are much more limited in their scope and effect than Pennsylvania's.

DPA Form 9—Rev. 8-40—30M—11-40 Address .....

REIMBURSEMENT AGREEMENT

I, ... of .....County, Pennsylvania, acknowledge that my real and personal property is liable for the repayment of public assistance which has been, or will be, granted and paid to or for me and for those persons, included in the same grant, for whom I am legally responsible under the Support Law of Pennsylvania; except the assistance for which service is rendered in the Relief-Work Program of the Department of Public Assistance by me or by any person while included in the same grant with me, and except any State Unemployment Relief or Mothers' Assistance received by me or my legal dependents prior to June 25, 1937. The purpose of this agreement is to give the Department of Public Assistance a lien on any property owned by me at the time of my application for assistance, or in which I acquire a property interest while I am receiving assistance.

In the absence of any fraud on my part, it is further understood that this agreement in no way gives the Department of Public Assistance of the Commonwealth of Pennsylvania a lien on real or personal property which is acquired by me subsequently to the last date on which I received public assistance, nor shall any salary or wages due me be subject to this obligation at any time.

In order to carry out the purpose of this agreement, I do hereby authorize the Prothonotary, or any Attorney, of any Court of Record of Pennsylvania, or elsewhere, to appear and to enter judgment against me for the sum of Two Thousand Dollars ($2,000.00), plus costs. This judgment shall be a lien upon my real property, and be collected as other judgments, except as to the real and personal property comprising my home and furnishings, which home shall be subject to the lien of such judgment, but shall not be subject to execution on such judgment during my lifetime, or the lifetime of my spouse or dependent children. It is further agreed that in the event the sum of Two Thousand Dollars ($2,000.00) exceeds the amount required for repayment of assistance as set forth above, my real property shall not be liable for any greater paymen than the amount of assistance received, plus costs.

Moreover, it is agreed that at any time after I have ceased to receive assistance, the Department of Public Assistance will, at my written request, furnish me with a stipulation to be filed with the Prothonotary of the court

having record of this judgment, setting forth the exact amount of assistance received for which my real property is liable, if such amount is less than the sum of Two Thousand Dollars ($2,000.00).

HOW PROPERTY RESOURCES AFFECT ELIGIBILITY FOR PUBLIC ASSISTANCE IN PENNSYLVANIA

Public Assistance in Pennsylvania is provided for those individuals and families who do not have sufficient resources to take care of their essential needs, and who meet other specified conditions of eligibility.

In determining need for assistance, consideration is given to resources which are immediately available for support, such as cash on hand or in the bank, or income from earnings, pensions, compensation, trust funds, court orders, Railroad Retirement Benefits, Federal Old-Age and Survivors' Insurance Benefits, etc. Real and personal property is also considered a resource where it can and should be utilized for maintenance.

This pamphlet describes how ownership of real and personal property affects eligibility for public assistance, (General Assistance, Old-Age Assistance, or Aid to Dependent Children) and summarizes State regulations with respect to such ownership. Different regulations govern eligibility for Blind-Pensions.

Most people support themselves through their own independent efforts and when necessary use their personal and real property resources to meet their needs. It is only aftr they have exhausted all their own resources that they seek help from public funds.

Following this general practice, State regulations provide that a person who owns real or personal property which can and should be used for immediate needs is not eligible for public assistance.

However, certain kinds of property need not be converted into cash or used for credit to meet immediate needs. If property is used as a home, or if it could be sold only at a considerable loss to the property owner, it is not considered a resource to meet immediate needs, but is considered a resource to be used for eventual repayment of the assistance granted an individual and his family.

Accordingly, possession of the following types of property does not affect eligibility for assistance if the owner acknowledges liability of such property for eventual repayment of assistance received:

Resident Property and any land attached thereto;

Non-Resident Property, if an active effort is being made to sell the property and a fair price cannot be obtained; or

Personal Property, such as stocks, bonds, mortgages, judgments, money in a closed bank or Building and Loan Association, on which no cash can be raised or which cannot be sold for a fair value.

In addition, certain property is neither considered a resource to meet immediate needs, nor considered liable for eventual repayment of assistance received. Possession of such property, listed below, does not affect eligibility for assistance in any way:

Household Goods and personal belongings not of unusual value;

Automobile, if not of unusual value, and if it is needed for employment purposes or for transportation of food, etc.;

Trust Funds, if the terms of the trust prevent use of the principal;

Compensation or Damages received in a lump sum to be used for medical care;

Life Insurance not exceeding $500 for an adult or $300 for a child;

Veterans' Bonus Money or property which was purchased entirely from such money;

House Built on Leased Land; or a Cemetery Lot.

Likewise, possession of a small amount of cash sufficient only to cover needs until the first assistance check can be received does not make a person ineligible for assistance.

Liability of certain property for eventual repayment of assistance is based upon a provision of the Support Law of 1937, amended in 1939, which states that real and personal property owned or acquired by a recipient of public assistance is "liable for the expenses of his support."

In order to carry out this provision of the law, State assistance regulations require that liability of real property be acknowledged by signing a Reimbursement Agreemen and that personal property be assigned to the Department of Public Assistance.

REIMBURSEMENT AGREEMENT

An adult owner of real property applying for assistance must sign a Reimbursement Agreement acknowledging liability of the property for all assistance granted to him and to members of his family included in the same assistance grant. This Agreement, however, gives the State no claim against property which could not be obtained by law through the more expensive and less desirable method of a suit in court.

While the Agreement provides a judgment in the maximum amount of $2,000, the liability it acknowledges against property is only for the actual amount of General Assistance or Aid to Dependent Children received since June 25, 1937 (when the Suport Law was first enacted) or of Old-Age Assistance, since December 1, 1934. The provision with respect to OAA is in accordance with a decision of the State Supreme Court.

No repayment is required for General Assistance for which service has been rendered in the Relief-Work Program of the Department by the property owner or a member of his family.

When assistance is discontinued, the $2,000 maximum liability of property may, at the property owner's request, be reduced to a judgment for the actual amount of assistance received.

Any person applying for assistance who signs a Reimbursement Agreement may have this Agreement returned to him if his application is rejected.

The Reimbursement Agreement is filed with the County Prothonotary and acts as a lien against the property. However, the Support Law, supplemented by departmental regulations, gives protection to the home owner (and, in the event of his death, to his surviving family) by providing that the sale of a home and furnishings will never be forced by the State for repayment of assistance. The

lien against such property will be satisfied only when repayment is made voluntarily, or when ownership of the property changes, and the new owner wishes to obtain a clear title. No home owner or his family need fear the loss of their home at any time because of signing a Reimbursement Agreement.

ASSIGNMENT OF PERSONAL PROPERTY

Personal property such as stocks, bonds, mortgages, judgments, money in a closed bank or Building and Loan Association, may be retained while assistance is received if no cash can be realized on it or if it cannot be sold for a fair price, and if it is assigned to the Department of Public Assistance to provide for eventual repayment of assistance.

Property thus assigned, however, will not be sold by the Department without the recipient's knowledge, or without giving him an opportunity to offer other suggestions for its disposition. Any proceeds of such a sale in excess of the amount of assistance granted will be returned to the recipient or his heirs.

ACQUISITION OF PROPERTY WHILE RECEIVING ASSISTANCE

In general, if a lump sum of money, or a property resource which can be converted into money is acquired while receiving assistance, such resource is expected to be used for maintenance, and assistance is discontinued.

An exception may be made by the County Board, however, to permit expenditure of the resource to pay for a needed surgical operation or appliance. In addition, assistance may be continued under certain circumstances if the resource is used to repay assistance previously received or if the property resource is made liable for repayment of assistance at a later date.

Additional information on this subject or other phases of the assistance program is avaiable at County Assistance Offices.

PRELIMINARY REPORT OF THE SPECIAL COMMITTEE NAMED TO INVESTIGATE SEWING PROJECTS DISPUTE

Mr. Speaker and Members of the House:

The Committee named 7 January 1941 to investigate the dispute between the Governor and the Work Projects Administration in Pennsylvania submits the following report and recommendations;

In assuming the duties imposed upon it under the House Resolution of 7 January 1941 the Committee felt that its first action should be to prevent the demonstrations scheduled for 9 January in Philadelphia and 13 January in Harrisburg. Pursuant to this decision your Committee met in Hotel Adelphia on 9 January with the WPA officials of the Philadelphia district to learn of the conditions prevalent on the three Sewing Projects there.

We then visited these projects, located at 26th & Reed Streets and at Kinsey & Hedge Streets. At both places we talked with the Committees representing those employed on the projects. After explaining to these committees the concern felt by all Members of this House in the effort to have these projects continued and our desire to reach a sensible settlement of the trouble your Committee was assured that the proposed demonstrations would be abandoned. In return the Chairman of your Committee assured these employes that when your Committee submitted what it believed to be a fair, reasonable plan for settling the dispute, he would, if such plan was rejected by either party engaged in the dispute, return and personally place the blame where it belonged.

On 10 January the Philadelphia officials of WPA again met with your Committee and submitted the data we had requested of them regarding articles produced, the quantities so produced, hours, wages, etc.

The Committee felt that its next step should be to learn, if possible, the reasons underlying this dispute, and arrange to meet with the State Administrator of WPA and the Budget Secretary on 13 January in Harrisburg. The Chairman was instructed to confer with the Washington officials of WPA.

To visualize properly the entire matter it is necessary to know the restrictions imposed by Congress in the operations of WPA under the existing Federal law WPA may spend not in excess of 75% of the cost on any project approved on and after 1 January 1940. This restriction prevents the Commonwealth from receiving credit due to any excess contribution which it may be making or may have made on any project approved before 1 January 1940. The Highway Master Project which was approved in 1939 is illustrative of the disadvantage imposed upon the Commonwealth by this restriction which is, apparently NOT specified in the law but is merely a ruling by the WPA. Every effort should be made by the General Assembly to secure a modification of this ruling.

The Sewing Project, approved in 1939 and under which the Commonwealth has been contributing $2.50 per woman per month for the purchase of materials, etc., is a case in point. Had the WPA ruling noted above not been in effect and had the Commonwealth been allowed to compute its contributions on an "over-all" basis the result probably would have shown that the Commonwealth was and is meeting the requirements of the law. The WPA gave to the Committee information to the effect that, on all projects approved on and after 1 January 1940, the Commonwealth's contributions are averaging 25.66%.

The history of the Sewing Project shows that the monies ($19,000,000.00) allocated at its inception in 1939 were fully exhausted by October 1940, at which time WPA applied to the Acting Commissioner of WPA for more funds in order to continue operations. Funds sufficient for operating until 20 February 1941 were granted.

Your Committee has found it impossible to isolate data of the Sewing Project since, of necessity, all WPA projects in the Commonwealth are to some extent interrelated. This being the case, and in order properly to ascertain the roots of the Sewing Project dispute, a great deal of time and effort has had to be expended in going over other phases of WPA activities in the Commonwealth.

Your Committee found that apparently not sufficient effort has been made by either WPA officials or by the Commonwealth to reach amicable agreements under which projects could operate properly and, by so doing be of benefit to the citizens of the Commonwealth. Apparently there has been no semblance of attempts until recently by officials on either side to reach a common

understanding as to the system to be used in determining what percentage of the cost of the projects is being borne by the Commonwealth.

The Committee feels that both the Commonwealth and the WPA should at all times conduct their negotiations in a spirit of cooperation; and they should bear in mind only the fact in the future that these projects should be so operated as to ensure that the Commonwealth should secure a fair return for monies expended, and that those employed on such projects and for whose benefit both financially and socially the entire WPA idea was devised are receiving all benefits possible.

Your Committee is continuing its efforts, both through personal contacts and through our representatives in the Congress, to achieve a settlement under which the Sewing Projects may continue and, further, to ensure that no further disruption of these projects shall occur.

At a meeting to be held Wednesday in Washington your Committee will endeavor to have the project continued during the next two weeks pending final and satisfactory determination of this matter.

Respectfully,

WILLIAM A. SHAW

LETTER OF TRANSMITTAL

To the Members of the General Assembly of the Commonwealth of Pennsylvania:

In pursuance of House Resolution, Serial No. 133 of the Regular Session of 1939, and under the authority of the Act of July 1, 1937, P. L. 2460, as amended by the Act of June 26, 1939, P. L. 1084 (Act creating Joint State Government Commission), we submit herewith the First Report on the Tax and Financial Problems of the Commonwealth of Pennsylvania and Recommendations.

ELLWOOD J. TURNER, Chairman,
Joint State Government Commission.

January, 1941.

Table C-XXVIII Citations and Principal Provisions of Tax and License Measures 6582

INTRODUCTION

The present Report represents an attempt to facilitate a bird's eye view of the vast domain of public expenditures and taxes and the effect of both upon the welfare of the citizens of the Commonwealth of Pennsylvania.

Throughout the Report the members of the Joint State Government Commission have endeavored to avoid the introduction of details which might obscure the view of the fiscal picture as a whole. This approach has been

chosen because it was felt that wise and prudent legislation with regard to any specific detail presupposes knowledge of the interrelationships which bind all the details together. It is the considered judgment of all the members of the Joint State Government Commission that unless every member of the General Assembly has a realistic conception of how the specific legislation in which he may be interested is likely to fit into the general institutional framework of the Commonwealth, specific legislative measures, excellent as they may appear when considered in isolation, are likely to be productive of unnecessary friction.

Though limited as to time and funds, the Joint State Government Commission has attempted to compare Pennsylvania trends and Pennsylvania procedures with those of other states whose products may be presumed to compete with those of the Commonwealth. Perhaps the most significant among the comparisons in question are those relating to changes in population, changes in the output of manufactured products, changes in the value of Pennsylvania's mineral production, changes in the gross income of the Pennsylvania farmer, changes in Pennsylvania farmer, changes in Pennsylvania's per capita income, differences in major taxes in various states, differences in taxes imposed upon manufacturing enterprise in different states, and differences in the taxes payable by families in different income groups if resident in different states.

Some of the data presented in subsequent chapters represent actual count numbers, some are estimates. Some estimates are considered reasonably reliable, others are tentative and preliminary. Whenever the members of the Commission felt that a set of data presented must be considered as tentative and preliminary that fact is clearly indicated when the data in question are shown or discussed.

The members of the Commission are of the opinion that it should be one of the future tasks of the Commission to factually strengthen the materials and to undertake intense and comprehensive studies of such consequential matters as school and other subsidy procedures, and investigate further the effects of different types of taxes upon business, and the taxes which are now payable by different types of families resident in the Commonwealth. It is only after such intensive analytical studies have been made that the members of the General Assembly can be definitely assured that their legislative acts will produce the effects they contemplate.

It is the considered judgment of the members of the Joint State Government Commission that the rapid economic and fiscal changes require continuous study, study which aims at the ascertainment of all facts pertinent to well designed legislation. Such study calls for time, resources, and great patience, for in the realm of social and economic phenomena one of the most difficult things to get at is a reliable and significant fact.

Throughout the Report the members of the Joint State Government Commission have consciously abstained from making any controversial policy recommendations whatever. Their one and only objective have been to gather, organize, analyze, and present in convenient form pertinent data bearing upon public expenditures and taxes. Though devoid of controversial recommendations, this Report was not designed to eliminate policy controversy, but to make such controversy more meaningful by supplying the contestants with the pertinent facts.

In preparing the present Report the Joint State Government Commission has been generously aided by many citizens and groups of citizens. The members of the Commission wish to take this opportunity to acknowledge the valuable services rendered by staff members of Lehigh University, The Pennsylvania State College, Temple University, and The University of Pittsburgh.[1]

In addition, the members of the Joint State Government Commission wish to take advantage of this opportunity to express their appreciation of the aid freely and gratuitously given by the Pennsylvania Economy League. The League has made available to the Joint State Government Commission two studies dealing with property taxes and state taxes, respectively. It is believed that the facts presented throughout these studies are of considerable legislative interest and it has been arranged to make them available to anyone who may care to ask for them.

Thanks are due William J. Hamilton, Jr., Secretary of Revenue of the Commonwealth of Pennsylvania, Richard P. Brown, Secretary of Commerce, Dr. Edward B. Logan, Budget Secretary, Dr. Francis B. Haas, Superintendent of Public Instruction of the Commonwealth of Pennsylvania and William S. Livengood, Jr., Secretary of Internal Affairs of the Commonwealth of Pennsylvania for numerous courtesies extended.

Among the many private citizens who have aided the Commission in one way or another acknowledgment is due Dr. Paul H. Wueller of State College, who assisted in the preparation of technical materials.

A. ALFRED WASSERMAN,
Director.

Harrisburg, Pennsylvania.

SUMMARIES OF CHAPTERS

Chapter I

In the last analysis, levels of public as well as private expenditures are conditioned by levels of productive economic activities. In Pennsylvania more than 50% of all production is concentrated in factories, mines, and farms. Both the absolute and relative position of Pennsylvania factories and mines has changed for the worse during the last decade. This unfavorable change is reflected in declining income levels and increased public expenditures.

The percentage of total United States population residing in Pennsylvania has slowly decreased ever since 1890. This sagging of the relative population position of Pennsylvania suggests that the economic opportunities offered by the Commonwealth, when compared to those of the nation as a whole, have undergone a change for the worse, because as a general rule people are alert to move from declining areas to those which hold a brighter promise.

The importance of manufacturing in Pennsylvania is considerably greater than the importance of the same branch of economic activity for the nation as a whole. In Pennsylvania manufacturing accounted for 38.1% of all

[1] See, Wasserman, A. Alfred, History, Purposes and Activities of the Joint State Government Commission of the General Assembly of Pennsylvania, Harrisburg, April 1, 1940, p. 19 and following.

gainful workers in 1930. In the Nation as a whole it accounted for but 28.9%. In fact, there is reason to believe that future levels of welfare in the Commonwealth depend largely upon the expansion of manufacturing activities.

Any State fiscal policies which place Pennsylvania factories, mines, and farms at a competitive disadvantage as compared with other states seriously jeopardize the levels of living of all Pennsylvanians, including those businessmen whose prosperity depends upon high levels of productivity of the primary producers.

Though the position of Pennsylvania manfacturing enterprise is far from encouraging, the plight of Pennsylvania mines is far more discouraging.

During recent years, the extractive industries of Pennsylvania have encountered serious economic difficulties and though they still provide a substantial portion of the income of the residents of the State, they have also contributed heavily to relief and related problems.

Pennsylvania's mineral production has declined in value from approximately $936,000,000 in 1927 to $472,000,000 in 1938.

The unfavorable changes in Pennsylvania's economic position are strikingly reflected in changes in Pennsylvania's per capita income, which dropped from $758 to $412 in 1933. Per capita income increased however from $543 in 1938 and to $576 in 1939.

Chapter II

Though Pennsylvania's per capita income—the basic measure of economic welfare—has been declining total State government expenditures have more than doubled during the last decade.

In 1929-31, total State government expenditures approximated 1% of the income of Pennsylvanians. In 1939, State government expenditures approximated 5% of the income payments in Pennsylvania.

By far the largest increase in State expenditures is accounted for by public assistance disbursements which will amount to a minimum of $208,000,000 for the biennium 1939-41. This total accounts for more than one-half of all general fund disbursements exclusive of Federal funds for specific purposes.

Among the various public assistance functions, general assistance or direct relief, which, contrary to the practice in all other states, is financed exclusively by the State government in Pennsylvania, accounted for the bulk of public assistance disbursements. In 1939-41 general assistance or direct relief disbursements will amount to approximately $132,000.000

Though relief was Public Finance Problem No. 1 during the decade 1930-40, public education presented serious financial difficulties. Among the financial problems of public education, that of the distressed school districts is the most serious one. In fact, the distressed school district problem has been sufficiently serious to induce the General Assembly to provide for special appropriations varying from $1,250,000 to $5,000,000 per biennium.

Chapter III

Faced with mounting public expenditures, the General Assembly has increased State taxes considerably.

In 1929, State tax collections per capita amounted to $13.20. In 1933, State per capita taxes had risen to $14.60 and in 1938 to $26.90. In 1939 State taxes per capita had dropped to $23.80.

The general increase in State tax effort has been brought about primarily by increases in business tax rates, new business taxes, and miscellaneous excises upon selected articles of consumption.

Expressed as percentages of income payments, Pennsylvania state plus local tax collections have risen from 6.5% in 1929 to 10.5 in 1933, to 10.6 in 1938 and dropped to 9.3 in 1939.

However, in spite of increased State tax effort, it appears at this time that the Commonwealth will be faced with an estimated accumulated operating deficit of $74,000,000, less any lapsed appropriations and increases in estimated revenue.

Chapter IV

Pennsylvania's new and increased business taxes have resulted in business tax "burdens," which on the whole are decidedly heavier than tax "burdens" upon business in the states whose products compete with products manufactured in the Commonwealth.

State differences in business tax "burdens" vary with the type of business enterprise considered.

As regards one important type of enterprise, its taxes, if located in Pennsylvania, would seem to be between 10% and 70% higher than the taxes to which it would be subject if located in seven competing states. Another type of enterprise, it would seem, could reduce its taxes from between 30% and 60% by locating in a state other than Pennsylvania.

Chapter V

Though business is taxed severely in Pennsylvania, natural persons and families, too, are called upon to contribute a goodly share of their income toward the financing of public functions.

At present, a Pennsylvania family residing in an urban area other than Philadelphia and having an annual income of $1,250 pays an estimated 7.1% of its income in Pennsylvania State and local taxes, if the locality in which it resides levies both occupation and per capita taxes. If the locality in which the family resides does not levy either per capita or occupation taxes, the family under consideration pays an estimated 6.1% of its income in Pennsylvania State and local taxes. These two percentages are increased to 12.7% and 11.7% respectively if Federal taxes are added to Pennsylvania taxes.

A Pennsylvania family residing in an urban area other than Philadelphia and having an annual income of $17,500 pays an estimated 11.3% of its income in Pennsylvania State and local taxes, if the locality in which it resides levies both occupation and per capita taxes. If the locality does not levy either one of these taxes, the family in question pays an estimated 11.1% of its income in Pennsylvania State and local taxes. These two percentages are increased to 21% and 20.8% respectively if Federal taxes are added to Pennsylvania taxes.

As regards the low income family, it may be observed that it is taxed at about the same effective rate if located in the State of New York instead of the Commonwealth of

Pennsylvania. As regards the higher income family, it should be noted that it is taxed considerably heavier in Pennsylvania than it would be taxed if located in New York.

Chapter VI

In view of the accumulated operating deficit and a desire for a revision of the tax structure, numerous bills providing for additional taxes have been introduced in the General Assembly.

Though some of the bills introduced provide for additional business taxes, the bulk of the bills contemplates the taxation of natural persons by means of consumption excises, amusement taxes, sales taxes, and income taxes of one type or another.

From point of view of revenue possibilities, sales taxes and income taxes are more promising than selected consumption excises and amusement taxes.

For instance, a retail sales tax levied at the rate of 2% and exempting food, gasoline, and beverage sold at State Liquor Stores would have produced about $28,000,000 if levied in 1940. A 1% income tax upon all income would have produced an estimated $47,000,000 if levied in 1940. A 2% "clear" income tax would have produced an estimated $40,000,000 if levied in 1940, and a 1% tax upon all non-investment income would have produced an estimated $27,000,000.
